**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2018 and 2017**

(1) Description of the plan

Effective January 1, 1994, Argus Media Inc. (the "Company" or "Sponsor") and its wholly owned subsidiaries adopted the Argus Media, Inc. and Subsidiaries 401(k) Retirement Savings Plan (the "Plan") to provide retirement benefits for all eligible employees. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering individuals who are employed full-time by the Company, and who are at least 21 years old. Eligible employees can enter the Plan on the first day of the month following the date the eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Directors are responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

Asset custodian and administration

The Plan's assets are held by Great-West Life & Annuity Insurance Company ("Great-West"), the asset custodian of the Plan, and are invested through participant-directed accounts in various mutual funds or other investments offered by the asset custodian. Duties of the asset custodian include, among others, recordkeeping, receiving and investing cash contributions and investment income, and making payments from the Plan funds as directed by the participants and the Plan administrator.

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net investment loss of fair value of investments.

Contributions

Participants may make contributions to the Plan under a 401(k) salary deferral arrangement up to the maximum percentage (100%) of pre-tax annual W-2 compensation, as defined by the Plan, and the dollar amount permitted under section 402 (g) of the Internal Revenue Code not to exceed $18,500 in 2018. Additionally, participants who are at least 50 years of age as of December 31, 2018 are permitted to make catch-up contributions up to an additional $6,000 for 2018. Participants may also designate some of their contributions as after tax contributions to a Roth 401(k) option. Participants are also allowed to contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes 100% of the first 3% of eligible compensation that a participant contributes to the Plan and 50% of the next 2% of eligible compensation that a participant contributes to the Plan. The matching Company contribution is invested based on the participant's investment allocation. This contribution is intended to satisfy a safe harbor contribution formula permitted by Internal Revenue Service ("IRS") regulations. By making the safe harbor matching contribution, the Plan will automatically satisfy the nondiscrimination requirements that otherwise would apply to 401(k) contributions to the Plan. In addition, the Company may also elect to make discretionary contributions to the Plan. To qualify for the discretionary contribution, participants must meet the eligibility requirements set forth in the plan documents and be employed on the last day of the year. In addition to a safe harbor match, the employer offered a discretionary match to total 100% of the first 6% of employee contributions. Contributions are subject to certain limitations.

(1) Description of the plan (continued)

Participant accounts

Each participant's account is valued on a daily basis and credited with the participant's contribution, his or her portion of the Company's matching and discretionary contributions and account earnings and is charged with applicable withdrawals and an allocation of certain administrative expenses as determined by the different investment options he or she directs the Plan asset custodian to make on his or her behalf. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portions of their accounts plus actual earnings thereon is based on continuous service. Participants are vested in the Company's discretionary contributions based on the following table:

| Years of Service | Vesting Percentage |
|---|---|
| Less than 1 | -0-% |
| 1 | 20% |
| 2 | 50% |
| 3 | 75% |
| 4 | 85% |
| 5 or more | 100% |

Investments

Upon enrollment in the Plan, a participant may direct the allocation of their contributions and Company discretionary contributions among various investment funds offered by the Plan's asset custodian. Each participant can choose to deposit all contributions in one fund or split the investment among the investment options in any whole percentages. The funds are invested in a broad range of stocks and bonds with varying risks. The allocation of investment income for each of the investment options is based on the ratio that each participant's account balance bears to the total account balance of all eligible participants.

Participant loans

Under provisions of the Plan, participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 in total or 50% from the vested portion of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Generally, loan terms may not exceed five years unless the loan is for the purchase of a primary residence, in which case the Plan administrator may permit a longer repayment term. The loans are secured by the balance in the participant's accounts and bear interest at rates commensurate with local prevailing rates as determined by Plan management. Interest rates on participant loans outstanding as of December 31, 2018 and 2017 ranged from 4.75% to 6.25%. Principal and interest are repaid ratably through bi-monthly payroll deductions.

Payment of benefits

On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is paid to the participant in a lump sum payment. Participants who have a vested interest in their account which exceeds $5,000 may elect to leave their account balance in the Plan or receive a lump sum payment or annuity option equal to the vested interest in their account.

(1) Description of the plan (continued)

Payment of benefits (continued)

Under the terms of the Plan, participants who attain retirement age or become totally disabled prior to their retirement date will receive all amounts credited to their accounts. Upon the death of the participant while actively employed, the distribution is made in accordance with the participant's previous direction. All participants will receive their account balance in either a lump sum or in installments equal to the vested interest of their account.

