Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Residential Management Group, LLC 401(k) Retirement Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan trustee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan trustee that the custodian holds the Plan's investment assets and executes investment transactions. The plan trustee has obtained a certification from the custodian as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the plan trustee by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2018 and Schedule H, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2018 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 - Description of Plan

The following description of Residential Management Group, LLC 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. ***General*** - The Plan is a defined contribution plan covering all eligible full-time employees of Douglas Elliman Property Management, LLC, formerly Residential Management Group, LLC, (the "Company" or "Sponsor"), who are age twenty-one or older and have completed the service requirement defined in the plan. It is subject to the provisions of The Employee Retirement Income Security Act of 1974 (ERISA). The Plan was formed on July 1, 2003.

b. ***Contributions*** - Each year, participants may contribute to the Plan up to statutory limits. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions. Participants may also roll over amounts representing distributions from other qualified defined benefit or contribution plans. Each year, the Company may contribute a matching contribution equal to a percentage of the elective contributions made by participants. For the year ended December 31, 2018, the Company contributed $198,872 in employer match. In addition, the Company may also make a discretionary profit-sharing contribution equal to a uniform percentage of the compensation of participants who are not highly compensated. There was no such discretionary contribution made for 2018. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and guaranteed investment contracts as investment options for participants. Contributions are subject to certain Internal Revenue Service limitations.

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants become vested in the employer contributions and discretionary profit-sharing contributions, if any, and related earnings thereon at a rate of 25% after two years, 50% after 3 years and 100% after four years of service.

e. ***Notes Receivable from Participants*** - Participants may borrow from their accounts a minimum of $700 up to the lesser of $50,000 or 50% of their vested interest. The loans are secured by the balance in the participant's account and bear interest at rates as set forth by the Plan administrator based upon interest rates being charged by local financial institutions for secured personal loans. Principal and interest is paid ratably through biweekly payroll deductions over a period not to exceed five years except for loans used for the purchase of a principal residence, which can have terms up to 15 years.

f. ***Payment of Benefits*** - On termination of service due to death, disability, retirement, or other causes, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or to purchase an annuity.

Continued

g. ***Forfeited Accounts*** - Forfeitures are utilized to reduce plan expenses or the employer's contributions to the Plan. As of December 31, 2018 and 2017, forfeitures of $5,537 and $3,799 respectively, were available to reduce future contributions or expenses. In 2018, there were no forfeited non-vested accounts used to reduce Company contributions or plan expenses.

2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

a. ***Basis of Accounting*** - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

b. ***Use of Estimates*** - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

c. ***Investment Valuation and Income Recognition*** - Investments are reported at fair value except for fully benefit responsive investment contracts which are reported at contract value. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

   Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. ***Notes Receivable from Participants*** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. The notes bear interest rates ranging from 5.25% to 6.50% and have scheduled maturities to October 2023. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded. During the year ended December 31, 2018, in connection with the termination of a participant, the outstanding balance from that participant's loan to the Plan in the amount of $2,244 was discharged, which was recorded as a deemed distribution to the participant.

e. ***Excess Contributions Payable*** - Amounts payable to participants for contributions in excess amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. During 2018 and 2017, excess contributions amounted to $5,594 and $1,736, respectively.

f. ***Payments of Benefits*** - Benefits are recorded when paid.

g. ***Administrative Expenses*** - Expenses incurred for the recordkeeping services provided by Voya Retirement Insurance and Annuity Company are borne by the Plan and allocated among the participants based upon their respective account balances. Investment related expenses are included in net appreciation/depreciation in fair value of investments. All other expenses of maintaining the Plan are paid by the Company.

3 - Information Certified by Custodian (Unaudited)

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments at fair value, investments at contract value held at December 31, 2018 and 2017, and net depreciation in fair value of investments, and interest income for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Retirement Insurance and Annuity Company.

4 - Fair Value Measurements

The framework for measuring fair value is based upon a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement (including the Plan's own assumptions in determining the fair value of investments).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017:

Pooled Separate Accounts - Pooled separate accounts are valued on a net unit value basis. The fair values of these investments are determined by reference to the respective accounts underlying assets. The underlying investments primarily include domestic and international equities and domestic fixed income securities.

The preceding method described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2018 are reported in net depreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of any level as of the date of the event or change in circumstances that caused the transfer. There were no transfers into and out of any level for the year ended December 31, 2018.

