Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2018 and 2017 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Matrix Trust Company, The Northern Trust Company, and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2018 and 2017 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides for retirement and disability benefits for salaried employees of Pilkington North America, Inc. (the "Company"), except those who are covered by other company-sponsored plans and former employees of Pilkington Aerospace, Inc. (Aerospace). Aerospace was sold on September 30, 2003. Aerospace participants became fully vested in the Plan as of that date. The Plan was frozen to new participants and benefit calculation as of December 31, 1986. Effective January 1, 2004, the Plan may provide benefits based on a retroactive annuity starting date if certain requirements are met.

Restated Salaried Retirement Plan, Restated Sherman Plant Salaried Employees Retirement Plan, and Restated Laurinburg Plant Salaried Employees Retirement Plan were established on October 7, 1985 through a spinoff termination of the Libbey-Owens-Ford Company Salaried Retirement Plan for LOF Glass Employees, the Libbey-Owens-Ford Company Sherman Plant Salaried Employee Retirement Plan, and the Libbey-Owens-Ford Company Laurinburg Plant Salaried Employees Retirement Plan (collectively, the "Original Plans"). Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the Original Plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is generally calculated as certain percentages of compensation (defined by the Plan), multiplied by the participant's years of benefit service. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by Matrix Trust Company, the trustee of the Plan for the year ended December 31, 2018; therefore, these transactions qualify as party-in-interest transactions for the year ended December 31, 2018. Certain plan assets are investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company, the trustees of the Plan for the year ended December 31, 2017; therefore, these transactions qualify as party-in-interest transactions for the year ended December 31, 2017.

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. The Master Trust's and Plan's investments are stated at fair value.

The private equity funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. These funds are subject to some redemption restrictions, as described in Note 6. There are no unfunded commitments on these investments. The pooled separate account is valued at net asset value per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets. There are no redemption restrictions or unfunded commitments on this investment. The corporate bonds, government securities, and asset-backed securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund and certificates of deposit are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2018 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Assumed rate of return	4.50 percent per annum
Mortality basis	RP-2014 Employees and Healthy Annuitants Mortality Table with White Collar adjustment with mortality improvement using Scale MP-2018

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2019, which is the date the financial statements were available to be issued.

Upcoming Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the master trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

Note 3 - Unaudited Information

The Matrix Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") held the Plan's investments and executed all investment transactions during the periods under audit. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4, are based solely on information certified by the Trustees.

Pilkington North America, Inc. Restated Salaried Retirement Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 3 - Unaudited Information (Continued)

In 2018, the Master Trust changed trustees from The Northern Trust Company to Matrix Trust Company. Additionally, in 2018, the pooled separate account held by the Plan as of December 31, 2017 was transferred into the Master Trust and changed trustees from Prudential Retirement Insurance and Annuity Company to Matrix Trust Company.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and other Pilkington North America, Inc. sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. At December 31, 2018, the assets of the Master Trust are held by the Matrix Trust Company. At December 31, 2017, the assets of the Master Trust were held by The Northern Trust Company.

At December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was approximately 32 and 30 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2018 and 2017 are as follows:

	2018	2017
Master trust investments:		
Money market fund	\$ 2,597,344	\$ 717,046
Corporate bonds	88,454,643	190,837,533
Common stocks	13,322,534	-
Mutual funds	11,061,120	-
Exchange-traded funds	20,506,322	-
Government securities	12,368,399	-
Asset-backed securities	12,744,557	-
Certificates of deposit	1,607,421	-
Private equity	8,032,078	-
Total master trust investments	<u>\$ 170,694,418</u>	<u>\$ 191,554,579</u>

The investment (loss) income for the Master Trust for the years ended December 31, 2018 and 2017 is as follows:

	2018	2017
Net realized and unrealized (losses) gains	\$ (11,732,640)	\$ 17,372,996
Interest	3,921,172	7,912
Net investment (loss) income	<u>\$ (7,811,468)</u>	<u>\$ 17,380,908</u>

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which were made as of and for the year ended January 1, 2018, the most recent actuarial valuation, are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	\$ 61,439,565
Active, terminated, and transferred employees not presently receiving benefits	11,531,209
Total vested benefits	72,970,774
Nonvested benefits	57,931
Total actuarial present value of accumulated plan benefits	<u>\$ 73,028,705</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2018 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 75,097,076
Increase (decrease) during the year attributable to:	
Interest accumulation	3,230,143
Benefits paid	(6,706,036)
Changes in actuarial assumptions	(169,652)
Other	1,577,174
Net decrease	<u>(2,068,371)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 73,028,705</u>

The assumption changes relate to a change in the mortality improvement scale from MP-2017 to MP-2018.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

December 31, 2018 and 2017

Note 6 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2018 and 2017. The Plan did not hold assets outside of the Master Trust at December 31, 2018. The Plan held a pooled separate account outside of the Master Trust at December 31, 2017.

Note 6 - Fair Value Measurements (Continued)

- (1) This class represents investments in private equity investments.

One private equity fund holds positions in readily marketable investments and derivatives that are valued at quoted market values and/or less liquid nonmarketable investments and derivatives that are valued at estimated fair value. The mix and concentration of more readily marketable investments and less liquid nonmarketable investments varies across the underlying investment funds based on various factors, including the nature of their investment strategy. The fund's investments in investment funds are subject to the terms and conditions of the respective operating agreements and offering memoranda. Investors have access to 100 percent of their capital semiannually at June 30 and December 31, provided that the signed redemption form is received 95 calendar days prior to the prospective redemption date.

