WEST FLORIDA HEALTH, INC. 403(B) PLAN

Notes to Financial Statements

December 31, 2018 and 2017

(1) Description of Plan

The following description of the West Florida Health, Inc. 403 (b) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan’s provisions, which are available from the Plan administrator.

(a) General

The Plan is a defined contribution plan sponsored by West Florida Health, Inc. (the “Organization”) for the benefit of its employees. All permissible employees of the Organization, as defined in accordance with the universal availability standards are eligible to enroll on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan was amended and restated with and into the Adventist Health System Consolidated ERISA 403(b) Plan (Adventist Plan) effective January 1, 2019. The Plan’s assets were transferred to the Adventist Plan on December 31, 2018.

(b) Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, limited by the maximum amount allowable by law. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in an investment arrangement selected for this purpose by the Plan Administrator until changed by the participant. An employee, for whom contributions have been automatically made, may elect to withdraw all of the contributions made on his or her behalf, including earnings thereon to the date of the withdrawal. This withdrawal right is available only if the withdrawal election is made within 90 days after the date of the first contribution made.

The Organization contributes safe harbor matching contributions of 100% of the first 3% of eligible compensation that a participant contributes to the Plan, plus 50% of the amount the participant contributes that exceeds 3% but does not exceed 5% of eligible compensation. Additional nonelective contributions may be contributed at the option of the Organization. The Organization elected not to contribute additional amounts for 2018.

Contributions are subject to certain Internal Revenue Code (“IRC”) limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Organization's contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct contributions into a variety of investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and in the Organization's safe harbor matching contribution portion of their accounts.

Additional organization nonelective contributions are subject to the below vesting provisions:

<u>Years of Service</u>	<u>Vested %</u>
0 - 2	0%
3 or more	100%

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of interest of 1.00% above the current prime interest rate as published from time to time in the Wall Street Journal. Principal and interest are paid ratably through payroll deductions. Loan payments may be suspended for a period not exceeding one year when a participant is on an approved leave of absence without pay.

(f) Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive (1) a joint and survivor annuity, (2) a qualified pre-retirement survivor annuity, or (3) other payout option as available under the Plan such as a lump-sum payment or distribution to an eligible retirement plan or the qualified plan of another employer.

The Plan also allows for hardship distributions only if the distribution is necessitated by an immediate and heavy financial need of the participant and is necessary to satisfy such financial need, as defined in the plan document.

Account balances that are \$5,000 or less will automatically be paid out in a lump-sum distribution.

(g) Forfeited Accounts

There were no forfeitures available to reduce future employer contributions or to apply to plan expenses at December 31, 2018. Forfeitures of \$183 at December 31, 2017 were available to reduce future employer contributions or to apply to plan expenses. Forfeitures of \$183 were used to reduce employer contributions during the year ended December 31, 2018.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

(3) Investment Contract with Insurance Company

The Plan had a fully benefit-responsive guaranteed investment contract with the Variable Annuity Life Insurance Company ("VALIC"). VALIC maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan.), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator did not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants was probable of occurring.

The guaranteed investment contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(4) **Information Prepared and Certified by the Custodians**

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, AIG Federal Savings Bank and VALIC, the Plan custodians, have certified that the following data included in the accompanying financial statements are complete and accurate with respect to investments:

- Total mutual fund investments at fair value, fully benefit-responsive investment contract, at contract value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017;
- Total investment income and related activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

(5) **Fair Value Measurements**

ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- (a) Quoted prices for similar assets and liabilities in active markets;
- (b) Quoted prices for identical or similar assets and liabilities in inactive markets;
- (c) Inputs other than quoted market prices that are observable for the asset or liability;
- (d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(5) Fair Value Measurements - Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

Description	Assets Measured at Fair Value at 12/31/2017	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 2,413,174	2,413,174	-	-
Total investments at fair value	\$ 2,413,174	2,413,174	-	-

(6) Related Party Transactions and Party-in-Interest Transactions

VALIC held certain Plan assets in a general account and provided recordkeeping and investment management services to the Plan. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. These transactions qualify as party-in-interest transactions.

(7) Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

On December 13, 2018, the Adventist Health System Benefits Administration Committee (the “Committee”), the entity with the authority to amend the West Florida Health, Inc. 403(b) Plan (the “Plan”), elected to amend and restate the Plan into the Adventist Health System Consolidated ERISA 403(b) Plan, which is the successor plan, effective January 1, 2019. In connection with the merger, the Plan’s assets were transferred into the successor plan on December 31, 2018.

(8) Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (“IRS”) in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The Plan administrator and the Plan’s tax counsel believe the Plan is currently being operated in compliance with the applicable provisions of the IRC, and therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017 to Form 5500:

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Subsequent Events

The Plan has evaluated subsequent events through October 15, 2019, the date the financial statements were available to be issued.
