Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
Years Ended December 31, 2018 and 2017

Note A - Description of plan

The following description of the Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. General

The Plan, a 401(k) defined contribution plan, was originally adopted in 2010, and is intended to provide participants with future retirement benefits for those who may qualify for participation therein. The Plan covers all eligible employees of Phoenix Packaging Operations, LLC (the "Company"). Employees become eligible to participate in the Plan after attaining the age of 21 and completing two months of service, as defined in the Plan Document. Participants must work 1,000 hours to earn a year of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan includes automatic enrollment for employees once they meet the eligibility requirements. The automatic deferral election is 3% for participants who do not formally enroll in the Plan and opt out of participating.

2. Plan administration

The management and administration of the Plan is the responsibility of the Company and its designee. The Company utilizes Reliance Trust Company ("Reliance") as the custodian of all the Plan's assets including substantially all the responsibility for investment, reinvestment, control and disbursement of the funds of the Plan. The Company utilizes ADP for record keeping services.

3. Contributions

Each year, participants may contribute up to the maximum percentage of allowable compensation, as defined in the Plan Document. Participants may also contribute amounts representing distributions (rollovers) from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company, at its discretion, may contribute to the Plan a matching contribution of a percentage of the participant's elective deferral contribution. In addition, the Company may, at its discretion, contribute a varying amount on behalf of all employees that qualify as plan participants (discretionary Company contributions). The Company made \$215,257 and \$538,410 contributions during the years ended December 31, 2018 and 2017, respectively. Contributions are subject to certain limitations.

4. Participant accounts

Each participant's account is credited with the participant's contributions including rollover contributions, allocations of the Plan's earnings, and Company contributions, and charged with benefits payments and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to the Financial Statements
Years Ended December 31, 2018 and 2017

Note A - Description of plan (continued)

5. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become 100% vested in employer contributions and earnings thereon after three years of credited service. Participant accounts become fully vested upon retirement, death or disability regardless of years of services.

6. Investment option

Upon enrolling in the Plan, a participant may select investments from Reliance. Participants determine the amount to be invested and may make changes in their investment elections at any time. Plan assets are held by Reliance, the Plan's custodian.

7. Participant loans

Participants may borrow funds from their accounts (minimum of \$1,000) up to a maximum amount equal to the lesser of 50% of their vested balance or \$50,000, reduced by any outstanding loan balances. Loan terms may generally not be longer than five years. At issuance, the loans bear interest at the prime rate, plus 1%. The loans are secured by the balance in the participant's account. Principal and interest is repaid ratably through payroll deductions.

8. Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service withdrawals may occur upon demonstration of financial hardship, or after the participants reach the age of 59.5 years. Additionally, the employer may initiate an involuntary automatic rollover distribution for any participant who upon termination has a vested balance under \$5,000.

9. Forfeitures

As of December 31, 2018 and 2017, there were \$67,497 and \$170,116, respectively in forfeitures held by the Plan. Forfeitures can only be used to pay expenses or reduce Company contributions in the future. \$0 and \$120,374 of forfeitures were used to pay Plan expenses during the years ended December 31, 2018 and 2017, respectively.

10. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

Note B - Summary of Significant Accounting Policies

1. Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

2. Investment valuation and income recognition

The Plan's investments are held primarily through pooled separate accounts, managed by Reliance. Investments are reported at fair value. Fair value of a financial instrument is the price that would be received when selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Changes in fair value, along with realized gain and losses, are reflected as net appreciation (depreciation) in fair value of investments.

3. Notes receivable from participants

Notes receivable from participants are measured at the unpaid principal balance plus any unpaid accrued interest.

4. Payment of benefits

Benefits are recorded when paid.

5. Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. For the years ended December 31, 2018 and 2017 fees of \$7,771 and \$16,672, respectively, were paid by the plan.

6. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note C - Market risk

The Plan provides for investments in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonable possible that changes in the

values of the investments will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

Note D - Information certified by the Plan's custodian (unaudited)

As of December 31, 2018 and 2017, the Plan's investments were held by Reliance, the Plan's custodian. The following is a summary of the Plan's financial information that is included in the financial statements and supplementary schedule, and is based on information certified by the custodian as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	2018	2017
Mutual funds	\$ 2,364,068	\$ 2,117,541

Investments, at fair value	<u>\$ 2,372,597</u>	<u>\$ 2,120,800</u>

Note E - Fair value requirements

The Financial Accounting Standards Board ("FASB") has established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 - Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets

Quoted prices for identical or similar assets or liabilities in inactive markets

~~Inputs other than quoted prices that are observable for the asset or liability~~

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value of measurements. Valuation techniques used need to maximize the use of observable inputs

Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
Years Ended December 31, 2018 and 2017

Note E - Fair value requirements (continued)

and minimize the use of unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual and Money Funds - These investments are valued at the daily closing prices as reported by the fund. Mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective Trusts - These investments are public investment vehicles valued using \$1 for the NAV as the practical expedient. The accounts are classified within level 2 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. The Plan had no financial liabilities as of December 31, 2018 and 2017.

Note F - Guaranteed investment contract with insurance company

The Plan has a fully benefit-responsive guaranteed investment contract with Reliance. Reliance maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value as it approximates contract value. Contract value, as reported to the Plan by Reliance, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

~~There are no reserves against contract value for credit risk of the contract issuer or otherwise.~~ The fair value of the investment contract at December 31, 2018 and 2017, was \$8,529 and \$3,259, respectively. The crediting interest rate is based on a formula agreed upon with the issuer with interest rates reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or

Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements

Note F - Guaranteed investment contract with insurance company (continued)

other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note G - Exempt party-in-interest transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed interest contracts managed by Reliance. Reliance is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services and distribution requests were \$7,771 and \$16,672 for the years ended December 31, 2018 and 2017, respectively.

Note H - Terminated participants still in the plan

As of December 31, 2018 and 2017, the Plan had 63 and 47 separated participants with deferred benefits totaling \$353,900 and \$264,170, respectively.

Note I - Tax status

The Company has adopted a standardized prototype profit sharing plan. The Internal Revenue Service has issued an opinion letter to the Company dated July 16, 2014, that the Plan and its amendments are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and it currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2015.

Note J - Subsequent events

Management has assessed subsequent events through October 14, 2019, the date on which the financial statements were available to be issued.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by Reliance Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2018 and 2017, that the

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held for investments purposes at the end of plan year as of December 31, 2018 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
Years Ended December 31, 2018 and 2017

Note A - Description of plan

The following description of the Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. General

The Plan, a 401(k) defined contribution plan, was originally adopted in 2010, and is intended to provide participants with future retirement benefits for those who may qualify for participation therein. The Plan covers all eligible employees of Phoenix Packaging Operations, LLC (the "Company"). Employees become eligible to participate in the Plan after attaining the age of 21 and completing two months of service, as defined in the Plan Document. Participants must work 1,000 hours to earn a year of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan includes automatic enrollment for employees once they meet the eligibility requirements. The automatic deferral election is 3% for participants who do not formally enroll in the Plan and opt out of participating.

2. Plan administration

The management and administration of the Plan is the responsibility of the Company and its designee. The Company utilizes Reliance Trust Company ("Reliance") as the custodian of all the Plan's assets including substantially all the responsibility for investment, reinvestment, control and disbursement of the funds of the Plan. The Company utilizes ADP for record keeping services.

3. Contributions

Each year, participants may contribute up to the maximum percentage of allowable compensation, as defined in the Plan Document. Participants may also contribute amounts representing distributions (rollovers) from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company, at its discretion, may contribute to the Plan a matching contribution of a percentage of the participant's elective deferral contribution. In addition, the Company may, at its discretion, contribute a varying amount on behalf of all employees that qualify as plan participants (discretionary Company contributions). The Company made \$215,257 and \$538,410 contributions during the years ended December 31, 2018 and 2017, respectively. Contributions are subject to certain limitations.

4. Participant accounts

Each participant's account is credited with the participant's contributions including rollover contributions, allocations of the Plan's earnings, and Company contributions, and charged with benefits payments and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to the Financial Statements
Years Ended December 31, 2018 and 2017

Note A - Description of plan (continued)

5. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become 100% vested in employer contributions and earnings thereon after three years of credited service. Participant accounts become fully vested upon retirement, death or disability regardless of years of services.

6. Investment option

Upon enrolling in the Plan, a participant may select investments from Reliance. Participants determine the amount to be invested and may make changes in their investment elections at any time. Plan assets are held by Reliance, the Plan's custodian.

