TPC Wire & Cable Corp. 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of TPC Wire & Cable Corp. 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established by TPC Wire & Cable Corp. (the Company and Plan sponsor) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees who have completed at least 30 days of service with the Company are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions: Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), as defined in the Plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Plan sponsor matches 100% of employee contributions for contributions up to 3% of the participant's compensation plus 50% of employee contributions for contributions that exceed 3% of the participant's compensation up to 5% of the participant's compensation. Additional Company contributions may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and Plan's earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions and earnings thereon.

Payment of benefits: Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at age 65. The total participant's account balance is distributed in the form of a lump-sum payment, installments, or an annuity. Participants experiencing financial hardship, if certain criteria are met, or who have attained age 59.5 may withdraw a portion of this account balance as defined in the Plan.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Effective January 1, 2018, Participant are allowed to have only one loan outstanding at any time. Loan terms cannot exceed five years with the exception of the purchase of a primary residence, as defined in the Plan document. These loans are secured by the balance in the participant's account. The loans bear an interest rate equal to 1 percentage point above the prime rate at the time of issuance. Principal and interest is paid ratably through payroll deductions.

Plan termination: Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the account of each participant shall be nonforfeitable and shall continue to participate in the earnings credited, expenses charged and any appreciation or depreciation of the applicable investment fund until the vested account is distributed.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Valuation of investments and income recognition: Money market taxable funds and shares of registered investment companies are valued at the fair market value of shares held by the Plan at year-end. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. Refer to Note 4 for details on inputs, valuation techniques and fair value measurement levels within the fair value hierarchy.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net depreciation includes gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant loans are reclassified as benefit payments to participants based upon the terms of the Plan document.

Benefit payments: Benefit payments to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments or paid through revenue sharing payments made from investment managers to the recordkeeper and shown as other income on the statement of changes in net assets available for benefit for the year ended December 31, 2018.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

The Plan administrator has obtained certifications from the trustees that the information provided to the Plan administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the accounting standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money market fund: Money market fund is valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Registered investment companies: Mutual funds are valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, which the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a difference fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 9,832,204	\$ -	\$ -	\$ 9,832,204
Investments, at fair value	\$ 9,832,204	\$ -	\$ -	\$ 9,832,204

	2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 9,911,319	\$ -	\$ -	\$ 9,911,319
Money market fund	394,751	-	-	394,751
Investments, at fair value	\$ 10,306,070	\$ -	\$ -	\$ 10,306,070

Note 5. Investment Contract with Insurance Company

The Plan has a benefit-responsive traditional investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate of 0%, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

There are no events which limit the ability of the Plan to transact at contract value with the issuer. Either party to the contract may terminate the agreement prior to the scheduled maturity date with at least 60 days advance written notice to the other party.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

TPC Wire & Cable Corp. 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 6. Risks and Uncertainties (Continued)

Approximately 15% of the Plan's investments are held in one registered investment account at December 31, 2018. As such, this is considered to be a concentration of credit risk.

Note 7. Party-in-Interest Transactions

Certain of the Plan's investments during the year were managed by affiliates of Charles Schwab Bank. Charles Schwab Bank was the trustee for the period January 1, 2018 to January 3, 2018, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The administrative fees paid to Charles Schwab Bank and their affiliates amounted to \$2,815 for the year ended December 31, 2018.

The Plan currently invests in a guaranteed interest account managed by affiliates of Great-West. Great-West is the trustee effective January 4, 2018, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The administrative fees paid to Great-West and their affiliates amounted to \$38,630 for the period January 4, 2018 through December 31, 2018.

Note 8. Tax Status

Effective January 4, 2018, the Plan adopted a standardized form of a prototype plan sponsored by Great-West Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator is not aware of any events that have occurred that might adversely affect the Plan's qualified status.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
