AKZONOBEL HOURLY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 1 - Description of the Plan

The following description of the AkzoNobel Hourly Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering certain union hourly paid employees of AkzoNobel, Inc. (the "Company"), the plan sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Employees are immediately eligible to participate in the Plan if they are a full-time employee and eligible to participate under their respective collective bargaining agreement. Part-time employees are eligible to enroll in the Plan after completing 1,000 service hours within the first year (12 months) of employment. The Plan's investments are held in the AkzoNobel, Inc. Savings Master Trust ("Master Trust"), which also includes investments of the AkzoNobel Retirement Savings Plan, another savings plan sponsored by the Company. Fidelity Management Trust Company is the trustee of the Master Trust and the Plan ("Trustee").

As a result of the Company's decision to separate their specialty chemical's division into a standalone business, effective January 1, 2018, the Company resolved to separate the assets and liabilities of the AkzoNobel Hourly Savings Plan attributable to (1) active employees of Akzo Nobel Chemicals and its related entities and (2) former employees for whom liabilities are assigned to Akzo Nobel Chemicals and its related entities as determined by the Akzo Nobel Inc. North America Pension Committee (the Committee") in its sole and absolute discretion to form the AkzoNobel Chemicals Hourly Savings Plan (the "Chemicals Hourly Plan"). The Company approved the transfer of assets totaling approximately \$51,200,000. As a result of the Company's subsequent divestiture of their specialty chemicals' division, effective October 1, 2018, the Committee approved the removal of AkzoNobel Chemicals LLC, and all of their sponsored plans and respective assets and liabilities, from the Master Trust.

Contributions

Participants may contribute up to 25 percent of pretax eligible compensation and up to 6 percent of after-tax eligible compensation, as defined in the plan document. Participants who are age 50 and older, can also contribute on a catch-up up to the applicable limits of the IRC. Effective January 1, 2011, the Plan implemented an automatic enrollment feature; new employees have 60 days from their date of hire to make an election regarding deferral of eligible compensation. If no such election is made, the employee will be deemed to have elected to defer 3% of his or her eligible compensation, until such election is modified or revoked. This assumption of deferral is facilitated through the Plan's automatic enrollment feature. Participants may elect to opt out of deferring compensation by revoking the automatic enrollment option with the Trustee. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollover contributions"). The Company makes matching and service based contributions based on the elective contributions made by the participants or based on participant compensation, as defined by Plan provisions. Effective January 4, 2016, there was an increase to the company match for the LeMoyne location from 75 percent to 80 percent of the first six percent of eligible compensation. Effective January 3, 2016, there was an increase to the company match for the Lima location from 75 percent to 80 percent of the first six percent of eligible compensation. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

AKZONOBEL HOURLY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 1 - Description of the Plan (cont.)

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contribution, as well as allocation(s) of the Plan's earnings. Participants are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested in their contributions and any Company matching contributions plus actual earnings thereon. Company service based contributions are fully vested after three years with no incremental vesting. However, for any employees who are employed past normal retirement date, then they are immediately vested in the Company contributions.

Forfeited Accounts

As of December 31, 2018 and 2017, forfeited nonvested accounts totaled \$1,930 and \$794. These accounts may be used to reduce future Company contributions or plan expenses. In 2018, the Company's contributions were reduced by \$9,367 from forfeited nonvested accounts.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance, reduced by their highest outstanding loan balance in the preceding 12 months. The loans are secured by the balance in the participant's account and bear interest at the prime rate based on Reuters Prime Rate on the first business day of the month in which a participant loan becomes effective, plus one percent as defined by the plan document. Principal and interest is paid ratably through payroll deductions and are reinvested in the investment option(s) selected by the participant. Terms range from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

On termination of service due to death, disability, retirement, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in their account, or periodic partial distributions as defined by the plan document. In addition, the Plan allows for hardship distributions if certain criteria are met, as defined by the Plan document. In-service distributions are allowed for participants that have attained the age of 59 1/2.

Fund Transfers

During 2018, due to participant job transfers and business unit divestitures, certain assets totaling \$123,685 were transferred out of the Plan to the AkzoNobel Retirement Savings Plan, a related plan sponsored by the Company and to the Chemicals Plan prior to the divestiture.

NOTE 1 - Description of the Plan (cont.)

Reclassifications

For comparability, certain 2017 amounts have been reclassified to conform with classifications adopted in 2018.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income and losses relating to the Master Trust are allocated to individual plans based upon each Plan's undivided interest in the Master Trust.