7. Participant loans

Participants may borrow funds from their accounts (minimum of \$1,000) up to a maximum amount equal to the lesser of 50% of their vested balance or \$50,000, reduced by any outstanding loan balances. Loan terms may generally not be longer than five years. At issuance, the loans bear interest at the prime rate, plus 1%. The loans are secured by the balance in the participant's account. Principal and interest is repaid ratably through payroll deductions.

8. Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service withdrawals may occur upon demonstration of financial hardship, or after the participants reach the age of 59.5 years. Additionally, the employer may initiate an involuntary automatic rollover distribution for any participant who upon termination has a vested balance under \$5,000.

9. Forfeitures

As of December 31, 2018 and 2017, there were \$67,497 and \$170,116, respectively in forfeitures held by the Plan. Forfeitures can only be used to pay expenses or reduce Company contributions in the future. \$0 and \$120,374 of forfeitures were used to pay Plan expenses during the years ended December 31, 2018 and 2017, respectively.

10. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

Note B - Summary of Significant Accounting Policies

1. Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

2. Investment valuation and income recognition

The Plan's investments are held primarily through pooled separate accounts, managed by Reliance. Investments are reported at fair value. Fair value of a financial instrument is the price that would be received when selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Changes in fair value, along with realized gain and losses, are reflected as net appreciation (depreciation) in fair value of investments.

3. Notes receivable from participants

Notes receivable from participants are measured at the unpaid principal balance plus any unpaid accrued interest.

4. Payment of benefits

Benefits are recorded when paid.

5. Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. For the years ended December 31, 2018 and 2017 fees of \$7,771 and \$16,672, respectively, were paid by the plan.

6. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note C - Market risk

The Plan provides for investments in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonable possible that changes in the

values of the investments will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

Note D - Information certified by the Plan's custodian (unaudited)

As of December 31, 2018 and 2017, the Plan's investments were held by Reliance, the Plan's custodian. The following is a summary of the Plan's financial information that is included in the financial statements and supplementary schedule, and is based on information certified by the custodian as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	2018	2017
Mutual funds	\$ 2,364,068	\$ 2,117,541
Common/collective trust	8,529	3,259
Investments, at fair value	<u>\$ 2,372,597</u>	<u>\$ 2,120,800</u>

Net appreciation in fair value of investments (including realized and unrealized gains and losses on investments)	<u>\$ (337,886)</u>	<u>\$ 249,428</u>

Note E - Fair value requirements

The Financial Accounting Standards Board ("FASB") has established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 - Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets

Quoted prices for identical or similar assets or liabilities in inactive markets

~~Inputs other than quoted prices that are observable for the asset or liability~~

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value of measurements. Valuation techniques used need to maximize the use of observable inputs

Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
Years Ended December 31, 2018 and 2017

Note E - Fair value requirements (continued)

and minimize the use of unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual and Money Funds - These investments are valued at the daily closing prices as reported by the fund. Mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective Trusts - These investments are public investment vehicles valued using \$1 for the NAV as the practical expedient. The accounts are classified within level 2 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. The Plan had no financial liabilities as of December 31, 2018 and 2017.

Note F - Guaranteed investment contract with insurance company

The Plan has a fully benefit-responsive guaranteed investment contract with Reliance. Reliance maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value as it approximates contract value. Contract value, as reported to the Plan by Reliance, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

~~There are no reserves against contract value for credit risk of the contract issuer or otherwise.~~ The fair value of the investment contract at December 31, 2018 and 2017, was \$8,529 and \$3,259, respectively. The crediting interest rate is based on a formula agreed upon with the issuer with interest rates reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or

Phoenix Packaging Operations, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements

other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note G - Exempt party-in-interest transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed interest contracts managed by Reliance. Reliance is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services and distribution requests were \$7,771 and \$16,672 for the years ended December 31, 2018 and 2017, respectively.

Note H - Terminated participants still in the plan

As of December 31, 2018 and 2017, the Plan had 63 and 47 separated participants with deferred benefits totaling \$353,900 and \$264,170, respectively.

Note I - Tax status

The Company has adopted a standardized prototype profit sharing plan. The Internal Revenue Service has issued an opinion letter to the Company dated July 16, 2014, that the Plan and its amendments are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and it currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2015.

Note J - Subsequent events

Management has assessed subsequent events through October 14, 2019, the date on which the financial statements were available to be issued.
