NOTE 1 – DESCRIPTION OF PLAN

The following description of the Bob Smith BMW/Mini 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Bob Smith BMW/Mini 401(k) Plan (the "Plan") was established to provide retirement benefits for eligible employees of Robert A. Smith, Inc. (the "Company"). All employees age 21 and over are eligible to enter the plan on the next quarterly enrollment date coincident with completion of the following: 90 days of service. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code (the "IRC") Section 415(c). Participant contributions and employer discretionary contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in IRC Section 401(k) and 401(m).

Total contributions include participant pretax elective deferrals and employer matching contributions. Participants may also contribute amounts representing distributions from qualified plans. Employer matching contributions are equal to a discretionary percentage, up to 4% of participant compensation.

The plan also provides that each year, the Employer may make a discretionary nonelective contribution to the Plan.

Participant Accounts and Vesting: Each participant's account is credited with the contributions and earnings of each participant's self-directed account. The Plan's earnings are allocated according to participants' investment choices.

Participants are immediately vested in their elective deferral contributions, including catch-up contributions and rollover contributions, plus actual earnings thereon. That portion of the participants' account attributable to employer contributions is vested upon attainment of the normal retirement age of 65, or in the event of death or total disability or 20% vested after the completion of two vesting years of service, plus 20% of the completion of each of the next three vesting years of service and 100% thereafter.

Investment Options: Upon enrollment in the Plan, a participant may direct all contributions in a variety of investment choices as more fully described in the Plan's literature. Participants can change their investment options at any time.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Distributions to Participants: Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum or in installments. Distributions may be deferred until the participant reaches the age of 70 1/2. However, the plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age 70 1/2. Distributions can also be made because of death, disability, hardship, Qualified Domestic Relations Orders, and Plan termination.

Forfeited Accounts: Forfeitures of contributions other than matching contributions will be added to the employer's contribution under the Plan. Forfeitures of matching contributions will be used to reduce the employer's matching contributions. For the year ended December 31, 2018, forfeitures in the amount of $5,576 were used to reduce Employer matching contributions. The Plan had $15,308 and $1,803 in unallocated forfeitures at December 31, 2018 and 2017 respectively.

Plan Termination: The Company has the right to discontinue its contributions and terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant within 90 days of the termination.

Notes Receivable from Participants: Participants may borrow a minimum of $1,000 from their fund accounts. The maximum for a loan is equal to the lesser of $50,000 or 50 percent of the participant's vested account balance. Loans are secured by the balance in the participant's account and bear interest commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through semi-monthly payroll deductions.

Notes receivables from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant's loan balance is reduced, and a benefit payment is recorded.

Plan Expenses: Fees and expenses of the Plan for legal, accounting, and other administrative services may be paid directly by the Company, or, at the Company's discretion, may be paid in whole or in part from Plan assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the modified cash basis of accounting, under which contributions and investment income are recorded when received, rather than when earned, and expenses are recorded when paid, rather than incurred. That basis differs from accounting principles generally accepted in the United States of America primarily because the Plan has not recognized Employer contributions receivable, accounts payable, and their related effects on earnings in the accompanying financial statements.

Use of Estimates: The preparation of financial statements in conformity with modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant's benefits are to be paid as soon as administratively feasible, following the close of the valuation period during which a distribution is requested or otherwise payable.

Subsequent Events: Subsequent events were evaluated (events occurring after December 31, 2018) through October 15, 2019, which is the date the financial statements were available to be issued.

NOTE 3 - TAX STATUS

The Company has adopted a Prototype 401(k) Plan and related trust. The Internal Revenue Service ("IRS") has determined that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

The financial statements are presented on a comprehensive basis of accounting other than accounting principles generally accepted in the United States; therefore, plan management is not required to recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Open tax years for potential examination of federal Form 5500 tax returns are 2016 - 2018.

NOTE 4 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	December 31,	
	2018	2017
Investments, at fair value:		
Collective trust	$ 1,219,025	$ 1,080,928
Mutual funds	6,679,135	6,869,722
Interest and dividend income	432,407	
Investment income	(775,863)	

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan reports its investments at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value of hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in the active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2018 and 2017. During the year ended December 31, 2018 there were no transfers of financial instruments into or out of Level 3. Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds and exchange traded funds – Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Stable value collective trust fund – A stable value fund that is composed primarily of fully benefit responsive investment contracts that is valued at the NAV of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2018.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

	Fair Value Measurements as of December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds and total assets in the fair value hierarchy	$ 6,679,135	$ -	$ -	$ 6,679,135
Investments measured at NAV *				1,219,025
Total investments at fair value				$ 7,898,160

	Fair Value Measurements as of December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds and total assets in the fair value hierarchy	$ 6,869,722	$ -	$ -	$ 6,869,722
Investments measured at NAV *				1,080,928
Total investments at fair value				$ 7,950,650

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statements of net assets available for benefits.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes the investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investments	Fair Value as of December 31, 2018	2017	Unfunded commitments	Redemption frequency (if currently eligible)	Redemption notice period
Stable value collective trust fund	$ 1,219,025	$ 1,080,928	n/a	Daily	12 months

NOTE 6 – PARTIES-IN-INTEREST

All plan investments are managed by Capital Bank and Trust. Capital Bank and Trust is the trustee as defined by the Plan and therefore these transactions qualify as party in interest transactions. Notes receivable from participants and the related interest income are also considered party-in-interest transactions.

Certain administrative expenses were paid by the Company on behalf of the Plan for the year ended December 31, 2018. The Company does not expect reimbursement from the Plan for these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

NOTE 7 – RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statements of changes in net assets available for benefits.
