Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Global Transportation Services, Inc. 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Global Transportation Services, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General

The Plan, which is sponsored by Global Transportation Services, Inc. (the “Company” or “Plan Sponsor”) is a contributory, defined contribution 401(k) retirement plan covering substantially all employees of the Company. The Plan was established on August 5, 2013, which is the date of inception, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Termination

The Plan Sponsor was acquired on November 30, 2018. Under the terms of the acquisition, the Plan was terminated and all remaining account balances were to be distributed to the participants. Participants without an outstanding loan from the Plan had the option to have a single lump sum distribution paid to them or to the new parent company’s eligible retirement plan in a direct rollover. Participants with an outstanding loan from the plan were required to have their account balance rolled over to the new parent company’s eligible retirement plan. On November 29, 2018, all participants became fully vested in any discretionary Company contributions, which was the effective date of the Plan Termination.

As of May 16, 2019, all remaining assets of the Plan were distributed, and the Plan was terminated.

The following is a description of the Plan prior to termination.

Eligibility

To be eligible to participate in the Plan, an employee must have attained the age of 18 and have completed two months of service. Enrollment occurs on the first day of the month following the date the eligibility criteria is met. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any profit sharing contributions.

Contributions

Participants may elect to make pre-tax and Roth (after-tax) contributions up to 100% of their annual compensation, subject to certain Internal Revenue Code (“IRC”) limitations, which for 2018 was \$18,500 for participants with additional catch-up contributions of \$6,000 permitted for participants who attained age 50 before the end of the Plan year.

Matching contributions may be made at the discretion of the Company in an amount equal to a percentage the Company may deem appropriate. Discretionary matching contributions of 50% of employee deferrals, up to a maximum of 8% of an employee’s eligible compensation, were made for the year ended December 31, 2018. The Company may also make a profit sharing contribution for each participant based on a percentage of the employee’s pre-tax eligible compensation. No profit sharing contribution was made for the year ended December 31, 2018.

Global Transportation Services, Inc. 401(k) Plan

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions and an allocation of net Plan earnings or losses. Participant accounts are charged with transaction specific expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may direct the investment of their account balances into various investment options offered by the Plan. Currently, the Plan offers mutual funds and a money market fund as investment options for participants.

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Vesting in the employer match and profit sharing portion of participant accounts is based on years of credited service defined within the Plan document based on years of service as defined by the following schedule:

Completed Years of Service	Percentage Vested
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or greater	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed fifteen years. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. At December 31, 2018, the rate of interest on outstanding loans was 4.25% to 5.75% with various maturities through September 2022.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant may elect to receive either a lump-sum distribution or installment payments under various options. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. If a participant's vested benefit does not exceed \$5,000 upon termination, the Plan Administrator may direct the trustee to make a single lump sum distribution to the participant without prior written consent. If the vested benefit under the Plan exceeds \$5,000, then the participant must consent to the distribution before it may be made.

Global Transportation Services, Inc. 401(k) Plan

Notes to Financial Statements

Forfeitures

Forfeitures may be used to pay Plan expenses or reduce employer matching contributions to the Plan. During 2018, \$31,785 was used to reduce employer matching contributions. There were unallocated forfeitures available for future use of \$21 and \$40,728 at December 31, 2018 and 2017, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). As a result of the decision to terminate the Plan in 2018, the financial statements of the Plan changed its basis of accounting for the periods subsequent to December 31, 2017 from the going concern basis to the liquidation basis.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred through the liquidation process.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan allows participants to direct contributions into various mutual funds. The underlying investment securities of these funds are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain underlying investment securities and the level of uncertainty related to changes in the value of the funds, it is reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

The Plan invests in certain investment securities that hold securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Global Transportation Services, Inc. 401(k) Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See note 4 for a discussion of fair value measurements.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus unpaid accrued interest. The Plan considers all notes receivable from participants at the end of the calendar quarter, following a calendar quarter for which there is any outstanding payment due, as in default. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. Notwithstanding the foregoing, unless a participant repays a loan that has been deemed distributed, the amount of such a loan with interest shall still be considered an outstanding loan. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to participant-requested services are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 15, 2019, the date the financial statements were available to be issued. There were no subsequent events identified which required recognition or disclosure in the financial statements.

3. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate.

4. Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds and money market fund: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission.

5. Income Tax Status

In a letter dated March 31, 2014, the Internal Revenue Service ("IRS") has determined that the volume submitter profit sharing plan used by the Plan is qualified under the applicable sections of the IRC. Although the Plan has been amended, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is recorded in the accompanying financial statements.

Plan Year: 2018 Form 5500

To Whom It May Concern:

This letter is in response to the late filing of our Form 5500 for the 2018 plan year. Please understand that the late 2018 filing was not intentional.

We are a large plan filer and scheduled our audit to be completed timely in order to meet the filing deadline. Due to the fact the plan was being terminated in 2019, the completion of the audit took longer than anticipated due to the additional time that was required to gather sufficient data to file a complete filing. In previous years, we have always filed our Form 5500 by the filing deadline.

We are aware of the filing deadlines and requirements and have taken steps to ensure our Form 5500 Filing will be filed by the filing deadline in 2019. We apologize for this oversight and are requesting the DOL and IRS waive late filing penalties for this plan year.

If you have any questions about the late filing or this letter please feel free to contact me at 425-207-1487.

Thank you for your consideration in this matter.

Sincerely,
