INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
of CenturyLink Combined Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of CenturyLink Combined Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to investments and related investment income, which was certified by Northern Trust, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2018 and 2017, that the information provided to the Plan by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2018, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

Effective December 31, 2014, the Qwest Pension Plan and the Embarq Retirement Pension Plan were merged into the CenturyLink Retirement Plan. The CenturyLink Retirement Plan was renamed the CenturyLink Combined Pension Plan ("Combined Plan"). Each of the CenturyLink Retirement Plan, the Qwest Pension Plan and the Embarq Retirement Pension Plan are now components of the Combined Plan. An additional component for the Combined Plan was established for the participants of the former Madison River Retirement Plan, which was merged with the Embarq Retirement Pension Plan in 2013. The provisions of the Combined Plan that relate to the CenturyLink Retirement Plan, the Qwest Pension Plan and the Embarq Retirement Pension Plan (which included provision for the former Madison River Retirement Plan) are now referred to as the CenturyLink Retirement Component, the Qwest Pension Component, the Embarq Pension Component and the Madison River Retirement Component, respectively. This merger had no effect on the participants' pension benefits, eligibility or vesting requirements as substantially all of the plan provisions of the merged plans were incorporated into the Combined Plan. CenturyLink, Inc. (the "Company" or "CenturyLink") is the plan sponsor for the Combined Plan.

The Combined Plan is a domestic, non contributory qualified defined benefit pension plan under the Internal Revenue Code (the “Code”). The Combined Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 , as amended (“ERISA”). In the regular course of doing business, the Combined Plan is subject to review by various U.S. governmental agencies such as the Department of Labor ("DOL") and the Internal Revenue Service ("IRS").

The following description of the Combined Plan and the CenturyLink Retirement Component, the Qwest Pension Component, the Embarq Pension Component and the Madison River Retirement Component provides general information only. Participants should refer to the Combined Plan document and the component documents for a more complete description of the Combined Plan’s provisions and the specific provisions of each component.

Plan Amendments

Funding Policy

The Company’s funding policy for the Combined Plan is to make contributions with the objective of accumulating sufficient assets to pay all qualified pension benefits when due under the terms of the Combined Plan. Contributions to provide benefits under the Combined Plan are made solely by the Company. The funding policy defines the employer contribution to be the minimum contributions required by ERISA, including the provisions of the Internal Revenue Code and the Pension Protection Act of 2006, as amended (the “PPA”). The Combined Plan’s actuary, using the Traditional Unit Credit cost method, computes annual contributions for the Combined Plan. The Traditional Unit Credit cost method utilizes the funding target calculation, which is the present value of all benefits that have been accrued or earned under each applicable Component as of the first day of the plan year and utilizes the target normal cost, which is the present value of all benefits that are expected to accrue or be earned during the plan year.

Contributions, if any, are paid to the trustee in cash, within 265 days following the close of the Company’s fiscal year. Contributions will not exceed the maximum amount deductible for tax purposes. The Combined Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2018 and 2017. During 2018 and 2017, the Company made voluntary cash contributions to the Combined Plan of $500 million and $100 million, respectively.

Provisions of the CenturyLink Retirement Component

General, Eligibility and Vesting

The CenturyLink Retirement Component (the prior CenturyLink Retirement Plan), includes a health and welfare benefit in addition to normal retirement benefits (see below). The CenturyLink Retirement Component covers all eligible employees of CenturyLink, Inc. and its subsidiaries, except those employees who are covered by the Qwest Pension Component, the Embarq Pension Component or the Madison River Retirement Component or by collective bargaining agreements which do not provide for their participation in the CenturyLink Retirement Component. Ineligible employees include employees who are employed by subsidiaries which do not participate in the CenturyLink Retirement Component, employees who have not completed the requisite service requirements and certain employees who are newly hired or rehired after the dates specified in the relevant provisions of the Combined Plan. Effective December 31, 2010, the CenturyLink Retirement Plan (incorporated into the CenturyLink Retirement Component) was amended to freeze all accrued benefits for non-bargaining participants covered under that Component.

There was no effect on the continued years of vesting service related to benefits under the current CenturyLink Retirement Component. The CenturyLink Retirement Plan (incorporated into the CenturyLink Retirement Component) was frozen for purposes of eligibility and participation meaning that it will not accept any new non-bargaining participants that begin their employment with CenturyLink after December 31, 2010. Certain bargaining employees who are covered under collective bargaining agreements continue to be eligible to accrue benefits in accordance with the terms of the applicable collective bargaining agreement, but as set forth in the applicable collective bargaining agreement, bargaining unit employees who are new hires or rehires in, or transfers to, certain local bargaining units are not eligible to participate in, or accrue benefits under, the current CenturyLink Retirement Component as of the date specified in the collective bargaining agreement. Notwithstanding the generally applicable freezing of participation and benefit accruals, certain grandfathered non-bargaining participants received a 4% increase to their frozen accrued benefit each year until the earlier of December 31, 2015 or the date of their initial termination of employment. For non-bargaining participants only, compensation earned prior to January 1, 2011 will be considered in determining their accrued benefit under the current CenturyLink Retirement Component.

Pension Benefits

The CenturyLink Retirement Component provides pension benefits for those participants who satisfy eligibility requirements under this component's terms. Benefits are entirely unvested until a participant completes five years of vesting service, attains age 65 or becomes disabled as defined under this component's terms, at which point the participant becomes 100% vested. The basic calculation of the retirement benefit depends on the participant's age, when the participant became vested, years of service, and pay credits. Benefits are payable in the form of a straight life annuity or alternate forms selected by the participant which are actuarially equivalent to a straight life annuity, including a lump sum.

Death and Disability Benefits

In addition to providing the retirement pension benefits described above, the CenturyLink Retirement Component provides survivor benefits to a participant's surviving spouse or other designated beneficiary upon the participant's death. Disability retirement benefits are provided to certain participants who become disabled while employed. The amount of these benefits is subject to the terms of the current CenturyLink Retirement Component, including the prior freeze amendment.

401(h) Account

As permitted by Section 401(h) of the Code, the CenturyLink Retirement Component was amended January 1, 1989, to provide for the potential funding of retired, non-bargaining, non-key employees' medical benefits that are not paid from other sources. A separate account was established and maintained in the CenturyLink Retirement Component for such benefits. The related obligations are not a component of this CenturyLink Retirement Component's obligations but are in the financial statements of the separate health and welfare plan maintained by the Company. Assets in the separate 401(h) account cannot be used to fund pension benefits of the Combined Plan. Likewise, the Combined Plan's assets cannot be used to fund post-retirement medical benefits of the health and welfare plan. Contributions, if any, to the 401(h) account may not exceed, in the aggregate, 25% of total actual contributions to the CenturyLink Retirement Component, exclusive of contributions to fund prior service cost, as measured from January 1, 1989.

Eligible retirees who have commenced receiving pension benefits under the CenturyLink Retirement Component may be eligible for funding of medical benefits pursuant to this provision. However, the provisions of the retiree health and welfare plan can further limit retiree benefits by specifying additional eligibility requirements. The Company made no contributions to the 401(h) account for medical benefits during 2018 or 2017. During 2018, $2.3 million in benefit payments were made from the 401(h) account and $11.7 million during 2017. The 401(h) account was depleted at June 30, 2018.

Provisions of the Qwest Pension Component

General, Eligibility and Vesting

The Qwest Pension Plan (incorporated into the Qwest Pension Component), covers all eligible employees of Qwest Communications International, Inc. and its subsidiaries ("Qwest"), was amended effective January 1, 2010, whereby the Qwest Pension Plan no longer provides pension benefit accruals for active management employees, and no new management employees hired after January 1, 2009 are eligible to participate on or after January 1, 2010. This amendment froze final average compensation calculations under the Old Management Formula ("OMF") and Defined Lump Sum ("DLS") formulas.

In addition, the current Qwest Pension Component no longer includes service after December 31, 2009 in the calculation under the OMF, percentage credits under the DLS formula, nor compensation credits under the Account Balance Formula ("ABF"). Active management employees who participate in the current Qwest Pension Component retain their accrued pension benefit earned as of December 31, 2009, and employees under the ABF will continue to earn interest credits on their benefit after December 31, 2009. Employees are eligible to receive their vested accrued benefit when they terminate employment with the Company.

The Qwest Pension Plan (incorporated into the Qwest Pension Component) was amended effective March 1, 2010, whereby the Qwest Pension Plan eliminated a death benefit for beneficiaries of certain retirees who retired prior to January 1, 2004 and whose deaths occur after February 28, 2010. The effect of this amendment was reflected in the actuarial present value of accumulated benefits in the December 31, 2009 valuation.

All employees of Qwest are eligible to participate upon meeting the eligibility requirements defined by the current Qwest Pension Component, except (i) nonresident aliens employed outside of the United States, (ii) temporary employees of non-U.S. subsidiaries who work within the U.S. for finite periods, (iii) persons hired on or after January 1, 2007 to work on U.S. government contracts as defined in the current Qwest Pension Component documents and (iv) new management employees hired after January 1, 2009, as explained above.

Eligible employees become participants upon completing one year of service. For eligible employees hired before January 1, 2009, 100% vesting of eligible employee pension benefits occurred upon completing five years of service, except for the management participants in the ABF, as defined in the current Qwest Pension Component documents, who are immediately vested. For eligible occupational and bargaining employees hired on or after January 1, 2009, 100% vesting of pension benefits occurs upon completing three years of service.

Pension Benefits

The Qwest Pension Component provides benefits to participants under five separate formulas which are (i) the pension band or pension factor formula for occupational employees, (ii) the ABF for occupational employees, (iii) the OMF for management employees, (iv) the DLS formula for management employees and (v) the ABF for management employees. Vested participants, upon retirement or termination, may elect any form of annuity option available, a lump sum distribution, or a combination annuity/lump sum.

