For the years ended December 31, 2018 and 2017, the Partnership accrued discretionary contributions to the Plan of $1,586,010, and $1,136,569, respectively.

Participant Investment Account Options

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Partnership's matching contribution as well as an allocation of plan earnings and the Partnership's discretionary contribution. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Partnership matching contribution plus actual earnings thereon. Vesting in the Partnership's discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. Vesting of the Partnership's discretionary contributions occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of credited service.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum, installment or Ad-Hoc distribution equal to the value of the participant's vested interest in their account.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $0 and $16,484, respectively. These accounts will be used to reduce future employer contributions or offset plan expenses.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed ten years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. A participant may have two loans outstanding at one time.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in common collective trust funds are valued at the NAV utilizing the practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses may be paid by the Partnership or the Plan at the Partnership's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Certification of Plan Trustee

The Partnership has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2018 and 2017.
- Investment (loss) income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2018.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Mutual funds	$ 29,361,718	$ 29,361,718	$ -	$ -
Total assets in the fair value hierarchy	29,361,718	$ 29,361,718	$ -	$ -
Common collective trusts measured at net asset value (A)	7,228,981			
Investments at fair value	$ 36,590,699			
December 31, 2017				
Mutual funds	$ 33,927,104	$ 33,927,104	$ -	$ -
Total assets in the fair value hierarchy	33,927,104	$ 33,927,104	$ -	$ -
Common collective trusts measured at net asset value (A)	4,639,448			
Investments at fair value	$ 38,566,552			

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2018 and 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2018				
Collective trust funds	$ 7,228,981	$ -	Daily	1 day

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2017				
Collective trust funds	$ 4,639,448	$ -	Daily	1 day

Net income per Form 5500	$ (2,007,314)	$ 6,207,471

Note 6: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain Plan investments are funds managed by the Plan trustee and; therefore, these transactions qualify as party-in-interest transactions.

The Plan paid $44,207 and $21,773 of recordkeeping fees to Wells Fargo during 2018 and 2017, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 7: Plan Amendment

Effective April 3, 2017, the Plan was amended. The Plan was amended to permit the use of forfeitures to reduce any employer contribution.

Note 8: Plan Termination

Although it has not expressed an intention to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 9: Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax-exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan and related trust are currently designed and being operated in compliance with applicable requirements of the IRC.

Note 10: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions and employee loan payments to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions and loan payments to the Plan, contributions of $28,999 and loan payments of $2,002 were not remitted within the required time period for the year ended December 31, 2018.

Note 11: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 12: Subsequent Events

Subsequent events have been evaluated through October 15, 2019, which is the date the financial statements were available to be issued.

Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

The following description of Vinson Process Controls 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Vinson Process Controls Company, L.P. (Partnership) for the benefit of its employees. Eligible employees may begin to participate in the Plan on the first pay date following the date of employment. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wells Fargo Bank, N.A. (Wells Fargo) is the trustee of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Partnership make contributions of up to the maximum allowable by the Internal Revenue Code (IRC). Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. As a safe harbor plan, the Partnership fully matches participant contributions up to the first 4% of the participant's compensation on a pay-period basis. Partnership profit-sharing contributions are discretionary as determined by management. Contributions are subject to certain limitations. For the years ended December 31, 2018 and 2017, the Partnership accrued discretionary contributions to the Plan of $1,586,010, and $1,136,569, respectively.

Participant Investment Account Options

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Partnership's matching contribution as well as an allocation of plan earnings and the Partnership's discretionary contribution. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Partnership matching contribution plus actual earnings thereon. Vesting in the Partnership's discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. Vesting of the Partnership's discretionary contributions occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of credited service.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum, installment or Ad-Hoc distribution equal to the value of the participant's vested interest in their account.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $0 and $16,484, respectively. These accounts will be used to reduce future employer contributions or offset plan expenses.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed ten years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. A participant may have two loans outstanding at one time.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in common collective trust funds are valued at the NAV utilizing the practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses may be paid by the Partnership or the Plan at the Partnership's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Certification of Plan Trustee

The Partnership has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2018 and 2017.
- Investment (loss) income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2018.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017:

Common collective trusts measured at net asset value (A)	4,639,448			
Investments at fair value	$ 38,566,552			

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2018 and 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2018				
Collective trust funds	$ 7,228,981	$ -	Daily	1 day

Net income per Form 5500	$ (2,007,314)	$ 6,207,471

Note 6: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain Plan investments are funds managed by the Plan trustee and; therefore, these transactions qualify as party-in-interest transactions.

