Gresser, Inc. and Affiliates 401(k) Plan
Notes to Financial Statements
December 31, 2018

Note 1: Description of Plan

The following description of the Gresser, Inc. and Affiliates (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a type of defined contribution plan, with an effective date of June 1, 2001, under which each participant has a specific account balance. The Plan covers all employees of the Company, excluding those under collective bargaining agreements, who have attained the age of twenty-one and have completed one year of service in which they were employed 1,000 or more hours. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute to the Plan through salary deductions. Participants have the option of contributing through two types of salary deferrals - Pre-tax 401(k) deferrals or Roth 401(k) deferrals. Participants who have attained the age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans as a rollover contribution. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company will contribute a safe harbor matching contribution which will match 100% of employee elective deferrals not to exceed 5% of employee eligible compensation. In addition, each year the Company may also elect, at its discretion, to contribute an additional amount to the Plan. The discretionary contribution will be credited to eligible participant accounts based on the proportion of the employees' compensation to the Company's total compensation. Annual contributions are not guaranteed and are based on the current and projected fiscal position of the Company. For the year ended December 31, 2018, employer matching contributions were $156,046. There was no discretionary contribution for the year ended December 31, 2018. Contributions, by the employee and employer, are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Description of Plan (Continued)

Vesting and Forfeitures

Participants are immediately vested in their contributions plus actual earnings thereon. A participant is 100% vested in employer contributions after six years of credited service. A participant will also become 100% vested upon retirement, death or permanent disability. Forfeitures of employer matching and discretionary contributions are used to reduce Plan administrative expenses or reduce employer matching contributions. During the year ended December 31, 2018, there was $4,405 in forfeitures to be used towards future employer matching contributions or pay administrative costs.

Payment of Benefits

Benefit payments will commence upon termination of service unless elected otherwise by the participant. In addition, the Plan has a required minimum distribution for participants who have obtained age 70 ½ and an in-service distribution available for participants who have obtained age 59 ½. Benefits may be paid in one of the following forms of payment, or in a combination: (1) single lump sum, (2) the purchase of a different form of annuity, or (3) installments over a period not to exceed the participant's or participant's beneficiary's life expectancy.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%, as of the loan date. Loans are granted only if a financial hardship or financial need under certain criteria has occurred. Principal and interest are paid through payroll deductions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accrual basis of accounting is used in preparation of information regarding net assets available for Plan benefits and related changes.

Notes Receivables from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value Measurements and Income Recognition

Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Topic), establishes a framework for measuring fair value. The Topic provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Topic also established a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2: Summary of Significant Accounting Policies (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value.

Equity securities and FBO Accounts: Valued at fair value as determined by observable Level 1 quoted pricing inputs on an active market or by quoted prices for similar assets in active markets.

Participant loans: Valued at their outstanding balance, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investment bought and sold as well as held during the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Equity securities:				
Mutual funds	$ 3,030,958	$	$	$ 3,030,958
FBO Accounts	698,741			698,741
Total investments at fair value	$ 3,729,699	$ -	$ -	$ 3,729,699

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Equity securities:				
Mutual funds	$ 2,703,687	$	$	$ 2,703,687
Corporate stocks	235,155			235,155
FBO Accounts	733,153			733,153
Interest-bearing cash	26,290			26,290
Total investments at fair value	$ 3,698,285	$ -	$ -	$ 3,698,285

Note 2: Summary of Significant Accounting Policies (Continued)

Plan Administration Expenses

Administrative expenses were $7,502 for the year ended December 31, 2018 and were paid by the Plan.

Note 3: Information Prepared and Certified by Trustee

The Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included in the accompanying financial statements and supplementary schedule were prepared or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator from the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears through the financial statements and supplemental schedules.

The certification extends to the investments included in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

During the year ended December 31, 2018, the Plan's investments (including investments bought, sold, and held during the period) depreciated in value by $497,604. Earnings on investment holdings, including dividends and interest income, were $196,099 for the year ended December 31, 2018. Earnings on notes receivable from participants during the year ended December 31, 2018 were $2,019.

Note 4: Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5: Additional Financial Statement Disclosures

Under ERISA, the Department of Labor and the Internal Revenue Service have the authority to issue regulations covering reporting and disclosure requirements, certain administrative responsibilities, and enforcement powers. The items enumerated below are required to be disclosed to meet ERISA guidelines.

Note 5: Additional Financial Statement Disclosures (Continued)

A. The Plan received a favorable letter of determination from the Internal Revenue Service on March 31, 2014, regarding its qualified tax status for the Plan. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

B. All reportable transactions have been disclosed in supplemental schedules of the annual report made available to the Plan participants.

Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2015.

Note 6: Related-Party Transactions

The Plan invests in pooled separate accounts managed by American Funds. American Funds is the trustee and record-keeper of the Plan. These transactions qualify as party-in-interest transactions. Administrative fees amounted to $7,502 and were paid by the Plan for the year ended December 31, 2018.

Note 7: Recent Accounting Pronouncements

In February 2017, the FASB issued ASU 2017-06, *Plan Accounting: Defined Benefit Pensions Plan (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. This statement clarifies the presentation requirements for a plan's interest in a master trust and requires more detailed disclosures of the plan's interest in the master trust. The ASU is effective for fiscal years beginning after December 15, 2018. As the Plan does not hold an interest in a master trust, management has determined that the impact of this statement on its financial statements will be minimal.

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework, Changes to the Disclosure Requirements for Fair Value Measurement*. This statement modifies the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in the Concepts Statement, including the consideration of costs and benefits. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Management has not yet determined the impact of this Statement on its financial statements.

Note 8: Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Subsequent Events

Events subsequent to December 31, 2018 have been evaluated through October 15, 2019, which is the date the financial statements were available to be issued. Management did not identify any subsequent events that required disclosure.
