1. DESCRIPTION OF THE PLAN

The following description of The Contractors Retirement Plan Sponsored by King & George, LLC (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 2015, and is a defined contribution plan that covers employees of King & George, LLC who are actively employed by King & George, LLC. During the 2017 Plan year, the Plan was amended to include employees of King George-J&J Worldwide Services Joint Venture, LLC and AKG Services, Inc., affiliated companies of King & George, LLC (collectively the "Company", "Employer" or "Plan Sponsor"). Employees may also be eligible to participate in the Plan on the date of hire if their work is subject to a prevailing wage contract with retirement benefits, as defined. The Plan is designed to comply with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). In addition, the Plan's financial statements have been prepared in compliance with ERISA and with accounting principles generally accepted in the United States of America (US GAAP).

The Plan is a single employer plan that is a part of the Contractors Retirement Plan Master Trust (the "Trust") which holds the investments for multiple employers that have established single employer plans. The Trust reports as a 103-12 Investment Entity as defined by 29 CFR 2520.103-12 of ERISA. See Note 4 for additional information about the Trust.

Plan administration

The Plan Sponsor is responsible for the administration and operation of the Plan. Pentegra Trust Company (the "Trustee") is trustee for the Plan. The Trustee is responsible for the custody and management of the Plan's assets and for executing investment transactions. Record keeping services are provided by Fringe Benefit Group, Inc. (the "Record Keeper") who is responsible for maintaining participant account records and transactions.

Eligibility

All employees of the Company are eligible to participate in the Plan upon their date of hire. Plan entry is on the first day of the calendar month coincident with or next following the date eligibility requirements are met.

1. DESCRIPTION OF THE PLAN (continued)

Contributions

Participants may elect to contribute up to 100 percent of eligible compensation, as defined, subject to the limitations imposed by the Internal Revenue Service (IRS) guidelines. Participant contributions may be made on a pre-tax basis or on an after-tax basis as Roth contributions. Maximum combined allowed contribution amounts were $18,500 in 2018. Participants over the age of 50 were allowed to make additional catch-up contributions up to $6,000 in 2018. Participants are also allowed to roll over contributions from other qualified employer-sponsored retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Each year the Company determines the discretionary profit-sharing amount, if any, to contribute to the Plan. Allocation of the discretionary profit-sharing amount will be shared among employees regardless of the amount of service completed during the Plan year. The Company elected not to make a discretionary profit-sharing contribution for the year ended December 31, 2018.

If an employee's work is performed under the prevailing wage laws, as defined, the Company may make contributions to the Plan to help satisfy the fringe benefit requirements of the prevailing wage laws. Contributions are based on the work performed by the employee during a Plan year that is subject to the prevailing wage laws. The Company contributed $333,565 toward the prevailing wage benefits for the year ended December 31, 2018.

Participant accounts

Participant accounts are credited with participant contributions, allocations of the Company's discretionary profit-sharing contributions, if any, prevailing wage contributions, if applicable, investment earnings, and charged with an allocation of investment losses and fees designated by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, prevailing wage contributions and actual earnings thereon. Vesting in the Company's discretionary profit-sharing contribution portion of their accounts is based on years of continuous service. However, upon a participant's death, disability or early retirement, all amounts are immediately vested.

1. DESCRIPTION OF THE PLAN (continued)

Vesting (continued)

The vesting schedule for Company discretionary profit-sharing contributions is as follows:

Years of Service	Percentage
Less than 1	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

Payment of benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Benefits are payable in a lump-sum upon termination of employment due to death, disability (as defined by the Plan document), or normal retirement. For termination of employment for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or transfer the balance to another qualified employee retirement plan. The Plan allows, upon a participant's termination of employment, to distribute vested account balances of less than $5,000 to the participant in a lump-sum without the participant's consent.

In addition to the foregoing, participants are permitted to request in-service distributions from their vested Plan accounts at any time after having attained age 59 1/2. Also, participants may request a distribution of their employee contribution account upon incurring a financial hardship, as defined by the Plan. Participants may not make contributions to the Plan for six months after the receipt of a hardship distribution.

Forfeitures

Forfeitures of terminated participants' non-vested account balances may be used to pay Plan expenses or reduce Employer discretionary profit-sharing contributions. As of December 31, 2018, and 2017, there were no forfeited amounts available to be used to reduce future Plan expenses or Employer discretionary profit-sharing contributions and no forfeitures were used in 2018.

1. DESCRIPTION OF THE PLAN (continued)

Notes receivable from participants

Participant loans may be made to participants at their request subject to certain statutory and Plan limitations. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the vested balance in the participant's account. The loan interest rate is set at the prime rate at the date of issuance, as stated in the loan policy adopted by the Plan. Principal and interest are paid ratably through check or ACH directly to the Record Keeper. A participant may have up to two loans outstanding at a time.

