Paragon Medical, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Paragon Medical, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Paragon Medical, Inc. and its wholly owned subsidiary Pendleton Technologies, Inc. (collectively the "Company"). An employee becomes eligible to enter the Plan on the first day of the month following the attainment of age 18 and the completion of one year of service, as defined by the Plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may elect to contribute a percentage of their pretax annual compensation to the Plan, as defined in the Plan agreement. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

At its discretion, the Company may elect to contribute to the Plan. For the year ended December 31, 2018, the Company made a safe harbor matching contribution equal to 100% of participant's elective deferrals up to 3% of compensation, plus 50% of elective deferrals between 3% and 5%. No other discretionary contributions were made. Contributions are invested in a manner similar to participant contributions and are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, an allocation of the Company's safe harbor contribution, the Company's discretionary profit sharing contribution (if any), Plan earnings, and charged with any withdrawals and an allocation of certain administrative expenses. Income and realized and unrealized gains and losses on investments are allocated to the participant accounts on each valuation date based on the earnings of the directed investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions, employer matching and discretionary contributions, plus actual earnings thereon.

Note receivables from participants: The Plan allows participants to borrow from their accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are issued for a minimum of \$1,000. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. The term repayment cannot exceed five years, unless the loan is used to acquire the participant's principal residence. Payments are due each pay period, primarily through payroll deduction.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are classified as distributions upon the terms of the plan document.

Benefit payments: Benefit payments are payable as a single lump-sum payment. The full value of a participant's account is payable upon retirement, death or disability. For termination of service due to other reasons, a participant may elect to receive a lump-sum amount, rollover into another qualified plan or remain in the Plan as an inactive participant. Benefits are recorded when paid.

Administration of Plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are either paid by the Plan or the Company.

Paragon Medical, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Fair value measurements: The fair value framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Paragon Medical, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled separate accounts: Valued at the total of the net asset value (NAV) of shares held by the insurance company in their pooled accounts at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified by American United Life Insurance Company (AUL)

The Plan Administrator has elected the method of compliance as permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by AUL, except for comparing such information certified by the trustee to information included in the Plan financial statements and supplemental schedule.

The following table presents the values of the Plan's assets as certified by AUL as of December 31, 2018 and 2017.

	2018	2017
Investments at fair value:		
Pooled Separate Accounts:	\$ 27,286,458	\$ 29,082,516
Investment at contract value:		
Guaranteed Investment Account	2,261,114	1,383,805
	<u>\$ 29,547,572</u>	<u>\$ 30,466,321</u>

AUL certified as to the completeness and accuracy of \$856,122 and \$930,483 of notes receivable from participants as of December 31, 2018 and 2017, respectively.

AUL also certified as to the completeness and accuracy of (\$1,669,938) of net depreciation in fair value of investments, \$25,438 of interest and dividends related to the guaranteed investment account and interest earned from notes receivable from participants of \$37,182 during the year ended December 31, 2018.

Notes to Financial Statements

Note 4. Fair Value Measurements

None of the Plan's investments are subject to the fair value hierarchy.

For investments in certain entities that calculate the NAV per share as the investment's fair value measurement, the following table provides an overview of the nature and risks associated with such investments as well as whether it is probable those investments being sold at amounts different from their reported NAV per share based on redemption restrictions, if any.

Investment Category	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption
	2018	2017		(If Currently Eligible)	Period Notice
Shares of Pooled Separate Accounts	\$27,286,458	\$29,082,516	\$ -	N/A	N/A

Note 5. Investment Contract with Insurance Company

Included in the Plan options available to the employees is a fully benefit-responsive investment contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administration expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with AUL. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) failure of the trust to qualify for exemption under ERISA. The Plan Administrator does not believe the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The crediting interest rate at December 31, 2018 and 2017 was 1.85% and 1.20%, respectively. The average yields based on actual earnings during the year ended December 31, 2018 was 1.27%.

Notes to Financial Statements

Note 6. Income Tax Status and Uncertain Tax Positions

The Plan is a non-standardized form of a prototype plan sponsored by AUL. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since this date; however, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2015.

Note 7. Related Party Transactions

Certain Plan assets are managed by AUL. AUL performs services for the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to AUL were not material for the year ended December 31, 2018.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