The Plan paid $44,207 and $21,773 of recordkeeping fees to Wells Fargo during 2018 and 2017, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 7: Plan Amendment

Effective April 3, 2017, the Plan was amended. The Plan was amended to permit the use of forfeitures to reduce any employer contribution.

Note 8: Plan Termination

Although it has not expressed an intention to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Notes to Financial Statements

December 31, 2018 and 2017

Note 9: Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax-exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan and related trust are currently designed and being operated in compliance with applicable requirements of the IRC.

Note 10: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions and employee loan payments to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions and loan payments to the Plan, contributions of $28,999 and loan payments of $2,002 were not remitted within the required time period for the year ended December 31, 2018.

Note 11: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 12: Subsequent Events

Subsequent events have been evaluated through October 15, 2019, which is the date the financial statements were available to be issued.

Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

The following description of Vinson Process Controls 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Vinson Process Controls Company, L.P. (Partnership) for the benefit of its employees. Eligible employees may begin to participate in the Plan on the first pay date following the date of employment. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wells Fargo Bank, N.A. (Wells Fargo) is the trustee of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Partnership make contributions of up to the maximum allowable by the Internal Revenue Code (IRC). Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. As a safe harbor plan, the Partnership fully matches participant contributions up to the first 4% of the participant's compensation on a pay-period basis. Partnership profit-sharing contributions are discretionary as determined by management. Contributions are subject to certain limitations. For the years ended December 31, 2018 and 2017, the Partnership accrued discretionary contributions to the Plan of $1,586,010, and $1,136,569, respectively.

Participant Investment Account Options

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Partnership's matching contribution as well as an allocation of plan earnings and the Partnership's discretionary contribution. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Partnership matching contribution plus actual earnings thereon. Vesting in the Partnership's discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. Vesting of the Partnership's discretionary contributions occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of credited service.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum, installment or Ad-Hoc distribution equal to the value of the participant's vested interest in their account.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $0 and $16,484, respectively. These accounts will be used to reduce future employer contributions or offset plan expenses.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed ten years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. A participant may have two loans outstanding at one time.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in common collective trust funds are valued at the NAV utilizing the practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses may be paid by the Partnership or the Plan at the Partnership's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Certification of Plan Trustee

The Partnership has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2018 and 2017.
- Investment (loss) income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2018.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Mutual funds	$ 29,361,718	$ 29,361,718	$ -	$ -
Total assets in the fair value hierarchy	29,361,718	$ 29,361,718	$ -	$ -
Common collective trusts measured at net asset value (A)	7,228,981			
Investments at fair value	$ 36,590,699			
December 31, 2017				
Mutual funds	$ 33,927,104	$ 33,927,104	$ -	$ -
Total assets in the fair value hierarchy	33,927,104	$ 33,927,104	$ -	$ -
Common collective trusts measured at net asset value (A)	4,639,448			
Investments at fair value	$ 38,566,552			

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2018 and 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2018				
Collective trust funds	$ 7,228,981	$ -	Daily	1 day

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Net income per Form 5500	$ (2,007,314)	$ 6,207,471

Note 6: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain Plan investments are funds managed by the Plan trustee and; therefore, these transactions qualify as party-in-interest transactions.

The Plan paid $44,207 and $21,773 of recordkeeping fees to Wells Fargo during 2018 and 2017, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 7: Plan Amendment

Effective April 3, 2017, the Plan was amended. The Plan was amended to permit the use of forfeitures to reduce any employer contribution.

Note 8: Plan Termination

Although it has not expressed an intention to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 9: Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax-exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan and related trust are currently designed and being operated in compliance with applicable requirements of the IRC.

Note 10: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions and employee loan payments to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions and loan payments to the Plan, contributions of $28,999 and loan payments of $2,002 were not remitted within the required time period for the year ended December 31, 2018.

Note 11: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 12: Subsequent Events

Subsequent events have been evaluated through October 15, 2019, which is the date the financial statements were available to be issued.
