NOTE A - DESCRIPTION OF THE PLAN

The following description of the Wolters Kluwer CCH, Springhouse and Waverly Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a non-contributory defined benefit pension plan covering substantially all employees hired prior to December 31, 1995, of CCH, Inc. and certain wholly owned subsidiaries, including CT Corporation System, CCH Legal Information Services, Inc. and its subsidiaries, CCH Computax, Inc. and former eligible employees of certain divested businesses, except for those employees covered by a collective bargaining agreement that does not provide for participation in the Plan. The Plan also covers substantially all full-time employees hired prior to July 1, 1999, of Springhouse Corporation and substantially all full-time employees hired prior to January 1, 1997, of Waverly, Inc. Collectively, the companies listed here are referred to as the Company.

Effective December 31, 1996, the Plan was amended to freeze benefit accruals and participation to employees participating in the former CCH Consolidated Pension Plan. No employee hired after December 31, 1995, may participate in the former plan, and existing participants did not accrue additional benefits after December 31, 1996. Effective December 31, 2000, the Plan was amended to freeze benefit accruals and participation to employees participating in the former Springhouse Corporation Pension Plan and former Waverly, Inc. Pension Plan. No credited service after December 31, 2000, is included in calculating benefit accruals.

Effective as of the close of business on December 31, 2004, the Springhouse Corporation Pension Plan and the Waverly, Inc. Pension Plan were merged into the Plan, at the time known as the CCH Consolidated Pension Plan. Effective January 1, 2006, the Plan was amended and restated, and renamed the Wolters Kluwer CCH, Springhouse and Waverly Pension Plan. The respective benefit formulas and accumulated service of the former plans continue under the Plan for the former participants of the merged plans.

The board of directors of Wolters Kluwer U.S. Corporation controls and manages the operation and administration of the Plan. Effective March 1, 2006, The Northern Trust Company (Northern Trust) was appointed sole trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Pension Benefits

Participants with five years of credited service, as defined by the Plan, are entitled to pension benefits upon retirement. Pension benefits are provided to participants under several types of options based on credited service and age. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities, including a lump-sum payment option.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein,

disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation)/appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

NOTE C - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels as follows:

- Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 - Inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset

Wolters Kluwer CCH, Springhouse and Waverly Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2018 and 2017

or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

However, the determination of what constitutes observable requires judgment by the Plan's management. Plan management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market. The categorization of an investment within the fair value hierarchy is based on the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Short-term fixed income fund - Valued at the quoted net asset value (NAV) of shares held by the Plan at year end, which is obtained from an active market.

Common stock - Valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust funds - Valued at the NAV of shares held by the Plan at year end based on information reported by the trustee. The NAV, as provided by the trustee, is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Short-term fixed income fund	\$ 1,806,239	\$ -	\$ -	\$ 1,806,239

(a) Orders for withdrawals must be received one business day prior to the admission or withdrawal to be effective. There were no unfunded commitments at December 31, 2018.

NOTE D - FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in the amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2018 and 2017.

NOTE E - ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary, Aon Hewitt, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the December 31, 2017 and 2016, valuations were as follows:

Mortality	2017 - RP-2006 projected generationally from 2006 using Scale MP-2017 2016 - RP-2006 projected generationally from 2006 using Scale MP-2016
Retirement age	2017 - Age based retirement rates between age 55 and 70 2016 - Age based retirement rates between age 55 and 70
Interest rate	4.45% for 2017; 4.15% for 2016
Expected rate of return on assets	5.45% for 2017; 6.00% for 2016

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2018 and 2017. Had the valuation been performed as of December 31, there would be no material differences.

NOTE F - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of funds managed by Northern Trust. Northern Trust is the trustee as defined by the Plan. Mercer Investments is the investment advisor for the Plan. Transactions with these service providers qualify as exempt party-in-interest transactions.

NOTE G - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 16, 2017, that the Plan and the related trust were designed in accordance with applicable Internal Revenue Code (IRC) requirements. The Plan has been amended since receiving the determination letter; however, the Company and the Plan administrator believe that the Plan is currently designed and being operated, in all material respects, in compliance with the applicable requirements of the IRC, and that the Plan is tax-exempt. No provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. As of October 15, 2019, there is an open audit being performed by the U.S. Department of Labor. The Plan is not aware of any findings that may impact the tax status nor have a material impact on the financial statements.

NOTE H - PLAN TERMINATION

As described in Note A, the Plan is frozen. The Company has the right under the Plan, in certain circumstances, to discontinue its contributions and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions; however, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE I - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Northern Trust, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE J - SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2018, financial statements for subsequent events through October 15, 2019, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the unlimited expected rate of return on plan assets from 5.45% to 5.30%.
- A change in the payment form election assumption for Springhouse and Waverly plan participants from 100% of participants electing life annuity to 90% of participants electing lump sum and 10% electing life annuity.
- Retroactive annuity interest crediting rate was updated to 2.80% (November 30, 2017 30-Year Treasury Securities Interest Rate).

These changes were made to better reflect the anticipated plan experience. These assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
