Note A - Plan Description:

The following is a brief description of the Jackson Family of Dealerships Retirement Plan (the Plan). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of World of Powersports, Inc. (Company) who have one year of service and are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Participating Companies

The following Companies, which are related parties, are participating employers in the Plan:

Jackson Family of Dealerships - Clinton
Greenfield & Greenfield - Marty's, LLC
World of Powersports - Bloomington
World of Powersports - Peoria
World of Powersports - Springfield
Jackson Ford, Inc.
Jackson Family of Dealerships - Sullivan, Inc.

Entrance Date

An employee is eligible to enter the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year, following completion of age and service requirements.

Contributions

Each year, participants may contribute pre-tax or after-tax contributions up to the allowable limits established by the Internal Revenue Service. The Plan allows for catchup contributions for plan participants who have reached 50 years of age by the end of the plan year. Participants may also contribute amounts representing distributions from other qualified plans (rollovers).

The Company may also make discretionary matching contributions as determined by the Company. For the year ended December 31, 2018, the Company matched 50% of each 1% a participant contributes of eligible compensation up to 3% compensation. These discretionary contributions are allocated based on a nondiscriminatory classification of employees and may be allocated as a flat dollar amount per eligible employee in each classification. Contributions are subject to certain limitations.

Forfeited balances of terminated participants' nonvested accounts are used to pay Plan expenses and to reduce the Company's contributions. For the year ended December 31, 2018, $648 of forfeitures were used to reduce Company contributions. Forfeitures available for future use as of December 31, 2018, were $5,423.

Note A - Plan Description (Continued):

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based upon participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Directed Investments

Participant contributions held in the Plan are participant-directed accounts. That is, individual participants decide how funds held in trust for them are allocated among various investment options.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Benefit Payments

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or monthly, quarterly or annual installments as defined by the Plan. Hardship distributions are also allowed, as specified in the Plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution. Participants 59 ½ years and over may make withdrawals of their vested account balance prior to termination of employment. Benefit payments are recorded when paid.

Plan Termination

Although they have not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in their account balances.

Note B - Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Note B - Significant Accounting Policies (Continued):

Estimates

The preparation of financial statements requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Fair Value Measurements

Accounting Standards Codification (ASC) 820 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (or exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note C - Information Prepared and Certified by the Custodian:

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

	2018	2017
Investments, at fair value	$ 2,627,053	$ 2,576,407
Note receivable - participants	10,130	20,512
Investment loss	(213,616)	
Loan interest income	667	

Note D - Tax Status:

The prototype plan received a determination letter dated March 31, 2014, stating that the prototype plan, as then designed, was qualified under Section 401 of the Internal Revenue Code. The Jackson Family of Dealerships Retirement Plan has not requested a separate determination letter. The Plan has been restated since receiving the determination letter; however, the Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Authoritative accounting standards require the Plan to examine its tax positions for uncertain positions. Management is not aware of any tax positions that are more likely than not to change in the next 12 months or that would not sustain an examination by applicable taxing authorities.

The Plan's policy is to recognize penalties and interest as incurred in its statement of changes in net assets available for benefits, which totaled $0 for the year ended December 31, 2018.

Note E - Transactions with Parties-in-Interest:

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Plan investments are managed by Nationwide Financial Services, Inc., the custodian of the Plan and assisted by BPC, who acts as a non-fiduciary third-party plan administrator; therefore, these transactions qualify as party-in-interest transactions.

Note F - Administrative Expenses:

Significant administrative expenses are paid by the Company.

Note G - Fair Value Measurements:

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2018, compared to December 31, 2017. The Company's policy is to recognize transfers between levels at the end of each reporting period, if applicable. There were no transfers between Level 1, 2 or 3 assets or liabilities during the year ended December 31, 2018.

Money market funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Registered investment companies: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018

	Level 1	Total
Money market fund	$ 5,423	$ 5,423
Registered investment companies	2,621,630	2,621,630
Total assets at fair value	$ 2,627,053	$ 2,627,053

Assets at Fair Value as of December 31, 2017

	Level 1	Total
Money market fund	$ 3,982	$ 3,982
Registered investment companies	2,572,425	2,572,425
Total assets at fair value	$ 2,576,407	$ 2,576,407

Note H - Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note I - Reclassification:

Certain amounts included in the prior year's financial statements have been reclassified to conform to the current year's presentation. The reclassifications have no effect on net assets or the increase to net assets as previously reported.

Note J - Management Evaluation of Subsequent Events:

Effective October 1, 2019, the Company amended the Plan to exclude all employees originally hired on or after January 1, 2017, from all contributions. All participants hired on or after January 1, 2017, were able to participate in the original plan until October 1, 2019, in which all of their contributions were moved to the new plan under a special effective date for elective deferrals.

The Company has evaluated subsequent events through October 14, 2019, the date on which the financial statements were available to be issued.
