The following brief description of the Ace Clearwater Enterprises 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was established on January 1, 1993 and amended effective January 1, 2018, is a defined contribution plan sponsored and administered by Ace Clearwater Enterprises (the "Company", "Sponsor" or "Plan Administrator"). The Plan covers all eligible employees of the Company. All employees who have completed at least 1,000 service hours are eligible to participate in the Plan on the first day of the next month following the eligibility date. Participation continues until retirement, disability, termination of employment, or death, at which time the participant's vested account balance becomes payable. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is in conformance with all subsequent applicable tax law changes.

The Plan has a contract with Variable Annuity Life Insurance Company ("custodian" or "VALIC") to manage the Plan's investment assets.

Contributions

Participants may make contributions to the Plan in an amount not to exceed their compensation, subject to maximum annual legal limits. Participants may also make rollover contributions from other retirement plans. Participants direct the investment of their contributions, and employer contributions (whether discretionary or non-discretionary) into various investment options offered by the Plan. The Plan currently offers several mutual funds and guaranteed investment contracts as investment options for participants. Participants may elect to change their investment options and transfer their account balances among the different investment options at any time.

The Sponsor may make discretionary profit sharing contributions to the Plan as determined annually. For the years ended December 31, 2018 and 2017, the Sponsor did not make any discretionary profit sharing contributions.

Participant accounts

Participants' accounts are credited with investment earnings and with an allocation of the Sponsor's discretionary contributions. Allocations are based on participant compensation or account balances, as defined by the Plan.

Vesting

Participants are immediately vested in their voluntary contributions. The Sponsor's discretionary profit sharing contributions vest based on years of continuous service. A participant is 100% vested after five years of credited service.

1. Description of plan (continued)

Notes receivable from participants

Participants may borrow against their vested balance at a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested balance. Interest is determined by the Sponsor based on rates commensurate with market rates for similar loans, as defined (3% to 5% for the years ended December 31, 2018 and 2017). Participants' notes are for fixed terms up to five years and require regular periodic repayment. However, terms may exceed five years for the purchase of a primary residence. The notes receivable are valued at their outstanding balance plus accrued interest. Principal and interest are paid ratably through periodic payments.

Benefit payments

A participant's account will be distributed upon retirement or termination in accordance with the distribution options defined by the Plan. Participants may receive their vested account balance in a lump sum distribution or annual installments as defined by the Plan. Under certain circumstances, participants may make a financial hardship withdrawal.

Administrative expenses

Custodian fees are paid from Plan assets. All other Plan expenses are paid by the Company. For the years ended December 31, 2018 and 2017, the Company paid administrative expenses of $11,790 and $8,995, respectively.

Forfeitures

Forfeitures occur in the Plan year in which a participant terminates employment with the Company and receives a distribution of participants entire vested account, or if participant does not receive a distribution, after five consecutive one year breaks in service. Forfeitures are retained in the Plan and can be used to pay administrative expenses or reduce future employer contributions payable under the Plan. As of December 31, 2018 and 2017, there were no forfeitures outstanding.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of significant accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Investment valuation and income recognition

The Plan's guaranteed investment accounts are valued at contract value and mutual fund investments are stated at fair value as determined by quoted market prices. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Contributions

Discretionary employer contributions are recognized in the period for which they are declared. Non-discretionary employer and employee contributions are recognized in the period in which the related compensation is earned.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Accounting standards updates

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, on Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965) Employee Benefit Plan Master Trust Reporting. The amendments in ASU 2017-06 clarify presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the plan's interest in the master trust. The ASU is effective for fiscal years beginning after December 15, 2018 for nonpublic entities with early adoption permitted. ASU 2017-06 is to be applied retrospectively. ASU 2017-06 does not materially affect the Plan.

Accounting standards updates (continued)

In August 2018, FASB issued ASU No. 2018-13, to modify the disclosure requirements on fair value measurements in FASB ASC 820, *Fair Value Measurement.* FASB ASU No. 2018-13 contains amendments that remove, modify or add disclosure requirements including those relating to: transfers between levels of the fair value hierarchy, level 3 fair value measurements and entities that calculate net asset value. The ASU is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management does not expect the adoption of this ASU will have a material impact on the Plan's financial statements.

3. Plan termination

Although the Sponsor has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants shall become fully vested in their account balances and the net assets of the Plan will be allocated to the participants in accordance with the terms of the Plan.

4. Tax status

Effective January 1, 2018, the Plan adopted the volume submitter profit sharing plan and is relying on the tax exempt status from the Internal Revenue Service ("IRS") by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has not filed an individual determination letter. However, the Plan Administrator believes the Plan, as currently designed and operated, is in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

5. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the new term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Guaranteed investment contracts

The Plan entered into benefit-responsive contracts with Variable Annuity Life Insurance Company (VALIC). VALIC maintains contributions in fixed accounts which are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported by VALIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The guaranteed investment contracts average yield for 2018 and 2017, was 1.96% and 1.50%, respectively.

Because some investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts.

7. Fair value of investments

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

7. **Fair value of investments (continued)**

- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 4,535,243**	**$ -**	**$ -**	**$ 4,535,243**

8. Information certified by the custodian

The following is a summary of the information included in the Plan's financial statements that were prepared by the custodian and furnished to the Plan Administrator. The custodian has certified that such information is complete and accurate.

Assets available for plan benefits at December 31:	2018	2017
Total funds on deposit with investment company	$6,013,019	$6,079,951
Changes in total assets available for Plan benefits for the years ending December 31:		
Dividends, interest and other income	$37,750	$36,763
Interest income on notes receivable from participants	$9,687	$7,988
Net realized and unrealized (depreciation) appreciation in fair value of investments	$(236,291)	$853,866

9. Related party transactions

Certain Plan investments are shares of mutual funds and guaranteed investment contracts managed by VALIC. VALIC is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

10. Subsequent events

Management has evaluated subsequent events through October 14, 2019, the date on which the financial statements were available to be issued.
