Effective May 21, 2019, the Plan merged into the OptumCare 401(k) Retirement Plan.

Contributions

Prior to the freeze, participants could contribute any percentage of their pre-tax annual compensation, as defined by the Plan and in accordance with the Internal Revenue Code (the “Code”). Elective contributions included pre-tax deferrals, Roth deferrals, and rollover contributions. Participants who had attained age 50 before the end of the plan year could make additional catch-up contributions, subject to limitations imposed by the Code.

Prior to the freeze, eligible employees were automatically enrolled in the Plan as soon as administratively feasible after their hire date at an employee pre-tax contribution deferral rate of 3% of their eligible pay, unless they opted out within a prescribed time limit or elected a different pre-tax and/or Roth contribution deferral rate. In general, the Plan provided an automatic employee pre-tax contribution rate increase each year until the participant’s pre-tax and/or Roth contribution deferral rate reached 10%. Participants were notified of the automatic rate increase in advance and had the opportunity to opt out of the automatic increase.

Effective January 1, 2017, the Plan was amended to include a safe harbor non-elective contribution. The Company made a safe harbor non-elective contribution equal to 100% of the first 3% of eligible compensation (or such higher percentage as could be elected by the Company). Employees age 21 and credited with one year of service were eligible to receive an allocation of the safe harbor non-elective contribution.

NOTE 1 - Description of the Plan (cont.)

Participant Accounts

Each participant's account was credited with the participant's contributions, rollover contributions, safe harbor non-elective contributions, if any, and Plan earnings (net of administrative expenses). Allocations were based on the participant's eligible compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments Classification

All investments were participant directed. The Plan was intended to comply with ERISA section 404(c). Participants had the right to individually select the percentage of their accounts to be invested among different classifications of investments made available to them through a registered investment company.

Vesting

Participants were immediately vested in their salary reduction, rollover contributions, safe harbor non-elective contributions, and earnings thereon. Prior to the implementation of safe harbor provisions, employer discretionary contributions and earnings thereon vested in accordance with provisions of the Plan as follows:

Years of Service	Vesting
Less than 2 years	0%
2 or more	100%

Notwithstanding the vesting schedule above, employer discretionary contributions, if any, became fully vested (100%) upon the occurrence of any of the following events while the participant was employed by the Company: death, attainment of normal retirement age (age 65), disability, partial plan termination with respect to the participant, complete termination of the Plan or complete discontinuance of employer contributions.

Participants became 100% vested in all contributions when the Plan was frozen.

Forfeited Accounts

As of May 21, 2019, and December 31, 2018 and 2017, forfeited nonvested accounts totaled $0, $44, and $36,191, respectively. These accounts could be used to reduce employer matching contributions or pay future plan expenses. During the year ended December 31, 2018, $39,910 were used from forfeiture accounts to reduce employer matching contributions. No forfeitures were used for the period from January 1, 2019 to May 21, 2019.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, age 59 ½, or termination of employment, as defined in the Plan document. The total vested portion of a participant’s account balance was distributed in the form of a lump-sum payment. Participants experiencing financial hardship could withdraw a portion of their account balance as defined in the Plan document.

There were no amounts owed to participants who had elected to withdraw from the Plan, but had not been paid as of May 21, 2019, and December 31, 2018 and 2017.

NOTE 1 - Description of the Plan (cont.)

Notes Receivable From Participants

Prior to May 21, 2019, participants could borrow from their account balance up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms ranged from 1 to 5 years or for a reasonable period in excess of 5 years when the loan proceeds were used for the purchase of a primary residence. These loans were secured by the balance in the participant's account. The loans bore interest at rates which were commensurate with local prevailing rates at the date of inception of the loan as determined quarterly by the Plan Administrator. Principal and interest were paid ratably through payroll deductions. Participants could have up to three outstanding loans at one time.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s Investment Committee determines the Plan’s valuation policies utilizing information provided by the investment advisors and the trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of May 21, 2019, and December 31, 2018 or 2017.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation in fair value of investments.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through December 16, 2019, the date the financial statements were approved and available to be issued.

NOTE 3 - Information Prepared and Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2019, 2018 and 2017. Accordingly, Charles Schwab Bank (the "Trustee") of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of May 21, 2019, and December 31, 2018 and 2017 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2018, and the related investment activity and interest income on notes receivable from participants reported in the Statements of Changes in Net Assets Available for Benefits for the period from January 1, 2019 to May 21, 2019, and for the year ended December 31, 2018.

NOTE 4 - Fair Value of Financial Instruments

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Unadjusted quoted prices for identical assets in active markets that the Plan can access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs for the asset.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Common/collective trusts: Valued at the net asset value ("NAV") of units of bank collective trusts. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less their liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay the withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: The self-directed brokerage account allows participants the opportunity to invest in a wide array of individual securities including stocks, corporate bonds, zero-coupon bonds, U.S. Treasury securities, mortgage securities and U.S. government agency bonds, certificates of deposit, unit investment trusts, foreign securities, exchange-traded funds, and mutual funds. The investments are primarily valued using the methodology described above for mutual funds, the closing price reported on active markets on which securities are traded, or using price models maximizing the use of observable inputs for similar securities.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy. The Plan held no investments as of May 21, 2019.

NOTE 4 - Fair Value of Financial Instruments (cont.)

Investments Measured Using the NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using NAV per share as a practical expedient as of December 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value [1]	Unfunded Commitment	Redemption Frequency [2]	Redemption Notice Period [3]
December 31, 2018				
Common collective trust [4]	$ 31,827,001	$ -	Immediate	Various

Investment	Fair Value [1]	Unfunded Commitment	Redemption Frequency [2]	Redemption Notice Period [3]
December 31, 2017				
Common collective trust [4]	$ 31,304,731	$ -	Immediate	Various

(1) The fair value of investments is based on the fair values of the underlying investments in the funds.

(2) Certain events may cause funds held in the common/collective trust and stable value collective trust to be deferred, including, but not limited to, the following:

i. Closing or disruption of the financial markets or exchanges in which a transaction is unable to be settled prudently.
ii. An emergency situation in which the disposition of assets would be seriously prejudicial to Plan participants.
iii. Breakdown in the means of communication normally employed to determine fair market value of an investment.
iv. Investments cannot be effected at normal rates of exchange.

None of these events occurred in 2018 or 2017.

(3) In the event of a complete withdrawal from certain common collective trusts, notice of the withdrawal must be received by the Trustee no later than 30 days prior to the withdrawal.

(4) Participants invested in certain funds are prohibited from directing investments into a competing fund without first investing in a non-competing fund for at least 90 days. Competing funds include self-directed brokerage accounts.

NOTE 5 - Administration of Plan Assets

The Plan's assets are administered under a contract with the Trustee of the Plan. The Trustee invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

NOTE 6 - Related Party and Party-in-interest Transactions

Certain of the Plan's investments are managed by the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation or depreciation in fair value of investments. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as exempt party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 - Tax Status

The Internal Revenue Service (IRS) had determined and informed the Company by letter dated February 28, 2017 that the Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2018 and 2017, the Plan had investments of $18,860,892 and $11,746,763, respectively, in one mutual fund and one common collective trust in 2018 and concentrated in one mutual fund in 2017.

NOTE 9 – Form 5500 Reconciliation
