Note 1. Description of Plan

The following description of STI Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of STI Group (the Company) who are age 19 or older and have completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute up to 100% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Employer matching contributions and additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. No employer contributions were made for the year ended December 31, 2018.

Investment options: Upon enrollment in the Plan, a participant may direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contribution and the Company's matching contributions, as well as allocations of any profit-sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching and profit sharing contributions have a five-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeitures: Participant forfeitures of nonvested balances may be used to reduce future employer contributions and pay the expenses of the Plan. During 2018, $100 of forfeitures were used to pay for Plan expenses. At December 31, 2018 and 2017, unallocated forfeitures totaled approximately $8,028 and $800, respectively.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest as determined by the Plan Administrator. These rates range from 4.25% to 10.25% on loans outstanding at December 31, 2018, and mature through 2023. Principal and interest are paid ratably through biweekly payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Contributions: Contributions from Plan participants and the matching contribution from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Profit-sharing contributions are recognized upon authorization and in the year the underlying compensation is recognized under the Plan. All participant and employer contributions are participant-directed. Participant contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction in contributions.

Payment of benefits: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net depreciation in fair value of investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Adoption of accounting pronouncement: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying or adding certain disclosures. The Plan early adopted the removed and modified disclosures and delayed the adoption of the additional disclosures until the fiscal year beginning after December 15, 2019. The effect of adopting the ASU resulted in the removal or modification of certain fair value measurement disclosures presented in the financial statements. Plan management is currently evaluating the impact of the additional disclosures on its financial statements.

Subsequent events: The Plan has evaluated subsequent events through October 14, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the American United Life Insurance Company

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2018	2017
Investments at fair value	$ 6,476,365	$ 6,344,454
Notes receivable from participants	297,019	292,863

The trustee also certified the completeness and accuracy of $422,595 of net depreciation in fair value of investments, interest and dividends of $6,140 related to the aforementioned investments and $14,119 of interest income on notes receivable from participants for the year ended December 31, 2018.

Note 4. Fair Value Measurements

The *FASB Accounting Standards Codification* (ASC), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the ASC, Fair Value Measurements and Disclosures, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Mutual funds are valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest contract: These accounts represent investment contracts with American United Life Insurance Company (AUL). Fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity (some investments allow withdrawals without penalty for death, disability, termination or retirement). This fair value is determined by comparing current market interest rates to the interest rate on the account and adjusting for the number of years until the maturity date. The fair value of the guaranteed interest contract is classified within Level 3 of the valuation hierarchy. In determining the reasonableness of the methodology, the Plan may use third-party pricing sources or appraisers. The Plan evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments and overall credit ratings.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,862,481	$ -	$ -	$ 5,862,481
Guaranteed interest contract	-	-	613,884	613,884
Total assets in the fair value hierarchy	$ 5,862,481	$ -	$ 613,884	$ 6,476,365

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,605,381	$ -	$ -	$ 5,605,381
Guaranteed interest contract	-	-	739,073	739,073
Total assets in the fair value hierarchy	$ 5,605,381	$ -	$ 739,073	$ 6,344,454

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

The following table presents changes in assets classified in Level 3 of the fair value hierarchy during the year ended December 31, 2018 attributed to the following:

	Guaranteed Interest Contract
Balance at beginning of year	$ 739,073
Interest credited	6,140
Purchases	53,270
Loan repayment	10,595
Sales and transfers	(195,194)
Balance at end of year	$ 613,884

Note 4. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2018 and 2017.

	Fair Value		Principal Valuation	Unobservable	Range of Significant	Weighted
Instrument	2018	2017	Technique	Inputs	Input Values	Average
Guaranteed interest contract	$ 613,884	$ 739,073	Theoretical transfer (exit value)	Credit interest rate	0.85% 0.75%	0.91% 0.74%

Transfers between levels: For the year ended December 31, 2018, there were no transfers between Levels 1 and 3.

Note 5. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by AUL. AUL is the trustee, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

The Company paid certain administrative expenses related to the Plan for the year ended December 31, 2018. No fees were paid by the Plan for administrative services for the year ended December 31, 2018.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Plan sponsor contributions.

Note 7. Tax Status

Effective January 1, 2012, the Plan adopted a standardized form of a prototype plan. The Plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. Although the Plan has been amended since receiving this determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
