Notes to Financial Statements

Note 1. Plan Description

The following description of the JAM Restaurants, LLC 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all full-time employees of JAM Restaurants, LLC (the Company) who are 21 years of age or older and have completed one year of service. Employees are eligible to participate in the Plan on the first day of the month following the date on which they met the criteria.

Contributions: Each year, participants may contribute up to 85% of pretax annual compensation as defined in the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Discretionary profit sharing contributions may be made at the option of the Company's management. Contributions are subject to certain limitations. There were no profit sharing contributions for the plan year ended December 31, 2017.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution portion of their accounts, plus actual earnings, is based on continuous years of service according to the following vesting schedule:

<u>Years of service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes receivable from participants: Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. All loans are secured by all or a portion of the assets within a participant's individual account. Interest rates are 1% over the prime rate at the time of the loan. The prime rate was 4.50% at December 31, 2017. Principal and interest are paid ratably through payroll deductions.

401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

Note 1. Plan Description (Continued)

Payment of benefits: A participant may receive the value of this or her vested account upon retirement, attainment of age 59½, disability or termination as a lump sum distribution or installment payments. Upon death of a participant, the beneficiary shall be entitled to full value of the vested account.

Forfeited accounts: Forfeited accounts are used to pay administrative expenses or to reduce employer contributions. At December 31, 2017 and 2016, there were no forfeited accounts. For the year ended December 31, 2017, no forfeitures were used to pay administrative expenses or to reduce employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recognized on the ex-dividend date, and interest is recognized on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses are paid by the Company or the Plan, at the discretion of the Company.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Mid Atlantic Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2017	2016
Investments, at fair value:		
Mutual funds	\$ 469,323	\$ 372,867

Mid-Atlantic Trust Company also certified to the completeness and accuracy of the net appreciation in fair value of investments of \$53,976 for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the net assets value (NAV) of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

		2017			
		Level 1	Level 2	Level 3	Total
Mutual funds	\$	469,323	\$ -	\$ -	\$ 469,323
Total assets at fair value	\$	469,323	\$ -	\$ -	\$ 469,323
		2016			
		Level 1	Level 2	Level 3	Total
Mutual funds	\$	372,867	\$ -	\$ -	\$ 372,867
Total assets at fair value	\$	372,867	\$ -	\$ -	\$ 372,867

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no transfers in or out of Level 1, 2 or 3.

Note 5. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Paychex, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

Note 6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Mid-Atlantic Trust Company. Administrative expenses paid to the trustee amounted to \$2,003 for the year ended December 31, 2017. Mid-Atlantic Trust Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

Note 7. Plan Termination

The Company elected to discontinue its contributions to the Plan as of July 20, 2018, subject to the provisions of ERISA as described in Note 8. Participants will become 100% vested in their accounts on the effective date of termination of the plan.

Note 8. Subsequent Event

In July 2018, the Company sold all assets of the Plan Sponsor. The Plan Committee is in the process of assessing the impact on the net assets of the Plan and is finalizing the effective date of termination of the plan.

Notes to Financial Statements

Note 1. Plan Description

The following description of the JAM Restaurants, LLC 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all full-time employees of JAM Restaurants, LLC (the Company) who are 21 years of age or older and have completed one year of service. Employees are eligible to participate in the Plan on the first day of the month following the date on which they met the criteria.

Contributions: Each year, participants may contribute up to 85% of pretax annual compensation as defined in the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Discretionary profit sharing contributions may be made at the option of the Company's management. Contributions are subject to certain limitations. There were no profit sharing contributions for the plan year ended December 31, 2017.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution portion of their accounts, plus actual earnings, is based on continuous years of service according to the following vesting schedule:

<u>Years of service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes receivable from participants: Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. All loans are secured by all or a portion of the assets within a participant's individual account. Interest rates are 1% over the prime rate at the time of the loan. The prime rate was 4.50% at December 31, 2017. Principal and interest are paid ratably through payroll deductions.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Payment of benefits: A participant may receive the value of this or her vested account upon retirement, attainment of age 59½, disability or termination as a lump sum distribution or installment payments. Upon death of a participant, the beneficiary shall be entitled to full value of the vested account.

Forfeited accounts: Forfeited accounts are used to pay administrative expenses or to reduce employer contributions. At December 31, 2017 and 2016, there were no forfeited accounts. For the year ended December 31, 2017, no forfeitures were used to pay administrative expenses or to reduce employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recognized on the ex-dividend date, and interest is recognized on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses are paid by the Company or the Plan, at the discretion of the Company.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Mid Atlantic Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2017	2016
Investments, at fair value:		
Mutual funds	\$ 469,323	\$ 372,867

Mid-Atlantic Trust Company also certified to the completeness and accuracy of the net appreciation in fair value of investments of \$53,976 for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the net assets value (NAV) of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

		2017			
		Level 1	Level 2	Level 3	Total
Mutual funds	\$	469,323	\$ -	\$ -	\$ 469,323
Total assets at fair value	\$	469,323	\$ -	\$ -	\$ 469,323
		2016			
		Level 1	Level 2	Level 3	Total
Mutual funds	\$	372,867	\$ -	\$ -	\$ 372,867
Total assets at fair value	\$	372,867	\$ -	\$ -	\$ 372,867

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no transfers in or out of Level 1, 2 or 3.

Note 5. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Paychex, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

Note 6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Mid-Atlantic Trust Company. Administrative expenses paid to the trustee amounted to \$2,003 for the year ended December 31, 2017. Mid-Atlantic Trust Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

Note 7. Plan Termination

The Company elected to discontinue its contributions to the Plan as of July 20, 2018, subject to the provisions of ERISA as described in Note 8. Participants will become 100% vested in their accounts on the effective date of termination of the plan.

Note 8. Subsequent Event

In July 2018, the Company sold all assets of the Plan Sponsor. The Plan Committee is in the process of assessing the impact on the net assets of the Plan and is finalizing the effective date of termination of the plan.