One private equity fund invests in publicly traded securities, private investment companies, and other investments. Shareholders have redemption rights that contain certain restrictions. Shareholders may redeem up to 50 percent of their capital semiannually. Redemptions only occur on June 30 and December 31, and notification is required by March 15 and September 15 of the fiscal year, respectively.

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	Originally effective: October 1, 1985. The plan was restated as of January 1, 2009 and most recently amended September 10, 2015.
Employees Covered by the Plan	Every salaried employee who receives compensation from the company, and is not represented by a labor organization, is eligible to participate on the first of the month, having completed one year of continuous service, and attained age 21. An employee must work at least 1,000 hours during a year to be credited with a year of continuous service. No employee may enter the plan on or after January 1, 1987.
Plan Status	Credited service was frozen effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan) and pay was frozen December 31, 1999.
Normal Retirement Eligibility	A member shall be eligible to retire on the first of the month after having reached age 65.
1974 Benefit	The basic monthly benefit will be 1% of the covered effective compensation for each year of credited service plus 1.5% of the excess effective covered compensation for each year of credited service. The benefit is payable for the lifetime of the member, with 50% continued to the member's surviving spouse or children under a specified age, after the member's death. For retirements on and after January 1, 2000, the 1974 benefits are increased by 10%.
Early Retirement Eligibility	An employee is eligible for an early retirement allowance upon attaining the earlier of age 55 and 10 years of eligibility service, or age 60 and five years of eligibility service.
1974 Benefit	The early retirement allowance will be the normal retirement basic monthly benefit, reduced by 0.5% for each month before age 62.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Disability Retirement
Eligibility

Having completed five years of eligibility service, and having been totally and permanently disabled for at least six consecutive months, the employee shall be eligible for a disability retirement allowance.

1974 Benefit

The disability retirement allowance will be the normal retirement basic monthly benefit payable on an actuarially reduced basis. Employees at the Laurinburg location receive this benefit without any reduction. The disability retirement benefit is reduced by any other company-provided disability benefits.

Deferred Vested Retirement
Eligibility

Five years of service and termination of employment, other than by death, entitles a member to a deferred vested retirement allowance.

1974 Benefit

The normal retirement basic monthly benefit allowance for all participants after five years of service. Benefits may be received as early as age 55 on an actuarially reduced basis from age 65.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Preretirement Surviving Spouse's Benefit
Eligibility

Death of a married member, after having fulfilled vesting eligibility, entitles the surviving spouse to a benefit.

1974 Benefit

The monthly benefit will be one-half of the early retirement benefit which the employee would have received if he/she had retired the first day of the month preceding death. The benefit should be payable to the surviving spouse at the employee's earliest retirement age.

Postretirement Surviving Spouse's Benefit
Eligibility

Death of a retired member, disabled retiree or vested termination receiving benefits, entitles the family to a monthly payment.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

1974 Benefit

The monthly benefit will be one-half of the retirement allowance. This amount is payable to the surviving spouse as long as he/she is alive, or to parentless children until age 18 or age 23, if in school.

Forms of Payment

A participant may elect to receive the 1974 normal retirement benefit, 1974 early retirement benefit, 1974 disability benefit, or the 1974 deferred vested benefit on an actuarially reduced basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence defined below. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse.)

Optional Forms of Payment

50% contingent annuity, beneficiary other than spouse.

Definitions

Effective Compensation

The average annual compensation during the five highest-paid consecutive calendar years of service through December 31, 1999. Effective for participants who retire on or after January 1, 2000, compensation earned after December 31, 1999 is not used to determine retirement benefits.

Covered Effective Compensation

The 35-year average of Social Security taxable wage bases ending in the year a participant attains Social Security normal retirement age. The Social Security wage base is projected level forward in making this determination.

Effective for participants who retire on or after January 1, 2000, this value is determined based on the Social Security taxable wage bases through 1999 and does not increase based on any increases to the Social Security taxable wage bases in the year 2000 or later. However, the covered effective compensation is determined by projecting the Social Security taxable wage base in effect during the most recent year that compensation was used in the determination of effective compensation.

Credited Service

Effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan), credited service used to determine the amount of plan benefits was frozen.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Eligibility Service

Although credited service was frozen, eligibility service continues to accrue for purposes of determining eligibility for retirement benefits.

An employee who transfers to salaried status covered by the plan from a status not covered by the plan shall have the period of service while not covered by the plan included solely for the purpose of determining eligibility for benefits.

Actuarial Equivalence

For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 31, 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under section 417(e)(3)(A) of the Internal Revenue Code.

Determined based on the 1951 Group Annuity Mortality table projected to 1975 by Scale C, with a one-year setback for pensioners and a six-year setback for spouses. Interest is the "Factor K-1" promulgated by the Pension Guaranty Corporation as of January 1 (for retirements after February 1, 1991).

Participants may elect to receive benefits on an actuarially adjusted basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse).

Minimum Benefits Under the
1974 Plan (Article III Benefits)

A salaried employee actively employed at the time of his retirement and who retires after January 1, 1987 may elect to receive the following minimum benefits in lieu of and in substitution for any other benefits under this plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Forms of Benefits

Minimum Normal Retirement

With at least 10 years of eligibility service at normal retirement, the participant may elect to receive a pension equal to the number of years of credited service as of the earlier of the normal retirement date (or current age for employees over age 65) and December 31, 1986 (June 30, 1987 with respect to former participants in the Modern Tools Plan) multiplied by the following amounts:

Credited Service	Annual Multiplier
< = 19	\$180.00
> 19, < = 29	\$216.00
> 29	\$240.00

Retirements after October 1, 1987:

Credited Service	Annual Multiplier
< = 18	\$192.00
> 18, < = 28	\$228.00
> 28	\$255.60

This benefit is payable as a life only annuity.