Continued

The following is a description of the investment strategy for each class of investment:

Pooled Separate Accounts

Bond Funds - The funds in this investment category are invested in fixed income securities that have been determined to be appropriate for its investment goal. Investors here are primarily seeking income or growth of income, with less emphasis on capital appreciation. Funds in this asset class vary greatly in their risk profiles. The issuer, credit quality of the underlying investments, and the average duration of the portfolio play important roles in determining the risk profile of the fund. Fixed-income funds those that have significant investments in below-investment grade bonds ("junk bonds") or bonds of foreign issuers would be categorized as high yield or international bonds. Portfolios consisting of investment grade corporate bonds, mortgages, government bonds and, to a lesser degree, preferred stock, foreign or convertible bonds typically categorized as short term bond or short term government funds.

Asset Allocation Funds - The funds in this investment category are also know as "LifeStyle" or "LifeCycle" funds. The funds invest in a combination of assets such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk adjusted performance based on the stated objectives and "target" allocations of the particular fund. Different constructs can be based on risk tolerance or length of time to investment goal.

Balanced Funds - The funds in this investment category seek to "balance" growth of principal and current income by investing in a combination of stocks and bonds (generally holding 60-70% equity and 30-40% fixed income). The investment style used here is either moderate allocation or conservative allocation. Some funds have fixed asset allocations and others allow managers discretion to allocate between equities and bonds, depending on their view of return and risk.

Large Cap Value Funds - The funds in this investment category seek long-term growth of capital or combination of growth and income by investing primarily in stocks of larger, mature companies. The investment styles exhibited are value and "blend." Stocks are selected for price appreciation and for the value of the current income provided through dividends. These funds generally exhibit a lower level of price volatility, due to the types of companies they favor, such as those able to pay dividends along with more older, mature companies.

Large Cap Growth Funds - The funds in this investment category invest primarily in stocks of larger U.S. companies employing an investment style of growth. A growth fund invests in the stocks of companies that are growing rapidly. Growth companies tend to reinvest all or most of their profits for research and development rather than pay dividends. Growth funds are focused on generating capital gains rather than income. Funds emphasizing growth stocks will typically have higher price/earnings ratios and make little or no dividend payments. Large capitalization companies tend to be more established, with lower relative volatility, than more aggressive small and mid-cap stock funds.

Small/Mid/Specialty Funds - The funds in this investment category include small cap, mid cap, and "specialty" funds which employ investment styles of growth, value, or a blend of growth and value. These funds seek capital appreciation by investing primarily in stocks of small-and medium-sized companies. Generally, these companies are striving to develop new products or markets and have above-average earnings growth potential. Because of their smaller size, these companies may face greater business risk, and investments in these funds generally carry much higher risk than other domestic equity funds. "Specialty" or "sector" funds invest in stocks of companies in a particular industry. This narrow focus can significantly increase the risk and volatility of such funds.

Continued

Global/International Funds - There are three main types of funds in this investment category. International funds can have an investment style of Foreign Large Value, Foreign Large Blend, Foreign Large Growth, Foreign Small/Mid Value or Foreign Small/Mid Growth. These funds invest in stocks of companies outside of the United States. Global funds have an investment style of World Stock. These funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging Market funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. International investing may provide greater diversification benefits to a U.S.-based portfolio than investing in domestic securities alone. However, foreign investing does involve additional risks not present in U.S. securities.

5 - Guaranteed Investment Contracts with Voya Retirement Insurance and Annuity Company

The Plan has fully benefit-responsive guaranteed investment contracts with Voya Retirement Insurance and Annuity Company. Voya Retirement Insurance and Annuity Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The minimum guaranteed interest rate which is guaranteed for the lifetime of the contract is 2.50%.

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya Retirement Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2018 and 2017 was $4,076,655 and $4,224,839, respectively. The crediting interest rate is set by the issuer. Such interest rates are reviewed on an annual basis for resetting Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The Guaranteed Investment Contract does not have a maturity date. The guaranteed investment contract continues in force until all assets have been distributed, or no further payments are due.

6 - Related Party Transactions

Plan investments include pooled separate accounts and guaranteed investment contracts managed by Voya Retirement Insurance and Annuity Company. Voya Retirement Insurance and Annuity Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Contract administrative fees paid to Voya Retirement Insurance and Annuity Company for the year ended December 31, 2018 are included in net depreciation in fair value of investments. Fees paid by the Plan for administrative services amounted to $900 for the year ended December 31, 2018.

Continued

7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8 - Tax Status

The plan trustee obtained an opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the prototype Plan document was in compliance with the applicable sections of the Internal Revenue Code ("IRC"). The plan trustee believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and therefore believes the Plan is qualified and the related trust is tax exempt.

Management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9 - Risks and Uncertainties

The Plan invests in various investments. Such investment securities are subject to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in the value of investment will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10 - Subsequent Events

Subsequent events have been evaluated through October 15, 2019, the date the financial statements were available to be issued.