Occupational employees are defined by the current Qwest Pension Component as employees who are members of a collective bargaining unit represented by a union that has agreed to participation in this Qwest Pension Component on behalf of the bargaining unit and non-management non-salaried employees who are not covered by a collective bargaining agreement. The benefits provided under the terms of the current Qwest Pension Component document to occupational employees are subject to the collective bargaining agreements negotiated by the unions and the participating Qwest companies.

For occupational employees hired or rehired prior to January 1, 2009, pension benefits are based on either the pension band or pension factor formula. The pension band formula uses a flat dollar amount per year of service in which each job title has been assigned a dollar amount (pension band). The pension factor formula, which covers occupational sales employees, uses a factor based on final average compensation times years of service. All occupational employees hired or rehired on or after January 1, 2009, upon meeting certain requirements, earn a pension under the ABF, which provides an annual compensation credit equal to 3% of eligible compensation plus an annual interest credit.

Management employees are defined by the current Qwest Pension Component as employees who are classified as management salaried. In addition, under the current Qwest Pension Component, the term "management employee" includes an employee who is represented by a union for collective bargaining purposes, but for whom it has been agreed that such employee is eligible for management employee benefits determined under the ABF for management employees. Effective January 1, 2010, occupational employees who met the eligibility criteria for determining benefit accruals under the ABF for management employees moved to the ABF for occupational employees prospectively.

For management employees, the OMF is based on final average compensation and years of service; the DLS formula is based on final average compensation and age-related service credits, and the ABF is based on an annual compensation credit equal to 3% of eligible compensation plus an annual interest credit. Participants who earned their pension under the OMF and DLS formulas were management participants who had completed 20 years of service by December 31, 2000 or who were service pension eligible by December 31, 2003. Employees who did not meet these requirements accrued a pension under the OMF and DLS formulas until December 31, 2000, or earlier based on the Qwest Pension Plan's provisions (incorporated into the Qwest Pension Component), and then commenced accruing a pension under the ABF beginning on January 1, 2001. The ABF covers management participants hired after December 31, 2000 and management employees who did not have 20 years of service by December 31, 2000 or who did not become service pension eligible by December 31, 2003.

For certain occupational and management participants described above, the Qwest Pension Component provides a service pension, which provides an unreduced annuity for participants at age 55 or at any age for occupational participants with 30 or more years of service. The service pension for management participants with 30 or more years of service is reduced 3% per year when payments begin prior to age 55 or 6% per year for participants with less than 30 years of service. Service pensions for occupational employees with less than 30 years of service are reduced by 6% per year when payments commence prior to age 55. The Qwest Pension Component also offers an enhanced lump sum distribution in lieu of a service pension.

In addition to the benefits described above, the Qwest Pension Component provides survivor and disability benefits to certain participants.

Provisions of the Embarq Pension Component

General, Eligibility and Vesting

The Embarq Pension Component (the prior Embarq Retirement Pension Plan), covers all eligible employees of Embarq Corporation and its subsidiaries ("Embarq").

Full-time active employees become eligible to participate in the current Embarq Pension Component when they complete one year of continuous service under the terms of the current Embarq Pension Component, subject to the Embarq Pension Plan's freeze amendments as described below. Part-time active employees become eligible to participate after they have worked at least 1,000 hours during the first 12 months of their employment, or in any calendar year thereafter, subject to the Embarq Pension Plan's freeze amendments as described below. For the Centel Corporation bargaining unit employees, all active employees become eligible to participate in the current Embarq Pension Component on their first day of work, subject to the Collective Bargaining Agreement ("CBA"). Non-represented employees hired after December 31, 2010, are not eligible to participate in the Embarq Pension Component. Newly hired, rehired or transferred represented participants who are members of unions with frozen benefits and who began their employment in a union after specified dates are not eligible to participate in the Embarq Pension Component. Please see "Freezing of Pension Plan" below for additional information.

Participants become vested in their retirement benefit when they complete five years of continuous service under the terms of the current Embarq Pension Component or upon attaining age 65 for Centel Corporation bargaining unit employees.

Pension Benefits

For participants not represented by a collective bargaining agreement, annual benefits under the current Embarq Pension Component are determined according to a two-part formula. Part one uses average annual pay for the 60 months ended December 31, 1993, multiplied by credited years of service through December 31, 1993 times 1.5%. For part two, the amount calculated in part one is then added to 1.5% of eligible annual pay for each subsequent year after 1993 through December 31, 2010 when benefit accruals were frozen. The annual compensation of each participant taken into account in determining benefit accruals shall not exceed the compensation limit as established under Code Sec. 401(a)(17).

Pension benefits for participants represented by certain collective bargaining agreements (which have bargained for benefits under the current Embarq Pension Component) are determined based on a schedule of flat dollar amounts as specified in the respective bargaining agreements and the employee's credited service.

For participants who have collectively-bargained benefits under the current Embarq Pension Component, benefits and increases, if any, must be negotiated as part of a new collective bargaining agreement. Any changes in negotiated benefit rates are considered component amendments.

The Embarq Pension Component provides for normal, early retirement, special early retirement, disability retirement, and deferred vested retirement, upon meeting certain conditions. The Embarq Pension Component benefits may be paid in the form of a straight life annuity or alternate forms selected by the participant, including lump sums, which are actuarially equivalent to a straight life annuity.

Multiple amendments have been made to the current Embarq Pension Component. Some of these amendments apply only to certain groups of employees whose rights have been preserved according to the provisions of their predecessors' company pension plans. Benefits for the groups are calculated under the current terms of the Embarq Pension Component formula and compared to the preserved benefit.

Freezing of Pension Plan

Effective December 31, 2010, Embarq amended the Embarq Pension Plan (incorporated into the Embarq Pension Component) so that no additional benefits will be earned or accrued for non-represented participants. Service after this date will continue to count toward vesting and benefit eligibility, but not the benefit amount.

New non-represented employees who began their employment with Embarq after December 31, 2010 are not eligible to participate. Likewise, any newly hired, rehired or transferred represented employees who are members of unions with frozen benefits and who began their employment in a union after specified dates are not eligible to participate. The specified dates are negotiated by each union, which began on July 1, 2013. As of December 31, 2015, all unions agreed to freeze participation in the Embarq Pension Component for newly hired, rehired or transferred employees.

Provisions for the Madison River Retirement Component

General, Eligibility and Vesting

The Madison River Retirement Component covers all eligible employees of Madison River Telephone Company, LLC ("Madison River").

An employee who was a participant in the current Madison River Retirement Component as it existed on December 31, 2001, or on the adoption date of the current Madison River Retirement Component if later, shall continue to participate in the Amended and Restated Plan. An employee who as of January 1, 2001, or the adoption date of the current Madison River Retirement Component if later, was not yet a participant shall become a participant on January 1, 2001, or any subsequent plan entry date coincident with/or next following the later of the completion of a qualifying years of service of the attainment of age 21.

Participants become vested in their retirement benefit when they complete five years of continuous service under the current Madison River Retirement Component or upon attaining age 65.

Pension Benefits

The Madison River Retirement Component provides for normal retirement upon reaching age 65 and early retirement at age 55 with a minimum of ten years of service. Benefits are fully vested upon the earlier of five years of continuous service, the participants' attainment of normal retirement age, or upon the participant becoming totally and permanently disabled as defined by the Madison River Retirement Component. The basic calculation of the retirement benefit depends on when an employee became vested and under which defined benefit agreement the participant first vested. Benefits are payable in the form of a straight life annuity or alternate benefits selected by the participant which are actuarially equivalent to a straight life annuity, including a lump sum. The Madison River Retirement Component also has provisions for disability and death benefits. Participation for new hires and benefit accruals were frozen in prior years with the final union negotiating these changes effective January 31, 2006.

Death and Disability Benefits

A benefit is payable to a surviving spouse or other designated beneficiary upon the death of a participant. The disability benefit is the accrued benefit as of the earlier of the date of disability or the date benefit accruals were frozen.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Management of the Combined Plan ("Plan management") has evaluated subsequent events through October 14, 2019, the date these financial statements were available to be issued. There are no material events occurring after the date of these financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP" or "GAAP") requires Plan management to make estimates, judgments and assumptions that affect reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Income Recognition

The allocable share of net realized and unrealized gains and losses from the CenturyLink, Inc. Defined Benefit Master Trust ("Master Trust") are reflected in the statements of changes in net assets available for benefits as net appreciation or depreciation in fair value of investments. Net realized and unrealized gains and losses are the difference between the fair value at the beginning of the year or date purchased during the year and the selling price or the fair value at the end of the year.

The allocable share of dividend income from the Master Trust is recorded on the ex-dividend date, the date at which a declared dividend belongs to the seller of the security rather than the buyer. Interest income and other income are accrued when earned. Interest income includes gains and losses on interest rate swaps. Other income primarily represents private fund income and securities lending income. Purchases and sales of securities are recorded on a trade date basis.

Administrative and Plan Expenses

The Combined Plan expenses are generally paid by the Combined Plan or paid by the Master Trust and allocated to the Combined Plan with the exception of certain expenses, such as Combined Plan design and corporate functions, which are paid for by the Company. Direct expenses paid by the Combined Plan or paid by the Master Trust and allocated to the Combined Plan include trustee fees, investment management fees, administration fees and certain other expenses.

Payment of Benefits

Benefit payments to participants are recorded upon distribution to the participant.

Recent Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2017-06, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965), Employee Benefit Plan Master Trust Reporting." The new guidance relates to the presentation and disclosure reporting requirements by an employee benefit plan for its interest in a master trust. The guidance will require, for each master trust in which a plan holds an interest, a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Additionally, the guidance removes the requirement to disclose the percentage interest in the master trust for plans with divided interests and requires that all plans disclose the dollar amount of their interest in each of those general types of investments. Lastly, the guidance requires all plans to disclose (1) their master trust's other asset and liability balances and (2) the dollar amount of the plan's interest in each of those balances. The new guidance is effective for fiscal years beginning after December 15, 2018 and applies retrospectively for each period the financial statements are presented. Early adoption is permissible. Management has elected to not early adopt ASU 2017-06.

