The Plan's trustee, custodian of assets, and third-party recordkeeper is American Trust and Savings Bank (the Trustee).

Eligibility

The Plan covers eligible employees of the Company, excluding (1) members of a collective bargaining unit (union), (2) Non-Resident Aliens, and (3) employees that the Company acquires through a merger or acquisition. Eligibility requirements include: 1) achieved minimum age of 21 years; and 2) a service requirement of a minimum of 3 consecutive months of service.

Contributions

In accordance with Sections 401(k), 402(g), and 414(v) of the Tax Code, the Plan limits the amount of an individual's annual elective deferrals. The annual limit on such elective deferrals was $18,000 for 2016. Participants who are age 50 or older by the end of the plan year can contribute an additional $6,000 above the annual limit. Eligible employees can choose to make elective deferrals of pre-tax contributions, after-tax Roth 401(k) contributions, or a combination of the two, subject to the aggregate limits.

The Plan Sponsor may, but is not required to, make discretionary matching contributions to the Plan's Trust. For the plan year ended December 31, 2016, the Plan Sponsor remitted discretionary matching contributions to the Plan in the aggregate amount of $9,116.69.

Participant Account

Each Plan participant's account is credited with his or her employee contributions; the Company contributions, if applicable; and an allocation of the Plan's earnings. Each Plan participant's account is charged with an allocation of administrative expenses. Allocations are based on the participant's Plan account balance to reflect the effect of income or losses from the particular investments.

Vesting

Plan participants are fully vested in all of their elective deferrals and any rollover contributions from other eligible retirement plan. Plan participants also will become fully vested in their allocation of

discretionary employer matching contributions (if any), upon the Plan participant's death, Disability (as defined in the Plan), or Normal Retirement (as defined in the Plan). Under all other circumstances, Plan participants will become vested in their allocation of discretionary employer matching contributions (if any) in accordance with the following schedule:

Years of Vesting Service	Percent Vested
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Vesting Credit

Plan participants will be credited with a year of service for each twelve-month period of time from the date of hire until the date their employment terminates, excluding service with a predecessor employer that the Company acquires through a merger or acquisition (as applicable).

Forfeitures

The unvested balance of a Plan participant's account becomes a forfeiture as of December 31st of the plan year in which the Plan distributes the Plan participant's entire vested balance, or in which the Plan participant incurs a 5-consecutive year break in service, whichever occurs first. Forfeitures attributable to employer matching contributions (if any) are used by the Plan to pay expenses and then to reduce employer contributions. Forfeitures are restored from current Plan year forfeitures if a Plan participant is rehired before incurring a 5-consecutive year break in service. For the Plan year ended December 31, 2016, the Plan had $665.04 in forfeitures.

Notes Receivable from Participants

The Plan offers two types of loans, which are general-purpose loans and home loans, to Plan participants on a uniform and non-discriminatory basis. The repayment period for a general purpose loan may not exceed five years, and the repayment period for a primary residence loan may not exceed 30 years. Plan participants may have up to two loans outstanding at a given time.

Plan participants may borrow from their Plan accounts (except for amounts attributable to Roth deferrals) a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Loans are secured by the Plan participant's vested account. Interest rates remain fixed for the life of the loan and are based on a rate that is commensurate with interest charged for

loans that would be made under similar circumstances. For the applicable period, that was determined to be the Wall Street Journal prime rate plus 2%. Principal and interest are paid ratably through payroll deductions. If payroll deduction is not a viable option, as determined by the Plan Administrator and Trustee, the Plan participant will be required to enter into an ACH agreement to repay the loan. Participant loans are classified as notes receivable from Plan participants on the Statement of Net Assets Available for Benefits and are valued at their unpaid principal balance. Interest income on notes receivable from Plan participants is recorded when received. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Plan participants can continue to repay their loans post-termination, as long as they have not taken a distribution from their Plan accounts.

Loans to Participants – Defaulted

Defaulted loans are Plan participant loans resulting from the failure of the Plan participant to make the required loan repayments on an outstanding loan on or before the last day of the calendar quarter following the calendar quarter in which the loan repayment was originally scheduled, and the outstanding balance of such loans are thereafter considered deemed distributions from the Plan and are reported on the Internal Revenue Service (IRS) Form 1099-R issued to each affected Plan participant. Four loans defaulted in 2016 for which IRS Forms 1099-R were issued.

Payment of Benefits

Plan participants may withdraw any rollover contributions to their Plan accounts at any time. Plan participants who have reached age 59 ½ may withdraw the portion of their Plan accounts attributable to elective deferrals while employed with the Company.

Plan participants may withdraw their funds (without restriction) after separating from service with the Company due to normal retirement age (age 65), death, Disability, or the date of terminated employment. Plan participants may also receive a distribution from their accounts attributable to their elective deferrals (excluding Roth deferrals) due to financial hardship.

