INDEPENDENT AUDITORS' REPORT

Plan Administrator and Administrative Committee
Sanoh America, Inc. Salaried Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sanoh America, Inc. Salaried Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Fidelity Management Trust Company and Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions from January 31, 2018 to December 31, 2018, and that Principal Trust Company held the Plan's investment assets and executed investment transactions January 1, 2017 to January 31, 2018. . The plan administrator has obtained a certification from the custodians as of and for the years ended December 31, 2018 and 2017, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2018 and 2017

A - DESCRIPTION OF PLAN

The following description of the Sanoh America, Inc. Salaried Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General: The Plan, effective on January 1, 2003, is a defined benefit pension plan sponsored by Sanoh America, Inc. (the "Company" or "Plan Sponsor"). All Sanoh America, Inc. salaried employees are eligible to participate upon the later of age 21 or upon completion of one year of continuous service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* ("ERISA"). Principal Life Insurance Company ("Principal") served as the custodian, recordkeeper and actuary of the Plan through January 2018 at which time Fidelity Management Trust Company ("Fidelity") became the custodian, recordkeeper, and actuary. At the time of the transfer, all of the assets of the Plan were placed into the Sanoh America, Inc. Pension Plan Master Trust. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding Policy: The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's funding policy is to make contributions to the Plan in amounts as determined by the Plan's independent actuary. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits: Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by .75% of average compensation, reduced by social security benefits and multiplied by the total number of years of credited service, not to exceed 40 years. A participant is 100% vested after five years of service. Prior to that time, the participant is not vested.

Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of continuous service or may qualify for special early retirement benefits upon reaching age 55 and completing 15 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date. Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and one-half survivor annuity.

Death and Disability Benefit: A married employee who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to 50% of the accrued benefit unless the beneficiary is more than 5 years younger which requires a further reduction in the benefit.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2018 and 2017

A - DESCRIPTION OF PLAN (continued)

An employee who becomes totally and permanently disabled will continue to accrue benefit service for the period the eligible employee is entitled to a disability benefit under the Company's long-term disability plan.

Vesting: Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements, and the actuarial present value of accumulated plan benefits at the benefit information dates. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note F for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2018 and 2017

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent events: The Plan has evaluated all subsequent events through October 14, 2019, the date the financial statements were available to be issued.

C - ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuary report of the present value of accumulated plan benefits and the change in the present value of accumulated plan benefits as of January 1, 2018 and 2017 and the years then ended were prepared by the Fidelity Workplace Investing LLC for 2018 and the Principal Financial Group for 2017. Actuarial valuation assumptions and methods used as of January 1, 2018 and 2017, are updated each year for assumption and method changes as prescribed by law such as changes in the maximum compensation and benefit limits and the prescribed mortality table.

The actuarial present value of accumulated plan benefits as of January 1, 2018 and 2017 is as follows:

	2018	2017
Vested Benefits:		
Participants in pay status	\$ 358,129	\$ 305,788
Inactive participants	1,133,989	1,129,655

Increase during the year attributable to:		
Interest due to the decrease in the discount period	235,444	199,384
Benefits paid	(33,123)	(29,896)
Benefits accumulated and plan experience	521,686	263,021
Change in assumptions	<u>(582,250)</u>	<u>487,876</u>
Actuarial present value of accumulated plan benefits at January 1, 2018 and 2017	<u>\$ 3,925,173</u>	<u>\$ 3,783,416</u>

The significant actuarial assumptions used in the January 1, 2018 and 2017 valuation were:

Rate of return

on investments: 7.00% and 6.75% per annum at January 1, 2018 and 2017, respectively

Mortality:

For 2018, RP-2014 Total Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with MP-2017 Mortality Improvement Scale applied on a generational basis

For 2017, IRS Prescribed Mortality-Optional Combined Table for Small Plans, Male and Female

Expenses:

An estimate of administrative expenses is included in normal cost

Retirement age:

Age 65 is normal retirement age as defined in Plan provisions

Asset valuation:

Asset valuation method, which allows for smoothing of gains/losses over multiple years

Discount rate:

7.00% and 6.25% per annum at January 1, 2018 and 2017, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

D - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
3. Vested benefits not insured by the PBGC.
4. All nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefits obligations and may depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

F - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2** Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

F - FAIR VALUE MEASUREMENTS (continued)

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits. There have been no significant changes in the valuation methodologies used at December 31, 2018 and 2017. The Plan has no liabilities measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are classified within Level 1 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017. All of the Plan's investments as of December 31, 2018 were held in the Sanoh America, Inc. Pension Plan Master Trust, see Note G.

F - FAIR VALUE MEASUREMENTS (continued)

The pooled separate accounts are valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

G - INTEREST IN SANOH AMERICA, INC. PENSION PLAN MASTER TRUST

All of the Plan's investments are in the Sanoh America, Inc. Pension Plan Master Trust, which was established for the investment of assets of the Plan and one other Sanoh America, Inc sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Sanoh America, Inc. Pension Plan Master Trust are held by Fidelity Managment Trust Company.

The value of the Plan's interest in the Sanoh America, Inc. Pension Plan Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2018 and 2017, the Plan's interest in the net assets of the Sanoh America, Inc. Pension Plan Master Trust was approximately 39 percent and zero percent, respectively. Total investment income (including net appreciation (depreciation) in the fair value of investments) of the Sanoh America, Inc. Pension Plan Master Trust is allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the master trust.