Note 3. Fair Value of Financial Instruments

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between independent and knowledgeable participants who are willing and able to transact for an asset or liability at the financial statement date. Plan management uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs when determining fair value and then Plan management ranks the values based on the reliability of the inputs used following the fair value hierarchy set forth by the Financial Accounting Standards Board ("FASB").

Investments valued using net asset value ("NAV") as a practical expedient are no longer assigned to a level in the fair value hierarchy. Rather, the value associated with the investments is disclosed in a reconciliation of the total investments measured at fair value. For several of the investments discussed below, the Plan owns units in commingled funds and private funds that invest in various types of assets. Interests in commingled funds are valued using the NAV per unit of each fund. The NAV reported by the fund manager is based on the market value of the underlying investments owned by each fund, minus its liabilities, divided by the number of fund shares outstanding. Investments in private funds represent long-term commitments with a fixed maturity date, typically ten years. Valuation inputs for these private fund interests are generally based on assumptions and other information not observable in the market. The assumptions and valuation methodologies of the pricing vendors, account managers, fund managers and general partners are monitored and evaluated for reasonableness.

The three levels of the fair value hierarchy are as follows:

Input Level	Description of Input
Level 1	Observable inputs such as quoted market prices in active markets.
Level 2	Inputs other than quoted prices in active markets that are either directly or indirectly observable.
Level 3	Unobservable inputs in which little or no market data exists.

The Combined Plan's policy is to recognize significant transfers between levels at the actual date of the event or change.

The fair values of the investments held in the Master Trust as of December 31, 2018 and 2017 are presented in Note 4—Interest in CenturyLink, Inc. Defined Benefit Master Trust.

Note 4. Interest in CenturyLink, Inc. Defined Benefit Master Trust

The CenturyLink, Inc. Defined Benefit Master Trust was created at the beginning of 2012 for the purpose of collective investment of the assets of participating defined benefit pension plans sponsored by the Company. The assets of the Master Trust are managed by CenturyLink Investment Management ("CIM") in its capacity as investment fiduciary for the participating plans. For further information on fair value of financial instruments, including input levels and descriptions of inputs, see Note 3—Fair Value of Financial Instruments.

Master Trust assets are invested in various asset categories utilizing multiple strategies and investment managers. Below is an overview of the asset categories, the underlying strategies and valuation inputs used to value the assets in the tables which follow:

(a) *Cash and short-term investments* represent investments that are used in conjunction with derivatives positions or are used to provide liquidity for the payment of benefits or other purposes. Short-term investments in U.S. Treasury securities are valued at Level 1. The valuation inputs of other short-term securities are based on a spread to U.S. Treasury Bills, the Federal Funds Rate, or London Interbank Offered Rate and consider yields available on comparable securities of issuers with similar credit ratings and are primarily classified as Level 2. Securities whose valuation inputs are not based on observable market information are classified as Level 3. The commingled funds are valued at NAV based on the market value of the underlying investments using the same valuation inputs previously described.

(b) *Convertible bonds* primarily represent investments in corporate debt securities that have features that allow the debt to be converted into equity securities under certain circumstances. The valuation inputs for the individual convertible bonds primarily utilize observable market information including a spread to U.S. Treasuries and the value and volatility of the underlying equity security. Securities whose valuation inputs are not based on observable market information are classified as Level 3.

(c) *Derivatives* include exchange traded futures contracts which are classified as Level 1, as well as foreign exchange forward contracts and privately negotiated over-the-counter swaps and options that are valued based on the change in interest rates or a specific market index and are classified as Level 2. The market values represent gains or losses that occur due to fluctuations in interest rates, foreign currency exchange rates, security prices, or other factors.

(d) *Diversified strategies* represent an investment in a commingled fund that primarily has exposures to global government, corporate and inflation linked bonds, global stocks and commodities. This asset category includes investments in a commingled fund valued at NAV based on the market value of the underlying investments.

(e) *Emerging market bonds* represent investments in securities issued by governments and other entities located in developing countries as well as registered mutual funds and commingled emerging market bond funds. The valuation inputs for the securities utilize observable market information and are primarily based on dealer quotes or a spread relative to the local government bonds. The registered mutual fund is classified as Level 1, while individual securities are primarily classified as Level 2. Securities whose valuation inputs are not based on observable market information are classified as Level 3. The commingled funds are valued at NAV based on the market value of the underlying emerging market bonds using the same valuation inputs previously described.

(f) *Emerging market stocks* represent investments in commingled funds comprised of stocks of companies located in developing markets. The commingled funds are valued at NAV based on the market value of the underlying investments using the same valuation inputs described previously for individual stocks.

(g) *Hedge Funds.* 1) *Market neutral hedge funds* hold investments in a diversified mix of instruments that are intended, in aggregate, to exhibit low correlations to market fluctuations. These investments are typically combined with futures to achieve uncorrelated excess returns over various markets. 2) *Directional hedge funds* represents investments that may exhibit somewhat higher correlations to market fluctuations than market neutral hedge funds. Investments in hedge funds include both direct investments and investments in diversified funds of funds. Hedge funds are valued at NAV based on the market value of the underlying investments which include publicly traded equity and fixed income securities and privately negotiated debt securities. Hedge funds are valued by third party administrators using the same valuation inputs previously described.

(h) *High yield bonds* represent investments in below investment grade fixed income securities as well as commingled high yield bond funds. The valuation inputs for the securities primarily utilize observable market information and are based on a spread to U.S. Treasury securities and consider yields available on comparable securities of issuers with similar credit ratings. These securities are primarily classified as Level 2. Securities whose valuation inputs are not based on observable market information are classified as Level 3. The commingled funds are valued at NAV based on the market value of the underlying high yield instruments using the same valuation inputs previously described.

(i) *Investment grade bonds* represent investments in fixed income securities as well as commingled bond funds comprised of U.S. Treasury securities, agencies, corporate bonds, mortgage-backed securities, asset-backed securities and commercial mortgage-backed securities. Treasury securities are valued at the bid price reported in the active market in which the security is traded and are classified as Level 1. The valuation inputs of other investment grade bonds primarily utilize observable market information and are based on a spread to U.S. Treasury securities and consider yields available on comparable securities of issuers with similar credit ratings. The primary observable inputs include references to the new issue market for similar securities, the secondary trading markets and dealer quotes. Option adjusted spread models are utilized to evaluate securities such as asset backed securities that have early redemption features. These securities are classified as Level 2. The commingled funds are valued at NAV based on the market value of the underlying fixed income securities using the same valuation inputs previously described.

(j) *Multi-asset strategies* represent broadly diversified strategies that have the flexibility to tactically adjust exposures to different asset classes through time. This asset category includes investments in a registered mutual fund which is classified as Level 1 and commingled funds, valued at NAV based on the market value of the underlying investments.

(k) *Non-U.S. stocks* represent investments in stocks of companies based in developed countries outside the U.S. as well as commingled funds. The valuation inputs for non-U.S. stocks are based on the last published price reported on the major stock market on which the securities are traded and are primarily classified as Level 1. Valuation models may be used for securities that are not exchange-traded, and are reflected as Level 2. Securities whose valuation inputs are not based on observable market information are classified as Level 3. The commingled funds are valued at NAV based on the market value of the underlying investments using the same valuation inputs previously described .

(l) *Private debt* represents non-public investments in distressed or mezzanine debt funds and pension group insurance contracts. Pension group insurance contracts are valued based on actuarial assumptions and are classified as Level 3. Mezzanine debt instruments are debt instruments that are subordinated to other debt issues and may include embedded equity instruments such as warrants. Private debt funds are primarily structured as limited partnerships and are valued at NAV according to the valuation policy of each partnership, subject to prevailing accounting and other regulatory guidelines. The valuation of underlying fund investments are based on factors including the issuer's current and projected credit worthiness, the security's terms, reference to the securities of comparable companies, and other market factors. These valuation methodologies involve a significant degree of judgment.

(m) *Private equity* represents non-public investments in domestic and foreign buy out and venture capital funds. Private equity funds are primarily structured as limited partnerships and are valued according to the valuation policy of each partnership, subject to prevailing accounting and other regulatory guidelines. The partnerships are valued at NAV using valuation methodologies that consider a range of factors, including but not limited to the price at which investments were acquired, the nature of the investments, market conditions, trading values on comparable public securities, current and projected operating performance, and financing transactions subsequent to the acquisition of the investments. These valuation methodologies involve a significant degree of judgment.

(n) *Real estate* represents investments in commingled funds and limited partnerships that invest in a diversified portfolio of real estate properties. These investments are valued at NAV according to the valuation policy of each fund or partnership, subject to prevailing accounting and other regulatory guidelines. The valuation inputs of the underlying properties are generally based on third-party appraisals that use comparable sales or a projection of future cash flows to determine fair value.

(o) *Securities lending obligation and collateral* represents securities lending transactions whereby the Master Trust's lending agent lends stock and bond investments of the Master Trust to other third-party investment firms in exchange for collateral. The stock and bond securities are generally loaned for a period of less than one month and can be recalled on a day's notice. Under the terms of its securities lending agreement, the Master Trust typically requires collateral of a value in excess of the fair value of the loaned investments. Collateral received is then invested in a segregated account maintained by the lending agent. Upon the maturity of the agreement, the borrower must return the same, or substantially the same, investments that were borrowed, and the Master Trust returns the collateral. The value of the obligation is a fixed amount based on the collateral received and is classified as Level 2. The collateral received is invested in a segregated account where the lending agent purchases short-term investments, primarily over-night repurchase agreements, the valuations of which are described above, and are also classified as Level 2.

