General

The Plan is a single employer, defined contribution plan, covering all eligible employees of Greenway Ford, Inc., and its adopting employers which include all of the stores under its common ownership. The basic plan entry requirements include completion of 60 days of service and an age requirement of at least 19 years of age. Eligible employees are automatically enrolled in the plan on the first day of the month after meeting eligibility criteria. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In August of 2017, an IRS examination was initiated of the Plan for the plan year ended December 31, 2015. Subsequently, the examination opened the years ended December 31, 2013 and 2014. The examination was concluded on December 20, 2018. Exact adjustments to net assets available for benefits of $65,370 were remitted to the Plan during 2018.

NOTE A - DESCRIPTION OF PLAN (Continued)

Contributions

Participants may contribute a percentage of their compensation (minimum of 1%) to the Plan on a pre-tax basis through elective salary deferrals; however, annual contributions may not exceed the maximum allowed under the Internal Revenue Code in any calendar year. The Plan contains an automatic enrollment feature in which eligible employees are automatically enrolled to defer 2% of pay, unless they complete an elective deferral agreement specifically opting out or electing to defer at a different percentage. The employer match was discontinued through an amendment to the Plan as of February 28, 2009. A discretionary contribution may be made for each plan year in an amount determined by the plan sponsor and allocated as of the last day of the plan year using an annual pay allocation formula. There was no discretionary contribution for 2018.

Investment Options

The Plan is invested in a group annuity contract consisting of pooled separate accounts, mutual funds and a common collective trust. The underlying investments are primarily stocks, bonds, and mutual funds.

Participants are permitted to direct the plan administrators as to respective percentages of their account balances to be invested. They are also permitted to change those percentages; and to direct the plan administrators to transfer a percentage of their accounts invested in the various accounts in the annuity contract. These balances can come from elective deferral contributions, participant and rollover contributions, and other contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution, and allocations of Plan earnings or losses. The participant accounts are also charged with a portion of the administrative expenses of the Plan. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 0% vested until two years of service is completed and then participants are 100% vested.

NOTE A - DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

The Plan allows participants to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at rates which are commensurate with similar loans from commercial lending institutions. At December 31, 2018, outstanding loans bore interest rates of between 4.25% and 5.50%. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

On termination of service due to retirement, attainment of age 59 ½, termination of employment, death, or disability, the participant's account may be distributed to the participant or beneficiary (in the event of the participant's death) through the payment of installments over a fixed period of time or in payment of a lump sum. Also, under certain hardship circumstances, a participant may withdraw a portion of the amounts credited to their account. Benefits are recorded when paid.

Forfeitures

An amount that a participant has lost the right to is called a forfeiture. Amounts forfeited may be used to offset employer contributions and to pay plan expenses. During 2018, no forfeitures were used. At December 31, 2018 and 2017, forfeited, non-vested accounts had zero balances.

Administrative Expenses

The administrative expenses of the plan are paid for in part by the Plan through charges to the participant accounts and in part by the plan sponsor directly. For the year ended December 31, 2018 plan expenses charged to participant accounts were $109,553. Net investment related expenses are included in net appreciation in fair value of investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, the cash basis recording of benefits paid. Benefits are expensed when paid.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts which is 100% of contract value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts, changes therein, and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments, including the the pooled separate investments, the mutual funds, and collective common trust are stated at fair market value which represents the net asset values held by the Plan at year-end. The change in market value from year to year for the pooled separate investments is reported as gains and losses. The Plan does not share in the realized gains of the investments, just in the change in market value. See Note E for discussion of fair value measurements.

NOTE C - UNAUDITED INFORMATION CERTIFIED BY CUSTODIAN

Principal Life Insurance Company holds the Plan's investments assets and has certified that all information pertaining to investments and investment activities included in the financial statements is complete and accurate. The certified investment information has not been audited by the independent auditors.

The accompanying financial statements and supplementary schedule include the following unaudited information as of December 31, 2018 and 2017 and for the year ended December 31, 2018 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	2018	2017
Investments*	$ 19,245,405	$ 20,754,742
Net depreciation in fair value of investments	$ (1,746,949)	
Interest and dividend income, excluding participant loans	$ 6,755	

Investment balances and information is included in supplementary Schedule H.

*All investments are certified at fair value (participant loans are not included in certification from custodian).

NOTE D - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE E - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE E - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Pooled Separate Accounts

These separate accounts invest mainly in stocks, mutual funds, and fixed securities. Although some of the underlying investments may have level 2 pricing inputs, the net asset value of the pooled separate accounts are publicly quoted and accordingly these investments are classified within Level 1 of the valuation hierarchy.

Mutual Funds

The mutual funds are actively traded with publicly quoted pricing inputs. The Net Asset Values ("NAV") of the funds are available in an observable market and are classified within level 1 of the valuation hierarchy.

Common Collective Trust

These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV can be classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note F for investment details applicable to Principal Stable Value Fund.

NOTE E - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

NOTE F – COMMON COLLECTIVE TRUST

Principal Stable Value Fund is a stable value collective investment trust ("CIT"), maintained by Principal Global Investors Trust Company (the Trust Company), for which the NAV is based on the contract value. Investments held by a CIT are required to be reported at fair value, however, contract value is the relevant measurement characteristic for that portion of the net assets of a CIT attributable to fully benefit-responsive investment contracts. This is because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans. The NAV of the CIT is not publicly quoted but is available to current investors via the Employer website or when plan participants access their account values. The NAV is the basis for current transactions and the CIT can be redeemed at NAV as of the measurement date. Therefore, we believe that this investment has a "Readily Determinable Fair Value". The NAV is calculated in a manner consistent with GAAP for investment companies. Because it is valued similarly to mutual funds, we believe this CIT should be level 1 asset to allow for consistent disclosure. Unfunded commitments typically are found in private equity funds and therefore are not applicable to CITs.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

NOTE H - TAX STATUS

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the trustee by an opinion letter dated March 3, 2014 that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The Plan has determined that it does not have any material unrecognized tax benefits or obligations as of December 31, 2018. The 2015, 2016, and 2017 tax years remain subject to examination by major tax jurisdictions.

NOTE I - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares in pooled separate accounts and a guaranteed investment contract managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were $109,553 for the year ended December 31, 2018.

NOTE J - NON-EXEMPT PARTY-IN-INTEREST TRANSACTION

During the 2018 plan year there were unintentional delays by the Company in submitting participant contributions in the amount of $584 to the custodian. These delinquent contributions constitute prohibited transactions and the Company has made contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delays.

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 14, 2019, the date that the financial statements were available to be issued.
