Moore's Tire Sales, Inc. 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2018 and 2017

Note 1 – Description of Plan

The following description of the Moore's Tire Sales, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Trustee oversees governance of the Plan while determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions
Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan, up to a maximum amount of $18,500. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to a maximum amount of $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 30% of the first 9% of base compensation that a participant contributes to the Plan. Participants direct the investment of their contributions and the Company's matching contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of a) the Company's matching contribution and b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service according to the following schedule:

Years of Service	%
0-1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1 – Description of Plan (Continued)

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at reasonable interest rates, which are commensurate with local prevailing rates as determined periodically by the Plan Administrator. Principal and interest on any outstanding loans is paid ratably through weekly payroll deductions.

Payment of Benefits
On termination of service due to any reason, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may also receive in-service distributions after they attain the age of 59 ½ from accounts in which they are fully vested. In addition, participants who have not yet attained the age of 59 ½ may qualify for hardship withdrawal distributions up to the value of their vested account balances if they have incurred certain qualifying expenses.

Forfeited Accounts
At December 31, 2018 and 2017, forfeited nonvested accounts totaled $557 and $1,533, respectively. These accounts will be used to reduce future employer contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments
Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's and are included in administrative expenses when incurred. As of December 31, 2018 and 2017, no allowance for doubtful accounts has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a deemed distribution of participant loan based on the terms of the Plan document.

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition
Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Tax Status
The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Cash and Cash Equivalents
The Plan considers all investments purchased with a maturity of three months or less to be cash equivalents. The Plan had no cash equivalents at December 31, 2018 and 2017. Cash balances, at times, may exceed the Federal Deposit Insurance Corporation (FDIC) limit of $250,000.

Date of Management's Review of Subsequent Events
Subsequent events were evaluated through October 15, 2019, which is the date the financial statements were available to be issued.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits, except for fully benefit-responsive investment contracts, which are reported at contract value. The methods used to measure fair value may produce an amount that that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 2 or Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

December 31, 2018	Fair Value	Fair Value Measurements at the End of the Reporting Period Using: Quoted Prices in Active Markets for Identical Assets (Level 1)
Mutual Funds	$ 5,990,021	$ 5,990,021
December 31, 2017		
Mutual Funds	$ 6,438,240	$ 6,438,240

Note 3 – Fair Value Measurements (Continued)

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2018 and 2017 are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2018 and 2017, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Note 4 – Guaranteed Investment Contract with Insurance Company

The Plan has entered into a traditional fully benefit-responsive guaranteed investment contract with Nationwide Financial Services, Inc. ("NFS"). NFS maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by NFS, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2018 and 2017 was $572,722 and $550,134, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and was fixed at 2.25% for 2018 and 2.60% for 2017. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the Plan's ability to transact at contract value with NFS. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from the contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 – Information Prepared and Certified by Asset Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the asset custodian:

	2018	2017
Interest-bearing Cash	$ 135,895	$ 131,378
Investments, at fair value:		
Mutual Funds	5,990,021	6,438,240
Investment, at contract value:		
Guaranteed Investment Contract	572,722	550,134
Notes Receivable from participants	101,791	121,701
Net appreciation (depreciation) in fair value of investments	(588,397)	1,144,581
Interest income	10,056	8,735
Interest income on notes receivable from participants	5,203	4,319

Note 8 – Difference between Financial Statements and Form 5500

As of December 31, 2018 and 2017, $3,835 and $7,199, respectively, of contributions receivable were reflected in the Plan financial statements, but were not included in the Plan's Form 5500 for both years. As a result, employer and participant contributions shown the 2018 financial statements were $3,364 less than the amount of those contributions shown on the 2018 Form 5500. Employer and participant contributions shown on the 2017 financial statements were $7,199 greater than the amount of those contributions shown on the 2017 Form 5500. These differences were the result of the Plan's financial statements for both years being based on accounting principles generally accepted in the United States of America and the Plan's Form 5500 for both years utilizing the cash basis of accounting.