Withdrawals

Once a participant has reached the age of 59½, they may withdraw in a lump sum up to 100% of the vested interest in their elective deferral or rollover contribution account. Hardship distributions are available in a lump sum up to 100% of the vested interest of the Participant's elective deferral account (excluding any investment earnings) to pay for a financial hardship as defined by the Plan.

Forfeitures

Forfeitures consist of the non-vested portion of terminated participant account balances and may be used by the Plan to pay for Plan expenses or reduce any employer matching contributions. As of December 31, 2018 and 2017, the forfeiture account balance totaled $19,451 and $11,836, respectively. During 2018, $19,410 were used to pay for Plan expenses from the forfeiture account.

(2) Summary of significant accounting policies

Basis of statement presentation

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value except for the guaranteed investment contract, which is reported at contract value. Fair value is the price that would be received upon sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The statements of net assets available for plan benefits present the guaranteed investment contract at contract value within the total investments of the Plan in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962-325, *Plan Accounting – Defined Contribution Plans, Investments – Other*. Contract value is the relevant measurement attribute for the portion of the net assets available for plan benefits of a defined contribution plan which are attributable to fully benefit-responsive investment contracts because contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the Plan.

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition (continued)

The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment loss includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant loans receivable

Loans to participants are reported as participant loans receivable at the unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Payment of benefits

Benefits are recorded when paid.

Federal income tax

FASB ASC 740, *Income Taxes*, provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an entity's financial statements and requires an entity to recognize the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination. The Plan administrator believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2018, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2015 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent events

The Plan has evaluated subsequent events through October 15, 2019, the date financial statements were available to be issued. No subsequent events occurred which would require adjustment or disclosure to the financial statements as of December 31, 2018.

(3) Information certified by the asset custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended (ERISA). The assets of the Plan are held by the asset custodian. Accordingly, the asset custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

a. Investments and participant loans receivable as shown in the statements of net assets available for plan benefits as of December 31, 2018 and 2017.

b. Investment activity, as shown in the statement of changes in net assets available for plan benefits for the year ended December 31, 2018.

c. The information in the supplemental schedule of assets (held at year end) as of December 31, 2018.

(3) Information certified by the asset custodian (continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Plan's view of market assumptions in the absence of observable market information. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Plan uses various methods including market, income and cost approaches.

The Plan categorizes its fair value measurements into a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, London Interbank Offered Rate ("LIBOR"), prime rates, cash flows, maturity dates, call ability, estimated prepayments, and/or underlying collateral values.

- Level 3 – Unobservable inputs for the asset or liability. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

(4) Fair value measurements (continued)

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used as of December 31, 2018 and 2017.

Mutual funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

| | 2018 | | | |
|---|---|---|---|---|
| | Fair Value | Level 1 | Level 2 | Level 3 |
| Mutual funds | $ 18,786,582 | $ 18,786,582 | $ - | $ - |

| | 2017 | | | |
|---|---|---|---|---|
| | Fair Value | Level 1 | Level 2 | Level 3 |
| Mutual funds | $ 18,342,109 | $ 18,342,109 | $ - | $ - |

There were no significant transfers in and/or out of the fair value categories during 2018 and 2017.

(5) Guaranteed investment contract

During 2018 and 2017, the Plan held a fully benefit-responsive guaranteed investment contract with Great-West. Great-West maintains the contributions in a general account. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plans ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

(5) Guaranteed investment contract (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) a breach of material obligation under the contract, (2) a material misrepresentation, or (3) a material amendment to the agreement without the consent of the issuer.

(6) Related party transactions

All Plan investments are shares of mutual funds and a guaranteed interest account managed by Great-West. Great-West is the asset custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan has participant loans receivable as of December 31, 2018 and 2017. As a result, these investments, the participant loans and all related transactions qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, all participants will have a 100% vested interest in their accounts at the date of termination.

(8) Tax status

The Plan was established under a volume submitter profit sharing 401(k) plan, which received its most recent determination letter on March 31, 2014, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and ERISA. Accordingly, the Plan administrator believes the Plan was qualified and was tax exempt as of the financial statement dates.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for plan benefits.