Administrative Expenses and Investment Management Fees

Certain expenses of the Plan for administrative services are paid directly by the Plan, except to the extent the Company chooses to pay such expenses. Each Plan participant's Plan account is charged for recordkeeping services and additional expenses which are allocated pro rata based on account balance, and Plan participants' accounts are individually assessed for Plan expenses which are incurred by, or are attributable to, a particular Plan participant based on use of a particular Plan feature.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right to discontinue its contributions and to terminate the Plan, in whole or in part, at any time for any reason subject to the provisions of ERISA and the Tax Code. Termination of the Plan shall result in the immediate vesting of all affected Plan participants' accounts in their respective accounts and distribution of such amounts in a manner permitted under the Plan as soon as practicable thereafter.

Tax Status

The IRS has issued an advisory opinion confirming that the volume submitter plan document and related trust, on which the Plan's plan documents are based, are designed in accordance with applicable sections of the Tax Code. The Plan Sponsor has amended the Plan since receiving a copy of such IRS advisory letter, however, the Plan Sponsor (who also serves as the Plan Administrator) believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the Tax Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the entity has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement of the Plan. The Plan is subject to routine audits by taxing jurisdictions. The Plan's tax returns filed for plan years ended December 31, 2012, through 2015, are subject to possible tax audit; however, there are currently no audits for any tax periods in progress.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles (GAAP). Employee contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions.

Investment Valuation and Income Recognition

As permitted under U.S. Department of Labor Regulations Section 2520.103-8, the Plan Administrator has instructed the Plan auditor not to perform any audit procedures with respect to the Plan's investment information, which has been certified by the Trustee as the custodian of the Plan and which has been summarized in the supporting Schedule of Assets Held for Investment at the End of the Year. The Plan provides for a daily valuation method for the Plan's investments, and the Trustee processes all investment directives of the Plan participants.

Investments of the Plan assets are primarily in Mutual Funds which are stated at fair value as determined by quoted market prices obtained from the Trustee. Interest income is recorded as earned. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Participant loans are stated at face value, which approximates market value.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based in the lowest level of any input that is significant to the fair value measurement. Valuation techniques applied need to focus on the use of observable inputs and minimize the incorporation of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2016, and 2015.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/Collective Trust Funds: The values are derived from the underlying securities, and the fair value of the investments are divided by the number of shares to determine a NAV per share which is used to value a plan's investments in the common or collective trust fund.

Level 2 was used for reporting the fair value of the Plan's investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Trustee believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data also is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the plan year ended December 31, 2016, there were no significant transfers in or out of Level 2.

Benefit Payments

Benefit payments are recorded when paid.

3. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2016 and 2015, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee of the Plan.

4. Risk and Uncertainties

Investment securities are exposed to various risks, such as interest rate, and credit risks. Due to the level of risk associated with certain investment securities held by the Plan, it is reasonably possible

that changes in fair value may occur and that such changes could materially affect participant's account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

5. Related-Party Transactions

Certain of the Plan's investments are shares of Mutual Funds or Common or Collective Trust Funds that the Trustee or one of its affiliates manages. The Trustee also provides administrative and recordkeeping services for the Plan pursuant to a master Service Agreement/Fee Disclosure with the Plan Sponsor, and the Plan's Trust directly pays certain of the Trustee's fees for such services. These transactions qualify as exempt party-in-interest transactions under Section 408 of ERISA.

As employees of the Plan Sponsor, the Plan participants who issue a note receivable to the Plan in connection with participant loans also constitute parties-in-interest as defined under Section 3(14) of ERISA. Such Plan participant loans also qualify as exempt transactions under Section 408 of ERISA.

The Plan Sponsor is a party-in-interest with respect to the Plan, as defined under Section 3(14) of ERISA. As noted in the Schedule of Delinquent Participant Contributions, during the Plan Year ended December 31, 2016, the Plan Sponsor remitted certain Plan participants' elective deferrals, Roth deferrals, and participant loan repayments three (3) to eleven (11) days beyond the earliest date on which such contributions could reasonably be segregated from the Company's general assets, for certain payroll periods. The aggregate amount of such delinquent contributions was $24,276.04. The Plan Sponsor has remitted lost earnings (calculated using the U.S. Department of Labor's online model calculator) to the Plan and has corrected such delinquent contributions in full.

6. Subsequent Event

The Plan's management has evaluated events and transactions that occurred after the balance sheet date for potential recognition and disclosure through September 4, 2018, the date on which the Plan's financial statements were available to be issued, and has indicated that no material subsequent events affecting the financial statements of the Plan existed as of that date, except as otherwise described herein.