Minimum Early Retirement

Upon age 60 and 10 years of eligibility service or age 55, with age plus eligibility service at least 85, the minimum normal benefit is payable after applying the following factor prorated for intermediate ages.

Age	ERF
55	0.579
56	0.635
57	0.694
58	0.752
59	0.808
60	0.867
61	0.933
62	1.000

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

If, at the time of retirement, the participant is actively employed and has attained age 62 with 15 or more years of eligibility service, the minimum early benefit is doubled for each monthly payment up to and including the earlier of the month in which age 65 is attained or until eligible for an unreduced old age or disability Social Security allowance.

Minimum Special Thirty

An active salaried employee who retires with 30 years of eligibility service may elect to receive a benefit equal to the amount of the minimum early retirement benefit, plus a special allowance to bring his annual benefit to \$10,980.

A person who qualifies for this benefit and has less than 30 years of credited service as of December 31, 1986 shall receive a fraction of this benefit relative to credited service as of December 31, 1986 divided by 30 years.

At age 62, the minimum normal retirement benefit is payable.

Minimum Survivor Option

In lieu of minimum normal, minimum early, or special thirty benefits, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 60% of the reduced amount.

95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the participant's age.

Other forms of benefit are available as described in the Definitions section, below.

Minimum Preretirement Survivor

For a salaried employee who dies prior to retirement but after becoming eligible for these minimum benefits, the surviving spouse shall be entitled to a monthly benefit for life, commencing the first of the month after the employee's death. The monthly benefit is the amount the spouse would have been entitled to receive under the minimum survivor benefit option if the employee had retired on the date of death.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

The surviving spouse of a salaried employee who dies after attaining 10 or more years of eligibility service but prior to becoming eligible for retirement benefits shall be entitled to a monthly benefit commencing at any time after the employee would have attained age 60. The amount of this benefit is 50% of the minimum normal benefit reduced as defined under the minimum survivor benefit option and additionally reduced by 5/9% for each complete calendar month prior to the date the employee would have attained age 65.

Benefits Under the 1950 Plus
1944 Plan (Article IV)

An eligible salaried employee may elect to have benefits payable under the 1950 plan plus benefits under the 1944 plan in lieu of and in substitution for any benefits under the 1974 plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

For retirements on and after January 1, 2000, Article IV benefits are increased by 10%.

Forms of Benefits

Article IV Normal Retirement Benefit

An employee is eligible to receive normal retirement benefits the first day of the month following the month in which an employee reaches the sixty-fifth anniversary of his date of birth. The participant is eligible for the 1950 benefit provided 10 years of eligibility service are earned by the normal retirement date. The Article IV normal retirement benefit is calculated as:

The 1950 benefit payable as a life only annuity;

plus

The 1944 benefit, payable in the 10-year certain and life continuous annuity form.

The 1950 benefit is defined as 2.8% of the first \$3,000 of effective compensation times credited service. The definition of the 1950 benefit is commonly described as \$7 per month for each year of credited service ($2.8\% \times \$3,000/12 = \7).

The 1944 benefit is defined as (1) plus (2), below:

- (1) $1.667\% \times$ effective compensation over \$3,000 x minimum credited service, 15

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

(2) $0.25\% \times \text{effective compensation over } \$3,000 \times \text{credited service since 1941.}$

Item (2) is reduced pro rata for less than 15 years of credited service.

Article IV Early Retirement Benefit

A salaried employee who has attained age 55 is eligible to receive the following:

The actuarial equivalent of the 1944 benefit;

plus

If (i) age 60 with 10 years of eligibility service or (ii) age 55, with age plus eligibility service at least 85, the 1950 benefit multiplied by the same factors defined under "Minimum Early Retirement Benefits," above, provided that if actively employed at the time of retirement and age 62 with at least 15 years of eligibility service, the 1950 benefit is doubled for each monthly payment up to and including the month in which age 65 is attained or until eligible for disability or regular old-age allowance under the Federal Social Security Act.

Article IV Disability Retirement Benefit

At five years of eligibility service or upon attaining age 55, a participant who becomes totally and permanently disabled will be entitled to receive the 1944 benefit on an actuarially reduced basis;

plus

The sum of (i) the 1950 benefit but not less than \$100 per month (if has 10 years of eligibility service) and (ii) 3.0% of the first \$3,000 of effective compensation $\times$ credited service at the earlier of retirement or December 31, 1986, but not more than \$187.50 per month (provided that upon attaining normal retirement date or when entitled to an unreduced old-age or disability Social Security allowance, this part of the allowance is reduced to the 1950 benefit).

The 10% increase in benefits for retirements on and after January 1, 2000 is not applied to the \$100 minimum in (i) and the \$187.50 maximum in (ii) above.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Article IV Survivor Benefit Option

In lieu of the 1950 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 55% of the reduced amount.

95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the participant's age.

In lieu of the 1944 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to convert the benefits otherwise payable in an actuarially equivalent 50% joint and survivor form of benefit.

Other forms of benefit are available as described under the definition of actuarial equivalence below.

