Profit Sharing Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

General

The following description of Northeast Ohio Neighborhood Health Services, Inc. Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

The Plan is a defined-contribution matching/thrift plan, sponsored by Northeast Ohio Neighborhood Health Services, Inc. (Company) for the benefit of its employees who have at least one year of service (at least 1,000 hours worked). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Variable Annuity Life Insurance Company (VALIC) serves as the custodian of the Plan.

Contributions

Under the Plan, no employee contributions are allowed. All Company contributions made to the Plan are placed in individual accounts in the name of the participant. Company contributions consist of the following:

- a. A matching contribution equal to \$.75 for every \$1.00 of participants' elective deferrals made into Northeast Ohio Neighborhood Health Services, Inc. Tax Shelter Annuity Plan (a 403(b) plan) up to 4% of each participant's gross compensation.
- b. A discretionary contribution in an amount determined by the Company's Board of Directors. The discretionary contribution made during 2017 was approximately \$424,000. No discretionary contribution was made during 2018.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the employer's contributions and credited or charged with the participant's share of the quarterly allocation of the Plan's net income or loss. Allocations are based on participants' earnings or account balances, as defined in the Plan agreement.

Northeast Ohio Neighborhood Health Services, Inc.

Profit Sharing Plan

Notes to Financial Statements December 31, 2018 and 2017

Vesting

Vesting in the Company's matching and discretionary contributions is based on years of service with the Company in the following percentages:

Years of Service	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

The nonvested balance is forfeited upon termination of service. Forfeitures are first used as a restoration of re-entering participant's forfeitures, then to reduce the Company's discretionary contributions, then to reduce the Company's matching contributions, and finally to reduce Plan expenses.

Payment of Benefits

Upon disability, retirement, death, or other reasons, a participant shall receive payment of the value of his or her vested account through annuities or a cash option based upon predetermined thresholds as defined in the agreement. At December 31, 2018 and 2017, there were no Plan assets allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited account balances totaled approximately \$254,000 and \$223,000, respectively.

Plan Loans

VALIC may issue loans to Plan participants outside the scope of the Plan. Participants pledge as security a portion of their vested balance in the VALIC Fixed Account Plus which represents 100% of the outstanding loan balance. The amount pledged as collateral at December 31, 2018 and 2017 was approximately \$459,000 and \$432,000, respectively.

The Employee Benefit Security Administration (EBSA) has expressed concern that the pledging of collateral of a participant's balance could be considered a prohibited transaction; however, formal guidance has yet to be issued by the EBSA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments.

Pooled separate accounts are valued at estimated fair value as provided by The Variable Annuity Life Insurance Company (VALIC).

The fully benefit-responsive unallocated contract is valued at contract value. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by VALIC. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter dated March 31, 2014, from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code and that the related trust was tax-exempt as of the financial statement date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Company.

Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, net assets would be distributed to participants according to each participant's account balance. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 3: Certification of Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, VALIC, the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017
- Investment (loss) income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017
- Investment information included in the accompanying schedule of assets (held at year end) as of December 31, 2018

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017:

2018				
Fair Value Measurements Using				
Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Pooled separate accounts	\$ 6,617,233	\$ -	\$ 6,617,233	\$ -

2017				
Fair Value Measurements Using				
Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Pooled separate accounts	\$ 7,435,575	\$ -	\$ 7,435,575	\$ -

Notes to Financial Statements

December 31, 2018 and 2017

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2018 and 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There were no Level 3 securities identified.

Pooled separate accounts: Valued at the net asset value (NAV) of the underlying shares held by the accounts at year-end.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Certain Plan assets are in investment funds managed by the Plan custodian. The Company provides certain administrative services at no cost to the Plan.

Note 6: Investment Contracts

The Plan has a traditional benefit-responsive investment contract with VALIC. VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Northeast Ohio Neighborhood Health Services, Inc.

Profit Sharing Plan

Notes to Financial Statements

December 31, 2018 and 2017

The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3 percent for accounts set up before December 1, 2003 or less than 2 percent for accounts set up after December 1, 2003. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value events, which would limit the Plan's ability to transact at contract value with participants, is probable.

The unallocated investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through October 11, 2019, which is the date the financial statements were available to be issued.
