1. Description of Plan

The following description of the Automattic Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Automattic Inc. and participating companies ("Company"). The Plan is subject to the provisions of ERISA. The 401(k) Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Automattic Inc. established the Plan effective August 1, 2017. The accounts of Automattic Inc. employees participating in the TriNet 401(k) Plan, a multiple employer defined contribution plan, were transferred from the TriNet 401(k) Plan to the Automattic Inc. 401(k) Plan (a plan solely sponsored by Automattic Inc.).

Contributions: Each year, participants may contribute up to the maximum allowed by law of their annual compensation, as defined in the Plan. Participants may elect to designate all or a portion of their elective deferrals as Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company makes a safe-harbor matching contribution equal to 100 percent of a participant's elective deferrals up to 6 percent of the participant's compensation. The Company may make additional matching contributions equal to a discretionary percentage of salary deferrals and profit-sharing contributions for eligible participants. No additional matching or profit-sharing contributions were made by the Company for the year ended December 31, 2018 or the period August 1, 2017 through December 31, 2017. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain IRS limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and Company safe-harbor and additional matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and Company safe-harbor contributions plus actual earnings thereon. Vesting in the Company's additional matching and profit-sharing contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after four years of credited service.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is currently set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of benefits: On termination of service, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service withdrawals are permitted for participants who have attained age 59 1/2 or for a qualified financial hardship.

Forfeited accounts: At December 31, 2018 and 2017, there were no forfeited non-vested accounts. These accounts will be used to reduce future employer contributions or pay administrative expenses of the Plan. No forfeited nonvested accounts were used during 2018 or during the period August 1, 2017 through December 31, 2017.

2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and Sunwest Trust, Inc ("Sunwest"). See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable and benefits paid are included in administrative expenses.

Subsequent events: The Plan has evaluated subsequent events through October 13, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Exchange traded funds: Valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end exchange traded funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The exchange traded funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Level 1	*Level 2*	*Level 3*	*Total*
Exchange traded funds	$ 19,901,981	$ -	$ -	$ 19,901,981
Investments at fair value	$ 19,901,981	$ -	$ -	$ 19,901,981

	Assets at Fair Value as of December 31, 2017			
	Level 1	*Level 2*	*Level 3*	*Total*
Exchange traded funds	$ 16,603,685	$ -	$ -	$ 16,603,685
Investments at fair value	$ 16,603,685	$ -	$ -	$ 16,603,685

4. Related-Party Transactions and Party-in-Interest Transactions

As described in Note 2, the Plan paid expenses related to plan operations to Betterment for Business LLC, the recordkeeper for the Plan. These transactions qualify as exempt party-in-interest transactions under ERISA.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

6. Tax Status

The IRS has determined and informed the pre-approved plan sponsor by a letter dated October 31, 2016, that the pre-approved plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the pre-approved plan has been amended since receiving the advisory opinion letter, the Plan administrator and the pre-approved plan sponsor believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net appreciation (depreciation) in fair value of investments, dividends and interest for the year ended December 31, 2018 and the period August 1, 2017 through December 31, 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Sunwest.

9. Nonexempt Transactions

Title I of ERISA requires that all employee contributions be submitted to the Plan as soon as administratively possible but no later than the 15th business day of the month following the month of being withheld from compensation. Failure to remit employee contributions to the Plan on a timely basis is considered a nonexempt prohibited transaction with a party-in-interest. Participant contributions of $624,161 and $101,842 were withheld from participants' pay during 2018 and the period August 1, 2017 through December 31, 2017, respectively, but were not remitted to the Plan's trust within the time frame required by the Department of Labor. Of this amount, $4,712 and $1,817 remained due to the Plan as of December 31, 2018 and 2017, respectively. Lost earnings will be voluntarily corrected through procedures prescribed by the Department of Labor during 2019. The Plan sponsor does not believe amounts related to lost earnings are material to net assets available for benefits.