Article IV Preretirement Survivor
Death Benefits

Upon death of an active employee or of an employee at least age 55 at termination with 10 years of eligibility service, benefits are as follows:

The actuarial equivalent of the 1944 benefit which would have been paid if employment had terminated on the date of death to his designated beneficiary in a lump sum, or installments over a period certain (which, as to beneficiaries other than a surviving spouse, may not exceed five years and which, as to a surviving spouse, may not exceed such spouse's life expectancy);

plus

The 1950 benefit payable as the Article IV survivor benefit option to the surviving spouse of a participant who died after reaching age 60 or after reaching age 55 with age plus eligibility service of at least 85.

Aerospace Participants

Aerospace Effective Date

April 1, 1972

The most recent amendment and restatement to the plan is effective January 1, 2004.

Employees Covered by the Plan

Any person employed by the company with the exception of:

- (a) Board of Directors member not serving the company
- (b) Persons covered by other plan to which the company contributes
- (c) Persons represented by a labor organization
- (d) Leased employees
- (e) Persons employed by SDC Coatings, Inc.

Plan Status

The plan was frozen effective September 30, 2003.

Normal Retirement
Eligibility

A participant is eligible to receive normal retirement benefits the first day of the month coincident with or next following the month in which age 65 is attained, once the fifth anniversary of participation is reached, in the form of a life only annuity.

Aerospace Benefit

The benefit payable is defined as the greater of (1) + (2) and (3), as follows:

- (1) 1% of the lesser of average monthly compensation and covered compensation, multiplied by credited service; plus
- (2) 1.45% of average monthly compensation in excess of covered compensation multiplied by credited service up to 40 years.
- (3) \$25 multiplied by continuous service.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Early Retirement
Eligibility

A participant is eligible to receive early retirement benefits the first day of the month coincident with or next following the month in which age 55 is attained, if 10 or more years of continuous service have been earned. Individuals who terminated employment prior to April 30, 1997 were required to earn 15 years of continuous service for early retirement benefit eligibility.

Aerospace Benefit

The early retirement benefit is defined as the normal retirement benefit reduced based on the participant's age in terms of years and completed months according to the following table of early retirement factors (ERFs):

Age	ERF
55	0.500
56	0.533
57	0.567
58	0.600
59	0.633
60	0.667
61	0.733
62	0.800
63	0.867
64	0.933
65	1.000

This table of ERFs represents a reduction of 5/900ths for the first 60 months and 5/1800ths for each of the next 60 months by which the benefit commencement date precedes normal retirement.

Disability Retirement
Eligibility

Once five years of continuous service has been earned, a participant is eligible to receive disability retirement benefits the first day of the month coincident with or next following six months from the date when the participant becomes totally and permanently disabled, as determined by the Social Security Administration.

Aerospace Benefit

The disability retirement benefit payable is the same as defined for the normal retirement benefit.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Deferred Vested Retirement

Eligibility

Completion of five years of continuous service.

Benefit

The normal retirement benefit is payable the first month coincident with or next following attainment of age 65.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Surviving Spouse Benefit

For a vested participant who dies subsequent to attaining age 55, the monthly survivor's benefit is 60% of the amount determined under normal retirement benefits (actuarially reduced if the surviving spouse has not attained age 55). For a vested participant who dies prior to attaining age 55, the monthly survivor's benefit is determined assuming the participant terminated employment on the date of death, survived to the earliest retirement age, retired under the normal form of benefit (the 50% joint and survivor form of benefit) and died the next day.

Late Retirement

Retirement may be delayed beyond normal retirement. The benefit payable is defined as the greater of (1) + (2), (3) + (4), and (5), as follows:

- (1) 1% of the lesser of average monthly compensation and covered compensation, both determined at the late retirement date, multiplied by credited service earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date; plus
- (2) 1.45% of average monthly compensation in excess of covered compensation, both determined at the late retirement date, multiplied by credited service up to 40 years earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date.
- (3) 1% of the lesser of average monthly compensation, multiplied by credited service, all determined at the late retirement date; plus

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

- (4) 1.45% of average monthly compensation in excess of covered compensation, multiplied by credited service up to 40 years, all determined at the late retirement date.
- (5) \$25 multiplied by continuous service to the late retirement date.

Forms of Payment

The participant will be paid the single lump sum value of their benefit if the present value of their benefits at the payment date is less than \$5,000. If the present value of the benefits is greater than \$5,000, and if the participant has an eligible spouse, the normal form of payment is an actuarially reduced 50% joint and survivor benefit. Otherwise, the normal form of payment is a single life annuity. Optional forms of payment may not be elected for the disability retirement benefit. For the normal retirement benefit, the early retirement benefit and the late retirement benefit, optional forms of payment may be elected with spousal consent, as follows: Single life annuity; 10-year or 15-year certain and continuous annuity; or a 50%, 66⅔%, 75%, or 100% joint and survivor benefit. Single lump sum values over \$5,000 are not available under the terms of the plan.

Definitions

Participation

Participation is granted on the first day of the month following completion of one year of continuous service in 12 months of employment.

Continuous Service

After April 1, 1981, continuous service is determined based on the elapsed time period. In determination of service under the elapsed time method, the last day of the month coinciding with or following the date of termination is considered the date when employment ceased.

Credited Service

Effective September 30, 2003, credited service used to determine the amount of plan benefits was frozen.

Vesting Schedule

Participants are 100% vested once they have earned five years of continuous service. Participants who terminate employment prior to attaining five years of continuous service are 0% vested and are not due a benefit under the plan.

