**Q Holding Company
Retirement & Savings Plan**

Notes to Financial Statement

Note 1. Plan Description

The following description of the Q Holding Company Retirement & Savings Plan (the Plan), formerly Q Holding Company Plan or Lexington Precision Corporation Retirement & Savings Plan prior to 2016, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was amended effective August 1, 2017 and covers all employees of Q Holding Company (the Company) with more than one month of service, as defined in the Plan Document and who have attained the age of 19. Employees may begin contributing to the Plan as of the first day of the calendar month following their first month of employment. Prior to amendment, the Plan covered all employees of the Company with more than six months of service, as defined in the Plan Document and who had attained the age of 19. Employees could begin contributing to the Plan as of the first day of the calendar quarter following their sixth month of employment.

Contributions: The Plan allows eligible participants to contribute up to 60% of their annual compensation, but no more than the prescribed dollar amounts permitted by the Internal Revenue Code. This is matched by the Plan Sponsor in an amount equal to \$.50 for each \$1.00 contributed by a participant, up to a maximum of 6% of the participant's compensation. Participants are considered eligible to receive an employer match if the employee is employed by the employer or a related employer on the last day of the contribution period. Management calculates the employer match each pay period based upon the current deferral percentage. All participant contributions and Plan Sponsor matching contributions are allocated to the various investment funds that have been elected by the participant.

Effective March 6, 2015, the Plan agreement was amended to include automatic enrollment at a deferral rate of 1% for all eligible employees, as defined by the Plan, unless employees specifically opt out of participating. Also effective March 6, 2015, the Plan agreement was amended to include an automatic deferral increase for all employees already participating in the Plan. This provision calls for a deferral increase from the current deferral percentage election of 1% each year, up to a maximum deferral rate of 6%, unless participants specifically elect otherwise.

Effective August 1, 2017, the Plan agreement was amended to include change in automatic deferrals from 1% to 3% for all newly eligible or rehired participants and increase all active participants to 3% who had a deferral election of less than 3% as of August 30, 2017. In addition, the Plan now offers Roth contributions and accepts Roth rollovers.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant account balances or employee compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferral contributions and related earnings thereon. Effective August 1, 2017, the Plan Sponsor's matching contributions to the participants' accounts become vested in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 3	0%
3	50%
4	75%
5	100%

Note 1. Plan Description (Continued)

Prior to amendment, the Plan Sponsor's matching contributions to the participants' accounts vested at 20% per year beginning after two years of service and were fully vested after six years of service.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the plan administrator. Principal and interest is paid ratably through periodic payroll deductions.

Benefit payments: A participant's vested account will be distributed upon retirement, termination, disability or death. Distributions are made as a lump sum payment or in periodic installments. Additionally, the Plan has provisions for an active participant to make hardship withdrawals from his voluntary contribution account, or make withdrawals upon reaching age 59½ subject to limitations and restrictions.

Forfeited accounts: Forfeited non-vested accounts are used by the Plan Sponsor to reduce future employer contributions payable under the Plan. At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$36,569 and \$36,478, respectively. In 2018, employer contributions were reduced by \$14,630 from forfeited non-vested accounts. Forfeitures will be used during the year ended December 31, 2019 to reduce future employer contributions.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition: Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary employer contributions are recognized when declared by the Company.

Note 2. Summary of Significant Accounting Policies (Continued)

Risk and uncertainties: The Plan invests in various investment securities, investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Benefit payments: Benefits are recorded when paid by the Plan.

Administrative expenses: Administrative expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Recently adopted accounting pronouncements: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. The effect of adopting the ASU resulted in the removal or modification of certain fair value measurement disclosures presented in the financial statements. The Plan adopted this Update for the removal of certain fair value measurement disclosures presented in the financial statements.

Subsequent events: The Plan has evaluated events for potential recognition and/or disclosure through October 14, 2019, the date the financial statements were available to be issued.

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017 and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under accounting standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Note 4. Fair Value Measurements (Continued)

Registered investment companies: Valued at quoted market prices which represent the net asset value of the shares held by the Plan at year end.

Common/collective trust fund: The Plan's interest in the Fidelity Managed Income Portfolio Fund is valued at the net asset value based on information reported by the investment advisor using the audited financial statements of the Fidelity Managed Income Portfolio Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level and major classification, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

2018				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 27,261,499	\$ -	\$ -	\$ 27,261,499
Total assets in the fair value hierarchy	27,261,499	-	-	27,261,499
Investments measured at net asset value ^(a)				6,571,930
Investments at fair value	\$ 27,261,499	\$ -	\$ -	\$ 33,833,429
2017				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 28,785,042	\$ -	\$ -	\$ 28,785,042
Total assets in the fair value hierarchy	28,785,042	-	-	28,785,042
Investments measured at net asset value ^(a)				6,234,772
Investments at fair value	\$ 28,785,042	\$ -	\$ -	\$ 35,019,814

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Note 4. Fair Value Measurements (Continued)

For the years ending December 31, 2018 and 2017, there were no transfers in or out of Level 3.

For investments in certain entities that calculate the net asset value per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it's probable those investments being sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

<u>Investment Category</u>	2018	2017	Unfunded Commitments	Redemption	
				Frequency (If Currently Eligible)	Redemption Period Notice
Common/collective trust fund	\$ 6,571,930	\$ 6,234,772	\$ -	Daily	12 Months

Note 5. Tax Status

The Plan adopted a standardized form of a volume submitter prototype plan sponsored by Fidelity Management Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status dated March 31, 2014. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 6. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company, the trustee and, therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$15,464 for the year ended December 31, 2018.

Note 7. Prohibited Transactions

During the year ended December 31, 2016, the Plan Sponsor inadvertently failed to deposit \$432,495 of participant deferrals within the required timeframe as stated by the United States Department of Labor (DOL) regulations. The DOL considers the late deposits to be prohibited transactions. During the year ended December 31, 2018, the Plan Sponsor filed the VFCP application which included reimbursement for lost earnings.
