1. Description of the Plan

The following description of the Steves & Sons Employees 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering substantially all employees of Steves & Sons, Inc. (the Company or Employer). The Plan is designed to comply with the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). The holder of the Plan's assets and recordkeeper is American United Life Insurance Company (AUL).

Eligibility

All employees of the Company who have completed at least 1 year of service and who are age 19 or older are eligible to participate in the Plan.

Employee Contributions

Participants may elect to contribute up to 100% of their annual compensation as defined in the Plan, subject to the maximum dollar amount allowable under the IRC. Additionally, participants are allowed to make rollover contributions from certain tax-qualified retirement plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Employer Contributions

The Company may make a discretionary matching contribution equal to a percentage of the participant's elective salary deferral contributions to the Plan. The Employer matched 20% of each participant's deferral contribution up to 4% of each participant's annual compensation during the year ended December 31, 2018.

Participant Accounts

Each participant's account is credited with the participant's contributions, Employer's contributions and earnings or losses, and may be charged with certain administrative expenses. Plan earnings or losses are applied to a participant's account balance based on the investment experience of the funds held and the number of shares owned in each fund by the participant.

1. Description of the Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Company's matching contributions plus actual earnings or losses thereon is based on continuous years of service as follows:

Years of Service	Percent Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Upon death or disability, the participant (or his/her beneficiary in case of his/her death) becomes 100% vested in the Plan. Upon reaching normal retirement age or after six years in the Plan, the participant becomes 100% vested in the Plan.

Forfeitures

Forfeitures of terminated participants' non-vested account balances may be used to reduce Employer contributions or to pay Plan administration expenses. There were no forfeited accounts with balances at December 31, 2018 or 2017.

Payment of Benefits

The benefit to which a participant is entitled equals the value of the participant's vested interest in his or her account. On termination of service due to death, disability, severance, or retirement, a participant may elect to receive a lump-sum payment equal to the vested portion of his or her account. Upon termination of employment, vested account balances of less than $5,000 may be distributed in a lump sum or rolled over to another qualified plan or an Individual Retirement Account or Annuity for the benefit of the participant. Account balances less than $1,000 are distributed as a lump sum distribution.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a menu of investment options held in pooled separate accounts and stable value funds.

Administrative Expenses

Administrative expenses are generally paid by the Employer. However, the Plan may pay transaction fees which are allocated to the specific participants initiating the transactions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the participants' account balances.

Payment of Benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by AUL. See note 3 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan has determined that the stable value fund is not fully benefit-responsive and, as such, has recorded the investment contract at fair value.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses for investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Investments in fixed annuity contracts are considered fully benefit responsive investments and as such are reported at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. See note 4 for discussion on fixed annuity contracts.

Accounting Pronouncements Issued and Adopted

In June 2018, FASB issued ASU 2018-09 *Amended Subtopic 962-325, "Plan Accounting - Defined Contribution Plans - Investment - Other."* This update removes the stable value common collective trust fund from the illustrative examples to avoid the interpretation that such an investment would never have a readily determinable fair value and, therefore, would always use the NAV practical expedient. Rather, a plan should evaluate whether a readily determinable fair value exists to determine whether those investment options may qualify for the practical expedient to measure at NAV in accordance with Topic 820. The amendments in this ASU are effective for fiscal years beginning after December 15, 2019. The Plan has elected to adopt ASU No. 2018-09 early, as permitted, during the 2018 plan year. The adoption of this ASU resulted in a change in reporting the common collective trust and pooled separate accounts in the fair value hierarchy based upon the Plan Sponsor's evaluation of the common collective trust and the pooled separate accounts' readily determinable fair value.

3. Fair Value Measurements

The accounting standards establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy places the highest priority on unadjusted quoted marked prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 inputs such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

3. Fair Value Measurements (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of its investments:

Pooled separate accounts: The fair value of participation units held in pooled separate accounts are based on the net asset values NAV reported by the fund managers as of the financial statement dates and recent transaction prices. The funds invest in underlying domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation determined by the fund's manager. The pooled separate accounts provide for daily redemptions by the Plan at the reported net asset values per share, with no advance notice requirement.

In accordance with ASC Subtopic 820-10, investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per share:

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Holding Period
December 31, 2018				
Pooled separate accounts	**$ 2,666,842**	**N/A**	**Daily**	**None**
December 31, 2017				
Pooled separate accounts	$ 2,735,304	N/A	Daily	None

4. Fixed Income Contracts

The Plan offers a fully benefit responsive guaranteed invest contract with AUL as an investment option to its participant's. The balance in the contract was $383,234 and $175,227 at December 31, 2018 and 2017, respectively. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer and was 4.0% at December 31, 2018. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

4. Fixed Income Contracts (Continued)

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

5. Information Certified by AUL (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by AUL, except for comparing such information to information included in the Plan's financial statements and supplemental schedule.

5. Information Certified by AUL (Unaudited) (Continued)

AUL has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

December 31,	2018	2017
Investments:		
Pooled separate accounts	$ 2,666,842	$ 2,735,304
Fixed income account	383,234	175,227
	$ 3,050,076	$ 2,910,531

Year ended December 31,	2018
Investment Income:	
Net depreciation in fair value of investments	$ (122,388)
Interest on fixed income account	9,071
Total Investment Income	$ (113,317)

6. Excess Contributions Payable

The excess contributions payable of $50,337 and $22,269 at December 31, 2018 and 2017, respectively, related to amounts payable to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

7. Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become fully vested in their accounts.

8. Tax Status of the Plan

The Employer adopted a prototype plan document sponsored by AUL. AUL received an opinion letter from the IRS dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Parties-In-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by American United Life Insurance Company and its affiliates qualify as party-in-interest transactions.

10. Reconciliation of Financial Statements to Form 5500

The following are reconciliations of net assets available for benefits per the financial statements to the Form 5500.

December 31,	2018	2017
Net assets available for benefits per the financial statements	$ 3,015,465	$ 2,896,358
Add: Excess contributions payable	50,337	22,269
Less: Contributions receivable	15,726	8,096
Net assets available for benefits per the Form 5500	$ 3,050,076	$ 2,910,531

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500:

Year ended December 31,	2018
Net Increase in net assets available for benefits per the financial statements	$ 119,107
Change in excess contributions payable	28,068
Change in contributions receivable	(7,760)
Net Increase in net assets available for benefits per the Form 5500	$ 139,415

11. Subsequent Events

The plan administrator evaluated events or transactions that occurred after December 31, 2018, and through October 15, 2019, the date the financial statements were available to be issued.