AKZONOBEL HOURLY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Fixed Income Fund

The Plan invests in the AkzoNobel Fixed Income Fund (the "Fund"), a separately managed account through the Master Trust. The Fund is managed by Galliard Capital Management (the "Fund Manager"). The Fund is valued based on its underlying assets, which consist of security-backed synthetic guaranteed investment contracts ("synthetic GICs"), and collective trust funds. The Plan owns the underlying investments associated with the synthetic GICs which are held within Wells Fargo-Managed Fixed Income Funds. The synthetic GICs contracts within the Fund are considered fully benefit responsive. Contract value represents contributions made under the contract, plus interest accrued at the contract rate, less any withdrawals. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the contract value of the Plan's interest in the Master Trust for the synthetic GICs held by the Fund and the fair value of the Plan's interest in the Master Trust's investment for the collective trust funds held by the Fund. The collective trust funds are valued at the NAV of units of the underlying collective trust funds.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the Plan investment loss in Master Trust.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, Fair Value Measurement. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the Board finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965); Employee Master Trust Reporting*. The amendments in ASU 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. Management has adopted ASU 2017-06 and applied the changes for each period presented within these financial statements.

NOTE 3 - Plan's Interest in Master Trust (Unaudited)

The Plan's assets are in the Master Trust, which was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Effective January 1, 2018, AkzoNobel Chemicals LLC, an affiliate of the Company, delegated its obligations and responsibilities to the Company under the Master Trust agreement. AkzoNobel Chemicals LLC is sponsor of AkzoNobel Chemicals Retirement Savings Plan (Chemical Retirement Plan) and Chemicals Hourly Plan. Effective October 1, 2018, the Company in connection with the divestiture of their specialty chemicals division removed all references to the AkzoNobel Chemicals LLC and affiliated plans from the Master Trust agreement. As a result the Akzo Chemicals LLC sponsored plans assets and liabilities were transferred out of the Master Trust.

Each participating retirement Plan has a undivided interest in the Master Trust based on each Plan's investment options chosen by their respective participants. The assets of the Master Trust are held by the Trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2018 and 2017, the Plan's undivided interest in the net assets of the Master Trust was approximately 1% and 4%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon each Plan's interest in the Master Trust, unless fees are directly related to the Plan.

NOTE 4 - Information Prepared and Certified by Trustee - Unaudited

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- > Plan interest in Master Trust (fair value and contract value) and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- > Plan investment gain from Master Trust and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- > Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2018.
- > Investment information included in Master Trust (Note 3).

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. The pending transfer to other plan has not been certified by the Plan's Trustee.

NOTE 5 - Fair Value Measurements- Master Trust

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

AKZONOBEL HOURLY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 5 - Fair Value Measurements (cont.)

Level 2 - Inputs to the valuation methodology include

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets of the Master Trust measured at fair value. There has been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of registered investment companies (Level 1): Registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund (Level 1): Money market fund is valued at the quoted NAV of shares held by the Plan at year end.

Self-directed brokerage account (Level 1): The fair values of investments in the self-directed brokerage account are determined by obtaining quoted market prices from a nationally recognized exchange.

Units of collective trusts: The collective trust funds are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - Investment in AkzoNobel Fixed Income Fund

At December 31, 2018 and 2017, the Master Trust is invested in the AkzoNobel Fixed Income Fund, (the "Fund"). The Fund is principally invested in synthetic GICs and collective trusts.

The synthetic GICs are composed of underlying assets and wrappers, which are contracts that enable withdrawals to be made at contract value rather than at the fair value of the underlying assets. The contracts have underlying assets invested in common/collective trusts. Contract crediting rates for synthetic GICs are reset at least quarterly, as specified in the respective contracts, and will have an interest crediting rate not less than zero percent. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets.

The Fund holds investments in the Wells Fargo Stable Value Fund W and the Wells Fargo Short-Term Investment Fund S, which are collective trust funds, as of December 31, 2018 and 2017.

The Plan's ability to receive amounts due in accordance with fully benefit-response investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 6 - Investment in AkzoNobel Fixed Income Fund (cont.)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The Fund is made of the following underlying assets:

	2018	2017
AkzoNobel Fixed Income Fund		
Synthetic investment contracts	\$ 111,947,279	\$ 213,460,983
Collective trust funds	<u>2,767,237</u>	<u>7,276,340</u>
	<u>\$ 114,714,516</u>	<u>\$ 220,737,323</u>

The following table details the interest crediting rates of the Fund at December 31, 2018 and 2017, for each of the synthetic GICs:

	2018	2017
Synthetic investment contracts		
Financial institutions providing wrapper		
Prudential Insurance Company of America	2.94%	2.76%
Transamerica Premier Life Insurance Co	2.45%	2.21%
American General Life Insurance	2.75%	2.27%
Voya Retirement Insurance and Annuity	2.49%	2.20%

NOTE 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Company contributions.

NOTE 8 - Related Party and Party-In-Interest Transactions

Certain of the Plan's investments are managed by the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment manager services are included in Plan investment loss in Master Trust, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

NOTE 9 - Tax Status

The IRS has determined and informed the Company by a letter dated April 19, 2018, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As of December 31, 2018 and 2017, the Master Trust held investments of \$234,212,976 and \$444,634,912 that were concentrated in two funds.

NOTE 11 - Administration of Plan Assets

The Plan's investments in the Master Trust are administered under a contract with the Trustee. The Trustee invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

NOTE 12 - Subsequent Events

The plan administrator has evaluated subsequent events through October 15, 2019, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
