1. Description of the Plan

The following brief description of the MLB Advanced Media, L.P. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

For the Plan years ended December 31, 2018 and 2017, the Company made a fixed-percentage non-elective contribution of 6% of a participant's eligible compensation, as defined in the Plan.

Participant Accounts

The Plan maintains individual accounts for each Plan participant. Each participant's account is credited with the participant's contributions and the Company's non-elective contributions, as well as allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. A participant is entitled to the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers mutual funds, a common collective trust, money market funds and a self-directed account as investment options for participants.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon.

Participants are vested in the Company's contributions, plus any accrual earnings thereon, in accordance with the following table:

Years of Service	Vesting Percentage (%)
Less than 1	0
1	20
2	40
3	60
4	80
5	100

Forfeitures

Forfeitures of terminated participants' non-vested account balances may first be used to pay administrative expenses under the Plan. To the extent that forfeitures are not used to reduce such expenses, forfeitures shall be applied to reduce employer contributions. There were no forfeited non-vested accounts at December 31, 2018 and 2017. No forfeited amounts were used to pay Plan expenses or employer contributions during the years ended December 31, 2018 and 2017.

Notes to Financial Statements

Payments of Benefits

A participant is eligible to receive the vested balance in his or her account under any of the following circumstances: (a) attaining normal retirement age, as defined; (b) terminating employment; (c) satisfying the early retirement age requirements, as defined; (d) becoming disabled, as defined; (e) attaining age 59-½ but continuing to work; and (f) incurring a financial hardship. A participant may elect to receive the value of his or her account in the form of a single lump-sum payment, installment payments, or the purchase of an annuity contract.

Notes Receivable from Participants

Notes receivable from participants represent loans that are secured by the balance in the participant's account. Participants may borrow from their accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Each loan is subject to a rate of interest, as defined by the Plan. Principal and interest are paid ratably through payroll deductions over a five-year period unless it is for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 30 years from the date of the loan.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan presents in the statements of changes in net assets available for benefits the net (depreciation) appreciation in the fair value of investments, which consists of realized and unrealized gains or losses on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Fair Value Measurements

The Plan follows the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurement." The following three-tier fair value hierarchy is established as a basis for considering such assumptions and for inputs used in the valuation methodologies in measuring fair value:

Level 1 - This level consists of observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - This level includes inputs that are observable for the asset or liability, either directly or indirectly through corroboration with observable market data (market-corroborated inputs). If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - This level consists of unobservable inputs for the asset or liability—that is, inputs that reflect the reporting entity's own determination about the assumptions market participants would use in pricing the asset or liability (including assumptions about risk) developed based on the best information available in the circumstances. Assumptions about risk include the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique.

Risks and Uncertainties

Due to various risks (e.g., interest rate, market and credit) associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Plan allows for certain expenses to be paid out of Plan assets and allocated to each participant based on his or her proportionate share of the Plan assets. However, specific direct expenses incurred by an individual participant shall be deducted from the participant's account only.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Income Taxes

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. There are currently no audits for any tax periods in progress.

3. Plan Termination

Although it has not expressed any intention to do so, the Company reserves the right to terminate the Plan, in whole or in part, at any time, subject to the provisions of ERISA. In the event that such termination occurs, all amounts credited to participant accounts will remain 100% vested and the trustee, in accordance with the Plan document, will distribute the net assets of the Plan in a uniform and non-discretionary manner.

4. Information Certified by the Trustee

The following is a summary of the information regarding the Plan's financial statements as of and for the years ended December 31, 2018 and 2017, that was prepared by or derived from information prepared by the trustee of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certification from the trustee that such information is complete and accurate.

<i>December 31,</i>	2018	2017
Investments, at fair value	\$ -	\$ 75,404,471
Notes receivable from participants	-	678,260

<i>Year ended December 31,</i>	2018	2017
Net (depreciation) appreciation in fair value of investments	\$ (6,525,254)	\$ 8,324,292
Interest and dividends	3,255,276	3,242,231
Interest income on notes receivable from participants	19,019	27,776

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements.

5. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by the trustee. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Notes receivable from participants also qualify as party-in-interest transactions.

6. Tax Status

The Company adopted the Fidelity Management & Research Company's volume submitter plan which has received a favorable opinion letter from the IRS dated March 31, 2014, stating that the volume submitter plan is designed in accordance with the applicable sections of the Code. The Plan is required to operate in conformity with the Code to maintain its qualified status. Although the Plan has been amended since the date of the favorable opinion letter, the Plan administrator believes that the Plan is designed and currently being operated in compliance with applicable requirements of the Code.

7. Fair Value Measurements

The following table provides information by level for assets that are measured at fair value (see Note 2).

December 31, 2017

	Fair Value Measurements Using Inputs Considered as			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 68,203,437	\$ -	\$ -	\$ 68,203,437
Money market fund	5,658,068	-	-	5,658,068
Self-directed accounts	661,442	-	-	661,442
Total	74,522,947	-	-	74,522,947
Common collective trust at NAV*				881,524
Total Investments, at fair value				\$ 75,404,471

* Certain investments that are measured at fair value using the Net Asset Value (NAV) per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts prescribed in these tables are intended and permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds and the money market fund are valued at the unadjusted quoted price, which represents the NAV of shares held by the Plan at year-end.

The common collective trust is valued based upon the unit values. Unit value is based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means. The NAV is used as a practical expedient to estimate fair value. There are no restrictions on the redemption of this investment and no unfunded commitments.

The *self-directed accounts* are valued at quoted market prices of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.
