1. PLAN DESCRIPTION

The following description of the Grand Performer Inc. 401(k) Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan qualifying under Section 401(k) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees of Grand Performer, Inc. (the "Company"), who have at least one year of service and are age twenty-one or older, except for union employees, certain nonresident aliens, and leased employees, are eligible.

Restatement

Effective August 1, 2018 the Plan was restated, with essentially the same operating provisions as previous, except that the service period required for an employee to participate in elective deferrals was reduced from a 1 year service period with a once annual entry date to a quarterly service period with quarterly entry dates, and changed the trust and record keeping operations provider from ADP Retirement Services ("ADP") and Reliance Trust Company ("Reliance"), to Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal"). Together Reliance and Principal are referred to as the "Trustees."

Employee Contributions

Each year, participants may contribute from 1 percent to 90 percent of their annual compensation as pre-tax or Roth deferrals, as defined in the Plan subject to the maximum allowable by the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan with a deferral rate of 3 percent unless they affirmatively elect not to participate. The deferral rate increases by 1 percent each year until it reaches 6 percent of compensation.

Employer Contributions

For eligible participants, the Company may make matching contributions equal to a discretionary percentage to be determined by management of the Company. For the 2018 Plan year, the Company elected to contribute 25 percent of the first 6 percent of eligible compensation that a participant contributed to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Individual accounts are established for each participant. Each participant's account is credited with the participant's elective deferrals and discretionary matching contributions, if any, and Plan earnings. The participant's account is reduced by withdrawals, losses on investments, administrative fees, and forfeitures. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100 percent vested in their elective contributions and rollover contributions plus actual earnings thereon at all times. Vesting in the Company's contribution portion of their account is based on years of continuous employment. In general, participants are 0 percent vested until year 3. Thereafter, the participant is 100 percent vested. A participant also becomes fully vested at normal retirement age, death, total disability, or termination of the Plan.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Terms cannot exceed 5 years except for the purchase of a primary residence. The notes are secured by the balance in the participant's account. The loan interest rate, determined as loans are requested, is set at the prime rate plus 1.00 percent. Principal and interest is paid ratably through payroll deductions. At December 31, 2018, the notes earned interest at rates of 4.25 percent to 6.50 percent and maturities ranged from 2019 to 2024.

Payment of Benefits

Upon retirement, termination, disability, or attainment of normal retirement age, vested Plan benefits may be distributed to a participant in a lump sum or, in certain circumstances, postponed. The Plan permits normal in-service withdrawals of the participant's vested account balance after reaching age 59½, with provisions for participant withdrawals in the event of serious financial hardship.

Forfeitures

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $18,160 and $10,664, respectively. Forfeiture accounts may be used to pay administrative expenses of the Plan or reduce employer contributions. For the year ended December 31, 2018, $27,717 of forfeitures were used to pay administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date. See Note 3 for further discussion of fair value measurements. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends, if any, are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to benefit payments and the administration of notes receivable from participants are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Plan management has evaluated subsequent events through October 14 2019, the date which the financial statements were available to be issued. Based upon this evaluation, the Plan has determined that no subsequent events have occurred which require adjustment to or disclosure in the financial statements.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability; and
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs that are unobservable inputs for the asset or liability.

An asset's (or liability's) fair value measurement level within the fair value hierarch is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the Plan's assets measured at fair value. There have been no changes in the methodology used for the period presented in these financial statements.

Registered investment companies/Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts ("CCT"*)*: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the CCTs, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The CCTs are not required to be classified within a level on the fair value hierarchy.

Pooled separate accounts: Made up of a wide variety of underlying investments such as equities, preferred stocks, bonds, real estate, and mutual funds. The NAV of a pooled separate account, as supplied by the custodian, is based on the market value of its underlying investments but the NAV is not a publicly quoted price in an active market. NAV is used as a practical expedient to estimate fair value. The Plan can redeem these investments daily, and there are currently no redemption restrictions on these investments. The Plan has no unfunded fund commitments at December 31, 2018. There were no such investments as of and for the year ended December 31, 2017.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value, as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

At December 31, 2018, the Plan has a guaranteed interest account with Principal which guarantees a rate of return on the contract and is backed by Principal's general account. This investment contract has been determined to be fully benefit-responsive. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined-contribution plan such as withdrawals for benefits, loans, or transfers to other investment choices within the Plan. Contract value represents contributions made under each contract plus earnings less participant's withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Repayment of principal and interest credited to the participants is a financial obligation of the insurance company backing the contract.