Actuarial Equivalence

For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 31, 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under section 417(e)(3)(A) of the Internal Revenue Code.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2016 Plan Year	5.00%
2017 Plan Year	4.50%

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	Originally effective: October 1, 1985. The plan was restated as of January 1, 2009 and most recently amended September 10, 2015.
Employees Covered by the Plan	Every salaried employee who receives compensation from the company, and is not represented by a labor organization, is eligible to participate on the first of the month, having completed one year of continuous service, and attained age 21. An employee must work at least 1,000 hours during a year to be credited with a year of continuous service. No employee may enter the plan on or after January 1, 1987.
Plan Status	Credited service was frozen effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan) and pay was frozen December 31, 1999.
Normal Retirement Eligibility	A member shall be eligible to retire on the first of the month after having reached age 65.
1974 Benefit	The basic monthly benefit will be 1% of the covered effective compensation for each year of credited service plus 1.5% of the excess effective covered compensation for each year of credited service. The benefit is payable for the lifetime of the member, with 50% continued to the member's surviving spouse or children under a specified age, after the member's death. For retirements on and after January 1, 2000, the 1974 benefits are increased by 10%.
Early Retirement Eligibility	An employee is eligible for an early retirement allowance upon attaining the earlier of age 55 and 10 years of eligibility service, or age 60 and five years of eligibility service.
1974 Benefit	The early retirement allowance will be the normal retirement basic monthly benefit, reduced by 0.5% for each month before age 62.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Disability Retirement
Eligibility

Having completed five years of eligibility service, and having been totally and permanently disabled for at least six consecutive months, the employee shall be eligible for a disability retirement allowance.

1974 Benefit

The disability retirement allowance will be the normal retirement basic monthly benefit payable on an actuarially reduced basis. Employees at the Laurinburg location receive this benefit without any reduction. The disability retirement benefit is reduced by any other company-provided disability benefits.

Deferred Vested Retirement
Eligibility

Five years of service and termination of employment, other than by death, entitles a member to a deferred vested retirement allowance.

1974 Benefit

The normal retirement basic monthly benefit allowance for all participants after five years of service. Benefits may be received as early as age 55 on an actuarially reduced basis from age 65.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Preretirement Surviving Spouse's Benefit
Eligibility

Death of a married member, after having fulfilled vesting eligibility, entitles the surviving spouse to a benefit.

1974 Benefit

The monthly benefit will be one-half of the early retirement benefit which the employee would have received if he/she had retired the first day of the month preceding death. The benefit should be payable to the surviving spouse at the employee's earliest retirement age.

Postretirement Surviving Spouse's Benefit
Eligibility

Death of a retired member, disabled retiree or vested termination receiving benefits, entitles the family to a monthly payment.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

1974 Benefit	The monthly benefit will be one-half of the retirement allowance. This amount is payable to the surviving spouse as long as he/she is alive, or to parentless children until age 18 or age 23, if in school.
Forms of Payment	A participant may elect to receive the 1974 normal retirement benefit, 1974 early retirement benefit, 1974 disability benefit, or the 1974 deferred vested benefit on an actuarially reduced basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence defined below. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse.)
Optional Forms of Payment	50% contingent annuity, beneficiary other than spouse.
Definitions	
Effective Compensation	The average annual compensation during the five highest-paid consecutive calendar years of service through December 31, 1999. Effective for participants who retire on or after January 1, 2000, compensation earned after December 31, 1999 is not used to determine retirement benefits.
Covered Effective Compensation	<p>The 35-year average of Social Security taxable wage bases ending in the year a participant attains Social Security normal retirement age. The Social Security wage base is projected level forward in making this determination.</p> <p>Effective for participants who retire on or after January 1, 2000, this value is determined based on the Social Security taxable wage bases through 1999 and does not increase based on any increases to the Social Security taxable wage bases in the year 2000 or later. However, the covered effective compensation is determined by projecting the Social Security taxable wage base in effect during the most recent year that compensation was used in the determination of effective compensation.</p>
Credited Service	Effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan), credited service used to determine the amount of plan benefits was frozen.

Eligibility Service

Although credited service was frozen, eligibility service continues to accrue for purposes of determining eligibility for retirement benefits.

An employee who transfers to salaried status covered by the plan from a status not covered by the plan shall have the period of service while not covered by the plan included solely for the purpose of determining eligibility for benefits.

Actuarial Equivalence

For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 31, 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under section 417(e)(3)(A) of the Internal Revenue Code.

Determined based on the 1951 Group Annuity Mortality table projected to 1975 by Scale C, with a one-year setback for pensioners and a six-year setback for spouses. Interest is the "Factor K-1" promulgated by the Pension Guaranty Corporation as of January 1 (for retirements after February 1, 1991).

Participants may elect to receive benefits on an actuarially adjusted basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse).

Minimum Benefits Under the
1974 Plan (Article III Benefits)

A salaried employee actively employed at the time of his retirement and who retires after January 1, 1987 may elect to receive the following minimum benefits in lieu of and in substitution for any other benefits under this plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

Schedule SB Attachment (Form 5500)—2018 Plan Year

EIN: 34-1506654 PN: 030

Forms of Benefits

Minimum Normal Retirement

With at least 10 years of eligibility service at normal retirement, the participant may elect to receive a pension equal to the number of years of credited service as of the earlier of the normal retirement date (or current age for employees over age 65) and December 31, 1986 (June 30, 1987 with respect to former participants in the Modern Tools Plan) multiplied by the following amounts:

Credited Service	Annual Multiplier
< = 19	\$180.00
> 19, < = 29	\$216.00
> 29	\$240.00

Retirements after October 1, 1987:

Credited Service	Annual Multiplier
< = 18	\$192.00
> 18, < = 28	\$228.00
> 28	\$255.60

This benefit is payable as a life only annuity.

