S2 SECURITY CORPORATION 401(K) PLAN

Notes to Financial Statements
December 31, 2018 and 2017

1. DESCRIPTION OF THE PLAN

The following description of the S2 Security Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution profit sharing plan with a cash deferral 401(k) arrangement covering all employees, except non-resident aliens and union employees of S2 Security Corporation (the Plan Sponsor) (the Company). Covered employees are eligible to participate in the Plan upon their date of hire and who are age 21 or older (Participants). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants direct the investment of all contributions into various investment options offered by the Plan.

b. Participant Contributions

Participants may elect to defer up to 100% of their pre-tax annual compensation, as defined by the Plan, subject to a dollar limit set by Federal law. Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (Participant Rollovers).

c. Company Contributions

The Company may make discretionary matching contributions, subject to certain limitations. Participants must be 21 years old, meet the 1,000 hours requirement, and employed on the last day of the Plan year in order to receive the discretionary matching contributions. There was no Company discretionary matching contribution for Plan year 2018.

The Company may also make discretionary profit sharing contributions, subject to limitations imposed by the Internal Revenue Code (IRC). Allocation of the profit sharing contribution is pro rata, based on each Participant's compensation to the compensation of all Participants, as defined by the Plan. There was no Company discretionary profit sharing contribution for Plan year 2018.

d. Participant Accounts

Each Participant's account is credited with the Participant's contribution and allocations of the Company's contributions, if any, plus earnings thereon, less administrative fees paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account.

S2 SECURITY CORPORATION 401(K) PLAN

Notes to Financial Statements
December 31, 2018 and 2017

1. DESCRIPTION OF THE PLAN (Continued)

e. Vesting Provisions

Participants are immediately fully vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in the Company's discretionary matching and profit sharing contributions after six years of credited service based upon a 20% graded schedule. Participants become fully vested upon death or disability. The following represents the vesting schedule of the Company's discretionary matching and profit sharing contributions:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2 Years	0%
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

f. Forfeitures

A participant who terminates employment forfeits any non-vested balance at the earlier of a distribution of the entire vested portion of the Participant's account or at the end of five consecutive one-year breaks in service. Forfeitures can be used to reduce any Company contributions or to pay Plan expenses. During the Plan year ended 2018, there were no forfeitures used. There were no forfeitures available for use at December 31, 2018 and 2017.

g. Payment of Benefits

The Plan provides for a normal retirement benefit to be paid to participants who have reached the normal retirement age of 59½. In-service withdrawals from all participants' vested accounts are permitted once a participant has reached age 59½. Participants are entitled to their vested account balance upon death, disability, retirement or termination of employment. The normal form of payment under the Plan is a lump-sum benefit. In addition, if a participant's vested account is less than \$5,000, and a distribution election has not been made by the Participant, the Plan Administrator will distribute the benefit in a direct rollover to an individual retirement plan designated by the Plan Administrator.

h. Hardship Withdrawals

The Plan allows for hardship withdrawals to meet a participant's immediate and heavy financial needs. Participants may take a hardship withdrawal from their vested accounts, as defined, after exhausting the maximum amount available to the Participants as a loan under the Plan. Participant deferrals are suspended for a period of six months after obtaining a hardship withdrawal.

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN (Continued)

i. Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range up to five years (up to ten years for the purchase of a primary residence). Loans are secured by the vested balance in the Participant's account and bear interest at a commercially reasonable rate. Principal and interest are paid ratably through payroll deductions.

j. Plan Administration and Administrative Expenses

The Plan Sponsor is the Plan Administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Plan prepares its financial statements in accordance with generally accepted accounting standards and principles established by the Financial Accounting Standards Board (FASB). References to generally accepted accounting principles (U.S. GAAP) in these notes are to the FASB Accounting Standards Codification (ASC).

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, as determined by the Plan Administrator. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Mutual and money market funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. See Note 4 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The change in the fair value of investments and realized gains (losses) are reflected in the accompanying statement of changes in net assets available for benefits as net depreciation in fair value of investments. The realized gain (loss) on investments is the difference between the proceeds received and the fair value of the investment sold at the beginning of the Plan year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events have been evaluated through November 25, 2019, which is the date the financial statements were available to be issued. The Plan merged into the United Technologies Corporation Employee Savings Plan (UTC Plan) in 2019 (see Note 9).

3. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following investment information included in the accompanying financial statements and supplemental schedule was certified by Capital Bank and Trust Company, the custodian of the Plan, as being complete and accurate and was not subjected to any auditing procedures performed by the independent certified public accountants:

- Total investments, at fair value and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Total investment loss and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- All investment-related information in the accompanying supplemental schedule, Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets Held at End of Year as of December 31, 2018.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. ASC 820, *Fair Value Measurements and Disclosures*, establishes a hierarchy of the valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (also referred to as observable inputs).

S2 SECURITY CORPORATION 401(K) PLAN

Notes to Financial Statements
December 31, 2018 and 2017

4. FAIR VALUE MEASUREMENT (Continued)

The fair value hierarchy is as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual and money market funds: Valued at the daily closing price as reported by the fund. Mutual and money market funds held by the Plan are open-end mutual and money market funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

S2 SECURITY CORPORATION 401(K) PLAN

Notes to Financial Statements
December 31, 2018 and 2017

4. FAIR VALUE MEASUREMENT (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			Total
	Level 1	Level 2	Level 3	
Total investments, at fair value	\$ 5,775,743	\$ -	\$ -	\$ 5,775,743

	2017			Total
	Level 1	Level 2	Level 3	
Total investments, at fair value	\$ 5,139,190	\$ -	\$ -	\$ 5,139,190

5. RISKS AND UNCERTAINTIES

The Plan provides for various investment options that invest in various combinations of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, transactions with investment funds managed and held by the custodian are considered party-in-interest transactions.

For the Plan year ended December 31, 2018, administrative fees of \$75 were paid to the custodian. Notes receivable from participants also qualify as party-in-interest transactions.

7. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts. Any unallocated assets of the Plan will be allocated to participant accounts and distributed in such a manner as the Company may determine. The Plan was merged with the UTC Plan in 2019 (see Note 9).

8. TAX STATUS

The Internal Revenue Service (IRS) has determined in its opinion letter dated March 31, 2014, that the prototype non-standardized plan document adopted by the Plan constitutes a qualified plan under Section 401(k) of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits currently in process.

Notes to Financial Statements
December 31, 2018 and 2017

9. SUBSEQUENT EVENT

On October 1, 2018, the Company was acquired by UTC Fire & Security Americas Corporation (UTC). In March 2019, the management of S2 Security Corporation approved to merge the assets of the Plan into the UTC Plan. Approximately \$6,220,000 of assets were merged into the UTC Plan through the date of the auditor's report.