(p) *U.S. stocks* represent investments in stocks of U.S. based companies as well as commingled U.S. stock funds. The valuation inputs for U.S. stocks are based on the last published price reported on the major stock market on which the securities are traded and are primarily classified as Level 1. Valuation models may be used for securities that are not exchange-traded, and are reflected as Level 2. Securities whose valuation inputs are not based on observable market information are classified as Level 3. The commingled funds are valued at NAV based on the market value of the underlying investments using the same valuation inputs previously described.

The Combined Plan's interest in the net assets of the Master Trust was 100% at December 31, 2018 and approximately 100% at December 31, 2017. As discussed in Note 1—Plan Description, the Qwest Pension Plan and the Embarq Retirement Pension Plan were merged into the Combined Plan on December 31, 2014.

It is important to note that the asset allocations do not include market exposures that are gained with derivatives.

The fair value of Master Trust investments is presented net of estimated selling costs, such as brokerage commissions, of approximately $20 million and $21 million as of December 31, 2018 and 2017, respectively, in the tables below.

Unlike commingled funds, private funds do not have redemption features. Investment in private funds represent long term commitments, typically ten years, draw capital for investment in the first several years, and make distributions to investors in the last several years of the life of the fund (as investments are liquidated). The distributions from the private fund portfolios are dependent on market conditions and unpredictable by nature, but some level of distributions can be expected each year. Plan management estimates that the majority of the currently outstanding fair value of the private funds would be distributed over a period of two to eleven years.

The table below presents a summary of the fair value, redemption frequency, unfunded commitments, and average life of distribution of private funds in the Master Trust as of December 31, 2018:

Private Funds	Fair Value	Redemption Frequency	Unfunded Commitments	Average Life of Distribution
	(Dollars in thousands)		(Dollars in thousands)	(Years, approximate)
Directional hedge funds (g)	$ 41,511	No redemption feature	None	2 to 8

Derivatives

Derivative instruments are used to reduce risk as well as provide return. The Master Trust uses exchange traded futures to gain exposure to equity and debt markets consistent with target asset allocations. Interest rate swaps are used in the Master Trust to reduce risk relative to measurement of the benefit obligation, which is sensitive to interest rate changes. Foreign exchange forward contracts are used primarily to manage currency exposures. Credit default swaps are used to manage credit exposure and to enhance investment returns. Options are used to provide protection or enhance returns associated with changes in interest rates. Some derivative instruments subject the Master Trust to counterparty risk. The external investment managers, along with CIM, closely monitor counterparty exposure and mitigate this risk by diversifying the exposure among multiple high credit quality counterparties, requiring collateral, and limiting exposure by periodically settling contracts.

The tables below present derivative instruments held directly by the Master Trust as of December 31, 2018. The tables exclude any derivatives that may be held in the investments in commingled and mutual funds.

Master Netting Agreements

The Master Trust is subject to master netting agreements ("MNA"), or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty. Our exchange traded derivative instruments are not subject to a master netting arrangement or similar agreement.

The following is a summary by counterparty of the Master Trust's net exposure to derivative assets and liabilities, by financial instrument type, available for offset and net of collateral under Master Agreements at December 31, 2018:

Note 5. Securities Lending

The Master Trust participates in securities lending transactions whereby the Master Trust's lending agent lends investments of the Master Trust to other third-party investment companies in exchange for collateral. The securities are generally loaned for a period of less than a month and can be recalled on one day's notice. Under the terms of its securities lending agreement, the Master Trust typically requires collateral of a value equal to 102%, for U.S. securities, or 105%, for foreign securities, of the then fair value of the loaned investments. Collateral is then invested in a segregated account maintained by the lending agent. Upon the maturity of the agreement, the borrower must return the same, or substantially the same, investments that were borrowed, and the Master Trust returns the collateral. The risks to the Master Trust of securities lending transactions are that 1) the borrower may not provide additional collateral when required, 2) the borrower may not return the investments when due, or 3) the earnings on the collateral investments may be negative requiring the Master Trust to assume additional collateral obligations. The Master Trust recognizes the securities loaned on the statements of net assets available for benefits and records a corresponding asset and liability for the collateral held and for its obligation to return the collateral to the borrower. The Master Trust's financial instruments held as collateral totaled $97 million and $118 million as of December 31, 2018 and 2017, respectively. Income from securities lending transactions totaled approximately $1 million for both 2018 and 2017.

Securities loaned by the Master Trust totaled $95 million at December 31, 2018. They are included in investment grade bonds, high yield bonds, emerging market bonds, U.S. stocks, and non-U.S. stocks in the amounts of $2 million; $16 million; $4 million; $45 million, and $28 million, respectively.

Securities loaned by the Master Trust totaled $116 million at December 31, 2017. They are included in investment grade bonds, high yield bonds, emerging market bonds, U.S. stocks, and non-U.S. stocks in the amounts of $11 million; $33 million; $5 million; $38 million, and $29 million, respectively.

As described in Note 4—Interest in CenturyLink, Inc. Defined Benefit Master Trust, in addition to direct investments in stocks and fixed-income securities, the Master Trust invests in commingled funds and mutual funds. Several of these funds may also engage in securities lending.

Note 6. Actuarial Present Value of Accumulated Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the CenturyLink Combined Pension Plan to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on benefit calculations using credited service, average qualifying salary, and average qualifying employment on the date as of which the benefit information is presented (the "valuation date"). Benefits payable under all circumstances (retirement, death, and termination of employment) are included, to the extent they are deemed attributable, to employee service rendered to the valuation date.

The actuarial present values of accumulated plan benefits were determined by the CenturyLink Combined Pension Plan's actuary and are the amounts that result from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation dates and the expected dates of payment. The accumulated plan benefits are based on census data and CenturyLink Combined Pension Plan provisions in effect as of January 1, 2018 and 2017. These calculations have been used to disclose accumulated plan benefits as of December 31, 2017 and 2016. The actuarial valuation as of January 1, 2018 and 2017 is not materially different than the valuation would be as of December 31, 2017 and 2016.

The CenturyLink Combined Pension Plan costs developed by the actuary are estimates of the amounts necessary to provide benefits to the CenturyLink Combined Pension Plan participants, assuming continued funding of the CenturyLink Combined Pension Plan in a systematic manner. These estimates are based on the actuarial methods selected to allocate the total cost of the CenturyLink Combined Pension Plan to various years and on actuarial assumptions regarding the return on investments, salary rates, withdrawal rates, mortality rates, and other factors.

The December 31, 2017 significant assumptions used to calculate the present value of accumulated plan benefits include the following:

- Discount rate 6.5%
- Lump sum payment interest rate *
- Cost of living adjustment 2% per annum
- Mortality **

* The lump sum interest rate was 4.0% for 2017 and 5.0% thereafter for all participants other then the CenturyLink participants with a grandfathered lump sum calculation. For those grandfathered participants, the rate was 2.0% for 2017 and 3.0% thereafter.

** Healthy mortality tables were updated to use separate rates for non-annuitants (based on RP-2014 "Employees" sex-distinct tables without collar adjustments, adjusted backward to 2006 with MP-2014, projected forward with generational projections using MP-2017) and annuitants (based on RP-2014 "Healthy Annuitants" sex-distinct tables without collar adjustments, adjusted backward to 2006 with MP-2014 , projected forward with generational projections using MP-2017). For the prior valuation, separate rates for non-annuitants (based on RP-2014 "Employees" sex-distinct tables without collar adjustments, adjusted backward to 2006 with MP-2014, projected forward with generational projections using MP-2016) and annuitants (based on RP-2014 "Healthy Annuitants" sex-distinct tables without collar adjustments, adjusted backward to 2006 with MP-2014, projected forward with generational projections using MP-2016) were used.

Additional assumptions used were (a) rates of retirement age by age group, (b) percentage of participants electing lump sums upon retirement, (c) 80% of participants are presumed married, and (d) withdrawal rate assumptions by age group.

The foregoing actuarial assumptions were based on the presumption that the CenturyLink Combined Pension Plan will continue. Were the CenturyLink Combined Pension Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

If the assumed discount rate was 100 basis points lower, the impact would have been an increase to the pension obligation of the CenturyLink Combined Pension Plan of approximately $1.4 billion at December 31, 2017 and 2016.

The following table presents the elements of the CenturyLink Combined Pension Plan's benefit obligation for the years ended December 31, 2017 and 2016, respectively:

Note 7. Summary of Information Certified by the Trustees

The Plan Administrator for the Combined Plan has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the respective trustees have certified the following information included in the accompanying financial statements and supplemental schedule. Additionally, the investment categories, sub categories, and fair value amounts in Note 4—Interest in CenturyLink, Inc. Defined Benefit Master Trust were derived from information certified by the trustees. The Plan Administrator for the Combined Plan has obtained certifications from the trustees that the following information is complete and accurate:

- Statements of Net Assets Available for Benefits:

  2018 - Northern Trust - 100.0% interest in Master Trust, all assets, excluding $19.8 million of estimated selling costs, and securities lending obligation

  2017 - Northern Trust - 100.0% interest in Master Trust, all assets, excluding $21.4 million of estimated selling costs, and securities lending obligation

- Statements of Changes in Net Assets Available for Benefits:

  2018 - Northern Trust - 100.0% interest in Master Trust, investment income and net appreciation (depreciation) in fair value of investments, excluding $19.8 million of estimated selling costs, and securities lending obligation

2017 - Northern Trust - 100.0% interest in Master Trust, investment income and net appreciation (depreciation) in fair value of investments, excluding $21.4 million of estimated selling costs, and securities lending obligation

Accordingly, the Plan Administrator for the Combined Plan instructed the Combined Plan's independent auditor not to perform any auditing procedures with respect to the investment information certified by the trustees as complete and accurate, except for comparing such information certified by the trustees to information included in the Combined Plan's financial statements and supplemental schedule.

