Notes to financial statements

1 Description of the Plan

The following description of the AMEC Foster Wheeler 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, except for certain union employees and affiliated employers of AMEC Holdings, Inc. (collectively, the Company or Plan Sponsor). In addition, anyone who was a participant in the AMEC Foster Wheeler Oil & Gas, Inc. Retirement Savings Plan became members of the Plan as of December 18, 2015 and anyone who was a participant in the Foster Wheeler Inc. 401(k) Plan on December 31, 2015 became a participant in the Plan as of January 1, 2016.

Employees become eligible to participate immediately and there is no age or service requirement for participating. The Plan document was most recently amended and restated January 1, 2016 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Merger

Effective October 9, 2017, AMEC Foster Wheeler, the Plan Sponsor, was acquired by the John Wood Group. On December 31, 2018, the Plan was merged into the Wood 401(k) Plan (Wood Plan). The net assets transferred to the Wood Plan are reported as a transfer out of the Plan in the statement of changes in net assets for the year ended December 31, 2018. Accordingly, net assets available for benefits as of December 31, 2018 were \$0.

Contributions

Participants may contribute an amount not less than 1%, of their compensation, as defined in the Plan agreement. There is an auto-increase feature that will increase employee's deferral percentages by 1% annually (up to 15%). Participants may make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers shares in various mutual funds, collective trusts and a self-direct brokerage option, where participants can set up individual brokerage accounts and trade in mutual funds and common stock. Participant contributions are recorded in the period during which the Company makes payroll deductions from the participant's earnings.

As stated in the amended and restated Plan document, as of January 1, 2016, the Company will make a safe harbor matching contribution of 100% of basic 401(k) or Roth 401(k) contributions up to 5% of the participant's compensation. The Company contributions are invested directly in investments as directed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of the Company's contributions and investment earnings, and charged with benefit payments and an allocation of investment losses and administrative expenses and expenses related to maintaining a self-directed brokerage account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully and immediately vested in all participant and employer contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have no more than two loans outstanding at one time. The loans are secured by the balance in the participant's vested account and bear interest at rates that range from 3.25% to 9.25%, which are commensurate with local prevailing rates for similar loans. Principal and interest are paid ratably through monthly payroll deductions. The maximum term of the loans is five years, unless the loan is for the purpose of purchasing a principal residence, in which case the maximum loan term is fifteen years.

Benefit Payments

Upon termination of service, retirement, the attainment of age 59 ½, or death, a participant may receive a lump sum amount equal to the value of the vested portion of their account. If a terminated participant with a vested account balance in excess of \$1,000 but is less than \$5,000, does not make an affirmative distribution election, the distribution will be automatically rolled over to an Individual Retirement Account with The Vanguard Group. Additionally, if the amount of the terminated participant's vested account balance is \$1,000 or less and the participant does not make an affirmative distribution election, the participant will receive a lump sum distribution.

A participant may receive an in service withdrawal in an amount not greater than the participant's total account balance (excluding the participant's matching contribution account and prior employer contributions account) as of the valuation date immediately preceding the date of withdrawal. A participant may also elect to make a withdrawal from his or her vested accounts (excluding matching contributions) based on circumstances of a hardship.

Distributions are subject to the applicable provisions of the Plan agreement.

Forfeitures

The forfeiture balances at December 31, 2018 and 2017 were \$0 and \$423,455, respectively. Forfeitures of \$386,512 were used to reduce employer contributions for the year ended December 31, 2018. Forfeitures of \$213,615 were used to pay administrative expenses for the year ended December 31, 2018.

2 Summary of Significant Accounting Policies**Basis of Accounting**

The Plan's financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussions of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. As of December 31, 2018 and 2017, there was no allowance for credit losses.

Payment of Benefits

Benefits are recorded when paid, which is generally when incurred by the Plan.

Administrative Expenses

Administrative expenses are paid by the Plan Sponsor, except for certain 401(k) participant-requested service expenses and expenses related to maintaining a self-directed brokerage account.

Subsequent Events

Plan management has evaluated all subsequent events through October 15, 2019, the date the financial statements were available for issuance.

3 Fair Value Measurements

The guidance for fair value measurements establishes the authoritative definition for fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs developed using the Plan's estimates and assumptions which reflect those that market participants would use.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds/Money market funds: valued at the quoted price of shares held by the Plan at year end.

Self-directed brokerage accounts: the brokerage accounts are comprised of common stocks and mutual fund investments. Common stocks and mutual funds are valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust funds: valued at the net asset value (“NAV”) of the units held by the Plan at year end, which is provided by the trustee and is determined based on the fair value of the underlying investments, which are based on the current market prices or quotations readily available on the day of valuation. The Vanguard Retirement Savings Trust Fund includes highly rated synthetic investment contracts, traditional investment contracts and cash investments. All other trusts within the collective trust funds track published market indexes or use an asset allocation strategy that is designed for investors planning to retire and leave the workforce in or within a few years of the target year. The collective trust’s asset allocation will become more conservative over time. Investments can be redeemed immediately at the participant level and in 12 months at the Plan level, at the current NAV per unit based on the fair value of the underlying assets. There are no redemption restrictions on these investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Due to the merger discussed in Note 1, there were no assets held by the Plan at December 31, 2018.

The following table set forth by level, within the fair value hierarchy, the Plan’s investments as of December 31, 2017:

December 31, 2017	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Mutual funds	619,971,038	-	-	619,971,038
Self-directed brokerage account	5,694,930	-	-	5,694,930
Money market	531,750	-	-	531,750
Total investments, in the fair value hierarchy	626,197,718	-	-	626,197,718
Investments measured at NAV - collective trusts				710,013,564
Investments at fair value				1,336,211,282

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no transfers in or out of Levels 1, 2 or 3.

4 Certified Financial Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR2520 103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Net investment loss and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

The Plan’s independent auditors did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

5 Related Party Transactions

Certain plan investments are shares of mutual funds, collective trust funds and a money market fund managed by an affiliate of Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the Plan's trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA. Additionally, notes receivable from participants qualify as party-in-interest transactions. These transactions are not considered "prohibited transactions" under Section 408(b) of the Internal Revenue Code (IRC) and are not prohibited by ERISA.

6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions, if any, at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participant accounts will be distributed in accordance with the Plan agreement.

7 Tax Status

Effective January 1, 2016, the plan was restated and amended and a favorable opinion letter from the Internal Revenue Service ("IRS") was obtained on June 15, 2017, which stated that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code. The Plan was amended subsequent to the submission for determination, however the Plan's management believes the Plan remains compliant.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, and for the year ended December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.