Minimum Early Retirement

Upon age 60 and 10 years of eligibility service or age 55, with age plus eligibility service at least 85, the minimum normal benefit is payable after applying the following factor prorated for intermediate ages.

Age	ERF
55	0.579
56	0.635
57	0.694
58	0.752
59	0.808
60	0.867
61	0.933
62	1.000

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

If, at the time of retirement, the participant is actively employed and has attained age 62 with 15 or more years of eligibility service, the minimum early benefit is doubled for each monthly payment up to and including the earlier of the month in which age 65 is attained or until eligible for an unreduced old age or disability Social Security allowance.

Minimum Special Thirty

An active salaried employee who retires with 30 years of eligibility service may elect to receive a benefit equal to the amount of the minimum early retirement benefit, plus a special allowance to bring his annual benefit to \$10,980.

A person who qualifies for this benefit and has less than 30 years of credited service as of December 31, 1986 shall receive a fraction of this benefit relative to credited service as of December 31, 1986 divided by 30 years.

At age 62, the minimum normal retirement benefit is payable.

Minimum Survivor Option

In lieu of minimum normal, minimum early, or special thirty benefits, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 60% of the reduced amount.

95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the participant's age.

Other forms of benefit are available as described in the Definitions section, below.

Minimum Preretirement Survivor

For a salaried employee who dies prior to retirement but after becoming eligible for these minimum benefits, the surviving spouse shall be entitled to a monthly benefit for life, commencing the first of the month after the employee's death. The monthly benefit is the amount the spouse would have been entitled to receive under the minimum survivor benefit option if the employee had retired on the date of death.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

The surviving spouse of a salaried employee who dies after attaining 10 or more years of eligibility service but prior to becoming eligible for retirement benefits shall be entitled to a monthly benefit commencing at any time after the employee would have attained age 60. The amount of this benefit is 50% of the minimum normal benefit reduced as defined under the minimum survivor benefit option and additionally reduced by 5/9% for each complete calendar month prior to the date the employee would have attained age 65.

Benefits Under the 1950 Plus
1944 Plan (Article IV)

An eligible salaried employee may elect to have benefits payable under the 1950 plan plus benefits under the 1944 plan in lieu of and in substitution for any benefits under the 1974 plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

For retirements on and after January 1, 2000, Article IV benefits are increased by 10%.

Forms of Benefits

Article IV Normal Retirement Benefit

An employee is eligible to receive normal retirement benefits the first day of the month following the month in which an employee reaches the sixty-fifth anniversary of his date of birth. The participant is eligible for the 1950 benefit provided 10 years of eligibility service are earned by the normal retirement date. The Article IV normal retirement benefit is calculated as:

The 1950 benefit payable as a life only annuity;

plus

The 1944 benefit, payable in the 10-year certain and life continuous annuity form.

The 1950 benefit is defined as 2.8% of the first \$3,000 of effective compensation times credited service. The definition of the 1950 benefit is commonly described as \$7 per month for each year of credited service ($2.8\% \times \$3,000/12 = \7).

The 1944 benefit is defined as (1) plus (2), below:

- (1) $1.667\% \times$ effective compensation over \$3,000 x minimum credited service, 15

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

(2) $0.25\% \times$ effective compensation over \$3,000 $\times$ credited service since 1941.

Item (2) is reduced pro rata for less than 15 years of credited service.

Article IV Early Retirement Benefit

A salaried employee who has attained age 55 is eligible to receive the following:

The actuarial equivalent of the 1944 benefit;

plus

If (i) age 60 with 10 years of eligibility service or (ii) age 55, with age plus eligibility service at least 85, the 1950 benefit multiplied by the same factors defined under "Minimum Early Retirement Benefits," above, provided that if actively employed at the time of retirement and age 62 with at least 15 years of eligibility service, the 1950 benefit is doubled for each monthly payment up to and including the month in which age 65 is attained or until eligible for disability or regular old-age allowance under the Federal Social Security Act.

Article IV Disability Retirement Benefit

At five years of eligibility service or upon attaining age 55, a participant who becomes totally and permanently disabled will be entitled to receive the 1944 benefit on an actuarially reduced basis;

plus

The sum of (i) the 1950 benefit but not less than \$100 per month (if has 10 years of eligibility service) and (ii) 3.0% of the first \$3,000 of effective compensation $\times$ credited service at the earlier of retirement or December 31, 1986, but not more than \$187.50 per month (provided that upon attaining normal retirement date or when entitled to an unreduced old-age or disability Social Security allowance, this part of the allowance is reduced to the 1950 benefit).

The 10% increase in benefits for retirements on and after January 1, 2000 is not applied to the \$100 minimum in (i) and the \$187.50 maximum in (ii) above.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Article IV Survivor Benefit Option

In lieu of the 1950 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 55% of the reduced amount.

95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the participant's age.

In lieu of the 1944 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to convert the benefits otherwise payable in an actuarially equivalent 50% joint and survivor form of benefit.

Other forms of benefit are available as described under the definition of actuarial equivalence below.

