NOTE 1: DESCRIPTION OF PLAN

The following description of Former Employees of Leidos Cyber, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was a defined-contribution plan established on January 1, 1997 to provide retirement and other related benefits to all employees of Leidos Cyber, Inc. (the "Company") upon date of hire, excluding employees covered by a collective bargaining agreement, employees who were nonresident aliens and who did not receive any U.S. source income, and leased employees. There was no age or service requirement for the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendment: In 2018, the Board of Directors of the Plan voted to freeze the Plan effective February 20, 2019, pursuant to the stock and asset purchase agreement between Leidos Holdings, Inc. (owner of the Company) and Capgemini America, Inc. dated June 5, 2018. As a result, no contributions were made to the Plan after the closing date of sale, February 20, 2019, except contributions necessary to true-up the employer contributions for the period from January 1, 2019 through the closing date. Included in the agreement, the parties agreed that Leidos Inc., a member of Leidos Holdings, Inc. controlled group, would become the sponsor of the 401(k) plan on the closing date. Leidos Cyber, Inc. 401(k) Plan was renamed Former Employees of Leidos Cyber, Inc. 401(k) Plan.

Plan Merger: The Board of Trustees of the Leidos, Inc. Retirement Plan, as adopted by Capgemini America, Inc., successor to the Former Employees of Leidos Cyber, Inc. 401(k) Plan, and the Plan's sponsor voted to merge the Plan into the Leidos, Inc. Retirement Plan effective April 1, 2019. All Plan assets were transferred to the Leidos, Inc. Retirement Plan on April 1, 2019.

Contributions: Each year, participants could make contributions up to the regulatory limitations, as defined in the Plan document. Participants who had attained the age of 50 before the end of the Plan year were eligible to make catch-up contributions. With the consent of the Plan Administrator, participants could deposit amounts from another retirement plan which satisfy the tax rules for rollovers. Participants could designate a portion, or all, of their deferred contributions as Roth contributions, which could be included in the participant's gross income.

The Company made a matching contribution equal to 50% of the participant's deferrals up to 8%. Participants would be immediately vested in the amount of the match and its earnings.

The Company could make a qualified non-elective contribution, which could be used to help the Plan pass certain tests required by law. Participants were 100% vested in the contributions when made and could be subject to certain withdrawal restrictions. For the period ended April 1, 2019, the Company made no such contributions.

Contributions were subject to certain limitations and couldn't exceed the maximum dollar amount allowable by the Internal Revenue Code (IRC).

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts: Each participant's account was credited with the participant's contribution, the Company's contribution, and allocations of Plan earnings (losses). Allocations of earnings (losses) were based on account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

Investment Options: Participants directed the investment of contributions into various investment options offered by the Plan.

Notes Receivable from Participants: Participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. Loan transactions were treated as a transfer to (from) the investment fund from (to) the participant notes receivable fund. Notes receivable terms ranged from one to five years or up to ten years for the purchase of a primary residence. Loans were secured by the balances in the participants' accounts and the interest rate charged by on loans outstanding at December 31, 2018 and up to the date of the Plan merger was between 5.25% to 7.50% at April 1, 2019. Principal and interest was paid ratably usually through monthly payroll deductions but was required to be paid on at least a quarterly basis.

Payment of Benefits: The Plan allowed for total or partial distributions due to death, disability, retirement or upon attaining the age of 59½. Participants could elect to receive either a lump sum equal to the value of the participant's vested interest in his or her account, or periodic installment distributions. The Plan allowed for hardship withdrawals to satisfy an immediate and heavy financial need. If a participant terminated employment for any reason, his or her account became 100% distributable if below $1,000.

Calculation of Vested Benefits: Participants were immediately vested in their contributions and employer contributions plus actual earnings thereon.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan were prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP). The financial statements have been prepared to satisfy the reporting and disclosure requirements of ERISA.

Investment Valuation and Income Recognition: Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determined the Plan's valuation policies utilizing information provided by the investment advisers, trustees and other parties involved with the Plan. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses: Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Company. Expenses that were paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits: Benefits were recorded when paid.

Notes Receivable from Participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of April 1, 2019 and December 31, 2018.

Uncertain Tax Positions: Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 1, 2019, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 3: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 3: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There had been no change in the methodology used at April 1, 2019 and December 31, 2018.

Pooled separate accounts: Valued at the unit value based on the net asset value (NAV) of the underlying mutual fund at year end. The NAV, as provided by the fund manager, is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined that the fund will sell the investment for an amount different from the reported NAV.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3: FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of April 1 were as follows:

	April 1, 2019	December 31, 2018
Investments measured at net asset value (a)	$ -	$ 20,754,348
Total investments at fair value	$ -	$ 20,754,348

(a) In accordance with Subtopic 820-10, the pooled separated accounts investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Fair Value of Investments in Entities that Use Net Asset Value

The following tables summarize investments measured at fair value based on net asset value per share as of:

	December 31, 2018				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts:	$20,754,348	None	Daily	None	30 Days

NOTE 4: RELATED PARTY TRANSACTIONS

The Plan's investments were held primarily in pooled separate investment accounts offered by John Hancock Life Insurance Company and the Plan paid certain related fees. Since John Hancock Life Insurance Company was the Plan's trustee, these were considered to be exempt party-in-interest transactions.

NOTE 5: TAX STATUS

The Plan had adopted a prototype plan which received a letter dated March 31, 2014, stating that the prototype plan, as then designed, was acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has been amended since receiving the opinion letter and the Plan Administrator believed the Plan was being operated in compliance with the applicable requirements of the IRC and, therefore, believed the Plan was qualified and the related trust was tax exempt.

NOTE 6: CERTIFICATION OF TRUSTEE

In accordance with Department of Labor Regulations, various information presented herein, was prepared from statements certified as being complete and accurate by the Plan's trustee. Except for the employer contributions receivable recognized in the statements of net assets available for benefits and the related impact on the statement of changes in net assets available for benefits, all information in the statements of net assets available for benefits and statement of changes in net assets available for benefits was derived from statements certified by the Plan's trustee.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan utilized various investment instruments. Investment securities, in general, were exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could have occurred in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8: SUBSEQUENT EVENTS

The date to which events occurring after April 1, 2019, the date of the most recent statement of financial position, have been evaluated for possible adjustment to the financial statements or disclosure is October 2, 2019, which is the date the financial statements were available to be issued.
