Remy Power Products, LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Remy Power Products, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan which was established effective February 1, 2017 for the benefit of eligible employees of Remy Power Products, LLC (the Company).

Plan merger: On February 1, 2017, the date of the Plan's inception, it was determined the Plan would merge in the employees of The Maval Manufacturing Company 401(k) Plan, which are the employees of the Plan Sponsor's wholly owned subsidiary, Maval Industries LLC's. All of the plan's assets were transferred on August 1, 2017.

On September 8, 2017, the Investment Committee of Remy determined that Remy Power Products, LLC 401(k) Plan was merging into Brake Parts Inc. LLC 401(k) Plan. The effective date of the merger is January 1, 2018 and the final transfer of assets occurred during 2018.

Eligibility: Eligible employees, as defined, are eligible to defer compensation by contributing to the Plan and receive Company matching and profit sharing contributions. Employees enter the Plan on the first of the month following 90 days after date of employment and must be 18 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants are automatically enrolled to make salary deferral contributions of 3% of compensation, as defined. Unless a participant changes their deferral election, an automatic increase of 1% per year will be made until salary deferral contributions reach 6% of compensation, as defined. Participants may defer up to 50% from eligible compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Company matching contributions may be made at the discretion of the Company. Such amounts are credited among the accounts of participants who have made compensation reductions during the year. Due to the Plan black-out, until the transfer out on January 1, 2018, there was no activity related to contributions.

The plan agreement contains various limitations on the amount of employee and employer contributions to the Plan, in accordance with Sections 401 and 415 of the Internal Revenue Code (IRC) on a pre-tax or post-tax basis. The maximum amount of compensation a participant can defer is \$18,500. Participants age 50 and over may make catch-up contributions up to an additional \$6,000.

Roth 401(k) contributions: The Plan allows for Roth Elective Deferrals that are includible in participant's gross income at the time deferred and have been irrevocably designated as Roth Elective Deferrals by participant.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, if any, as well as allocations of the Company's profit sharing contribution and plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Remy Power Products, LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after two years of credited service. In the event of death, disability or retirement at designated ages, participants become fully vested.

Investment options: Upon enrollment in the Plan, a participant may direct contributions into a variety of investments as more fully described in the Plan's literature. Participants may change their investment options at any time.

Forfeitures: At January 1, 2018 and December 31, 2017, there were no forfeited nonvested accounts, respectively. Forfeitures of terminated participants' nonvested accounts are to be used to reduce Company contributions or plan expenses. For the period ended January 1, 2018, there were no forfeitures used to reduce Company contributions.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their account balance. Note terms range from 1-5 years, or up to 10 years if used for the purchase of a primary residence. Participants may only have one note outstanding at a time. The notes are collateralized by the balance in the participant's account and bear interest at the prime rate plus 1% as of the quarter ended prior to the note origination and fixed for the loan term. Interest rates ranged from 4.25% to 6.25% at January 1, 2018. Principal and interest payments are paid through payroll deductions.

Payment of benefits: If a participant terminates for any reason, the Plan provides for benefits to be paid in the form of a lump sum. The Plan also allows for hardship distributions, as defined, and distributions upon the age of 59 ½.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Notes in default are treated as distributions based upon the terms of the plan document surrounding defaults.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Remy Power Products, LLC 401(k) Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to plan administration are charged directly to participant accounts and are included in administrative expenses.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through November 14, 2019, the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used January 1, 2018 and December 31, 2017.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the NAV of units of the common/collective trust fund. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of January 1, 2018 and December 31, 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 5,871,149	\$ -	\$ -	\$ 5,871,149
Total assets in fair value hierarchy	\$ 5,871,149	\$ -	\$ -	5,871,149
Investment measured at NAV (a)				1,035,820
Investments at fair value				\$ 6,906,969

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 5,871,149	\$ -	\$ -	\$ 5,871,149
Total assets in fair value hierarchy	\$ 5,871,149	\$ -	\$ -	5,871,149
Investment measured at NAV (a)				1,035,820
Investments at fair value				\$ 6,906,969

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following table sets forth the fair value of investments in certain funds that calculate net asset value per share (or its equivalent) at January 1, 2018 and December 31, 2017:

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2018	2017			
Common/collective fund (a)	<u>\$ 1,035,820</u>	<u>\$ 1,035,820</u>	<u>\$ -</u>	Daily	12 months*

*Redemption notice period is at the plan level.

(a) Wells Fargo Stable Return Fund N seeks to provide current and stable income, while maintaining a stable share value of \$1. The fund invests primarily in investment contracts issued by insurance companies, banks or other financial institutions, including investment contracts backed by high quality fixed income securities. The fund seeks to achieve its objective by diversifying among high credit quality investments and investment contracts which are structured to smooth market gains and losses over time.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended January 1, 2018, there was no transfers in or out of Level 3.

Note 5. Related-Party Transactions

Certain plan investments consist of common/collective funds and registered investment companies managed by Wells Fargo Bank, the trustee of the Plan and, therefore, these transactions qualify as party-in-interest. There were no fees paid by the Plan to the trustee for the year ended January 1, 2018.

Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan. Certain other expenses of the Plan are paid by the Company.

Note 6. Income Tax Status

The Plan adopted the volume submitter profit sharing plan with CODA sponsored by Wells Fargo Bank, N.A. dated March 31, 2014. The prototype plan has received an opinion letter from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receipt of the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 7. Risks and Uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits at January 1, 2018 and December 31, 2017, per the financial statements to Form 5500:

	2018	2017
Net assets available for benefits per the financial statements	\$ -	\$ 7,037,056
Participant notes receivable	(130,087)	(130,087)
Participant loans	130,087	130,087
Net assets available for benefits per Form 5500	<u>\$ -</u>	<u>\$ 7,037,056</u>

Note 9. Plan Merger

On November 8, 2017, the Investment Committee of the Board of Directors of Remy Power Products, LLC resolved to merge the Plan into the BPI Plan, effective January 1, 2018, and transfer all assets as soon as administratively feasible.
