RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan:

The following description is provided for general information purposes. Participants of the Fusion Employer Services Retirement Savings Plan (the “Plan”), should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution multiple employer plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees of Fusion Employer Services, LLC (the “Company” and “Plan Administrator”) and all employer organizations are eligible to participate in their respective plan based on the particular company’s requirements listed in that company’s respective plan agreement.

Eligibility - Employees are eligible to participate in the Plan on the first day of any month following completion of six months of service in which at least 500 hours of work was completed and the attainment of 21 years of age.

The plan includes an auto-enrollment provision whereby, if selected by the participating Work Site Employer (WSE), all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation, as defined in the plan agreement.

Contributions - Eligible employees may defer from 1% to 100% of compensation as defined on a “pre-tax” basis and “after-tax” (Roth) basis subject to certain Internal Revenue Code (“IRC”) limitations. In 2018, the maximum allowable contribution was \$18,500 plus a catch-up contribution of \$6,000 for participants age 50 and older. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participating employer organizations have elected to make either a safe harbor matching contribution to the Plan, a discretionary employer profit sharing contribution, or a match of the employee’s salary deferral. The safe harbor contribution totaled \$787,678, discretionary employer profit sharing contribution totaled \$185,691, and match of the employee’s salary deferrals totaled \$8,113 for the Plan year ended December 31, 2018.

Participants direct the investment of their contributions and the Company’s contributions on their behalf into various investment options offered by the Plan. The Plan complies with ERISA Section 404(c) regarding limitation for a participant’s individual election of funds.

Participant Accounts - Each participant’s account is credited with the participant’s contribution and an allocation of (a) the Company’s contributions, if any, (b) Plan earnings and losses, and an allocation of expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

**FUSION EMPLOYER SERVICES
RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Vesting - Participants are vested immediately in their respective contributions plus actual earnings thereon. Vesting in their portion of the Company's contribution (plus earnings thereon) is based on years of continuous service except for safe harbor elections made by certain employer organizations in which all employer matching contributions are 100% vested. A participant is generally 100% vested after 5 years of credited service (depending on the participating employer organization), which is as follows:

<u>Years of Services</u>	<u>Vested Percentage</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants - Participants may obtain loans from the Plan up to 50% of their vested account balance or \$50,000, whichever is less, with a minimum of \$1,000. Loans bear a reasonable interest rate as reflected by prevailing interest rates and are collateralized by a participant's account balance. Amounts invested in self-directed brokerage accounts are not included when calculating the maximum amount that may be borrowed. Loans are generally payable through payroll deductions and only two loans per participant may be outstanding during a twelve month period.

Payment of Benefits - In most cases, upon termination of service due to death, disability or retirement, a participant, or his or her designated beneficiary, may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of a lump-sum payment, installment payment plan or partial withdrawal. In-service withdrawals are permitted upon the participant attaining the age of 59 ½, disability, as outlined in the adoption agreement, and as a qualified reservist distribution.

Forfeitures - Forfeited accounts shall first be used to pay administrative expenses under the plan, if so directed by the Company. Any remaining forfeitures may be used to reduce the safe harbor matching contribution, a discretionary contribution, or a match of the employee's salary deferral. For the Years ended December 31, 2018 and 2017, the forfeited non-vested accounts totaled \$5,894 and \$7,675, respectively. Forfeitures of \$9,964 were used during 2018.

Self-Directed Brokerage Account - The Plan allows consenting participants, of electing employer organizations, to direct the investment of their individual accounts.

Employer Organization Transfers To or Out of the Plan - When employer organizations join or leave the Plan their respective participant accounts are reported as transfers into or out of the Plan on the Statement of Changes in Net Assets Available for Benefits.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

**FUSION EMPLOYER SERVICES
RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Group annuity contracts held by defined benefit contribution plans are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The investment committee determines the Plan's valuation policies. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant loans are reclassified as deemed distributions based upon the terms of the Plan document.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the record keeping, administration of notes receivable from participants, withdrawals and investment advisory services are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Benefit Payments - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from the participant's deferral contributions account. The withdrawal is not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service (IRS) rules and regulations. An employee's contributions to the Plan will be suspended for six months following a hardship withdrawal.