The following table presents the investments and other assets and liabilities of the Sanoh America Inc. Pension Plan Master Trust as of December 31, 2018 and 2017:

H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. The unallocated insurance contracts (pooled separate accounts) utilize various investment instruments including U.S. government securities, corporate debt instruments, limited partnerships, joint ventures, common collective trusts and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Plan's financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2018 and 2017

I - PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2018, Plan investments were held in the Sanoh America, Inc. Pension Plan Master Trust by Fidelity. At December 31, 2017, Plan investments were held in funds managed by Principal. Principal was the custodian and recordkeeper through January, 2018, at which point Fidelity became the custodian and recordkeeper. Administrative expenses paid amounted to \$6,608 and \$57,136 for 2018 and 2017, respectively. Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan.

These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the Internal Revenue Code's and ERISA's rules on prohibited transactions.

J - FEDERAL INCOME TAX STATUS

The Plan Sponsor adopted the Plan on January 1, 2003. The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated January 6, 2006, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been restated since receiving the initial determination letter and received an additional determination letter dated January 27, 2016. The determination letter expires on January 31, 2020. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirement of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions. The 2013 Form 5500 was examined during 2015 by the IRS. In a letter dated August 18, 2015, the IRS stated that no change is necessary in the information reported and have accepted the return as filed. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2015.

Salary Scale: 3.50% (previously, 3.00%). Provided by the company based on anticipated future experience.

Increase in Consumer Price Index (CPI): 2.00% increase per year. We believe this assumption to be reasonable.

Increase in Social Security Taxable Wage Base: 3.00%. Real wage growth combined with inflation assumption indicates an economic assumption of social security national wage growth in pension plan valuations. Based on historic real growth in National Average Wages (from 1951) and Social Security estimate of around 1%, our best estimate places this assumption in the range of 0.75% to 1.25% above inflation.

Administrative Expenses:

ERISA: \$70,000 for 2018 (previously \$32,000 in 2017). Estimated based on expected non-investment related administrative expenses paid from the Trust plus estimated PBGC premiums for the current year.

Mortality:

ERISA: IRS 2018 Static Mortality Table determined under former § 1.430(h)(3)-1(c) and (d) provided in Appendix A of Notice 2017-60 using separate tables for annuitants and non-annuitants in accordance with § 1.430(h)(3)-1(f)(2) (previously IRS 2017 Static Mortality Table). These tables include future mortality improvement of 7 years for annuitants and 15 years for non-annuitants. The plan sponsor elected to use the methodology in place for 2017 mortality determination under former § 1.430(h)(3)-1(c).

Retirement Rates: Active participants are assumed to retire at the point in time in which they reach age 62 and 10 years of service (or Normal Retirement Age, if sooner).

Inactive participants are assumed to retire at Normal Retirement Age.

This assumption is based on the prior actuary's experience analysis and anticipated future experience.

Termination: 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. This plan does not have a large enough population to deviate from the standard tables. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. This assumption was developed based on an experience analysis completed by the prior actuary. Sample rates are shown below:

<u>Age</u>	<u>Rate of Withdrawal</u>	<u>Age</u>	<u>Rate of Withdrawal</u>
20	24.30%	40	9.40%
25	19.50%	45	7.30%
30	15.50%	50	5.60%
35	12.10%	55	4.20%

Marital Status: 75% of males and females are assumed married, with females 3 years younger than males. This assumption does not have material impact on the results of this report and has been selected based the prior actuary's assumption.

Maximum Benefit: \$220,000 for 2018.

Maximum Salary: \$275,000 for 2018.

Form of Payment: It has been assumed benefits will be paid in the normal annuity form applicable to the particular benefit. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method. Other optional forms are roughly actuarially equivalent on the valuation basis, so no significant gains or losses are anticipated.

Actuarial Assumptions and Methods (continued)

Actuarial Value of Plan Assets for Funding Purposes:

The actuarial value of assets is equal to:

- a) the market value of assets, including discounted receivables, on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 67% of the prior year, and
 - ii) 33% of the second prior year,

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 6.75%, not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Actuarial Assumptions and Methods (continued)

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7-year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount purposes. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

INDEPENDENT AUDITORS' REPORT

Plan Administrator and Administrative Committee
Sanoh America, Inc. Salaried Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sanoh America, Inc. Salaried Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Fidelity Management Trust Company and Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions from January 31, 2018 to December 31, 2018, and that Principal Trust Company held the Plan's investment assets and executed investment transactions January 1, 2017 to January 31, 2018. . The plan administrator has obtained a certification from the custodians as of and for the years ended December 31, 2018 and 2017, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Plan Provisions (continued)

Death with pre-retirement spouse benefit: If the participant was eligible for early retirement, the benefit is payable immediately. Otherwise, the benefit is payable when the participant would have been eligible for early retirement. The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated on his date of death, elected the 50% Joint and Survivor annuity on his earliest retirement date, and died the next day.

Disability: The expected benefit at NRD. Accrual Service continues to accrue for the period that the participant is entitled to a disability benefit under the plan sponsor's long term disability plan.

Forms of Payment:

Normal form (single participants): Single life annuity.

Normal form (married participants): Actuarially reduced 50% joint and survivor annuity with spouse as beneficiary.

Optional forms: Participants who retire under the plan may elect a single life annuity, a ten-year certain and life annuity, a joint and survivor annuity with survivorship percentages of 50%, 75%, or 100%, an 80/80 Spouse's Annuity, or a 90/50 Spouse's Annuity.

Optional form conversion factors: Applicable optional forms are determined with conversion basis of 7.00% interest and the RP-2000 mortality table with a 50% male/female mix projected forward to 2005.

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.
