Independent Auditors' Report

To the Plan Administrator and Trustees of
Momomilk, LLC 401(k) Profit Sharing Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Momomilk, LLC 401(k) Profit Sharing Plan (the "Plan") which comprise the statement of net assets available for benefits as of December 31, 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2018 and the changes in net assets available for benefits for the year ended December 31, 2018, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held at December 31, 2018 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 Plan Description

The following brief description of the Momomilk, LLC 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution profit sharing plan that was created effective January 1, 2018, which covers all eligible employees (as defined by the Plan) of Momomilk, LLC. (the "Company" or "Sponsor"). All full-time employees who have completed 60 days of service, provided they are at least twenty-one years of age are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan Contributions

Eligible employees are permitted to make both pre-tax and after-tax (ROTH) contributions provided the total of such elective contributions does not exceed the limits stated under the IRC. Participants direct the investment of the Company contributions into various options offered by the Plan. The Plan currently offers various mutual funds and common collective trusts as investment options for participants.

The Company at its discretion may contribute to the Plan a safe harbor matching contribution equal to 100% of the first 3% of each employee's deferrals, and 50% of the fourth and fifth percent of each employee's deferrals. For the year ended December 31, 2018, the safe harbor match was $51,055.

In addition, the Company, at its discretion, may elect to make a profit-sharing contribution each year. The allocation of the discretionary profit-sharing contribution is based on the ratio of the individual's compensation, as defined, to the aggregate compensation of those Participant's eligible to share in the contribution. For the year ended December 31, 2018 the Company elected not to make a profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions, as well as the allocations of the Company's contribution (if any) and Plan earnings. The participant's account is also charged with an allocation of certain expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, as well as the employer contributions, and the earnings thereon.

Note 1 Plan Description (Continued)

Forfeited Assets
At December 31, 2018, there were no forfeited non-vested accounts.

Participant Notes Receivable
Participants may borrow from their account up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from one to five years or as deemed reasonable by the administrator for loans taken to purchase a primary residence. Notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the time the loan is approved. Principal and interest are paid ratably, generally through payroll deductions. Processing fees are charged against participant accounts. At December 31, 2018, there were no loans outstanding.

Payment of Benefits
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 Summary of Significant Accounting Policies

Basis of Presentation
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Payment of Benefits
Benefit payments to participants are recorded when paid. There were no benefits paid in 2018.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management of the Plan to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Mutual Funds
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. See Note 3 for discussion of fair value measurement.

Note 2 Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Common/Collective Trust

Valued at the Net Asset Value ("NAV") of units of a bank collective trust. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Were the Plan to initiate a full redemption of the common/collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. Included in net appreciation (depreciation) in fair value of investments is the Plan's gains and losses on investments bought and sold during the year as well as held during the year.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. There were no loans take during the year ended December 31, 2018.

Expenses

Expenses related to the administration of the Plan are primarily paid directly by the Company. Investment related expenses, other than those paid directly by the Plan, are integrated with investment performance.

Subsequent Events

Management has evaluated subsequent events and transactions for potential recognition or disclosure through the date of the auditors' report, which is the date the financial statements were available to be issued.

Note 3 Investments

Fair Value Measurements

Generally accepted accounting principles ("GAAP") establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The Plan did not hold any level 2 or 3 investments at December 31, 2018. Valuation inputs for Level 1 are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See also Note 6.

Investments reported on the statement of net assets available for benefits for the years ended December 31, 2018 and 2017 are presented in the aggregate.

The following table sets forth by level, within the fair value hierarchy, the Plan's financial assets at fair value as of December 31, 2018 and 2017:

Investments at fair value:

	December 31, 2018
Level 1 – Mutual Funds	$ 147,262

In accordance with GAAP, certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. Such amount totaled $16,387 as of December 31, 2018.

Note 3 Investments (Continued)

The following sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2018:

Investment Type	Fair Value at 12/31/2018	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/ Collective Trust	$ 16,387	$ -	Daily	Daily

The Common/Collective Trust's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the Trust invests in instruments which are not expected to experience significant price fluctuations in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.
The Common/Collective Trust seeks to preserve principal and provide book value liquidity on a daily basis for Plan permitted, participant directed withdrawals while maintaining a competitive interest rate.

Note 4 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or partial termination, participants will become fully vested, and net assets will be distributed to participants and beneficiaries in proportion to their respective account balances.

Note 5 Tax Status

The IRS has determined, by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan will be open for examination for three years.

Note 6 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and participant account balances.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across a variety of participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments.

At December 31, 2018, three investment options accounted for more than 10% of the Plan's total net assets:

MFS Growth R6	$ 26,827	16%
American Funds 2050 Trgt Date Retire R6	$ 24,185	15%
American Funds 2030 Trgt Date Retire R6	$ 23,982	14%