Article IV Preretirement Survivor
Death Benefits

Upon death of an active employee or of an employee at least age 55 at termination with 10 years of eligibility service, benefits are as follows:

The actuarial equivalent of the 1944 benefit which would have been paid if employment had terminated on the date of death to his designated beneficiary in a lump sum, or installments over a period certain (which, as to beneficiaries other than a surviving spouse, may not exceed five years and which, as to a surviving spouse, may not exceed such spouse's life expectancy);

plus

The 1950 benefit payable as the Article IV survivor benefit option to the surviving spouse of a participant who died after reaching age 60 or after reaching age 55 with age plus eligibility service of at least 85.

Aerospace Participants

Aerospace Effective Date

April 1, 1972

The most recent amendment and restatement to the plan is effective January 1, 2004.

Employees Covered by the Plan

Any person employed by the company with the exception of:

- (a) Board of Directors member not serving the company
- (b) Persons covered by other plan to which the company contributes
- (c) Persons represented by a labor organization
- (d) Leased employees
- (e) Persons employed by SDC Coatings, Inc.

Plan Status

The plan was frozen effective September 30, 2003.

Normal Retirement
Eligibility

A participant is eligible to receive normal retirement benefits the first day of the month coincident with or next following the month in which age 65 is attained, once the fifth anniversary of participation is reached, in the form of a life only annuity.

Aerospace Benefit

The benefit payable is defined as the greater of (1) + (2) and (3), as follows:

- (1) 1% of the lesser of average monthly compensation and covered compensation, multiplied by credited service; plus
- (2) 1.45% of average monthly compensation in excess of covered compensation multiplied by credited service up to 40 years.
- (3) \$25 multiplied by continuous service.

Schedule SB Attachment (Form 5500)—2018 Plan Year

Early Retirement
Eligibility

A participant is eligible to receive early retirement benefits the first day of the month coincident with or next following the month in which age 55 is attained, if 10 or more years of continuous service have been earned. Individuals who terminated employment prior to April 30, 1997 were required to earn 15 years of continuous service for early retirement benefit eligibility.

Aerospace Benefit

The early retirement benefit is defined as the normal retirement benefit reduced based on the participant's age in terms of years and completed months according to the following table of early retirement factors (ERFs):

Age	ERF
55	0.500
56	0.533
57	0.567
58	0.600
59	0.633
60	0.667
61	0.733
62	0.800
63	0.867
64	0.933
65	1.000

This table of ERFs represents a reduction of 5/900ths for the first 60 months and 5/1800ths for each of the next 60 months by which the benefit commencement date precedes normal retirement.

Disability Retirement
Eligibility

Once five years of continuous service has been earned, a participant is eligible to receive disability retirement benefits the first day of the month coincident with or next following six months from the date when the participant becomes totally and permanently disabled, as determined by the Social Security Administration.

Aerospace Benefit

The disability retirement benefit payable is the same as defined for the normal retirement benefit.

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

Deferred Vested Retirement

Eligibility

Completion of five years of continuous service.

Benefit

The normal retirement benefit is payable the first month coincident with or next following attainment of age 65.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Surviving Spouse Benefit

For a vested participant who dies subsequent to attaining age 55, the monthly survivor's benefit is 60% of the amount determined under normal retirement benefits (actuarially reduced if the surviving spouse has not attained age 55). For a vested participant who dies prior to attaining age 55, the monthly survivor's benefit is determined assuming the participant terminated employment on the date of death, survived to the earliest retirement age, retired under the normal form of benefit (the 50% joint and survivor form of benefit) and died the next day.

Late Retirement

Retirement may be delayed beyond normal retirement. The benefit payable is defined as the greater of (1) + (2), (3) + (4), and (5), as follows:

- (1) 1% of the lesser of average monthly compensation and covered compensation, both determined at the late retirement date, multiplied by credited service earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date; plus
- (2) 1.45% of average monthly compensation in excess of covered compensation, both determined at the late retirement date, multiplied by credited service up to 40 years earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date.
- (3) 1% of the lesser of average monthly compensation, multiplied by credited service, all determined at the late retirement date; plus

Schedule SB Attachment (Form 5500)—2018 Plan Year
Pilkington North America, Inc. Restated Salaried Retirement Plan
EIN: 34-1506654 PN: 030

- (4) 1.45% of average monthly compensation in excess of covered compensation, multiplied by credited service up to 40 years, all determined at the late retirement date.
- (5) \$25 multiplied by continuous service to the late retirement date.

Forms of Payment

The participant will be paid the single lump sum value of their benefit if the present value of their benefits at the payment date is less than \$5,000. If the present value of the benefits is greater than \$5,000, and if the participant has an eligible spouse, the normal form of payment is an actuarially reduced 50% joint and survivor benefit. Otherwise, the normal form of payment is a single life annuity. Optional forms of payment may not be elected for the disability retirement benefit. For the normal retirement benefit, the early retirement benefit and the late retirement benefit, optional forms of payment may be elected with spousal consent, as follows: Single life annuity; 10-year or 15-year certain and continuous annuity; or a 50%, 66⅔%, 75%, or 100% joint and survivor benefit. Single lump sum values over \$5,000 are not available under the terms of the plan.

Definitions

Participation

Participation is granted on the first day of the month following completion of one year of continuous service in 12 months of employment.

Continuous Service

After April 1, 1981, continuous service is determined based on the elapsed time period. In determination of service under the elapsed time method, the last day of the month coinciding with or following the date of termination is considered the date when employment ceased.

