Note A - Description of Plan

The following description of the Eyecare Associates, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the provisions of the Plan.

General

The Plan was a defined contribution plan established on January 1, 2002, covering substantially all full-time employees of EyeCare Associates, Inc. (the "Company") who had at least one year and 1,000 hours of service, and attained age twenty-one or older. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On June 30, 2015, the Board of Directors of Clarkson EyeCare, Inc. a controlling party of EyeCare Associates, approved the merger of this Plan into the EyeCare Partners 401(k) Plan. Effective December 31, 2016, the Plan was amended to be a "frozen" plan. As a frozen plan, no additional contributions or allocations were made to the Plan subsequent to December 31, 2016. Effective February 4, 2019, the assets of the Plan were transferred to the EyeCare Partners 401(k) Plan. See Note I for details regarding the Plan's transfer.

Contributions

Each year, prior to the Plan freeze date, participants could contribute a percentage of pretax annual compensation, as defined in the Plan document. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. In order to maintain "safe harbor" status, the Company made non-elective contributions equal to one hundred percent of the first three percent deferred by the participant plus fifty percent of the participant's deferrals between three and five percent of the participant's compensation. Additional amounts could be contributed at the option of the Company's board of directors. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocation of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Note A - Description of Plan (Continued)

Vesting

Participants were immediately vested in their contributions and the Company's safe harbor and qualified non-elective contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. A participant was 100 percent vested after six years of credited service.

Payment of Benefits

Upon retirement, death or disability, a participant (or beneficiary) could elect to receive the entire amount of their account in one lump sum payment. If employment was terminated for reasons other than retirement, death or disability, participants were entitled to all or part of their account, depending on their vesting percentage.

Investment Options

A participant could direct account balances and contributions in one percent increments into any of the pooled separate accounts and guaranteed interest account offered by Massachusetts Mutual Life Insurance Company ("Mass Mutual" or "Trustee"). Participants could change investment options daily.

Forfeited Accounts

If any portion of a participant's matching contribution account was forfeited during a plan year, it was used to reduce the employer matching fund contribution and allocated among the accounts of the participants who received a matching contribution for the plan year based on their compensation. The Plan held a balance of $94 in its forfeited nonvested account for the period ended February 4, 2019. The balance in this account was included in the asset transfer to EyeCare Partners 401(k) Plan effective February 4, 2019. No forfeitures were utilized during 2019 and 2018.

Administrative Expenses

Certain administrative expenses were paid directly by the Company. Administrative and trust expenses paid by the Plan were $250 and $6,378 for the period ended February 4, 2019 and the year ended December 31, 2018, respectively. Fees paid to national broker dealers for the maintenance and custody of the Plan's assets were paid from the assets of the Plan.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value, except for the fully benefit-responsive investment contract, which was reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note D for further discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

Certain Plan expenses were deducted from the participant accounts or from investment income. Any remaining Plan expenses were paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through December 3, 2019, the date the financial statements were available to be issued.

Note C - Investment Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a certification from the trustee that all of the information provided by the trustee and included in the accompanying financial statements is complete and accurate. Information as to the investments in the accounts of the trustee and all of the information in the accompanying financial statements is presented in reliance solely upon this certification.

Note D - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Note D - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at February 4, 2019 and December 31, 2018.

Pooled separate accounts - Valued at the net asset value ("NAV") of units of an insurance company's pooled separate accounts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled separate accounts are measured at fair value using the NAV per share (or its equivalent) as a practical expedient and have not been leveled in the fair value hierarchy.

Fair Value of Investments in Entities that Use NAV

At February 4, 2019, the Plan held no investments measured at fair value. The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2018:

Investment	12/31/18 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts:				
Stable value fund (a)	$ 2,850	$ -	Daily	Daily*
Intermediate term bond funds (b)	290,389	-	Daily	Daily*
Asset allocation/lifestyle funds (c)	3,405,953	-	Daily	Daily*
Large cap funds (d)	517,440	-	Daily	Daily*
Mid cap funds (e)	2,159,268	-	Daily	Daily*
Small cap funds (f)	498,740	-	Daily	Daily*
Intl/global large growth funds (g)	342,816	-	Daily	Daily*
Investments, at fair value	$ 7,217,456	$ -		

* Should the Plan elect to remove an investment option, there is a redemption notice period of up to 90 days.

Note D - Fair Value Measurements (Continued)

The following is a description of the investment strategies for the Plan's investments at December 31, 2018:

(a) Stable value fund: This fund seeks current income consistent with preservation of capital and liquidity.

(b) Intermediate term bond funds: These funds seek a superior total rate of return by investing in fixed income instruments.

(c) Asset allocation/lifestyle funds: These funds include investments that seek to provide a balance between current income and long-term capital growth by investing in fixed income and equity securities consistent with the stated allocation of the account.

(d) Large cap funds: These funds include investments that seek to provide long-term capital growth. Invest principally in common stocks of large capitalized U.S. Companies and abroad.

(e) Mid cap funds: These funds include investments that seek long-term capital appreciation by investing primarily in the common stocks of medium sized U.S. companies.

(f) Small cap funds: These funds include investments that seek long-term capital appreciation by investing primarily in the common stocks of small U.S. companies.

(g) International/global large growth funds: These funds include investments that seek to track the performance of a broad-based equity index of foreign countries, including emerging and developing markets.

Note E - Fully Benefit-Responsive Investment Contract

The guaranteed interest account was a fully benefit-responsive investment and was reported at contract value in the statements of net assets available for benefits. The statements of changes in net assets available for benefits were also prepared on the contract value basis. Benefit responsiveness is defined as the extent to which a contract's terms and the Plan permit or require participant-initiated withdrawals at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The fully benefit-responsive investment contract with Mass Mutual is a general account evergreen group annuity contract. Specific securities within the general account are not attributed to the investment contract with the Plan. The Plan owns a series of guarantees that are embedded in the insurance contract.

Note E - Fully Benefit-Responsive Investment Contract (Continued)

The contractual guarantees are backed up by the full faith and credit of Mass Mutual, the contract issuer. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Mass Mutual is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer and includes such factors as the investment-year method experience of the underlying contract or pool, projected levels of cash flows within the current interest rate environment, and the projected maturity of the underlying investments. Such interest rates are reviewed on a semiannual basis for resetting.

The Guaranteed Interest Account contract does not allow the insurance company to terminate the agreement prior to a breach of the contract terms by the investor. The Plan may terminate the contract on the contract anniversary date with 90 days prior notice.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Sponsor or other Sponsor event (e.g., divestures or spin-offs of a subsidiary) that causes a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note F - Income Tax Status

The Company has obtained an opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the Mass Mutual Trust Company prototype plan document was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC.

Note F - Income Tax Status (Continued)

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of February 4, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition with a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note G - Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to a variety of risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values on investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note H - Party-in-Interest Transactions

The Company provided certain accounting and administrative services to the Plan for which no fees were charged.

Certain Plan investments were managed by Mass Mutual, the trustee of the Plan's assets. Therefore, these transactions qualify as party-in-interest.

Note I - Plan Transfer

Effective February 4, 2019, the Plan was merged with the EyeCare Partners 401(k) Plan. As a result, participant account balances totaling $8,981,770 were transferred from the EyeCare Associates, Inc. 401(k) Plan to the EyeCare Partners 401(k) Plan.
