1. Description of the Plan and benefits

The following description of the Western Dental Services, Inc. 401(k) Plan (the "Plan") is provided only for general information. On January 1, 2017, the Plan changed its name from Western Dental Services, Inc. 401(k) Plan A. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(a) of the Internal Revenue Code ("IRC") for the benefit of eligible employees of the Company. The Plan was established on January 1, 1999 for the benefit of Western Dental Services, Inc. (the "Company" or the "Employer"). State Street Bank and Trust Company ("State Street"), the trustee, is responsible for administering and holding participant directed Plan investments.

The Plan's recordkeeper is Transamerica Retirement Solutions, LLC ("TRS"). Transamerica Life Insurance Company Inc. ("TLIC") certified the information in regards to the Stable Value Strategy Fund (2017 only). Transamerica Financial Life Insurance Company Inc. ("TFLIC") certifies the information in regards to the general asset account. State Street Bank and Trust Company certifies the information in regards to the registered investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan merger

On January 6, 2017, the Company transferred the plan assets of Western Dental Services, Inc. 401(k) Plan B to Western Dental Services, Inc. 401(k) Plan in the amount of $7,201,282. The Safe Harbor provision from Western Dental Services, Inc. 401(k) Plan B was removed when the plans were consolidated. All amounts contributed to the Plan from Plan B became 100% vested.

Eligibility

Effective January 1, 2017, the Plan was amended to make employees eligible to participate in the Plan upon completing 60 days of service. Employees may enter the Plan on the first day of the month following the day they become eligible. Effective March 1, 2017, the Plan was also amended to automatically enroll eligible participants at 3% pretax deferral and will increase by 1% point each year up to a maximum of 6% unless they formally waive participation, or elect a different participation level.

1. Description of the Plan and benefits - continued

Contributions

Under the terms of the Plan, eligible employees may elect to defer up to 50% of their eligible annual compensation, limited to a maximum amount specified by the IRC ($18,500 and $18,000 for employees under age 50, and $24,500 and $24,000 for employees age 50 and over for 2018 and 2017, respectively). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes a Roth 401(k) feature available to all participants. The Roth 401(k) vehicle was introduced as an additional deferral source for employees to diversify their retirement income from a tax perspective.

The Company may also elect to make a discretionary profit sharing contribution. For the year ended December 31, 2018, the Company did not make a profit sharing contribution.

During the year ended December 31, 2017, the Company failed the Actual Deferral Percentage Test (ADP). The Company elected to fund a 100% fully vested, qualified non-elective contribution in the amount of $10,436 in lieu of having refunds processed to the highly compensated employees, all of which was funded during 2018.

Participant accounts

Each participant's account is credited with the participant's voluntary contributions, Employer's discretionary matching contributions, discretionary profit sharing contributions, and allocation of the Plan earnings. Allocations are based on participant earnings, or account balances, as defined. The benefit, to which a participant ultimately is entitled, is the value of the participant's account, upon separation from the Plan or retirement. Participants select the fund(s) in which they invest.

Vesting

Participants are immediately vested in their matching contributions, plus actual earnings thereon and vesting in the Company's profit sharing or discretionary contributions is based on years of continuous service. A participant is fully vested after six years of continuous service. A participant is 20% vested after two (2) years of service, 40% vested after three (3) years of service, 60% vested after four (4) years of service, 80% vested after five (5) years of service, and fully vested after six (6) years of continuous service.

1. Description of the Plan and benefits - continued

Notes receivable from participants

Participants may borrow a portion of their 401(k) contributions, subject to the IRC regulations. Loans to a participant are secured by the participant's account and may not exceed the lesser of fifty percent of the participant's vested account balance, or $50,000 in the aggregate. The minimum loan amount is $1,000. Loans for purposes other than to acquire a principal residence are not to exceed a term of five years. Loans to acquire a principal residence are not to exceed a term of thirty years. A participant may not have more than one loan outstanding at a particular time.

Benefit payments and withdrawals

If a participant's employment ceases as a result of death, the entire account becomes fully vested, and the participant or the participant's beneficiaries, are entitled to receive the contents of the account. If a participant terminates for any other reason, the participant is entitled to receive only the vested percentage of the account. Participants, or their beneficiaries, may elect to receive benefits in a single lump sum or in installments. If the value of the participant's account is less than $5,000, but greater than $1,000, the entire amount can be rolled into an individual retirement account on behalf of the participant or the participant's beneficiaries.

In-service distributions may be made from any of the participant's vested accounts at any time for a hardship. Events that qualify for a hardship withdrawal are as follows: to cover necessary medical expenses, for costs directly related to the purchase of the participant's primary residence, for expenses related to post-secondary education, or for payments necessary to prevent the participant's eviction from, or foreclosure of, the primary residence. If a participant takes a hardship withdrawal, generally all contributions to the Plan will be suspended for six months. A participant must wait six months before requesting another hardship withdrawal.

Investment options and management

The Plan provides a variety of investment options with differing risk and growth characteristics. As of December 31, 2018 and 2017, substantially all of the Plan's net assets available for benefits were invested in investment funds under the management of TLIC and State Street. Participants may change their investment allocation and/or transfer their account balances among the various funds.

1. Description of the Plan and benefits - continued

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all amounts contributed to the Plan shall become 100% vested.

Administrative expenses

For the year ended December 31, 2018, the Company incurred administrative expenses and investment fees of $362,946. These expenses were paid by the Plan and are included in administrative expenses on the accompanying Statement of Changes in Net Assets Available for Benefits.

Forfeitures

Forfeitures of terminated participants' non-vested accounts arising from Company matching and profit sharing contributions can be used to reduce future Company contributions. During the Plan year ended December 31, 2018, there were no forfeitures used to reduce Employer contributions. At December 31, 2018 and 2017, there were no balances in the forfeitures account.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of investments

The Plan's investments are reported at fair value, with the exception of the Lincoln Stable Value Strategy Fund. The Plan's investment in the Lincoln Stable Value Strategy Fund, which is considered to be fully benefit-responsive, is required to be reported at contract value because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less plan withdrawals and administrative expenses.

2. Summary of significant accounting policies - continued

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted market prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation by other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

If available, quoted market prices are used to value investments. Shares of money market funds and units in registered investment companies are valued at the net asset value of shares held by the Plan at year-end. Units in money market funds are valued at the net asset value ("NAV") of shares, or price per share of the underlying mutual fund, held by the Plan at year-end. The mutual fund calculates its NAV by dividing the mutual fund's assets by the number of shares issued by the mutual fund. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis.

2. Summary of significant accounting policies - continued

Valuation of investments – continued

Unrealized gains and losses on investments are calculated from fair value as of the previous Plan year-end, or from cost if acquired during the Plan year, and are included in appreciation in fair value of investments.

See Note 8 for details on the Plan's fair value measurements.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Contributions

Contributions from the employer are accrued in the period when earned.

Payment of benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Information certified by the Trustees

The Plan administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees of the Plan have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate:

- Investments, as reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017;

3. Information certified by the Trustees - continued

- Net depreciation in fair value of investments, as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018;

- Investment values and investment changes for 2018 and 2017 disclosed in Note 5, Note 6 and Note 8;

- Current values, as reflected in Form 5500 - Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2018.

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. Income tax status

The Plan is designed to constitute a qualified trust under the applicable sections of the IRC and is, therefore, considered to be exempt from federal income taxes. Participating employees are not subject to federal and state income taxes on Employer contributions or on income accruing to their accounts, until they receive distributions from the Plan.

Under a plan qualified pursuant to Sections 401(a), (k) and (m) of the IRC, participants generally will not be taxed on elective contributions or Employer matching contributions, or earnings thereon, until such amounts are distributed to participants or their beneficiaries under the Plan. The tax-deferred elective contributions and Employer matching contributions are deductible by the Company for tax purposes when those contributions are made, subject to certain limitations set forth in Section 404 of the IRC.

Participants or their beneficiaries will be taxed, at ordinary income tax rates, on the amount they receive as a distribution from the Plan at the time they receive the distribution. However, if the participant or beneficiary receives a lump sum payment of the balance under the Plan in a single taxable year, and the distribution is made by reason of death, disability or termination of employment of the participant, or after the participant has attained age 59-1/2, then certain special tax rules may be applicable.

4. Income tax status - continued

The Internal Revenue Service has determined and informed the Plan sponsor by a letter dated August 18, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan and the related trust are qualified, and is tax-exempt

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset), or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

5. Stable Value Strategy Fund (unaudited)

The Plan entered into a group annuity contract with TLIC through the Stable Value Strategy Fund. Participants could direct the withdrawal or transfer of all or a portion of their account balances at contract value. Thus, the investment contract was considered fully benefit-responsive, as defined by U.S. GAAP.

TLIC maintained the contributions and invested them in TLIC's general account. This investment attempted to protect against any loss of principal while providing returns in excess of money market funds and one-year U.S. Treasury Bills. The investment had a portfolio investment rate design in which all deposits were credited with the same interest rate, credited on a daily basis, and with no set maturity. The effective credited interest rate was set semi-annually on January 1 and July 1 and was effective on the first day of the semi-annual period. Contract charges would reduce the return. There were no reserves against contract value for credit risk of TLIC or otherwise. For the year ended December 31, 2017, the average crediting interest was 1.35%. The Stable Value Strategy Fund was removed as an investment option during the year ended December 31, 2018.

6. Lincoln Stable Value Strategy Fund (unaudited)

Under the TransAmerica platform, the Plan has entered into a fully benefit-responsive investment contract with Lincoln through the Stable Value Fund. Lincoln maintains the contributions in its general account. For the year ended December 31, 2018, the contract guarantees a minimum crediting interest rate of 2.05%. The interest crediting rate is updated quarterly based upon contract provisions. Lincoln's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their account balances at contract value. Thus, the investment contract is considered fully benefit-responsive, as defined by GAAP.

The contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include termination of the contract by the Plan, as well as circumstances, under which the issuer may terminate the contract. Examples of circumstances which would allow the issuer to terminate the contract include the balance of the contract falling below minimum specified levels, lack of deposit activity into the contract, the Plan's loss of its qualified status, uncured material breaches of responsibilities, the issuer discontinuing offering this contract to the public, the Plan termination of the recordkeeping agreement or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Plan could request the market value payment option, which could result in payments to the participants at less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

7. Notes receivable from participants

At December 31, 2018 and 2017, the Plan had outstanding loans made to participants totaling $590,360 and $282,520, respectively. The outstanding loans at December 31, 2018 bear interest ranging from 4.25% to 6.25%, maturing at various dates through 2048. The unpaid balance of any loan is immediately payable upon termination of employment and may be offset against the participant's vested account.

8. Fair value measurements

The Plan uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. For additional information on how the Plan measures fair value refer to Note 2 - Summary of significant accounting policies.

8. Fair value measurements - continued

The following table summarizes the assets of the Plan for which fair values are determined on a recurring basis:

Participant contributions and participant loan repayments of $790,497 and $700,296 were withheld from participants' pay during the years ended December 31, 2018 and December 31, 2016, respectively, but were not remitted to the Plan timely. The Company reimbursed participants their lost investment income for the year ended December 31, 2016 during 2018. For the year ended December 31, 2018, the Company will reimburse lost investment income in 2019, if any.

10. Party-in-interest transactions

The Plan invests in registered investment companies and other investments managed by TLIC and State Street, the trustees. However, these transactions are exempt party-in-interest transactions as defined by the Plan.

11. Risk and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

12. Subsequent events

The Company has evaluated subsequent events through October 13, 2019, the date which the financial statements were available to be issued.