Note 8. Tax Status

The CenturyLink Combined Pension Plan received a favorable tax determination letter from the IRS dated January 12, 2018. While the Plan has been since amended, the Plan's management believes that the Combined Plan continues to be designed and operated in compliance with the applicable requirements of the Internal Revenue Code; therefore, it believes that the Combined Plan is qualified, and the related trust is tax-exempt as of the financial statement date. Accordingly, no provision for income taxes has been provided for in the Combined Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Combined Plan and recognize a tax liability (or asset) if the Combined Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Combined Plan administrator has analyzed the tax positions taken by the Combined Plan and concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for pension benefits as reported on the financial statements to Form 5500 as of December 31, 2018 and 2017:

	As of December 31,	
	2018	2017
	(Dollars in thousands)	
Net assets available for pension benefits as reported on the financial statements	$ 10,055,521	11,064,444
Adjustment for selling costs required by GAAP	19,800	21,400
Security lending obligation related to 401(h) account	—	(25)
Net assets held in 401(h) account included as assets in Form 5500	—	2,362
Net assets available for benefits as reported on Form 5500 (unaudited)	$ 10,075,321	11,088,181

The net assets of the 401(h) account, if any, included in Form 5500 are not available to pay pension benefits but can only be used to pay retiree health benefits.

The following is a reconciliation of the net (decrease) increase as reported on the financial statements for the years ended December 31, 2018 and 2017, to net (loss) income as reported on Form 5500:

	Years Ended December 31,	
	2018	2017
	(Dollars in thousands)	
Net (decrease) increase as reported on the financial statements	$ (1,008,923)	169,585
Adjustment for investment selling costs required by GAAP	(1,600)	(300)
(Decrease) increase in 401(h) net accounts	(2,337)	(10,755)
Net loss (income) on Form 5500 (unaudited)	$ (1,012,860)	158,530

Note 10. Plan Termination

Although the Company has not expressed any intention to do so, it has the right to terminate the Combined Plan subject to the provisions of ERISA. However, the Company is required to comply with all relevant provisions of the applicable labor agreements.

In the event of the Combined Plan's termination, the net assets of the Combined Plan will be allocated, as prescribed by ERISA and its related regulations as defined in the Combined Plan document. All benefits for each group shall be paid or provided for before any benefits are paid for any members of the group having the next lower priority. If the funds are insufficient to pay all of the benefits for any group, the amount available shall be allocated among the members of the group in proportion to their interests.

Amounts, if any, in the 401(h) account shall be used to pay medical benefits under the terms of the separate health and welfare plan. Following satisfaction of these obligations, any amounts remaining shall be returned to the Company as provided in the Combined Plan document.

Certain benefits under the Combined Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Combined Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Combined Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Combined Plan are guaranteed at the level in effect on the date of the Combined Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Combined Plan be terminated at some future time will depend on the sufficiency, at that time, of the Combined Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Note 11. Related Party, Party-In-Interest Transactions and Nonexempt Transactions

The Combined Plan invests in certain commingled funds managed by the Combined Plan's trustee. In addition, the Combined Plan reimbursed the Company $3 million in 2018 and $4 million in 2017 for certain qualifying administrative and investment expenses.

Direct expenses paid by the Combined Plan, including trustee fees, administration fees, and certain other expenses totaled $60 million for 2018 and $85 million in 2017. Direct expenses paid for investment management fees for the Combined Plan totaled $18 million in 2018 and $21 million in 2017.

These qualifying party-in-interest or related party transactions are exempt from the prohibited transaction rules.

The Combined Plan held Company debt securities of $1 million and $2 million as of December 31, 2018 and 2017, respectively. The Combined Plan held $4 million of Company common stock as of both December 31, 2018 and December 31, 2017.

Note 12. Concentrations, Risks and Uncertainties

As described in Note 3—Fair Value of Financial Instruments and Note 4—Interest in CenturyLink, Inc. Defined Benefit Master Trust, the Combined Plan's assets include various types of investments. Investments, in general, are exposed to various risks, such as significant world events, interest rate, credit, foreign currency, and overall market volatility risk. These risks are managed by broadly diversifying assets across numerous asset classes and strategies with differing expected returns, volatilities, and correlations. Risk is also broadly diversified across numerous market sectors and individual companies. Financial instruments that potentially subject the Combined Plan to concentrations of counterparty risk consist principally of investment contracts with high quality financial institutions. These investment contracts are typically collateralized obligations and/or actively managed, limiting the amount of counterparty exposure to any one financial institution. Although the investments are well diversified, and there are no significant concentrations of risk, the value of Combined Plan assets could change materially depending upon the overall market volatility, which could affect the amounts reported in the statements of net assets available for benefits and the funded status of the Combined Plan.

Required Combined Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions including interest rates, inflation rates, and employee demographics, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, certain benefits accrued in CenturyLink's nonqualified pension plans as of December 31, 2004 and December 31, 2006 were added to the CenturyLink Retirement Plan.

All benefits are frozen for non-represented employees effective December 31, 2010. During the 5-year period beginning January 1, 2011 and ending December 31, 2015, such accrued benefits are

increased by 4% per annum for each year (and pro-rata for fractional years) during which the participant remains employed by the company.

Early Retirement Benefit

Eligibility: Age 55 and 5 Years of Service.

Benefits: Normal Retirement Benefit based on service and earnings at date of termination (or earlier freeze). If payments begin before Normal Retirement Date, the payments are reduced in accordance with the following table (separate reductions apply to the base benefit and excess benefit):

Age at Benefit Starting Date	Base Benefit Percentage	Excess Benefit Percentage
64	100%	92%
63	100	84
62	100	76
61	95	72

Disability Benefit

Eligibility: To continue to accrue benefit years, a participant must have 10 or more Years of Service when disability arises and must satisfy the criteria for disability under both the Employer's long term disability insurance and that for Social Security disability benefits.

Benefits: Benefits are based on Social Security Covered Compensation at disability and Benefit Years and Final Average Pay at retirement. Participant may receive reduced payments upon early retirement.

Vested Benefits Upon Termination of Service

Eligibility: A Participant's Vested Percentage will be 100% upon the completion of 5 years of Vesting Service. Participants who were active as of July 1, 2009 are automatically vested due to the change in control incurred on such date.

Benefits: Accrued normal retirement benefit as of date of Termination of employment.

SCHEDULE SB ATTACHMENTS

Death Benefits for Participants in Active Service

Eligibility: Eligible for Deferred Vested Pension.

Benefits: In the event of the death of a Participant prior to the date that he begins to receive a monthly pension benefit under the Plan, the Participant's Surviving Spouse, if any, will be entitled to receive a monthly pension benefit equal to 50% of the monthly pension benefit which would have been payable had the Participant retired on the day before his death and elected a Joint and 50% Contingent Survivor Pension. A Joint and 50% Contingent Pension provides a monthly pension benefit payable for the lifetime of the Participant and, upon the Participant's death, if the Participant's Spouse survives the Participant, a monthly pension benefit will continue for the remaining lifetime of the Surviving Spouse equal to 50% of the monthly pension benefit which was payable during the joint lifetime of the Participant and the Participant's Surviving Spouse.

Deferred Retirement

Eligibility: Age greater than 65.

Benefits: Same as Normal Retirement Benefit except years of service are determined at actual retirement (or earlier freeze).

Cost of Living Adjustment

Benefits payable to participants with no service after December 31, 1987 are increased each January 1 by the U.S. Consumer Price Index during the 12 months ending with the prior September index or 2 percent, if less.

Minimum Benefits

Participants from previously merged plans have minimum benefits as follows:

- Contel – Contel frozen benefit at 9/1/85 plus PTI benefit based on post-9/1/85 service only (PTI 30-year service cap applies to post 9/1/85 service only).
- Peninsula – Benefit provided by employee contributions with interest plus PTI benefit based on post-6/1/85 service only.
- GVNW – Same minimum as Peninsula, except PTI benefit based on post-10/1/85 service.
- North-West – North-West frozen benefit at 12/31/92 plus PTI benefit based on post-12/31/92 service only (PTI 30-year service cap applies to post 12/31/92 service only).
- GTE – Northern Michigan – GTE frozen benefit at 10/31/97 plus PTI benefit based on post 10/31/97 service only (PTI 30-year service cap applies to post 10/31/97 service only).

Participants Contributions

No participant contributions are allowed other than contributions transferred from a previous plan as part of a merger.

Actuarial Equivalent

For conversions other than lump sum, actuarial equivalency is based on 8 percent interest and RP2000 Combined Healthy Mortality projected to 2010 by Projection Scale AA using a blend of 70% male rates and 30% female rates for participants and a blend of 70% female rates and 30% male rates for beneficiaries.

For certain grandfathered lump sums, the largest lump sum under the following basis is provided:

1. 1971 TPF&C Forecast Mortality for males with ages set back two years and the six-month moving average yield of United States Treasury obligations with ten-year maturities.
2. 1971 TPF&C Forecast Mortality for males with ages set back two years and the PBGC Immediate Rate.[2]
3. Mortality table specified by Revenue Notice 2008-85 and the segment rates for the fifth month preceding month of distribution.

[2] Basis (2) applies only to participants who were eligible for a service pension under the prior plan before January 1, 2000.

Normal Benefit Form: Lifetime Pension - Monthly pension benefit payable for the lifetime of the Participant with payments terminating upon the death of the Participant.

SCHEDULE SB ATTACHMENTS

Early Retirement Benefit

Eligibility: Age 55 and 5 Years of Vesting Service.

Benefits: A Participant's Early Retirement Benefit is equal to the Actuarial Equivalent of the Participant's Normal Retirement Benefit based on service at date of termination. For purposes of determining a Participant's Early Retirement Benefit, the following factors will be used as Actuarial Equivalent factors:

Age	Factor
55	50%
56	55
57	60
58	65
59	70
60	75
61	80
62	85
63	90
64	95

If a Participant retires with 30 years of service and after attainment of age 60, there is no reduction to the benefit.

Disability Benefit

Eligibility: An Active Participant will be eligible for a Disability Retirement Benefit under the Plan upon the occurrence of permanent disability coincident with or following the Participant's completion of 5 Years of Vesting Service.