Administrative expenses

Administrative expenses are generally paid by the Employer, but may, at the discretion of the plan administrator be paid by the Plan. The Plan is not required to reimburse the Company for expenses paid on its behalf. Transaction fees for certain participant-initiated activities are charged to the specific account of the participant initiating any such transaction.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with US GAAP and present the Plan's net assets available for benefits and changes therein.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment valuation and income recognition

The Plan's investments are held in a 103-12 investment entity and are stated at fair value. Purchases and sales of investments are recorded by the Trustee on a settlement-date basis and adjusted at year-end for unsettled trades to trade date on the Plan's financial statements. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold during the year as well as held at year-end.

Payment of benefits

Benefits paid to participants are recorded as a deduction from net assets available for benefits when paid.

Contributions and receivables

Contributions from participants are recorded based on the date the contributions have been separated from a participant's pay by the Employer, which is the pay date. The Plan records receivables for participants' contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Employer discretionary profit-sharing contributions, if any, are recorded in the year they are earned and to coincide with the year which the Employer records the contribution and takes the tax deduction for the contribution. The Plan records receivables for Employer contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Contributions representing participant rollovers from other qualified defined benefit or defined contributions plans are recorded when received.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Subsequent events

The Plan has evaluated subsequent events through October 15, 2019 the date the financial statements were available to be issued. As of May 24, 2019, the Plan adopted the Great-West trust Company Defined Contribution Prototype Plan and Trust document and retained Empower to perform record keeping services. The plan administrator is not aware of any other subsequent events which would require recognition or disclosure in the Plan's financial statements.

3. INFORMATION CERTIFIED AND PROVIDED BY THE TRUSTEE (UNAUDITED)

The plan administrator has elected the method of annual reporting permitted by Section 2520.103-8 of ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the Plan's investment information, and related activity, certified by the Trustee as accurate and complete, except for comparing such information to corresponding information included in the Plan's financial statements and supplemental schedule.

5. FAIR VALUE MEASUREMENTS

Accounting standards require that fair value be determined based on the price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such fair value is a market-based measurement, not an entity-specific measurement. US GAAP establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to level 1 measurements and the lowest priority to level 3 measurements. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

- Level 1 - Quoted prices in active markets for identical assets or liabilities.

5. FAIR VALUE MEASUREMENTS (continued)

- Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's classification within the fair value hierarchy is based on the lowest level or significant input to its valuation.

Fair value estimates are made at a specific point in time, and the methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Pooled separate accounts: Pooled separate accounts are valued at the net asset value (NAV) of shares in each account held by the Plan at year-end. The NAV is not a publicly quoted price in an active market. The NAV, as provided by the insurance carrier, is used as a practical expedient in estimating fair value.

Common collective trust: The common collective trust is valued at the NAV of units of a bank common collective trust fund. The NAV, as provided by the issuer, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the common collective trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with ASC Topic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available for benefits.

5. FAIR VALUE MEASUREMENTS (continued)

As of December 31, 2018, and 2017, there were no restrictions on redemptions or unfunded commitments for any of the major classes of assets.

6. TAX STATUS

The 103-12 Investment Entity has adopted a nonstandardized form of a prototype plan sponsored by Fringe Benefit Group, Inc. The Plan has received an opinion letter, dated November 1, 2016, from the IRS stating that the prototype plan is appropriate for use by employers for the benefit of its employees. The prototype plan opinion letter has been relied upon by the Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes is included in the financial statements.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

8. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by and fees paid to the Trustee and its affiliates (both direct and indirect fees) qualify as exempt party-in-interest transactions.

The Plan's agreement with the Trustee allows the Trustee to receive and retain earnings (i.e. float income) on funds received or credited to the Plan's account before they are invested, allocated, or applied in accordance with the Plan's instructions or on funds withdrawn, collected, or deducted from the Plan's account before actual disbursements are made to recipients

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The amounts included in the accompanying financial statements are prepared on the accrual basis of accounting that differs from the cash basis of accounting used to prepare the Form 5500 filed by the plan administrator. The following is presented to reconcile the financial statements to the Form 5500:

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (continued)

	$ 622,646

10. DELINQUENT PARTICIPANT CONTRIBUTIONS

The Plan experienced a delay in remitting participant contributions to the Plan's trust resulting in the contributions not being received by the trust as soon as administratively feasible. The plan administrator is in the process of correcting the Plan for the resulting lost earnings and intends to take all measures to protect the tax status of the Plan and to make participants whole.