**FUSION EMPLOYER SERVICES
RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Reclassification - Certain reclassifications have been made to prior year presentation to conform to the current year presentation. Such reclassifications were limited to the Fair Value Measurements footnote and involved the reclassification of various pooled separate accounts from Level 1 to accumulated unit value (AUV). This reclassification had no impact on the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events - The Plan Administrator has evaluated subsequent events through October 15, 2019, the date the financial statements were available to be issued. The effect of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Information Certified by the Trustee:

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Financial Life Insurance Company, the Trustee of the Plan, has certified that the following information included in the financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017.
- Investment income/ (loss), as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018.
- Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2018.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

**FUSION EMPLOYER SERVICES
RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- *Pooled separate accounts:* Valued at their AUV. The separate account is valued daily as the number of accumulation units held multiplied by the AUV. The AUV is first established when a new fund starts and is then determined daily based on the AUV of shares of the underlying fund, the fund's dividends and the contract's separate account charges.
- *Self-directed brokerage accounts:* Valued at the closing price reported on the active market in which the various investments are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	<u>Investments at Fair Value as of December 31, 2018</u>			
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>

- (a) In accordance with Subtopic 820-10, certain investments that were measured at accumulated unit value per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets available for Benefits.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 5 - Pooled Separate Accounts with Insurance Company:

The Plan entered into pooled investment contracts with the Trustee. The Trustee maintains the contributions in pooled accounts. The pooled accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by the Trustee.

Note 6 - Group Annuity Contract with Insurance Company:

The Plan has investments in a fully benefit-responsive group annuity contract with the Trustee at December 31, 2018 and 2017. This account seeks to avoid investment risk by obtaining a fixed interest rate guaranteed by the insurance companies.

The insurance company declares and guarantees an interest rate for each new contribution or premium. Upon renewal, they will declare a new interest rate for that contribution or premium (and its accumulated earnings). The Group Annuity Contract is guaranteed by the insurance companies and is backed by the full faith and credit of their general accounts.

As described in Note 2, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value, as reported to the Plan by Transamerica, represent contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Under the fixed annuity option, the insurance companies guarantee a specified periodic payment to annuitants. There are no reserves against fair value for credit risk of the contract issuer or otherwise. There is no specific formula used to determine the crediting interest rate and the rate is not tied to the performance of the set of underlying assets. The Group Annuity Contracts

NOTES TO FINANCIAL STATEMENTS

promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market adjustment when funds are withdrawn prior to their maturity. The Group Annuity Contracts interest rate closely tracks current rates and are declared before each quarter. The average yield and crediting interest rates for 2018 and 2017 were 1.40% and 1.30%, respectively.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code ("IRC") or the failure of the Trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

In addition, certain events that allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 7 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants' contributions remain fully vested and Company contributions become fully vested. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such termination.

Note 8 - Tax Status:

The Plan was written on an IRS pre-approved Volume Submitter Document, which obtained its latest opinion letter on July 7, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that the trust is exempt from Federal income taxes under Section 501(a) of the IRC. Therefore, they believe that the Plan was qualified and the related

trust was tax exempt as of the financial statement date, thus, no provision for Federal income taxes has been made in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9 - Risks and Uncertainties and Concentration of Risk:

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

The Plan may have investments in funds with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The Plan's investment in one fund comprised approximately 10% of total investments for both 2018 and 2017.

Note 10 - Party-in-Interest Transactions:

Certain Plan investments are managed by the Trustee. The Trustee provides recordkeeping and administrative services to the Plan and, therefore, these transactions qualify as party-in-interest Fees paid for these services amounted to \$122,774 for the year ended December 31, 2018.