Benefits: An eligible Participant's Disability Retirement Benefit is equal to the monthly retirement benefit commencing on his Disability Retirement Date in an amount equal to the Participant's Accrued Benefit determined as of his Disability Retirement Date, with a minimum monthly benefit of $150. If a Participant satisfies the requirements for a Disability Retirement Benefit and also satisfies the requirements for a Vested Accrued Benefit, the portion of his Disability Retirement Benefit which is the Actuarial Equivalent of his Vested Accrued Benefit will be payable in the Normal Benefit Form (or any optional benefit form) and will be subject to the joint and survivor annuity distribution requirements.

The remaining portion, if any, of the Actuarial Equivalent of the Participant's Disability Retirement Benefit will be payable as a Lifetime Pension with a monthly benefit payable for the Participant's lifetime with payments terminating upon his death.

Permanent Disability: A Participant will be considered permanently disabled if he becomes eligible for disability benefits under the Social Security Program and, in the opinion of the Plan Administrator.

1. he is prevented from performing the usual duties of his employment or any other employment for which he is reasonably suited as a result of his education, training and experience;

2. such disability is likely to be both continuous and permanent;

3. such disability occurs on or after the Effective Date of the Plan but prior to the Participant's Normal Retirement Date; and
4. such disability is not, in the opinion of the Plan Administrator, the result of injury or disease sustained by the Participant which was diagnosed or discovered subsequent to the date his employment has terminated.

Vested Benefits upon Termination of Service

Eligibility: A Participant's Vested Percentage will be 100% upon the completion of 5 Years of Vesting Service. Prior to the completion of 5 Years of Vesting Service, a Participant's Vested Percentage is zero, unless he was employed by the Company on March 31, 1992 or July 1, 2009, in which case he is 100% vested.

Benefits: Normal retirement benefit based on service at date of termination.

Death Benefits for Participants in Active Service

Eligibility: Eligible for Deferred Vested Pension.

Benefits: In the event of the death of a Participant prior to the date that he begins to receive a monthly pension benefit under the Plan, the Participant's Surviving Spouse, if any, will be entitled to receive a monthly pension benefit equal to 50% of the monthly pension benefit which would have been payable had the Participant retired on the day before his death and elected a Joint and 50% Contingent Survivor Pension. A Joint and 50% Contingent Pension provides a monthly pension benefit payable for the lifetime of the Participant and, upon the Participant's death, if the Participant's Spouse survives the Participant, a monthly pension benefit will continue for the remaining lifetime of the Surviving Spouse equal to 50% of the monthly pension benefit which was payable during the joint lifetime of the Participant and the Participant's Surviving Spouse.

Deferred Retirement

Eligibility: Age greater than 65.

Benefits: Same as Normal Retirement Benefit except years of service are determined at actual retirement.

Normal Form of Benefit

Life Annuity for unmarried participants. Actuarially equivalent Joint and 50% Survivor Annuity for married participants.

PARTICIPANTS OF THE LEGACY EMBARQ COMPONENT PLAN

Coverage and Participation

All regular employees of participating companies are covered by the Plan upon meeting the membership eligibility requirements below.**Error! Reference source not found.**

Membership continues in this Plan if an employee was a member of the Sprint Retirement Pension Plan on May 17, 2006. The effective date of the Plan is May 18, 2006. Former members of the United System Employee Retirement Plan and US Sprint Communications Company Pension Plan became participants on December 31, 1989. Former Centel employees became participants on December 31, 1993. Otherwise, effective May 18, 2006, an employee becomes a member on the first day of the calendar month coincident with or next following the date he completes one year of continuous service. Part-time employees must work 1,000 hours and 12 consecutive months to become members.

The Plan has been frozen to non-represented employees hired after December 31, 2010.

“Former Centel Union Employees” become participants in the plan on the date on which they become employees.

Definitions

Continuous Service means all service rendered as an employee prior to the later of his normal retirement date or date of termination of employment. Continuous service is measured in nearest full years for non-union employees, and measured in hours of service for union employees.

Credited Service means all service rendered as an employee prior to the later of his normal retirement date or date of termination of employment. Credited service is measured in years and months for non-union employees and measured in hours of service for union employees.

Compensation means regular remuneration plus commissions and, effective December 31, 1993, incentive pay payable under defined incentive pay programs including any pre-tax elective deferrals under the savings plans.

Average pre-1990 Compensation means the average annual compensation of an employee during the last sixty consecutive months before January 1, 1990, with compensation defined as of that date.

Average pre-1994 Compensation means the average annual compensation of an employee during the last sixty consecutive months before January 1, 1994.

Average Final Compensation means the average annual compensation of an employee, during the 60 consecutive months out of the last 120 months in which he was actually working, but no later than December 31, 1999, affording the highest such average.

Commencement Date means the date at which a provision of the Plan becomes effective with respect to a specific group of employees.

New Covered Compensation means the average of the taxable wage bases in effect under Title II of the Federal Social Security Act for each year during the 35-year period ending with the year the

employee attains Social Security Retirement Age (or the year before Social Security Retirement Age if before 1995), assuming no increase in the taxable wage base after the calendar year of his termination of employment or retirement date.

Covered Compensation means the average of the taxable wage bases in effect under Title II of the Federal Social Security Act prior to the 1977 amendments for each year with respect to which benefits would be calculated for a male employee attaining age 65 assuming no increase in the taxable wage base after the calendar year of his termination of employment or retirement date.

Social Security Integration Level means, based on the calendar year of retirement or termination, the average of the taxable wage bases under Title II of the Federal Social Security Act for an employee attaining Social Security Retirement Age in that calendar year.

United Transferred Employee means an employee who transferred from United Telecom to US Sprint Communications Company after June 30, 1986 and prior to January 1, 1990.

GTE Transferred Employee means an employee who transferred from GTE Corporation to US Sprint Communications Company after June 30, 1986 and prior to January 1, 1990.

Former Centel Non-Union Employee means an employee who was a member of the Centel Retirement Pension Plan prior to January 1, 1994 who was not covered by a collective bargaining agreement.

Former Centel Union Employee means an employee who was a member of a collective bargaining unit as described in the Centel Union Plan.

Centel Career Average Compensation means average monthly compensation for the period beginning January 1, 1985 and ending on December 31, 1993.

Centel Average Final Compensation means average monthly compensation during the 60 consecutive months in which the employee received the greatest amount of Compensation during the 180-month period ending December 31, 1989.

SCHEDULE SB ATTACHMENTS

Normal Retirement Benefit

Normal Retirement Date: The later of (a) the first of the month coinciding with or following the member attaining age 65, (b) his completion of five years of continuous service or, if earlier, the fifth anniversary of the time he became a member, provided he is employed by the company at that time.

Benefit Formula: Union benefits are applicable under certain collectively bargained agreements to members represented by such agreements; otherwise, non-union benefits are applicable. The Plan specifies procedures to follow in determining the applicable benefit for members who transfer from one status to another.

Amount of Non-Union Benefit: A member's annual normal retirement allowance is equal to the greater of (a) or (b) as follows:

(a) (i) the sum of 1.5% times compensation for each year of credited service after December 31, 1989, plus

(ii) the product of

(1) 1.5% of the member's average pre-1990 compensation, and

(2) credited service through December 31, 1989.

(b) (i) the sum of 1.5% times compensation for each year of credited service after December 31, 1993, plus

(ii) the product of

(1) 1.5% of the member's average pre-1994 compensation, and

(2) credited service through December 31, 1993.

The accrued Non-Union Benefit is frozen as of December 31, 2010.

Amount of Union Benefit: A member's annual normal retirement allowance is equal to the applicable monthly benefit unit per year of service for a member age 65 multiplied by his credited service multiplied by 12. The monthly benefit unit, specified in the collective bargaining agreement, varies by wage schedule.

Normal Form of Benefit

If the member is not married on his date of retirement, the benefit is payable for life, with no benefit payable upon his death.

If the member is married on his date of retirement, the normal form of benefit is an actuarially reduced benefit payable for his life, with the provision that after his death an allowance at one-half the rate of his reduced allowance will be continued during the life of and paid to his spouse if she survives him. The reduced allowance is determined in such a way that the total benefit is of equivalent value to the annuity described above for an unmarried member.

If the value of the equivalent actuarial benefit is less than $1,000, the plan will make a single lump sum payment.

Early Retirement Benefit

Eligibility: Any member who has reached age 55 may retire on an early retirement allowance provided he has completed ten years of continuous service.

Benefit: Amount of Non-Union Benefit – A member's annual early retirement allowance is equal to the greater of (a) or (b) as follows:

(a) (i) the sum of 1.5% times compensation for each year of credited service after December 31, 1989, plus

(ii) the product of

(1) 1.5% of the member's average pre-1990 compensation, and

(2) credited service through December 31, 1989.

(b) (i) the sum of 1.5% times compensation for each year of credited service after December 31, 1993, plus

(ii) the product of

(1) 1.5% of the member's average pre-1994 compensation, and

(2) credited service through December 31, 1993.

The accrued Non-Union Benefit is frozen as of December 31, 2010.

Such benefit is reduced by 5/12 of 1% for each month by which his retirement date precedes his normal retirement date. For calendar years from 1986 to 2000, a table of enhanced early retirement reduction factors applies to employees retiring at or after age 60.

Amount of Union Benefit: A member's annual early retirement allowance is equal to the applicable monthly benefit per year of service, based on his age at retirement, multiplied by his credited service multiplied by 12. The applicable monthly benefit unit per year of service includes a reduction for early commencement.

SCHEDULE SB ATTACHMENTS

Special Early Retirement Benefit

Eligibility: Any member whose age last birthday and credited service total 75 may retire on a special early retirement allowance provided:

i. his continuous service is broken by reason of a permanent shutdown of a plant, site, installation or department thereof, or

ii. he is unfit mentally or physically to perform his duties in a satisfactory manner, or

iii. his job no longer exists due to any cause and he is not offered other employment by the Company.

