Note 1 - Plan Description

The following description of the Bosch Savings Incentive Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible full-time employees of Robert Bosch, LLC and participating subsidiaries (the "Company"), and affiliates that have adopted the Plan. Part-time employees are eligible to participate after one year of service consisting of 1,000 hours of service, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee contributions up to a maximum of 85 percent of annual eligible compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Unless an employee elects otherwise, eligible new employees are automatically enrolled in the Plan with a 5 percent pre-tax deferral rate. The deferral rate increases 1 percent each year, until it reaches a maximum of 9 percent. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for variable employer matching contributions ranging from 0 to 100 percent of the first 9 percent of eligible compensation contributed by the participant. For employees of Associated Fuel Systems Corporation (AFCO), the employer matching contribution is a fixed rate of 75 percent of the first 9 percent of eligible compensation contributed by the participant. For all employers except for AFCO, the percentage range is determined annually. The matching percentage was 75% for all participating employers, including AFCO, in 2018.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on contributions and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Benefit Payments

In the event of retirement, termination of service, death, or disability, a participant may elect to receive either a lump-sum payment, or various installment payments, equal to the value of the participant's vested interest in his or her account. Prior to termination of service, participants may withdraw their after-tax and rollover contributions at any time, or a portion of their account after attaining the age of 59½.

Participants may request that a portion of their employee contribution accounts be distributed in the case of financial hardship, as defined in the plan document.

Vesting

Participants are immediately vested in their employee contributions and rollover contributions plus actual earnings thereon. A participant is generally 100 vested in the employer match portion of their account after 3 years of credited service. Accounts of participants who are actively employed at a location that is closed generally become fully vested on the closure date.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan.

Note 1 - Plan Description (Continued)

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50 percent of their account balance, not to exceed $50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate. Notes receivable are amortized over a reasonable period of time, generally not to exceed five years (25 years if used to purchase a primary residence).

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan, therefore these transactions, as well as participant notes receivable, qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The value of the Plan's interest in the Robert Bosch Defined Contribution Retirement Plan Trust ("Master Trust") is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value, except for fully benefit-responsive synthetic guaranteed investment contracts, which are valued at contract value. Contract value represents deposits made to the contracts, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The collective trusts are valued at the net asset value per share (NAV) (or its equivalent) of the funds as a practical expedient, which are based on the fair value of the funds' underlying assets. There are no unfunded commitments on these investments, and each of the funds has unlimited redemption frequency. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net investment loss from the Plan's interest in the Master Trust, which consists primarily of the realized gains or losses on the fair value of the Master Trust investments and the unrealized appreciation (depreciation) on those investments, is included in the statement of changes in net assets available for benefits.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 15, 2019, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

Fidelity Management Trust Company (the "Trustee") holds the Master Trust's investments and participant notes receivable and executes all related transactions. The completeness and accuracy of Master Trust information included in Note 4, the investment and participant notes receivable balances as of December 31, 2018 and 2017 included in the statements of net assets available for benefits, the Plan's share of the Master Trust investment loss and interest from participant notes receivable for the year ended December 31, 2018 included in the statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year) as of December 31, 2018, are based solely on information certified by the Trustee.

Note 4 - Investments

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and several other benefit plans sponsored by the Company and its affiliates. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon daily balances of the respective investments invested by each plan.

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Note 4 - Investments (Continued)

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Total investment loss	$ (153,180,963)

Note 5 - Investment Contracts

The Master Trust holds synthetic investment contracts (synthetic GICs). The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive wrapper contracts issued by insurance companies. The assets underlying the synthetic GICs substantially consist of an intermediate bond collective trust fund.

Fully benefit-responsive synthetic GICs are valued at contract value. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The contracts used by the Plan are fully benefit responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk.

The crediting interest rate, which is reset quarterly and is based on a formula agreed upon with each wrapper contract issuer, can never fall below zero. The crediting rate formula smooths the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark.

Certain events limit the ability of the Master Trust to transact at contract value with the issuers. These events include restructurings, early retirement plans, divestitures, bankruptcies, or as the result of legal, tax or regulatory changes. The Plan administrator believes that the occurrence of any such event is not probable.

The providers of the wrapper contracts can only terminate at a value different than contract value under an event of default (that was not remedied), such as failure to follow the terms of the contracts.

Note 6 - Tax Status

The Plan has been amended since the last determination letter, dated February 7, 2014, which creates inherent uncertainty in the tax status of the Plan. While the Internal Revenue Service has eliminated the determination letter process for on-going plans, with input from ERISA counsel, it is management's belief that the Plan is designed and continues to operate in accordance with the IRC. Therefore, management has concluded that there are no uncertain tax positions taken or expected to be taken that would require recognition of an asset or liability or disclosure in the financial statements.

The Plan is subject to routine audits by tax jurisdictions; in a letter dated February 9, 2016, the U.S. Department of Labor informed the Company that they would be conducting a review of the Plan from January 1, 2012 through the present, as part of their continuing audit and review program. This review began on March 16, 2016 and is ongoing, however, no findings have been communicated. If the ongoing audit were to produce any findings, management would take necessary action to preserve the tax status of the Plan. The plan administrator believes the Plan is no longer subject to income tax examinations for plan years beginning prior to January 1, 2015.
