Notes to Financial Statements

Note 1. Description of Plan

The following description of the Southwest Diagnostic Imaging Center 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined contribution retirement plan adopted on July 1, 2002 for the benefit of all eligible employees of SWDIC Imaging Center Partnership, L.L.P. (dba Southwest Diagnostic Imaging Center) (the Employer). The Plan was amended in August 2007 to reflect the change in the Employer's name to SWDIC Imaging Center Partnership, L.L.P.

All regular employees of the Employer are eligible to participate in the Plan on their hire date. For purposes of regular Employer contributions and Employer matching contributions, participants become eligible to receive such contributions upon completing one year of service.

During 2016, the Plan changed its trustee from State Street Bank and Trust Company to Reliance Trust Company at the discretion of Plan management.

During 2018, the Plan changed its trustee from Reliance Trust Company to T. Rowe Price Trust Company at the discretion of Plan management.

Contributions

Participating employees and the Employer make contributions to the Plan. A participant may make elective contributions, via salary deferrals, between 1% and 100% of their pretax or post tax compensation for each payroll period, subject to statutory limitations. Employees who are not currently participating in the Plan will automatically be enrolled at 6% salary deferral, and employees currently participating in the Plan whose current withholding percentage is less than 10% will be subject to a 1% auto-increase. The auto-increase will occur each year until the employee's contribution rate reaches a maximum of 10%. As revised and effective in January 2014, the auto-increase will occur each year as soon as administratively feasibly after the start of each Plan year. Participants have the option to elect Roth deferrals. For each Plan year the Employer may contribute, on behalf of each eligible participant with one or more years of service and who defers 2% or more of their eligible compensation, up to 6% of the participant's eligible compensation.

The amount of matching contribution by Employer is based on years of service according to the following schedule:

Years of Service	Matching Contributions
1 to 4 years	$0.75 for each $1 contributed up to 6% of eligible compensation.
5 to 9 years	$1 for each $1 contributed up to 6% of eligible compensation.
10 years or more	$1.25 for each $1 contributed up to 6% of eligible compensation.

In addition, each plan year the Employer may make a non-elective or discretionary contribution in an amount determined by the Employer. Each participant's share is based on the ratio of their compensation to the total compensation for all participants. There were no non-elective or discretionary contributions for the years ended December 31, 2018 and 2017.

The Plan allows employees who have received distributions from other qualified retirement plans to directly transfer or rollover the previous account balances into segregated "rollover accounts" of the Plan, even if they are not participants in the Plan.

Participant Accounts

Each participant's account is credited with the respective participant's contribution, and an allocation of (a) the Employer's contribution, and (b) Plan earnings. Contributions to the Plan are allocated to active investment accounts in percentages elected by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested at all times in their elective contribution accounts, qualified non-elective contribution accounts, and segregated rollover accounts plus actual earnings thereon. Vesting in the Employer's matching and discretionary contribution portion of their accounts plus earnings thereon is based on years of continuous service.

Vesting in Employer contributions occurs as follows:

Years of Credited Service	Vested Percentage
Less than 2 Years	0%
2 Years	25%
3 Years	50%
4 Years	75%
5 Years	100%

A participant becomes 100% vested in the event of death, attainment of normal retirement age, termination of the Plan, or if the participant becomes disabled, as defined in the Plan Document.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by Plan management. Principal and interest is paid ratably through monthly payroll deductions. Interest rates on outstanding notes were ranging from 4.25% to 5.25% as of December 31, 2018 and 2017.

Payment of Benefits

Distribution of a participant's entire account becomes due in three ways: (1) upon termination of employment at the participant's early retirement age or normal retirement age as defined in the Plan Document; (2) death; or (3) full and permanent disability. Such account balances may be distributed in a lump-sum payment, in partial amounts, with a minimum of $1,000 or in substantially equal disbursement installments. Substantially equal disbursement installments are a distribution option for qualifying participants defined in the Plan document. Withdrawals from the Plan by active participants are permitted for specific instances such as: financial hardship, loans, or participant's attaining the age of 59 ½.

Forfeitures

Forfeitures derive from the non-vested amounts in a participant's account following a break in service. Such forfeitures are applied to reduce future Employer matching and non-elective contributions. Forfeitures utilized to reduce Employer contributions for the years ended December 31, 2018 and 2017 were $61,738 and $35,975, respectively. In addition, there were no unallocated forfeitures as of December 31, 2018 and 2017.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

New Accounting Pronouncements/Accounting Changes

In August 2018, the Financial Accounting Standards Board issued *Accounting Standards Update* (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurements.* The ASU modifies the disclosure requirements on fair value measurements in Accounting Standards Codification Topic 820. The ASU is effective for all reporting periods beginning after December 15, 2019, with early adoption permitted. An entity may elect to early adopt any removed or modified disclosures upon issuance of this Update and delay the adoption of the additional disclosures until the effective date. The Company is evaluating the impact of the adoption of this ASU on the Plan financial statements.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through October 15, 2019, the date the financial statements were available to be issued.

Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants at December 31, 2018 and 2017, and net appreciation (depreciation) in fair value of investments, investment income (loss), and interest income on notes receivable from participants for the years ended December 31, 2018 and 2017, was obtained or derived from information provided to Plan management and was certified by T. Rowe Price Trust Company as of and for the year ended December 31, 2018 and Reliance Trust Company as of and for the year ended December 31, 2017, the trustees of the Plan.

During 2018, the Plan held an interest in the T. Rowe Price Stable Value Fund (SVF), a common trust fund. The SVF invests in a high quality fixed income portfolio combined with investment contracts, commonly referred to as wrap contracts, issued by insurance companies and other financial institutions for a fee. The SVF is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer of the wrap contract guarantees a minimum rate of return and provides full benefit responsiveness, provided that all terms of the wrap contract have been met. The fair value of the SVF equals the total of the fair value of the underlying assets plus the total wrap contract rebid value.

Certain events limit the ability of the Plan to transact at contract value with the wrap issuer. However, the Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants. The issuer may terminate a wrap contract for cause at any time.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: Valued at the NAV of the shares held by the Plan at year end, which is based on the fair value underlying investments using information reported by the investment advisor at year end.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	2018	2017
Level 1		
Mutual funds	$ 23,845,082	$ 25,307,596
Total assets in the fair value hierarchy	23,845,082	25,307,596
Investments Measured at Net Asset Value		
Stable value fund	2,175,230	1,437,493
Investments at fair value	$ 26,020,312	$ 26,745,089

	2018	2017
Stable value fund [(a)]		
Fair value	$ 2,175,230	$ 1,437,493
Unfunded commitment	None	None
Redemption frequency	Immediate	Immediate
Other redemption restrictions	None	None
Redemption notice period	None	None

(a) The investment objectives of the trust are to maximize current income consistent with the maintenance of principal and to provide for benefit-responsive participant withdrawals at contract value for certain events without penalty or adjustment.

Note 5. Related-Party Transactions and Party in Interest Transactions

Certain Plan investments are shares of mutual funds and stable value fund accounts provided through the Trustee and, therefore, these transactions qualify as party-in-interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

Note 7. Tax Status

Effective 2006, the Plan adopted a nonstandardized prototype defined contribution profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2015.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