Benefit: Amount of Non-Union Benefit – The annual special early retirement allowance is equal to the early retirement non-union allowance prior to reduction for early payment reduced by 5/24 of 1% for each month by which the retirement date precedes the normal retirement date. The minimum special early retirement allowance is equal to the minimum early retirement allowance.

Amount of Union Benefit: The annual special early retirement allowance is equal to the applicable monthly benefit unit per year of service for a member age 65 on the date of retirement multiplied by his credited service multiplied by 12, reduced by 5/24 of 1% for each month by which the retirement date precedes his normal retirement date.

Disability Retirement Benefit

Eligibility: A member who has completed ten years of continuous service, who qualifies for a Social Security disability benefit and who is found to be totally and permanently disabled may be retired on a disability retirement allowance.

Benefit: Amount of Non-Union Benefit – The annual disability retirement allowance payable upon retirement at the disability retirement date is equal to the annual early retirement non-union allowance prior to reduction for early payment.

Amount of Union Benefit: The annual disability retirement allowance payable upon retirement at the disability retirement date is equal to the annual normal retirement union allowance determined as if the member were age 65 on his termination of employment.

Vested Benefits Upon Termination of Service

Vesting: Five years of continuous service.

Termination of Benefit: Amount of Non-Union Benefit – A member's deferred vested retirement allowance equals the greater of (a) or (b) as follows:

(a) (i) the sum of 1.5% times compensation for each year of credited service after December 31, 1989, plus

(ii) the product of

(1) 1.5% of the member's average pre-1990 compensation as of December 31, 1989, and

(2) credited service through December 31, 1989.

(b) (i) the sum of 1.5% times compensation for each year of credited service after December 31, 1993, plus

(ii) the product of

(1) 1.5% of the member's average pre-1994 compensation, and

(2) credited service through December 31, 1993.

The accrued Non-Union Benefit is frozen as of December 31, 2010.

A member who terminates before his 55th birthday with ten years of continuous service may elect to receive a deferred vested retirement allowance upon attaining age 55 of equivalent actuarial value to the benefit described above.

Amount of Union Benefit: The annual deferred vested retirement allowance commencing at age 65 is equal to the applicable monthly benefit unit per year of service for a member age 65 on the date of retirement multiplied by 12. A member who terminates before his 55th birthday with ten years of continuous service may elect to receive a deferred vested retirement allowance upon attaining age 55 of equivalent actuarial value to the benefit described above.

Death Benefits

Eligibility: The surviving spouse of a member who dies after January 1, 1985 will be entitled to a benefit under the following conditions:

a. The member and his spouse had been married for at least a year at the date of death; and

b. The member was an active employee and had at least five years of continuous service at his date of death, or the member was a terminated vested member.

Benefit: Amount of Non-Union Benefit – In the event of an active member's death before retirement, the spouse's allowance is equal to the benefit which the spouse would have been paid had the member retired on an early retirement non-union allowance with the 50% joint and survivor form of benefit on the first day of the month preceding his date of death. If the active member had not yet attained age 55, the reductions for early commencement and joint and survivor form of payment shall be those which would have applied at age 55.

In the event of a terminated vested employee's death before commencement of benefits, the spouse's allowance, payable at the date the employee would have been age 55 or the date of death if later, is equal to 50% of the 50% joint and survivor deferred vested benefit with actuarial reduction for early commencement and the joint and survivor form of payment based on the date payments commence.

Amount of Union Benefit: In the event of the active member's death before commencement of benefits, the spouse's allowance is equal to the benefit which would have been payable had the member retired on an early retirement union allowance with the 50% joint and survivor form of benefit on the first day of the month preceding his date of death. If the active member had not yet attained age 55, the monthly benefit unit per year of service and the joint and survivor factor shall be those which would have applied at age 55.

In the event of a terminated vested employee’s death, before commencement of benefits, the spouse's allowance, payable at the date the employee would have been age 55 or the date of death if later, is equal to 50% of the 50% joint and survivor deferred vested benefit with actuarial reduction for early commencement and the joint and survivor form of payment based on the date payments commence.

Minimum Benefits From Predecessor Plans (United, US Sprint, GTE, and Centel) for Certain Active Members

United Plan Member or United Transferred Employee on December 31, 1989: The minimum benefit for a non-union member equals:

i. 1.2% of his average final compensation multiplied by his credited service prior to January 1, 2000, plus

ii. 35% of his average final compensation in excess of new covered compensation, multiplied by credited service prior to January 1, 2000, or if a member prior to January 1, 1987, and if greater, .25% of his average final compensation in excess of covered compensation multiplied by the lesser of the number of years of credited service he would have had at normal retirement (if he terminated prior to normal retirement) or 15, further multiplied by the ratio of his credited service prior to January 1, 2000 to the number of years of credited service he would have had at normal retirement.

Reductions for early commencement and forms of benefits other than life only are the same as indicated above. An additional minimum applies if a member is age 60 or over, and eligible for early or special early retirement. This minimum benefit is equal to 1% of the member's average final compensation multiplied by his credited service prior to January 1, 2000.

This benefit calculation is frozen as of December 31, 1999.

US Sprint Communications Company Pension Plan Member on December 31, 1989

The minimum benefit equals the accrued benefit under the US Sprint Plan as of December 31, 1989. Reductions for early commencement and forms of benefit other than life are based on the factors in the US Sprint Plan and the age at benefit commencement.

SCHEDULE SB ATTACHMENTS

GTE Transferred Employee on December 31, 1989

The GTE minimum benefit equals the greater of (i) or (ii) as follows:

(i) 1.35% times average final compensation prior to July 1, 1996 times credited service prior to July 1, 1996, or

(ii) credited service prior to July 1, 1996 multiplied by the sum of (1) and (2):

(1) 1.15% times average final compensation prior to July 1, 1996 and below the Social Security Integration Level plus,

(2) 1.45% times such average final compensation above the Social Security Integration Level.

Reductions for early commencement are based on the following schedule if the member's age and service equal at least 76 (provided the member has at least 15 years of credited service):

Age	Reduction
49 or younger	18%
50 – 54	1/4% per month from age 55
55 or older	0%

Reductions for alternate forms of benefits are based on the factors in the US Sprint Communications Company Pension Plan.

Former Centel Non-Union Employee

The Centel minimum benefit equals the sum of (i) and (ii) as follows:

(i) 1.7% times Centel Career Average Compensation times credited service on or after January 1, 1985 and prior to January 1, 1994.

(ii) the sum of (1) and (2) as follows:

(1) 1.125% times the portion of Centel Average Final Compensation that is not in excess of $750, all multiplied by credited service as of December 31, 1984.

(2) 1.5% times the portion of Centel Average Final Compensation that exceeds $750, all multiplied by credited service as of December 31, 1984.

Certain employees will be eligible for additional minimum benefits due to service as an IBEW Business Manager, service with the Centel Telephone Company of Ohio, or participation in prior Centel plans.

For employees retiring at age 55 or later, these benefits are unreduced for commencement at ages 60 and later and reduced by .3% for each month by which benefit commencement precedes age 60.

SCHEDULE SB ATTACHMENTS

Former Centel Union Employee

The Centel minimum benefit equals credited service times the dollar amount for the applicable pension band under the Centel Union Plan.

Certain employees will be eligible for additional minimum benefits due to service as an IBEW Business Manager or participation in prior Centel plans.

Benefits commencing before age 65 will be reduced by 5/12% for each month by which benefit commencement precedes age 65. However, for employees with 30 or more years of service, benefits are unreduced for commencement at ages 60 and later.

Effective January 1, 2000, certain Centel unions have frozen the benefits, which are payable unreduced upon retirement for employees with 30 or more years of service and age 60 and older. Shown below are the affected unions and the date as of which the benefit level for unreduced retirement is frozen.

Coverage and participation

Management employees at participating companies with at least one year of service prior to 12/31/2009.

Normal retirement benefit for protected participants

1. Eligibility: Five years of service and Protected. Employees are protected if they had 20 years of eligible service on or before 12/31/2000 or were service pension eligible by 12/31/2003. Service pension eligible is age 65 and 10 years of service or age 60 and 15 years of service or age 55 and 20 years of service or age 50 and 25 years of service or any age and 30 years of service.
2. Benefit Amount: Employees with age plus service at 1/1/1997 of 55 or more are considered Grandfathered and will receive the greater of benefits calculated under formulas A and B below. All other employees will receive the greater of the benefit accrued under Formula A as of 12/31/1996 and the benefit calculated under Formula B.
    a. Note: Formula A produces an annual single life annuity value and Formula B produces a lump sum value. For comparison, one of the values will have to be converted to the other form.
3. Formula A Calculation
    a. 1.25% times Final Average Compensation (FAC) prior to 1/1/2010 up to Social Security Covered Compensation (SSCC). FAC is defined as the highest consecutive 60 months average earnings out of the last 120 months.
    b. 1.5% times FAC in excess of SSCC.
    c. The sum of (a) and (b) multiplied by service prior to 1/1/2010 up to 35 years.
    d. (c) plus 1.25% times FAC times service prior to 1/1/2010 in excess of 35 years.

4. Formula B Calculation

   a. Annual credits are granted based on the following table for service prior to 1/1/2010:

Age	Credits

30-34	4.0%
35-39	6.0%
40-44	8.0%
45-49	12.0%
50-54	16.0%
55 and over	18.0%

The credits are prorated by month and provided at the highest rate applicable for that month.

   b. Sum of Annual Credits times FAC prior to 1/1/2010 up to Social Security Taxable Wage Base. FAC is defined as the highest consecutive 60 months average earnings out of the last 120 months.

   c. FAC in excess of 50% of Social Security Taxable Wage Base times Sum of Annual Credits times 25%.

   d. Account Balance is the sum of (b) and (c).

