It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective April 1, 2017, the Plan was amended and restated to update eligibility requirements for entering the Plan and to credit service with the predecessor employer, K&M Precision Products.

Effective January 1, 2018, the previously-adopted plan was restated. The restatement included Lakeshore Fittings, Inc. as a controlled group under the Plan.

Effective August 1, 2018, John Hancock Trust Company LLC (“John Hancock”) was named the Trustee of the Plan and the Plan assets were transferred to John Hancock. Prior to August 1, 2018, Capital Bank and Trust Company was the Trustee, as defined by the Plan.

Effective August 15, 2018, the Lakeshore Fittings, Inc. 401(k) Retirement Plan, which covered the employees of Lakeshore Fittings, Inc. was merged with and into the Plan. Accordingly, the assets of the Lakeshore Fittings, Inc. 401(k) Retirement Plan, were transferred into the Plan and are shown on the Statement of Changes in Net Assets Available for Benefits as Transfers into the Plan.

Reclassifications:

Certain prior year amounts have been reclassified to conform to the current year's presentation.

NOTES TO FINANCIAL STATEMENTS
ALCO MANUFACTURING CORPORATION LLC
401(K) RETIREMENT PLAN AND TRUST

2 Summary of Significant Accounting Policies, Continued

Valuation of Investments:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Expenses of the Plan are borne by the participants. In addition, loan and distribution fees are paid by the participants.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds, guaranteed income contract, and collective funds holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 15, 2019, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

ALCO MANUFACTURING CORPORATION LLC
401(K) RETIREMENT PLAN AND TRUST

3 Tax Status

On January 1, 2018, the Plan sponsor adopted a volume submitter profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The previously-adopted plan was a prototype profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. The Plan has been amended since receiving the opinion letters. The Plan is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

4 Fair Value Measurements, Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices.

Common Collective Trusts:

The common collective trust funds are based on the net asset value (“NAV”) as a practical expedient of shares held by the Plan at year-end, as reported by the administrator of the fund on a daily basis. The NAV is based on the underlying assets in the funds and is not quoted on an active market. Participant transactions (purchases and sales) may occur daily. There are no unfunded commitments, and there is no redemption period at the participant level. Were the Plan to initiate a full redemption of the funds, the investment manager reserves the right to temporarily delay withdrawal from the funds in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed Income Contract:

The fair value of the guaranteed income contract is backed by Principal Life Insurance Company. It guarantees principal and provides for a stated crediting rate which is backed by Principal Life Insurance Company, as well. This guaranteed income contract is classified in the Level 3 category of the valuation hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.
