Notes to Financial Statements

## Note 1. Description of Plan

The following description of the Fred Loya Insurance 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions, which is available from Plan management.

### General

The Plan is a Safe Harbor 401(k) Plan covering all eligible employees of EP Loya Group, LP (the Employer) who have attained age 21 and have completed one year of service. The provisions of the Plan became effective on February 1, 2009. The Plan was amended effective January 1, 2010 to allow for certain benefit payment provisions, as defined further in Note 1.

The RDY Employee Investment and Retirement Plan (RDY) was merged into the Plan effective January 1, 2015. Plan participants became eligible for employer matching contributions to the Plan account on that date. Funds from the RDY were transferred to the Plan in January 2015.

### Contributions

Participating employees and the Employer make contributions to the Plan. Participants may contribute 1% to 90% of their annual compensation, as defined by the plan agreement, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The employer is required to make matching dollar for dollar contributions up to 3% of the participating employee's contribution, and an additional 50% contribution up to the next 2% of the participating employee's contribution. This contribution is intended to satisfy a safe harbor contribution formula permitted by Internal Revenue Service (IRS) regulations. By making the safe harbor matching contribution, the Plan will automatically satisfy the nondiscrimination requirements that otherwise would apply to 401(k) contributions made by the Plan. In addition, as of each plan year, the Employer may make a special discretionary contribution equal to a certain percentage of employee compensation. Each participant's share is based on the ratio of their compensation to the total compensation for all participants. For a participant to qualify for a matching contribution and special discretionary contribution, the following conditions apply:

- To have completed a year of service and be actively employed on the last day of the plan year.
- If not actively employed on the last day of plan year, the participant will not qualify for a share in the contribution regardless of the number of hours of service credited for the plan year.
- In the event of death, disability or retirement, the participant qualifies for a share in the contribution regardless of the number of hours of service.

### Participant Accounts

Each participant's account is credited with the participant's contribution and the Employer's matching contributions and allocations of (a) the Company's contribution and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting**

The "vested percentage" in the participant's account is determined under the following schedule and is based on vesting years of service.

| Years of Credited Service | Vested Percentage |
|---|---|
| 1 | 0% |
| 2 | 20% |
| 3 | 40% |
| 4 | 60% |
| 5 | 80% |
| 6 or more | 100% |

However, the participant will always be 100% vested upon the normal retirement age. Regardless of this vesting schedule, participants will be 100% vested in their own contributions to the Plan and safe harbor contributions made by the employer.

**Notes Receivable from Participants**

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. All loans must have a definite repayment period and the term of the loan may not exceed 5 years. However, if the loan is used to acquire a principal residence, the repayment may be over a reasonable period of time that may be longer than 10 years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by Plan management. Principal and interest is paid ratably through monthly payroll deductions.

**Payment of Benefits**

A participant will be entitled to 100% of their account balance as soon as administratively practicable following the participant's separation from service. Such account balances are distributed in a lump-sum payment without regard to amount, or in partial withdrawals or installments for qualifying required minimum distributions. For termination of service for any other reasons, a participant is entitled to receive only the value of the vested interest in his or her account and the remainder non-vested interest will be forfeited, in accordance with the applicable provisions of the plan document. The Plan also allows for distributions upon proven financial hardship.

**Forfeitures**

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are used to reduce the Employer's contributions to the Plan. For the year ended December 31, 2018, there were $4,164 forfeitures used to offset employer contributions. At December 31, 2018 and 2017, the balance of unallocated forfeited accounts totaled $4,505 and $5,353, respectively.

## Note 2. Summary of Accounting Policies

### Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

### Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

### Payment of Benefits

Benefits are recorded when paid.

### Expenses

Costs incurred in connection with investment transactions and benefits, professional and administrative fees, and other expenses are paid by the Employer. Expenses relating to specific participant transactions (i.e. loan setup, distribution request, etc.) are charged directly against the appropriate participant account.

**New Accounting Pronouncements/Accounting Changes**

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurements.* The ASU modifies the disclosure requirements on fair value measurements in Accounting Standards Codification Topic 820. The ASU is effective for all reporting periods beginning after December 15, 2019, with early adoption permitted. An entity may elect to early adopt any removed or modified disclosures upon issuance of this Update and delay the adoption of the additional disclosures until the effective date. The Company is evaluating the impact of the adoption of this ASU on the Plan financial statements.

**Plan Management's Review of Subsequent Events**

The Plan has evaluated subsequent events through October 15, 2019, the date the financial statements were available to be issued.

## Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants at December 31, 2018 and 2017, and net appreciation in fair value of investments, investment income, and interest income on notes receivable from participants for the year ended December 31, 2018, were obtained or derived from information provided to Plan management and certified as complete and accurate by Reliance Trust Company, the trustee of the Plan.

## Note 4. Fair Value Measurement

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

*Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Stable value fund*: Valued at the NAV of the shares held by the Plan at year end, which is based on the fair value underlying investments using information reported by the investment advisor at year end.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

| | 2018 | 2017 |
|---|---|---|
| Level 1: | | |
| Mutual funds | $ 8,259,480 | $ 7,978,104 |
| Total assets in the fair value hierarchy | 8,259,480 | 7,978,104 |
| Investments measured at net asset value: | | |
| Stable value fund | 434,950 | 394,771 |
| Investments at fair value | $ 8,694,430 | $ 8,372,875 |

**Fair Value of Investments in Entities that Use NAV**

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2018 and 2017, respectively.

| | 2018 | 2017 |
|---|---|---|
| Stable value fund | | |
| Fair value | $ 434,950 | $ 394,771 |
| Unfunded commitment | None | None |
| Redemption frequency | Immediate | Immediate |
| Other redemption restrictions | None | None |
| Redemption notice period | None | None |

## Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and accounts provided through FASCore, LLC. FASCore, LLC is the record keeper and, therefore, these transactions qualify as party-in-interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

## Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

## Note 7. Tax Status

Effective January 1, 2015, the Plan adopted a nonstandardized prototype defined contribution profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## Note 8. Risks and Uncertainties

The Plan provides for various investment options. These types of investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, including those held by the Plan, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## Note 9. Reconciliation of Financial Statements to Schedule H of Form 5500