5. Payment of Benefit if Formula A is used:

   a. Immediate Annuity – If service pension eligible, amount payable is Retirement Benefit reduced by 6% per year prior to age 55 (3% if 30 or more years of service).

   b. Deferred Annuity – Retirement Benefit payable at age 65 actuarially reduced for early commencement.

   c. Immediate Lump Sum – If service pension eligible, lump sum is actuarial equivalent of deferred annuity using subsidized factors; otherwise, lump sum is actuarial equivalent.

6. Payment of Benefit if Formula B is used:

   a. Immediate Annuity – Amount equal to actuarial equivalent of Account Balance.

   b. Deferred Annuity – Amount equal to actuarial equivalent of Account Balance.

   c. Immediate Lump Sum – Amount equal to Account Balance.

1. Eligible Participants: Hired or rehired after 12/31/2008 or previously covered under the management plan provisions. Additionally, transfers from designated companies within the control group are eligible.
2. Account Balance: At the end of each year, an amount equal to 3% of eligible compensation is credited to the Account Balance. At the end of the following year, the Account Balance from the previous year is increased with an interest credit based on the Treasury Rate (average of 30-Year Treasury Bond rates during August through December preceding such year).
3. Vesting – Three years.

Service pension

1. Eligibility: Age 65 and 10 years of service or age 60 and 15 years of service or age 55 and 20 years of service or age 50 and 25 years of service or any age with 30 years of service.
2. Pension Benefit: Normal retirement benefit reduced by 6.0% for each year retirement precedes age 55 unless the participant has 30 or more years of service.
3. Account Balance Formula: If applicable, account balance or an annuity that is equivalent in value to the balance.

SCHEDULE SB ATTACHMENTS

Deferred vested pension

1. Eligibility: Vested in a pension benefit.
2. Pension Benefit: Normal retirement benefit actuarially reduced for early commencement.
3. Account Balance Formula: If applicable, account balance or an annuity that is equivalent in value to the balance.

Disability pension

1. Eligibility: Disablement after 15 years of service.
2. Pension Benefit: Disabilities on or after January 1, 2002 and not eligible for ABF formula receive, in addition to their regular pension, a Disability Pension equal to the normal retirement benefit amount payable until the earlier of age 65, death or no longer disabled as defined by the disability plan.
3. Account Balance Formula: If applicable, account balance or an annuity that is equivalent in value to the balance.

Pre-retirement survivor benefit

1. Eligibility: Death after vesting.
2. Benefit Payable to Spouse: Greater of 1) 45% of the pension benefit accrued to date payable immediately and unreduced, or 2) the survivor benefit under a 50% joint and survivor annuity.
3. Benefit Payable to Non-Spouse: The survivor benefit under a 50% joint and survivor annuity.
4. Account Balance Formula: If applicable, spouse or beneficiary will receive entire account balance or an annuity that is equivalent in value to the account balance.

Sickness death benefit and accidental death benefit

1. Eligibility: Death as an active employee who has a mandatory beneficiary. Must have a Term of Employment date prior to March 1, 1993.
2. Benefit Payable to Beneficiary: Lump sum payment equal to annual pay at earlier of retirement or February 28, 1993.

Normal form of benefit

For married participants, the normal form is a reduced pension annuity with 50% of the reduced amount payable to the surviving spouse upon the death of the employee. If the spouse of a service pensioner dies first, the pension is restored to its unreduced value.

For single participants, the normal form is a pension payable as a single life annuity.

Changes in plan provisions since last actuarial valuation

None.

■ Effective interest rate	5.59%	3.92%

SCHEDULE SB ATTACHMENTS

Lump Sum Conversion Rate	For funding purposes, the same 3-segment rates as defined above. For ASC 960 purposes, the short-term rate was 4.00% for 2018 and the long-term rate was 5.00% for all IRC Section 417(e) interest rate based calculations. For CenturyLink component participants with a grandfathered lump sum calculation, the special lump sum conversion rate assumption was set at 200 basis points lower than the assumed lump sum payment rates for other lump sums.
Cash Balance Interest Crediting Rate	For funding purposes, a 4.00% rate is assumed for all future years. For ASC 960 purposes, the short-term rate was 2.50% for 2018 and the long-term was 4.00% for all future years.
Compensation Increases	For purposes of determining the additional funding target for maximum deductible contribution purposes, compensation is assumed to increase by 3.25% during the plan year.
Future Increases in Social Security	Taxable wage bases are expected to increase by 3.00% each year.
Assumed Cost of Living Adjustments	2.00% per annum for those participants eligible for annual cost of living increases.

Demographic Assumptions

Mortality

■ Heathy	Separate rates for non-annuitants (based on RP-2000 “Employees” table without collar or amount adjustments, projected to 2033 using Scale AA and annuitants (based on RP-2000 “Healthy Annuitants” table without collar or amount adjustments, projected to 2025 using Scale AA.
■ Disabled	Same as healthy mortality.
■ Lump Sum and annuity conversion	“Applicable mortality table” under IRC §417(e) provided in IRS Notice 2017-60. For employees in the Legacy CenturyLink component plan with a grandfathered lump sum formula, the mortality table defined within the plan document.

Other Assumptions

Inclusion Date	The valuation date coincident with or next following the date on which the employee becomes a participant.
Plan-related Expenses	Plan related expenses are derived by considering the expenses paid from the trust in the previous 2 years. Anticipated PBGC premiums for the current year are added to this amount. For this valuation, plan related expense are estimated to be $52,500,000. No investment related expenses are included in this estimate.
Future Increases in Maximum Benefits and Plan Compensation Limitations	Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.
Form of Payment	
■ Legacy CenturyLink Component	All CenturyLink component participants are assumed to elect a lump sum 70% of the time and a life annuity 30% of the time.
■ Legacy Embarq Component	All Embarq component participants are assumed to elect a lump sum 60% of the time and a life annuity 40% of the time.
■ Legacy Qwest Component	Retirement eligible Qwest union component participants are assumed to elect a lump sum 40% of the time and a life annuity 60% of the time. Retirement eligible Qwest non-union participants are assumed to elect a lump sum 50% of the time and a life annuity 50% of the time. 80% of other participants are assumed to elect a lump sum payment at termination.
Marriage	For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married and male spouses are assumed to be 3 years older than female spouses.
New or Rehired Employees	It was assumed there will be no new or rehired employees. The probability of plan shutdown or job elimination is assumed to be negligible. No management employees will become new participants after December 31, 2010.

SCHEDULE SB ATTACHMENTS

Plan Compensation

■ Legacy CenturyLink Component	Plan compensation was frozen for management employees effective 12/31/2010. Compensation for occupational employees assumed paid in the current plan year beginning on the valuation date is the current annual rate of pay.
■ Legacy Embarq Component	Plan compensation was frozen for management employees effective 12/31/2010.
■ Legacy Qwest Component	Plan compensation was frozen for management employees effective 12/31/2009. Certain occupational sales employees have a compensation based benefit formula. The assumed compensation beginning on the valuation date for these occupational employees is based upon the prior year's rate of pay plus bonuses, commissions, differentials, and overtime. The ABF plan earnings for the prior year are provided by CenturyLink. This generally includes salary, wages, overtime, commissions and bonuses if included in taxable income plus deferrals for 401(k) and under a cafeteria plan.
Asset Method	Average of fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefit payments, administrative expenses and expected earnings of 7.00% for 2016 and 7.00% for 2017 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted receivable contributions (discounted using the effective interest rate for the prior plan year).

Sources of Data and Other Information	The plan sponsor, furnished participant data as of 1/1/2018. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of the calculations.
Tax Policy	The actuarial valuation performed for the plan year ending December 31, 2018 is used to determine the maximum deductible contribution for the tax year ending December 31, 2018.
Benefits not Included in Valuation	None. Note that for the purpose of valuing the Special Early Retirement Benefits in the Legacy Embarq Component, the probability of permanent shutdown or job elimination without offer of other employment is assumed to be zero.
Unpredictable Contingent Event Benefits	As communicated by CenturyLink, it is assumed, as of the beginning of the plan year, that the probability of any significant corporate layoff or plant shutdowns was 0%.
PBGC Premium Funding Target	The Standard Premium Funding Target, elected in 2014, was determined using the interest rates from December of the year prior to the valuation date. All of the other assumptions are the same as described above.

Nature of actuarial calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the rounding specified for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Assumptions Rationale - Significant Economic Assumptions

Interest rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the 30-year Treasury rate. CenturyLink has selected an expected future 30-year Treasury rate of 4.00%. However, after examining historical variability in 30-year Treasury bond rates, we believe that the selected assumption does not significantly conflict with what would be reasonable based on future expectations consistent with other economic assumptions used, other than the discount rate.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.
Annuity conversion rate for hybrid plans	As required by IRC 430, annuity benefits are valued by converting accounts to annuities using the current IRC 430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale – Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates for the legacy Embarq and legacy CenturyLink components were based on an experience study conducted in 2012 (using data from 2008 through 2011) and for the Legacy Qwest component were based on an experience study conducted in 2015 (using data from 2010 through 2014), with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

Retirement	Retirement rates for the legacy Embarq and legacy CenturyLink components were based on an experience study conducted in 2012 (using data from 2008 through 2011) and for the Legacy Qwest component were based on an experience study conducted in 2015 (using data from 2010 through 2014), with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods Since Last Actuarial Valuation

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.
- The percentage assumed to elect a lump sum at decrement was changed to 40% for retirement eligible Qwest union component participants, 60% for all Embarq component participants and 70% for all CenturyLink component participants. This was changed from a previous assumption of 50% for any retirement eligible participants and 80% of participants not yet retirement eligible elect a lump sum form of payment at decrement.
- The assumed plan-related expenses added to the target normal cost were changed from $67,500,000 for the prior valuation to $52,500,000 for the current valuation to account for lower expected expenses to be paid from the trust.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