The effective annual rates of interest are established on contributions to the investment at the current stated rate which is effective for a rolling 5 year period. The applicable current rate is subject to change daily with 60 days advanced notice. Interest is credited, based upon the existing rate established on the date of the contribution to the investment. The rate is the daily equivalent of the effective annual rate of interest applicable for those contributions during the respective period. There is no stated minimum or maximum interest rate.

Events that may limit the Plan's ability to execute transactions at contract value include Plan sponsor bankruptcy, premature termination of the contracts, or a significant decline in the creditworthiness of the custodians. Additionally, certain events exist that would allow the contracts to be terminated. Since the respective fully benefit-responsive investment choices are the obligations of the insurance companies, the occurrence of an event that limits the ability of the investments to transact at contract value between the Trustees and the participants holding the investment is not probable.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments and notes receivable were held by the Reliance, from the year ended December 31, 2017 through July 31, 2018. The Plan's investments and notes receivable are held by Principal, from August 1, 2018 through December 31, 2018. Certain investment transactions and balances and participant's notes receivables are considered to be transactions with a party-in-interest.

During 2018, $101,109 in fees for accounting and record keeping services were paid from Plan assets and are included in administrative expenses.

In addition, there are transaction fees charged by the Trustees that are absorbed in investment income that are not readily determinable.

6. PROHIBITED TRANSACTIONS

The U.S. Department of Labor ("DOL") regulations require that salary deferrals to a 401(k) plan that are withheld from employees' paychecks must be deposited into the Plan as soon as they can be reasonably segregated from the employer's general assets, but in no event later than the fifteenth business day of the month following the month in which the participant contributions are withheld.

For the year ended December 31, 2018, the Plan delayed making certain deposits of participant salary deferrals as soon as they could be reasonably segregated. Such delayed deposits totaled $828,049 for the year ended December 31, 2018. The Plan sponsor is taking corrective actions relating to these delayed deposits, including restoring lost interest income on participant contributions in accordance with the DOL's regulations.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. INCOME TAX STATUS

The Plan adopted the ADP, LLC Prototype Non-standardized Profit Sharing Plan with CODA which was effective through July 31, 2018. The IRS determined and informed the sponsoring organization by a letter dated July 16, 2014, that the prototype plan was designed in compliance with applicable sections of the IRC, and that employers adopting the prototype plan could rely on such determination. The Plan administrator believes that the Plan was operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is exempt from federal income taxes.

Effective August 1, 2018 the Plan has adopted the Principal Life Insurance Company, Prototype Non-standardized Profit Sharing Plan with CODA for which the IRS determined and informed the sponsoring organization by a letter dated March 31, 2014, that the prototype plan is designed in compliance with applicable sections of the IRC, and that employers adopting the prototype plan could rely on such determination. The Plan administrator believes that the Plan is operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is exempt from federal income taxes as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audit by the IRS; however, there are currently no audits for any tax periods in progress. Furthermore, there are no tax related interest or penalties included in the financial statements presented.

9. INVESTMENTS AND INFORMATION PROVIDED AND CERTIFIED BY THE TRUSTEES (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Reliance (from December 31, 2017 through July 31, 2018) and Principal (from August 1, 2018 through December 31, 2018), the Trustees of the Plan, have certified to the completeness and accuracy of all investments and related investment activity, and notes receivable from participants and related interest income, in the accompanying financial statements and supplemental schedules.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan's Form 5500, Annual Return/Report of Employee Benefit Plan, for the years ended December 31, 2018 and 2017, was prepared by the third party administrator. The following is a summary of differences between the accompanying financial statements for 2018 and 2017 and the Form 5500 prepared by the third party administrator:
