Nelson Fastener Systems 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Nelson Fastener Systems 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of February 28, 2019 and December 31, 2018, and the related statement of changes in net assets available for benefits for the period January 1, 2019 to February 28, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Charles Schwab Bank, the custodian and former trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of February 28, 2019 and December 31, 2018, and for the period January 1, 2019 to February 28, 2019, that the information provided to the Plan administrator by the custodian and trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As further discussed in Notes 1 and 5 to the financial statements, the governing body of the Plan voted on October 26, 2018 to merge the Plan effective January 4, 2019. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Nelson Fastener Systems 401(k) Plan

Notes to Financial Statements February 28, 2019

Note 1 - Description of Plan

The following description of the Nelson Fastener Systems 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan established with an effective date of January 1, 2017. Employees of Nelson Stud Welding, Inc. and its related U.S. companies (the "Company") became eligible to participate upon completing six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Investment Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

Plan merger

On October 26, 2018, the Nelson Stud Welding Inc. Board of Directors resolved to merge all Plan assets with the Stanley Black & Decker Retirement Account Plan, as a result of the merger of the two companies (see Note 5). All participants with an account balance remaining in the Plan as of January 4, 2019 became fully vested in all contribution sources. All Plan assets were transferred to the new plan on January 4, 2019.

Contributions

Prior to the Plan merger, participants could contribute up to 100% of pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code ("IRC"). Participants could also designate contributions as Roth deferral contributions. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified (and certain nonqualified) defined benefit or defined contribution plans (rollover). Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balance fund until changed by the participant. The Plan offered various mutual funds and a money market fund as investment options for participants. The Plan held a personal choice retirement self-directed brokerage account, which was no longer offered as an investment option to participants. Participant contributions were recorded in the period during which the Company makes payroll deductions from the participant's earnings.

The Company made matching contributions in an amount equal to a discretionary uniform percentage of the amount of an employee's contribution not in excess of 4.5% to 8% of an employee's base pay depending on the location of the Company where the participant was employed; however, certain union employees did not receive a match. Company discretionary matching contributions were recorded weekly. Participants also directed the investment of Company contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts

Prior to the Plan merger, each participant's account was credited with the participant's contributions, the Company's matching contribution and Plan earnings. Participant accounts were charged with administrative expenses that was paid by the Plan. Charges were based on specific participant

Nelson Fastener Systems 401(k) Plan

Notes to Financial Statements February 28, 2019

transactions as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Prior to the Plan merger, Participants of the certain related employers hired before January 1, 2008 were vested immediately in all contributions, if any, made to their accounts plus actual earnings thereon. Effective January 1, 2008, due to a merger, certain participants who entered the Plan as a result of the merger became 100% vested ranging from immediately to after seven years of credited service, depending on the location of the Company where the participant was employed. All participants with an account balance remaining in the Plan as of January 4, 2019 became fully vested in all contribution sources. Participants should refer to the Plan document, and any amendments thereto, for a more complete description of the vesting provisions.

Notes receivable from participants

Prior to the Plan merger, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, and a participant could have had up to two loans outstanding at any time. The loans were secured by the balance in the participant's account. The loan interest rate was fixed and determined quarterly with approval by the Plan administrator and was commensurate with market rates for similar loans. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, retirement, or the attainment of age 59½, a participant would have received a lump-sum amount equal to the value of the vested portion of his or her account. A participant with a vested account balance greater than \$5,000 may elect to receive either a lump-sum distribution equal to the value of the vested portion of his or her account, a distribution in the form of an annuity, installment payments, or a combination of these payment options. Participants with a vested account balance of \$1,000 or less would have received a lump-sum distribution equal to the value of the vested portion of their account. Participants with a vested account balance of greater than \$1,000 but less than \$5,000 who do not elect a form of distribution would have their vested account balance rolled over to an individual retirement account administered by Charles Schwab Bank. Distributions are subject to the applicable provisions of the Plan document. The Plan also allows hardship withdrawals in specific cases, as defined in the Plan agreement.

Forfeited accounts

At February 28, 2019 and December 31, 2018, there were no forfeited non-vested account balances. Forfeited accounts could be used to reduce future employer contributions or pay Plan administrative expenses or be reallocated to Plan participants.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Nelson Fastener Systems 401(k) Plan

Notes to Financial Statements February 28, 2019

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of February 28, 2019 and December 31, 2018.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through November 25, 2019, the date the financial statements were available to be issued.

Note 3 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at February 28, 2019 and December 31, 2018, that are disclosed in the accompanying financial statements were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Charles Schwab Bank, the custodian and former trustee of the Plan.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Nelson Fastener Systems 401(k) Plan

Notes to Financial Statements February 28, 2019

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018.

Mutual funds and money market fund: Valued at the daily closing price as reported by the fund. Mutual funds and money market funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded.

Personal choice retirement self-directed brokerage accounts: Accounts primarily consists of commons stocks that are valued on the basis of readily determinable market prices.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018. No assets were held as of February 28, 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 30,469,396	\$ -	\$ -	\$ 30,469,396
Money market fund	3,397,136	-	-	3,397,136
Personal choice retirement self-directed brokerage accounts	7,883	-	-	7,883
Total assets at fair value	<u>\$ 33,874,415</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 33,874,415</u>

For the period January 1, 2019 to February 28, 2019, there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Nelson Fastener Systems 401(k) Plan

Notes to Financial Statements February 28, 2019

Note 5 - Plan merger

As discussed in Note 1, The Plan merged with Stanley Black and Decker Retirement Plan effective January 4, 2019 subject to the provisions of ERISA. The net assets of the Plan were allocated as prescribed by ERISA and its related regulations.

Note 6 - Tax status

The Plan used a volume submitter plan document designed by Document Agility Inc. The IRS had informed Document Agility Inc by an advisory letter dated April 22, 2016 that the Plan and related trust were designed in accordance with the applicable sections of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the advisory letter, the Plan administrator believed that the Plan was designed, and was being operated, in compliance with the applicable requirements of the IRC and, therefore, believed that the Plan and the related trust are tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds and a self-directed brokerage account managed by Charles Schwab Bank. Charles Schwab Bank is the custodian, and former trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor paid directly any other fees related to the Plan's operations.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances.
