NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018 and 2017

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Gentek Building Products, Inc. Woodbridge Hourly Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and Participation

The Plan is a noncontributory, defined benefit plan. The Plan includes all full-time hourly persons employed by Gentek Building Products, Inc. (the "Company" or the "Plan Sponsor"), a subsidiary of Associated Materials LLC, at its Woodbridge, New Jersey plant who are governed by the provisions of the collective bargaining agreement in effect with Teamsters Union Local No. 11, who are not accruing benefits as participants of another plan maintained jointly or individually by the Company and/or a collective bargaining unit. Effective March 1, 2006, the Plan has been frozen to new employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions and Funding

Annual contributions are based on the recommendations of the Plan's actuary in amounts not less than the minimum required under the applicable sections of ERISA and in accordance with the Internal Revenue Code (the "IRC"). The minimum funding requirement was \$0 and \$214,444 for 2018 and 2017, respectively.

Benefits and Vesting

Participants are entitled to a normal retirement benefit on attaining the age of 65. The normal monthly retirement benefits are calculated based on a participant's years of credited service (not to exceed 40 years) multiplied by a monthly benefit level as provided in the Plan. Participant's years of service include credited years of service. The monthly benefit level in effect at both December 31, 2018 and 2017 was \$36. The normal form of benefit is a single life annuity. The Plan also offers a 50% joint and survivor annuity option. The Plan also provides for early retirement, disability retirement and pre-retirement spouse benefits for any participant who meets certain requirements. Participants become fully vested on completion of five years of continuous service.

Termination Provisions

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation ("PBGC"), up to specified limitations, as described in ERISA, specifically in the order of 1) Benefits attributable to employee contributions – 2) Annuity benefits that former employees or beneficiaries have been receiving for at least three years – 3) Other vested benefits insured by PBGC – 4) All other vested benefits – 5) All non-vested benefits.

Benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations. The PBGC guarantees vested benefits at the level in effect on the date of plan termination. However, if benefits have been increased within the five years before plan termination, the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees which is adjusted periodically.

Administrative Expenses

Trustee and investment fees are paid by the Plan. All other direct and indirect administrative expenses of the Plan are paid by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are considered attributable to employee service rendered to the valuation date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

NOTE 3 – ACCUMULATED PLAN BENEFITS

Consulting actuaries from Hewitt Associates LLC (operating as Aon Hewitt) estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

**Gentek Building Products, Inc.
Woodbridge Hourly Pension Plan**

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

The accumulated plan benefit information as of December 31, 2017 is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits	
Participants currently receiving payments	\$ 5,682,814
Other participants	5,270,718
	<u>10,953,532</u>
Nonvested benefits	<u>142,401</u>
 Total actual present value of accumulated plan benefits	 <u>\$ 11,095,933</u>

Changes in accumulated plan benefits for the year ended December 31, 2017 are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2016		\$ 11,151,021
Increase (decrease) during the year attributed to:		
Benefit payments		(577,794)
Interest accumulation		650,894
Change in actuarial assumptions		(75,638)
Actuarial gains (losses)		<u>(52,550)</u>
Net decrease		<u>(55,088)</u>
 Actuarial present value of accumulated plan benefits at December 31, 2017		 <u>\$ 11,095,933</u>

Significant assumptions underlying the actuarial computations are:

Discount rate	5.99% per annum for 2018 and 2017
Mortality rates	RP – 2014 Mortality table projected generationally by Scale MP – Mortality rates are projected generationally from 2016 using MP-2016 for 2017 and MP-2017 for 2018
Weighted average retirement age	65 years of age, based on probability of retirement table

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2018. Had the valuation been performed as of December 31, 2017 there would be no material difference. The change in the mortality projection scale resulted in an increase in accumulated plan benefits during the year ended December 31, 2017 of \$23,868.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

NOTE 4 - SUMMARY OF FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE

State Street Bank and Trust Company ("State Street") was the trustee of the Plan and held the Plan's investment assets and executed investment transactions as of and for the years ended December 31, 2018 and 2017.

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments as shown in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017
- Interest and dividends and net (depreciation) appreciation in fair value of investments on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2018 and 2017
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2018
- Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2018

The Plan's independent accountants did not perform any auditing procedures with respect to the certified information, except for comparing such information to the related information in the financial statements and supplemental schedules.

NOTE 5 - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

**Gentek Building Products, Inc.
Woodbridge Hourly Pension Plan**

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

Level 3 - Inputs to the valuation methodology are unobservable and are supported by little or no market activity and that are significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Type of Asset	Assets at Fair Value at December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 10,957,078	\$ -	\$ -	\$ 10,957,078
Investments at fair value	\$ 10,957,078	\$ -	\$ -	\$ 10,957,078

Type of Asset	Assets at Fair Value at December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 12,153,217	\$ -	\$ -	\$ 12,153,217
Investments at fair value	\$ 12,153,217	\$ -	\$ -	\$ 12,153,217

NOTE 6 – TAX STATUS OF THE PLAN

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 19, 2015, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

Woodbridge Hourly Pension Plan**

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 8 – SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 15, 2019, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2016 Plan Year	5.99%
2017 Plan Year	5.99%
2018 Plan Year	5.99%

Trust Expenses Included in Target Normal Cost

Prior year administrative expenses rounded to the nearest \$1,000 (\$116,000 for 2018).

Actuarial Method

Standard unit credit cost method.

Valuation Date
