Contributions are allocated to participants' accounts in accordance with participant elections. Maximum contributions by participants are subject to certain limitations.

Each year, the Employer may make a discretionary Employer Matching Contribution to the Plan. The matching contribution will be equal to a uniform percentage or dollar amount of your elective deferrals each Plan Year and will not exceed $4,000 each Plan Year. For the plan year ended December 31, 2018, the Employer made matching contributions equal to $0.50 for each $1.00 contributed by participants. (1) Description of Plan (Continued)

(h) Loans to Participants

The plan does not permit participant loans.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

(b) Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 15, 2019, which is the date the financial statements were available to be issued.

(2) Summary of Significant Accounting Policies (Continued)

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of increases and decreases to plan assets during the reporting period. Actual results could differ significantly.

(d) Investment Valuation and Income Recognition

Investments held with Voya Retirement Insurance and Annuity Company are recorded at fair value based on quoted market prices of the securities underlying the investments. Income from investments is allocated daily to plan participants on a participation-unit basis as adjusted for contributions, forfeitures and distributions during the quarter. Purchases and sales of investments are recorded on a trade-date basis. Interest is accrued as earned and dividends are recognized on the ex-dividend date. The net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

Administrative expenses of the Plan, with the exception of distribution check fees, are paid by the Employer and may be reduced by plan forfeitures. Participants pay $50 for distribution checks except for Qualified Domestic Relations Orders ("QDRO") which participants pay $350.

(3) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under the Fair Value Measurement Topic of the Accounting Standards Codification (ASC 820) are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access at the measurement date.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2018 and 2017.

(3) Fair Value Measurements (Continued)

The following is a description of the valuation methods used for assets measured at fair value:

Variable Annuity investment options: The initial pricing input is the quoted price obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The formula-calculated unit value is then compared to an accounting-driven unit value the following morning. The accounting unit value is determined in a manner similar to a mutual fund NAV calculation: dividing the net assets by the number of units outstanding. Any discrepancies between the two unit values are resolved to ensure the recordkeeping system reflects the accurate value for the day.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Variable annuity investment options	$ -	$2,569,045	$ -	$ 2,569,045

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Variable annuity investment options	$ -	$2,926,874	$ -	$ 2,926,874

(4) Group annuity contract with Voya Retirement Insurance and Annuity Company

The Plan is invested in the Voya Fixed Account fund, which is a traditional fully benefit-responsive guaranteed investment contract that is fully guaranteed by the general account assets of Voya Retirement Insurance and Annuity Company totaling $233,335 for 2018 and $281,965 for 2017. The fund maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund is contractually obligated to repay the principal and a specified interest rate that is declared at the beginning of each calendar quarter. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the fund, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the fund's ability to meet its financial obligations. The fund's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan, (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would also limit the ability of the plan to transact at contract value with the participants.

(5) Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Voya Retirement Insurance and Annuity Company. Voya Retirement Insurance and Annuity Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for custodial services amounted to $1,617 for the plan year ended December 31, 2018. The Plan does not have an amount due to Voya Retirement Insurance and Annuity Company at December 31, 2018.

(6) Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, the custodian of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $2,802,380 as of December 31, 2018.

b. Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of $(228,432) for the year ended December 31, 2018.

c. Investment and investment income (loss) information as presented in Note 3.

d. The investment information in the schedule of assets (held at end of year) as of December 31, 2018, as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedules.

(7) Income Tax Status

The Plan uses a prototype that has been previously approved by the Internal Revenue Service for qualification under Section 401(a) of the Internal Revenue Code (IRC) and exemption from federal income taxes under Section 501(a) of the IRC. The Plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC.

(8) Plan Termination

Although it has not expressed any intent to do so, the Employer reserves the right to terminate the Plan in whole or in part at any time upon giving written notice to all parties concerned and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

(9) Risks and Uncertainties

The Plan provides for various investment options in a money market fund and mutual funds. Investment securities, in general are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts presented in the statements of net assets available for benefits.
