1. DESCRIPTION OF PLAN:

The following description of the McCluskey Chevrolet, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1994 covering all employees of McCluskey Chevrolet, Inc. (the "Company" or "Employer"), other than employees under a collective bargaining agreement and non-resident aliens, who have attained age twenty-one and have one year of service in which they have completed at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986 (the "Code"), as amended. The Board of Directors is responsible for Plan oversight, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Eligible employees may elect to contribute to the Plan, on a pre-tax or Roth basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). The Company may make matching and profit-sharing contributions at the discretion of the Company's Board of Directors. In 2018, the Company made a discretionary match to eligible participants equaling 10% of participant deferrals. Participants may also contribute amounts representing distributions from other qualified plans. There was no profit-sharing contribution for 2018.

Participants direct the investment of their contributions, as well as those made by the Company, into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contributions and Plan earnings and losses. Participant accounts may also be charged with an allocation of certain administrative expenses of the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions and rollover contributions, as adjusted for actual earnings and losses thereon. Employees vest in Company matching and profit-sharing contributions after five consecutive years of service as follows:

<u>Years of Service</u>	<u>Vesting</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants

Active participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable from participants are secured by the balance in the participant's account and bear interest at a fixed rate of Prime plus 1%, using the Prime rate in effect at loan commencement. Principal and interest are paid ratably through payroll deductions over a maximum period of five years unless the proceeds are used to purchase a residence.

Benefits

Participants may withdraw the vested portion of their account due to termination of employment, permanent disability, death, or upon normal retirement age (65). Additionally, prior to termination from employment, a participant may withdraw all or a portion of his or her vested account balance upon attaining age 59 ½ or incurring a financial hardship (if certain requirements are satisfied). Benefits shall generally be paid to participants in the form of a lump sum payment. Required minimum distributions are permitted to be paid in the form of partial withdrawals or installments. In the event of a participant's death, a participant's account balance remaining in the Plan will be paid to the participant's beneficiary.

Forfeited accounts

At December 31, 2018 and 2017, forfeited nonvested accounts of terminated participants totaled \$0 and \$83, respectively. These accounts may be used to pay administrative expenses of the Plan, used to offset Company matching contributions, or be allocated to all participants eligible to receive profit sharing contributions. During 2018, forfeitures totaling \$1,812 were used to pay administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability. The Plan distributed the 2017 excess contributions to the applicable participants during 2018.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments. Other recordkeeping and investment advisory fees are included in administrative expenses.

Subsequent events

The Plan has evaluated subsequent events through the date of the audit report, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money market fund and mutual funds: Valued at the daily closing price as reported by the fund. Money market and mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The money market and mutual funds held by the Plan are deemed to be actively traded.

Managed fund: Valued at the NAV of units of the fund managed by an independent registered investment adviser (RIA). The NAV, as provided by the RIA, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investments for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no unfunded commitments associated with this fund.

Common/collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts. It is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust fund, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that the liquidation of securities will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share practical expedient as of December 31, 2018 and 2017, respectively.

<u>December 31, 2018</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Notice Period</u>
McCluskey Dynamic Fund (Managed fund)*	\$ 3,195,963	n/a	Daily	n/a

<u>December 31, 2017</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Notice Period</u>

* The McCluskey Dynamic Fund (Managed Fund) consists of mutual funds and other investments in varying percentages. Plan participants invest in the portfolio and the amount is allocated among the constituent investments within the portfolio. The Managed Fund uses computer models to select investments based on in-depth analysis of the share price of the funds available to a given model. The models will determine which funds to invest in on a daily basis. The allocation of assets becomes dynamic by changing its allocation in response to changing market conditions.

4. INFORMATION CERTIFIED BY THE CUSTODIAN:

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information and related investment income included on the statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year), certified by T.D. Ameritrade Trust Company, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

5. INCOME TAX STATUS:

The Plan has adopted a volume submitter plan which has received an opinion letter from the IRS dated March 31, 2014, stating that the volume submitter plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan and the volume submitter plan document have been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believes that the Plan is currently designed and being operated in accordance with the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in their accounts, to the extent they are not already vested.

7. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

The McCluskey Dynamic fund is managed by Mr. Mark Schmerge who is a registered investment advisor and relative of the sole-shareholder of McCluskey Chevrolet, Inc. and therefore transactions within the managed fund qualify as party-in-interest transactions.

Certain Plan investments are managed by T.D. Ameritrade Trust Company, the custodian of the Plan; therefore, transactions in these investments qualify as party-in-interest transactions under ERISA. The Custodian also receives indirect fees from investments which are deducted from investment returns.

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