Credited Service

Effective September 30, 2003, credited service used to determine the amount of plan benefits was frozen.

Vesting Schedule

Participants are 100% vested once they have earned five years of continuous service. Participants who terminate employment prior to attaining five years of continuous service are 0% vested and are not due a benefit under the plan.

Actuarial Equivalence

For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 31, 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under section 417(e)(3)(A) of the Internal Revenue Code.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2018 and 2017 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Matrix Trust Company, The Northern Trust Company, and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2018 and 2017 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides for retirement and disability benefits for salaried employees of Pilkington North America, Inc. (the "Company"), except those who are covered by other company-sponsored plans and former employees of Pilkington Aerospace, Inc. (Aerospace). Aerospace was sold on September 30, 2003. Aerospace participants became fully vested in the Plan as of that date. The Plan was frozen to new participants and benefit calculation as of December 31, 1986. Effective January 1, 2004, the Plan may provide benefits based on a retroactive annuity starting date if certain requirements are met.

Restated Salaried Retirement Plan, Restated Sherman Plant Salaried Employees Retirement Plan, and Restated Laurinburg Plant Salaried Employees Retirement Plan were established on October 7, 1985 through a spinoff termination of the Libbey-Owens-Ford Company Salaried Retirement Plan for LOF Glass Employees, the Libbey-Owens-Ford Company Sherman Plant Salaried Employee Retirement Plan, and the Libbey-Owens-Ford Company Laurinburg Plant Salaried Employees Retirement Plan (collectively, the "Original Plans"). Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the Original Plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is generally calculated as certain percentages of compensation (defined by the Plan), multiplied by the participant's years of benefit service. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by Matrix Trust Company, the trustee of the Plan for the year ended December 31, 2018; therefore, these transactions qualify as party-in-interest transactions for the year ended December 31, 2018. Certain plan assets are investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company, the trustees of the Plan for the year ended December 31, 2017; therefore, these transactions qualify as party-in-interest transactions for the year ended December 31, 2017.

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. The Master Trust's and Plan's investments are stated at fair value.

The private equity funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. These funds are subject to some redemption restrictions, as described in Note 6. There are no unfunded commitments on these investments. The pooled separate account is valued at net asset value per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets. There are no redemption restrictions or unfunded commitments on this investment. The corporate bonds, government securities, and asset-backed securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund and certificates of deposit are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2018 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Assumed rate of return	4.50 percent per annum
Mortality basis	RP-2014 Employees and Healthy Annuitants Mortality Table with White Collar adjustment with mortality improvement using Scale MP-2018

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2019, which is the date the financial statements were available to be issued.

Upcoming Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the master trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

Note 3 - Unaudited Information

The Matrix Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") held the Plan's investments and executed all investment transactions during the periods under audit. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4, are based solely on information certified by the Trustees.

Note 3 - Unaudited Information (Continued)

In 2018, the Master Trust changed trustees from The Northern Trust Company to Matrix Trust Company. Additionally, in 2018, the pooled separate account held by the Plan as of December 31, 2017 was transferred into the Master Trust and changed trustees from Prudential Retirement Insurance and Annuity Company to Matrix Trust Company.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and other Pilkington North America, Inc. sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. At December 31, 2018, the assets of the Master Trust are held by the Matrix Trust Company. At December 31, 2017, the assets of the Master Trust were held by The Northern Trust Company.

At December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was approximately 32 and 30 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2018 and 2017 are as follows:

	2018	2017
Master trust investments:		
Money market fund	\$ 2,597,344	\$ 717,046
Corporate bonds	88,454,643	190,837,533
Common stocks	13,322,534	-

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which were made as of and for the year ended January 1, 2018, the most recent actuarial valuation, are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	\$ 61,439,565
Active, terminated, and transferred employees not presently receiving benefits	11,531,209
Total vested benefits	72,970,774
Nonvested benefits	57,931
Total actuarial present value of accumulated plan benefits	<u>\$ 73,028,705</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2018 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 75,097,076
Increase (decrease) during the year attributable to:	
Interest accumulation	3,230,143
Benefits paid	(6,706,036)
Changes in actuarial assumptions	(169,652)
Other	1,577,174
Net decrease	<u>(2,068,371)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 73,028,705</u>

The assumption changes relate to a change in the mortality improvement scale from MP-2017 to MP-2018.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 6 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2018 and 2017. The Plan did not hold assets outside of the Master Trust at December 31, 2018. The Plan held a pooled separate account outside of the Master Trust at December 31, 2017.

Note 6 - Fair Value Measurements (Continued)

- (1) This class represents investments in private equity investments.

One private equity fund holds positions in readily marketable investments and derivatives that are valued at quoted market values and/or less liquid nonmarketable investments and derivatives that are valued at estimated fair value. The mix and concentration of more readily marketable investments and less liquid nonmarketable investments varies across the underlying investment funds based on various factors, including the nature of their investment strategy. The fund's investments in investment funds are subject to the terms and conditions of the respective operating agreements and offering memoranda. Investors have access to 100 percent of their capital semiannually at June 30 and December 31, provided that the signed redemption form is received 95 calendar days prior to the prospective redemption date.

One private equity fund invests in publicly traded securities, private investment companies, and other investments. Shareholders have redemption rights that contain certain restrictions. Shareholders may redeem up to 50 percent of their capital semiannually. Redemptions only occur on June 30 and December 31, and notification is required by March 15 and September 15 of the fiscal year, respectively.

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
