1. Description of the Plan

The following brief description of the Medical Knowledge Group 401(k) Plan (formerly the Medical Knowledge Group 401(k) Profit Sharing Plan & Trust) (the Plan) provides only general information. Participants should refer to the Plan document and summary Plan description for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Medical Knowledge Group, LLC (the Company or Employer) and any participating affiliates, who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective July 1, 2018, the Plan changed from Massachusetts Mutual Life Insurance Company (MassMutual) to Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, a member of the Principal Financial Group, (Principal) as the recordkeeper and trustee of the Plan.

Contributions

Each year, participants may contribute up to 100% (50% prior to July 1, 2018) of eligible compensation, as defined by the Plan, through a salary reduction. Contributions may be made to the Plan on a pre-tax and/or after-tax Roth (effective July 1, 2018) basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain annual limitations, as imposed by the Internal Revenue Code (the Code).

The Company matches 50% of the participant contributions, up to 4% of Plan compensation, as defined by the Plan. The Company's matching contribution was $200,399 for the year ended December 31, 2018. Each year, the Company may decide to make a discretionary qualified nonelective contribution. For the year ended December 31, 2018, the Company did not elect to make a nonelective contribution.

Participant Accounts

The Plan maintains individual accounts for each Plan participant. Each participant's account is credited with the participant's contributions, Company's matching contributions and nonelective contributions, if any, an allocation of the Plan's investment earnings or losses, and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of participant and Company contributions in any of the investment options offered by the Plan.

Vesting

Participants are immediately vested in their salary deferral, rollover and qualified nonelective contributions, plus actual earnings thereon. Vesting in the Company's matching portion of their accounts, plus actual earnings thereon, is as follows:

Years of Service	Vesting Percentage (%)
Less than 1 year	0
1 but less than 2 years	25
2 but less than 3 years	50
3 but less than 4 years	75
4 or more years	100

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000, or 50%, of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with current rates charged for similar loans made by local commercial banks, as determined by the Plan administrator. Interest rates on outstanding loans ranged from 3.25% to 7.25%. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Participants are eligible to receive distributions from their accounts at the normal retirement age (age of 65), disability, death or termination of employment. Participants receive the value of their vested account balance in the form of a single-sum payment. Additionally, participants are entitled to apply for hardship withdrawals and, after attaining age 59½, receive in-service distributions.

Forfeitures

If a participant leaves employment before becoming fully vested, any nonvested Company matching contributions and related investment earnings thereon are forfeited. These forfeitures are used to reduce any Company matching contributions or pay Plan expenses. At December 31, 2018 and 2017, forfeited nonvested accounts amounted to $19,223 and $11,604, respectively. During the year ended December 31, 2018, forfeitures in the amount of $13,768 were used to reduce the Company's matching contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) on the accrual basis of accounting.

Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment-related expenses are included in net depreciation in fair value of investments.

3. Investment Certification by Principal and MassMutual

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and net depreciation in fair value of investments and interest income on notes receivable from participants for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal and MassMutual.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual Funds - Mutual funds are valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are actively traded.

Common Collective Trusts - The common collective trusts (CCT) are stated at fair value using the NAV practical expedient. The NAV of the CCT is determined using the market price of the underlying securities and the contract value of investment contracts held by the CCT, as determined by the trustee of the CCT. There are no restrictions on the redemption of this investment and no unfunded commitments.

Pooled Separate Accounts - These assets are valued at net asset value (NAV) as a practical expedient based on the market value of the underlying investments. The NAV is not a publicly-quoted price in an active market. The pooled separate accounts invest in mutual funds. The investments may be redeemed daily; there are no unfunded commitments and there are no other restrictions or penalties as of December 31, 2018 and 2017.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's investment assets at fair value:

December 31, 2018

	Level 1	Total
Mutual funds	$ 2,152,591	$ 2,152,591
Common collective trust*	-	6,706,151
Pooled separate accounts*	-	67,282
Total Investments, at fair value	$ 2,152,591	$ 8,926,024

December 31, 2017

	Level 1	Total
Pooled separate accounts*	$ -	$ 9,098,789
Total Investments, at fair value	$ -	$ 9,098,789

* Investments measured at fair value using the NAV per share (or its equivalent) practical expedient are not categorized in the fair value hierarchy. The fair value amounts presented in the preceding tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The Plan had no financial assets that were measured at fair value on a nonrecurring basis at December 31, 2018 and 2017. There are no Plan liabilities recorded at fair value at December 31, 2018 and 2017. There are no transfers between levels during 2018 and 2017.

5. Tax Status

Effective July 1, 2018, the Plan has adopted Principal's prototype plan. Accordingly, the Plan is permitted to rely on Principal's opinion letter. The Internal Revenue Service (IRS) has determined and informed Principal by a letter dated March 31, 2014, that the Plan is designed in accordance with the applicable sections of the Code. Previously, the Plan has adopted a volume submitter plan sponsored by MassMutual. On March 31, 2014, the IRS stated in an advisory letter that the volume submitter adopted by the Plan, as then designed, was in compliance with applicable requirements of the Code. The Plan itself has not received a determination letter from the IRS. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

6. Related-Party and Party-in-Interest Transactions

Certain investments are managed by Principal and MassMutual. The transactions related to these investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules under ERISA. Notes receivable from participants also qualify as party-in-interest transactions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as risks related to the financial strength of the insurance company. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits, per the financial statements, to Form 5500:

December 31,	2018	2017
Net assets available for benefits, per the financial statements	$ 9,015,389	$ 9,203,001

The following is a reconciliation of changes in net assets available for benefits, per the financial statements, to Form 5500:

December 31, 2018	
Net decrease in net assets available for benefits, per the financial statements	$ (187,612)

Less: fair market value	(446)
Add: unpaid accrued interest	82
Net Decrease in Net Assets Available for Benefits, per Form 5500	$ (185,502)

10. Subsequent Events

On December 31, 2018, the Plan Sponsor acquired HealthLogiX, LLC. On April 1, 2019, HealthLogiX's 401(k) Plan was merged with and into the Plan.

The Plan has performed subsequent events procedures through October 15, 2019, which is the date the financial statements were available to be issued. There were no other subsequent events requiring adjustments to the financial statements or disclosures.
