Note A. Description of Plan

The following description of the KVAL, Inc. 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a single-employer defined contribution retirement plan sponsored by KVAL, Inc. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – Employees of KVAL, Inc. (the "Company") who are at least age 19, have completed thirty days of service, and who are not members of a collective bargaining unit, are not a nonresident alien, and are not independent contractors are eligible to participate in the Plan.

Contributions – Participants may elect to defer a portion of their compensation, as defined in the Plan, on a pre-tax or after-tax basis up to the maximum allowed annual contribution as prescribed in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover).

The Company makes an annual safe harbor matching contribution equal to 100% of participant elective deferrals that do not exceed 4% of compensation. The Company may also elect to make discretionary profit-sharing contributions to the Plan. Profit sharing contributions are allocated to participants as a percentage of compensation or a dollar amount per participant. For the year ended December 31, 2018, safe harbor matching contributions amounted to $187,093, all of which were accrued at the end of the year. Contributions are subject to certain IRS limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions, allocations of the Company's contribution, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Participants may direct the investment of their account balances into investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting – Participants are fully vested in their salary deferrals, plus actual earnings (losses) thereon. Participants are also fully vested in any Company contributions and earnings.

Payment of Benefits – Upon termination of service due to death, disability, or attainment of age 60, a participant may receive the value of the vested interest in his or her account as a lump sum. Terminated employees with a vested balance less than $5,000 shall receive a lump sum distribution following the Participant's termination. Hardship withdrawals also are available for active employees subject to certain limitations.

Note A. Description of Plan (continued)

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. The loans are secured by the balance in the participant's account or other security which the advisory committee accepts. Loans bear interest at the prime rate in effect on the day the loan is funded plus one percent. Principal and interest are paid ratably through payroll deductions. The interest rate on participant loans was 4.25-6.25%, with various maturities through June 2023.

Forfeited Accounts – As of December 31, 2018 and 2017, forfeited non-vested accounts totaled $1,156 and $-0-, respectively. Forfeitures are retained in the Plan and will be used to reduce future Company contributions or to pay reasonable Plan administrative expenses. During 2018, no forfeitures were used to reduce the Company safe harbor matching contributions.

Note B. Summary of Accounting Policies

Basis of Accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties – The Plan utilizes various investment instruments, including mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Investments – Investments are reported at fair value as certified by the Plan's custodian, Capital Bank and Trust Company. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when declared. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. See Note C for discussion of fair value measurements.

Note B. Summary of Accounting Policies (continued)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits – Benefit payments to participants are recorded when paid.

New Accounting Pronouncements – In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, including the removal, modification to, and addition of certain disclosure requirements. ASU 2018-13 will be effective for the Plan's fiscal year beginning after December 15, 2019. The provisions of ASU 2018-13 are not expected to have a material impact on the Plan's fair value disclosures, nor an impact on the fair value measurement of the investments.

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements*. ASU 2018-09 provides amendments to a wide variety of topics in the FASB's ASC. Specific to employee benefit plans, this ASU includes an amendment to Subtopic 962-325, *Plan Accounting–Defined Contribution Pension Plans–Investments–Other*. This amendment updates the consideration for whether a certain type of investment should be considered to be eligible to use the net asset value per share practical expedient when there is actually a readily determinable fair value. Investments that have a readily determinable fair value are precluded from using the net asset value per share practical expedient and should be included in the fair value hierarchy disclosure. ASU 2018-09 will be effective for the Plan's fiscal year beginning after December 15, 2019. The provisions of ASU 2018-09 are not expected to have a material impact on the Plan's fair value disclosures, nor an impact on the fair value measurements of the investments.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. ASU 2016-01 modifies certain aspects of recognition, measurement, presentation and disclosure guidance of financial instruments. The provisions of ASU 2016-01 will be effective for the Plan beginning with the year ended December 31, 2019 and amendments will be applied through a cumulative effect adjustment to the opening balance sheet in the year of adoption. The provisions of ASU 2016-01 are not expected to have a material impact on the Plan's financial statements.

Note C. Fair Value Measurements

The Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2018 and 2017.

Mutual funds and money market fund: Valued at the daily closing price as reported by the fund. Mutual funds and the money market fund held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds and money market fund held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note C. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

December 31, 2018	Level 1	Level 2	Level 3	Total
Investments:				
Money market fund	$ 661,658	$ -	$ -	$ 661,658
Mutual funds	11,064,569	-	-	11,064,569
Total investments	$ 11,726,227	$ -	$ -	$ 11,726,227

December 31, 2017	Level 1	Level 2	Level 3	Total
Investments:				
Money market fund	$ 665,491	$ -	$ -	$ 665,491
Mutual funds	11,199,213	-	-	11,199,213
Total investments	$ 11,864,704	$ -	$ -	$ 11,864,704

Note D. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by American Funds. Capital Bank and Trust Company, the custodian and American Funds are affiliates. These transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Direct fees paid to the recordkeeper affiliate amounted to $758 during 2018. The Company pays directly most other fees related to the Plan's operations.

Note E. Information Certified By the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Capital Bank and Trust Company, the custodian of the Plan, has certified the completeness and accuracy of:

- Participant directed investments and notes receivable from participants, reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017,
- Net appreciation in fair value of investments, interest and dividends reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2018,
- Investments reflected on the schedule of assets (held at end of year).

Note F. Tax Status

The Plan is a prototype non-standardized profit share plan that received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan's administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

Note G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note H. Reconciliation to Schedule H of the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, to Schedule H of the Form 5500:
