Note 1: Description of Plan

The following description of the Geweke Company 401(k) Plan & Trust ("the Plan") provides only general information. Participants should refer to the Summary Plan Description and the Adoption Agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan established on January 1, 1986 covering all eligible full-time employees of The Geweke Company, dba Geweke Ford and Geweke Kia, ("the Company") who are 21 years old and have twelve months of service. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Administration. Under the terms of the Plan, certain corporate officer's of the sponsor, The Geweke Company, are designated as Plan Trustee. The Plan has contracted with John Hancock Life Insurance Company U.S.A. ("John Hancock") to act as custodian, and Nicholas Pension Consultants, Inc. ("NPC") as the third-party administrator to manage certain operations of the plan and to process and maintain certain participant records.

Contributions. Each year, participants may contribute from 1% to 100% of included compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company may match employee contributions at the discretion of the Board of Directors or contribute an amount which it designates as a qualified nonelective contribution. The Company made matching contributions equal to 50% of each participant's deferral on the first 4% of wages.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, if any, (b) Plan earnings and forfeitures of terminated participants' nonvested accounts, and (c) Plan expenses as applicable to the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Certain investment and fund fees are charged by the underlying mutual funds held by the plan and are included in the plan investment income and losses. Fees at the fund level range from .89% to 1.46%, dependent on the investment selected. Participants should refer to the mutual funds' prospectuses for details of these fees.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is one hundred percent vested after five years of credited service. Participants become fully vested in the event of death, disability, retirement, or plan termination.

Forfeitures. The total non-vested portion of terminated employees account balances can be used to reduce future employer discretionary contributions or can be used to pay plan expenses. There were $3,399 of forfeitures generated in 2018, and none were used. There are forfeitures of $5,433 available as of December 31, 2018 to be used by the Plan.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loans must be repaid over a reasonable period of time not to exceed five years, unless the loan proceeds are used to purchase a primary residence, in which case the repayment period may be longer. The loans are secured by the balances in the participants' accounts and bear interest at the prime rate plus 1%.

Note 1: Description of Plan (continued)

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in various increments to the investments administered by John Hancock. Participants may change their investments daily and choose from over fifty investment options.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount, or in deferred installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. All investments available in the plan, except for the Stable Value Fund, allow for daily redemptions with no redemption notice period required. The Stable Value Fund normally allows for daily redemptions, but may apply restrictions. See note 4 for details of the Stable Value Fund.

Amendments. There were no amendments to the plan during the year ending December 31, 2018.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments - The Plan's investments primarily consist of pooled separate accounts and are stated at fair value as reported by John Hancock. The Plan's John Hancock Stable Value Fund Collective Investment Trust (CIT) is stated at contract value as determined by John Hancock.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Risks and Uncertainties - The Plan provides for various investment options which are exposed to a variety of risks, including interest rate, market fluctuations, valuation, and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - Plan management has evaluated subsequent events through October 14, 2019, the date the financial statements were available to be issued.

Note 3: Certified Information

John Hancock USA, the Custodian of the Plan, has certified as to the completeness and accuracy of all investments, and participant notes receivable reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018, the investment activities and interest on participant notes reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018, and all investment information reflected in the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2018, in accordance with 29 CFR 2520.103-8(c) of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information is summarized below:

	2018	2017
Investments at fair value	$ 4,703,856	$ 5,214,216
Notes Receivable from Participants	258,920	262,215
Net depreciation in fair value of investments	(338,361)	
Interest Income from notes receivable from participants	12,870	

Note 4: John Hancock Stable Value Fund

Contributions to the John Hancock Stable Value Fund are invested solely in shares of the John Hancock Stable Value Fund Collective Trust, a trust managed by John Hancock. The John Hancock Stable Value Fund Collective Trust seeks to preserve principal and provide book value liquidity on a daily basis for plan-permitted, participant-directed withdrawals while maintaining a competitive rate of interest. There is no guaranteed minimum crediting rate. The investment is considered fully benefit responsive and normal participant withdrawals and transfers from the Stable Value Fund are processed at contract value. If the Plan were to request a liquidation, surrender charges and/or market value adjustments may apply. The Trustee of the underlying John Hancock Stable Value Fund Collective Trust has the right to delay any participant-initiated withdrawal for up to 30 days if it determines that immediate withdrawal may have and adverse impact on the Trust. In addition, the Trust has the right to delay, for up to 12 months, any other withdrawal, including the withdrawal of all or a portion of the Plan's investment in the fund. The Stable Value Fund is stated at contract value as determined by John Hancock as follows:

	2018	2017
Traditional Stable Value Fund	$ 149,590	$ 124,550

Note 5: Fair Value Measurements

Financial Accounting Standards Board ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Note 5: Fair Value Measurements (continued)

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled Separate Accounts: Valued at fair value as determined by John Hancock, based on the number of units held and quoted market prices of the underlying mutual fund investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Fair Value
Pooled Separate Accounts	$ -	$ 4,703,856	$ -	$ 4,703,856
Total assets at fair value	$ -	$ 4,703,856	$ -	$ 4,703,856

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Fair Value
Pooled Separate Accounts	$ -	$ 5,214,216	$ -	$ 5,214,216
Total assets at fair value	$ -	$ 5,214,216	$ -	$ 5,214,216

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7: Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service dated March 31, 2014. The Plan has been amended since receiving the determination letter, and the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administration has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 8: Administrative Fees

Administrative expenses totaling $6,484 were paid from Plan assets during the year ending December 31, 2018. $1,709 and $4,775 was paid to John Hancock and NPC, respectively, for certain participant transaction such as loans and distributions. John Hancock also receives indirect record keeping compensation from each underlying mutual fund investment, ranging from .04% to .65% (averaging .40%), which is included in the investment return of each fund. Total fund level fees, including this record keeping fees range from .89% to 1.46% (averaging .85%).

Note 9: Party-In-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Some of the plan investments are pooled separate accounts issued by John Hancock, the custodian. John Hancock receives record keeping fees and investment management fees from the underlying John Hancock managed mutual funds, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to John Hancock for administrating these pooled separate accounts are included as a reduction of the return on each fund. Notes receivable from participants also reflect party-in-interest transactions.
