Part I	Asset and Liability Statement		(a) Beginning of Year	(b) End of Year
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Board of Trustees
Van Wert County Hospital Tax Deferred 403 (b) Plan
Van Wert, Ohio

Dear Board of Trustees:

We have conducted a Department of Labor (DOL) limited-scope audit of the financial statements of the Van Wert County Hospital Tax Deferred 403(b) Plan (the "Plan") for the year ended December 31, 2017, and have issued our report thereon dated October 15, 2019. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States of America, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 26, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. We noted no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Management's estimate of the fair value of investments is based on methodology described in Note 4 to the financial statements. We evaluated the key factors and assumptions used to develop the fair value of investments in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. One proposed audit entry was posted by management which increased employer contributions receivable on the statement of net assets and contributions on the statement of changes in net assets by \$6,588.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 15, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Internal Control Matters

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Plan as of and for the year ended December 31, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the first two preceding paragraphs and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiencies in internal control to be material weaknesses.

Correction of Prior Years Employer Contributions

During our 2014 audit testing, it was determined that employer contributions were not calculated in accordance with the plan document. We identified the same findings in the 2015, 2016 and 2017 audits. During these audits we determined that contributions were not being calculated on bonuses or retroactive pay, as required by the plan document. The Plan document does not exclude this type of pay from eligible wages; therefore, these wages should be included when calculating contributions. An amendment was adopted, effective on January 1, 2017, to exclude bonuses from eligible wages going forward. During our 2017 audit we determined that retroactive pay was improperly excluded in the contribution calculation; however, this was corrected by management in 2018. We recommend that management initiate the Voluntary Fiduciary Correction Program (VFCP) process by engaging an ERISA attorney and working through the plan record keeper to correct the 2014, 2015, 2016, and 2017 contributions.

Determination of Employee and Employer Contributions

During our testing, we noted pay code group term life (GTL) was improperly excluded from the 403(b) base compensation for three of twenty-nine participants sampled for testing. It was determined that this pay code should have been included in eligible compensation as it relates to employee deferrals, based on the plan document definition of compensation. We noted that the pay code was improperly excluded for participants for the first five pay periods of 2018 as the Plan Sponsor was transitioning payroll systems. For the remainder of 2018, we noted no issues in the Plan Sponsor determination of eligible compensation.

During our testing, it was determined that certain employee contributions and employer match contributions were not calculated in accordance with the employees elective deferral rate or in accordance with the provisions of the plan document. For seven of twenty-nine participants tested, we noted the Plan Sponsor withheld the incorrect amount from the participant's eligible compensation. For four of twenty-nine participants tested, we noted the Plan Sponsor contributed the incorrect amount of employer match to the participant's account.

During our testing we noted two of twenty-nine participants which had a deferral election change during the year. We noted this change did not get updated in the Plan Sponsor's payroll system within a timely manner. This resulted in one participant under contributing to the Plan, and one participant over contributing to the Plan.

The DOL does not apply a materiality factor to participant's accounts, and requires a corrective contribution to be applied to each participant. For the exceptions noted above, we recommend the Plan Sponsor work with the Plan's Third Party Administrator to calculate the necessary lost earnings corrections and to work with the Plan's ERISA attorney to file the corrections through the VFCP.

Participant Enrollment Forms

During our testing, it was determined that Plan Sponsor was unable to provide an enrollment form for one employee who was eligible to participate in the Plan, but was not contributing. We noted the Plan Sponsor was unable to provide an enrollment form for one participant's elective deferral rate. We recommend that all employees be required to complete enrollment forms/opt out forms upon being hired, and Human Resources retain such documentation. The enrollment forms should be maintained for all employees, regardless of the election to participate.

Timely Remittance of Contributions

During our review of employee contribution remittances, we noted several pay periods during the 2018 plan year that had significant delays in remitting contributions to the Plan. The DOL requires these contributions to be remitted as soon as administratively feasible. We recommend the Plan Sponsor work with the Plan's Third Party Administrator to calculate the necessary lost earnings correction and to work with the Plan's ERISA attorney to file this correction through the VFCP.

Other Recommendations

During the course of an audit, we frequently become aware of matters which are opportunities to strengthen internal controls or improve operating efficiency or effectiveness. We have developed the following additional recommendation for your consideration.

Document Retention

In our testing of notes receivable from participants, we noted one instance where the participant's loan amortization was unable to be provided. Although we noted no issue with the participant's ending loan balance as of December 31, 2018, we recommend maintaining all participant loan amortization schedules at the time the loan is initiated until the end of the calendar year following the final payment date.

This communication is intended solely for the information and use of management, the Plan's Board of Trustees, and others within the Plan, and is not intended to be and should not be used by anyone other than these specified parties.

We appreciate this opportunity to be of service and extend our thanks to everyone at the Plan for their cooperation and assistance. We would be pleased to discuss any of the above matters with you at your convenience.

Very truly yours,

Blue & Co., LLC

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
